☞ Call and see it.

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.
It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!
THE MODEL COOK
FOR WOOD OR COAL.
The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) as connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.
E. A. STEVENS,

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats is prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness, or any other perfection in cooking, it will be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses, John R. Holbrook, George Billbrook, Frank Jones, George L. Treadwell, Henry L. Richards, John H. Piper, John Warburton, Asel Quimby, Louis Green, Robert King, George B. French, John W. White, Phillip Woods, James Shaw, Mrs. Mary Jones, James Pender, J. B. Upham, G. O. Dodge, Kittredge Sheldon, Albert F. Merrill, John Teague, William R. Martin, William Cartlage, Mrs. John Lake, Michael Welch, D. F. Martin, James Bowlen, Samuel Hall, Tobias Ham, Ira Dixon, Thomas Hones, William Laws, Charles A. Epping.

Isaac Sloy.

South Berwick.

Capt. Ira Andrews.

Biddeford, Me.

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE,
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over those in use, but at much more money (the total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the highest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable. To which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Keazer, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

December 5th, 1862. ly

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.
1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.
6th. While in all ways it is better, yet in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, Surgeon Dentist,
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in working this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DENTISTRY.
No. 60 Congress Street,
Portsmouth, Jan. 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, that he has now the best facilities to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the country, and has now been using it for some time upon RUBBER, on the other bases of GOLD and SILVER as formerly, if preferred.
The Rubber has several important advantages, viz.: It is very light and durable, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too! I will warrant a perfect fit and to employ the best manufacturer in the country, S. S. White.
All other operations in Dentistry I will do at the usual rates. I will just mention that I charge for Extra Gold Foil 25 cents.
I take pleasure in referring the public to Dr. Treadwell, Dr. Boardman, Dr Olivier and Dr Dunkerly, for particulars relative to inserting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS FREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. THURSDAY MAY 21, 1863. NO. 79.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

A STEAMBOAT CHARGE.—The Portland Press copies the following extraordinary nautical maneuver recently executed before the Vicksburg batteries, from a private letter just received in Portland from Lake Providence, La.:

Our transports have been running the blockade at Vicksburg with but little damage. They strip off the pilot house, and leave nothing but the wheel and the man to steer as a target for the rebels. The other night a volunteer Colonel took charge of a transport, to run her by the batteries. Being, I suppose a little green at the wheel, just as she arrived in front of the works, by mistake he put his wheel the wrong way. The boat, true to her helm, sheered and ran straight for the hostile bluff. The rebels in their water batteries, seeing her come headforemost, thought she was charging upon them in good earnest, and feeling no indisposition to ward a hand to hand fight, abandoned their guns and got out of danger in double quick. The boat ran plump against the bluffs, swung round, backed off, and in a few minutes was past all danger, unharmed and colors flying.

On Friday, as we notice by the papers, it snowed all over the State, save on the seaboard where the salt spray made a drizzle of it. A Paris Hill farmer tells us it looked discouraging to see a couple of inches of snow on the ground where he had just planted his corn. But we reminded him of the promise of "seed time and harvest," and of the fact that the glorious promise has never failed. Perhaps some farmers may have crowded the season a little. If so, they must plant again. The Bangoreans tell of the snow, but they always growl. July will make them do it again, for it is a terrible warm place in summer, probably a sort of training to fit most of them "to the land of the hereafter."—*Portland Argus.*

Wheat, Rye, Corn.

WHEAT WHEAT
RYE, RYE,
CORN. CORN.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be, from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a speciality in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale,

91 Washington Street, Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

C. A. RICHARDS,
General Agent.
Boston, May 19, 1863. 6mos obd

Navy Tobacco.

We would invite the attention of dealers to the above Tobacco made by us. It is warranted to be of BETTER QUALITY than any in the market, and as good as the best from Virginia. Those disposed to encourage HOME MANUFACTURES, and all in want of Good TOBACCO in place of the very inferior quality with which the market is flooded, can obtain it in any quantity for trial.

☞ *Orders by mail or express promptly attended to*

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MAY 21, 1863.

THE REBELLION.

Gen. Grant officially reports the capture of Raymond and Jackson, Miss. The former was taken after a brisk fight of over two hours. Our loss was 51 killed and 180 wounded; the rebels' was 75 killed (buried by our troops) and 180 prisoners, besides the wounded. The capitol at Jackson was burned. A large rebel cavalry force are concentrated near Okalowa, threatening an advance in the direction of the Memphis R. R.

A Cincinnati despatch says Gen. Grant evacuated Jackson, Miss., after destroying the State House and rebel stores.

A Washington despatch states that the report of the evacuation of Vicksburg is fully confirmed by despatches received by the President from Gen. Grant.

The situation in Tennessee remains unchanged.

Admiral Porter officially reports that he on the 5th took possession of Fort de Russey, on the Red river, and on the 6th of Alexandria, La. Gen. Banks arrived on the 7th and Adm. Porter turned the city over to him.

The New York Times publishes a table, purporting to be "the official statement of the killed and wounded in the Chancellorsville battles, as follows:

Killed—Officers	154
Enlisted men	1,858
Wounded—Officers	334
Enlisted men	8,894
Total	11,030

The verified returns of the missing will not exceed 2500."

Our forces at Carrsville, Va., have been reinforced. It is stated that in the recent fight a drafted regiment from Pennsylvania broke and fled on the first fire of the rebels. On the night of the 15th the enemy was concentrating, and another heavy attack was expected, but our troops are ready for all emergencies.

Mosby's small guerilla band was whipped near "Cole's store" on Sunday, and retreated towards White Plains.

Gen. Foster is completing the fortifications at Newbern, N. C.

Blockade running is less active than it was. Between Mar. 11 and May 2, 11 steamers from Nassau have been capured or destroyed.

☞ At last accounts untrustworthy rumors were afloat in the camps at Murfreesboro' of important military changes, involving the transfer of Gen. Rosecrans to the Army of the Potomac; the assignment of Gen. Thomas to the command of the army under Gen. Grant, and Gen. McCook to the present army under Gen. Rosecrans.

☞ Some of our soldiers who have returned to Falmouth after a short captivity in the rebel army, say the rebels have an abundance of wagons and splendid horses, and the idea that they are in a starving condition is an absurdity; all have plenty to eat and drink, and do not exhibit the least symptoms of being without proper nourishment.

☞ A Murfreesboro' (Tenn.) correspondent of Cincinnati Gazette writes: "Seven thousand rebel soldiers in Arkansas some time ago threw down their arms and refused to fight, but were finally pacified by the arrival and personal exertions of Kirby Smith. One hundred and seventy thousand men in the rebel army are substitutes."

☞ The Washington correspondent of the Cincinnati Gazette, writing on the 12th, says that last Friday Gen. Halleck drew tents and other field equipage for himself and staff.

☞ The N. Y. Tribune's Washington dispatch states that Gen. Schofield has been assigned to the command of the Department of Missouri in place of Gen. Curtis, removed.

☞ Registered enemies who are ordered to leave New Orleans are permitted to take with them a sufficient quantity of food for ten days' subsistence, and a reasonable amount of clothing, and the beds and bedding necessary for their own use.

☞ A Winchester (Vt) cattle dealer, some three weeks ago, turned a drove of cattle out to graze, but the grass had not started as much as he supposed, and on visiting his herd last week, found eight of them dead, either starved or frozen to death.

☞ A newspaper editor in the interior of Wisconsin, who recently perpetrated matrimony, appended to the announcement the following: "Cards issued upon short notice at $5 a thousand."

☞ The latest scientific *on dit* is that James Watt will be proved to be the discoverer of photography. A letter in his writing is said to be the documentary evidence.

☞ It is stated that Savannah port has been closed by order of Beauregard for over two months.

☞ Frank Baker, of San Francisco, has bought the stallion Ethan Allen for $16,000.

MR. CRITTENDEN IN KENTUCKY.—The Hon. John J. Crittenden, having declared himself in favor of a vigorous prosecution of the war, and having pledged himself to vote for sufficient men and money to suppress the rebellion—to the last dollar and last man—has been unanimously renominated for Congress by the Loyal Convention of the VIIth Kentucky District. Col. John M. Harlan, an unconditional Union man, was elected President of the Convention. The Committee on Resolutions reported:

The Hon. John J. Crittenden having declared himself in favor of a vigorous prosecution of the war, and having pledged himself to vote for sufficient men and money to suppress the rebellion—to the last dollar and last man—we, therefore, unanimously present his name to the VIIth Congressional District as our choice for a seat in the next Congress.

Mr. Crittenden accepted the nomination in a short speech, pledging himself to carry out the spirit of that resolution. The Convention was large and enthusiastic for the Union.

☞ At Pittsfield, Illinois, recently, three young men, respectably connected, pleaded guilty of manslaughter, and were sentenced to the State Prison—two for life, and one for twenty years. The strange circumstances attending the crime show that the wife and two step-daughters of the murdered man prompted the deed—that the man himself partially assented to it, stating that he did not blame the men who were about to hang him, but his wife and daughters—that he bandaged his eyes with his own handkerchief—that the girls rejoiced when the deed was done, and gave the murderers $10 apiece, and asked for locks of their hair, while the old woman gave them a horse and started them for Missouri.

☞ The war and the immigration of "Yankees" to Washington have greatly increased the value of all kinds of property there. In a recent letter the Washington correspondent of the N. Y. Standard says: I overheard two natives, pro-slavery men, discussing the subject a day or two since.—Says one of them—"We may deride these Yankees as we will—they are making a first class city of Washington. They are putting money into my pockets every day. My real estate is worth nearly double what it was before these Northern men came here with their improvements!"

☞ A passenger from Canada, who reached Rochester on Friday, reports that a terrible riot has been in progress at Ottawa for several days past, and that the fighting was still going on at last accounts. One rumor was to the effect that the difficulty was between the Catholics and Orangemen, and the other was, that the true trouble first occurred between the citizens and the Railroad Company. All the engines and cars are said to have been driven from the place, and the railroad track is reported to have been torn up for some distance.

☞ The London Star publishes a statement from its New York correspondent, that the rebel Vice President has had a quarrel with Jeff Davis, is not on speaking terms with him, and is utterly hopeless of the success of the rebellion. We hope the statement is true, but fear it is bogus. Mr. Stephens made a speech not long since predicting success and urging the raising of grain instead of cotton to make the thing sure.

☞ Col. Thorpe, from Gen. Banks' department, states that Gen. Ulman's negro brigade is more than filled, and the new country just opened by Gen. Banks' campaign will furnish two or three divisions of negroes in response to Gen. Banks' call.—There is no doubt that the rebels are engaged in raising negro regiments. The negroes are not backward in adopting a uniform, which is their death warrant if taken by the rebels.

☞ To show the straits to which rebellion has reduced the "cotton lords" of the South, Gov. Brown, of Georgia, says,—"It now takes the whole salary of the Judge of the Superior Courts for twelve months to purchase fifteen barrels of flour, or fifteen hundred pounds of bacon in the markets of this State. The per diem of a Judge while on his circuit does not nearly defray his expenses.

☞ A Washington dispatch states that information has been received there that the steamer Gladiator sailed from Liverpool April 25th, for Nassau, but ultimately to run the blockade if possible. Her cargo consists of 1500 barrels of bread and 1045 barrels of bacon. The bacon and bread are for the rebel army, and the fact is regarded as an evidence of the great destitution of the rebels and of the strait to which they are reduced.

☞ The Jesuits, who were for so long a period in obscurity in France, unrecognized at the French court, and fearful in any way of making themselves publicly conspicuous in Paris, appear to have emerged from their retirement, and openly show signs of wealthy resources in the erection of new and magnificent buildings.

NEW HAMPSHIRE ITEMS.

—— A correspondent of the Mirror gives a report that there is a woman residing in Concord, with a property worth seventy thousand dollars, who buys milk by the gill, and whose father has a home in an almshouse.

—— The Concord folks have started the street watering machine.

—— The "Birth Place" of Daniel Webster, in Franklin, has passed out of the Webster name. It was owned by the widow of the late Col. Fletcher Webster, by whom it has recently been sold to Mr. L. D. Colby, of Franklin.

—— Mr. S. L. Fogg, a stable keeper in Manchester, has been victimized out of his favorite horse and a carriage, by a man who hired it to go to East Concord.

—— The American states that the people of Weare are considerably excited by the prevalence of hydrophobia among the dogs. It is said that at least thirty dogs have been bitten.

—— It is rumored that Gottschalk intends to pass a summer month in Concord with an invalid brother.

—— A Catalogue of the Manchester City Library, just issued, shows that it contains 9634 volumes.

—— The Mirror states that Lieut. Col. Bailey, of the 2d Regiment, has been promoted to Colonel; Maj. Carr to Lieut. Colonel, and Capt. Sayles to Major. Other promotions are soon to be made among the line officers. The boys are in good spirits and are willing to go back "where glistening bayonets gleam and bands brave music pour."

—— As was done last year, the publishers in Concord will unite in the publication of the Legislative Reporter during the coming session, to be furnished at 35 cents a single copy, or three copies for $1. Subscriptions may be sent to the office of the Statesman, Independent Democrat, or Patriot.

—— Prof. Agassiz has extended an invitation through B. G. Northrup, Esq., Principal of the Bridgewater Normal School, to the Teachers of New Hampshire, to visit Cambrige and the Museum of Comparative Zoology, and listen to a Lecture from the distinguished Professor, on Saturday, the 6th day of June. Arrangements are in progress which will ensure the acceptance of the offer by a large number of teachers.

THE DENOMINATIONS IN NEW HAMPSHIRE.—Careful statistics give numbers as follows:—

Presbyterians 7 churches, all supplied, with a total membership of 786.

Trinitarian Congregationalists have 185 churches and 186 ministers; membership 19,154, and 24,706 Sabbath school scholars.

Baptists have 86 churches, 78 ministers, and 8,156 communicants; 2000 less communicants than in 1844.

Freewill Baptists, 136 churches, and a membership of 9067, with 142 ordained ministers—a decrease for the last few years of several hundreds.

Methodists, 104 churches, 125 circuit and 100 local preachers, 10,761 members, and 11,904 Sabbath school scholars.

Episcopalians, 10 churches and 15 ministers.

Christians, 20 ministers, 25 churches, and 2,500 members.

Unitarian Congregationalists have 10 ministers and 11 churches.

Universalists, 21 societies and 19 preachers.

Adventists, 2 churches and 3 preachers; Swedenborgians, a single church at Hopkinton; and Catholics 8 churches and as many preachers, located in cities and manufacturing towns.

[The following is an extract from a letter received from Rev. I. F. Waterhouse of this city, dated Hospital 2nd and 5th Army Corps, Va., May 16, 1863:]

My health and spirits are good. I have been at work in this Hospital for two weeks. There are some 3000 or more sick and wounded men here, and you must know that five or six men (the number of men here under direction of the Christian Commission) find work enough in ministering to the temporal and spiritual wants of so many. I enjoy myself very much in the work, but cannot do enough to satisfy myself.

I attended yesterday the funeral of Sergeant A. A. Wells, Co. I, 5th N. H. He died soon after being brought into the Hospital. He was wounded at the battle of Chancellorsville, Sunday, May 3, and fell into the hands of the rebels, where his leg was amputated. He was there a week or more, and then was paroled and brought into our lines. I have been unable to learn anything concerning his family, or from what town he came.

The weather has been very warm since this month came in, but for a couple of days it has been delightfully cool.

I almost wish I could stay out here longer, but according to promise, suppose I must soon leave.

☞ As literature in the larder: Punch relates that the other day, an intelligent scullery-maid, while perusing "Lady Audley's Secret," lost her place. The desperate joker thinks she has been hardly used.

☞ Prominent in the front section of the Bangor Fusileers at the funeral of Gen. Berry, was Vice President Hamlin, as high private.

Also, constantly on hand, an assortment of Copeland's CAKES & CONFECTIONERY.

MEDITATIONS

DEATH AND ETERNITY,

TRANSLATED FROM THE GERMAN OF ZSCHOKKE.

The circumstances under which this volume has been produced are very peculiar and interesting. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the Queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her own immediate family. The volume is now reprinted in America, where so many afflicted hearts are in deep and overwhelming sorrow, and need consolation.

TWO FRIENDS.

BY THE AUTHOR OF "THE PATIENCE OF HOPE," AND "THEREST REMAINETH."

Miss DORA GREENWELL, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of our day.

For sale by JOSEPH H. FOSTER.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request their notice may be ordered in the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late Firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchaser of Dry Goods to replenish, as the stock is all first class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Bosoms, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Taper, Bobbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 CHARLES H. MENDUM.

School for Young Ladies.

MISS MILLER'S School is removed to the TEMPLE, where the Summer Term commenced on MONDAY, May 11, with accommodations for a few more scholars. Instruction given in the Latin and French languages, Music and Drawing, with the other branches of education usually pursued in such schools.

Private Tuition.

Young Ladies or Gentlemen wishing to pursue the study of Latin, in fitting for college or otherwise, can find an opportunity for such study under a private tutor, well qualified for this task, who has liberty to refer to REV. DR. PEABODY of Cambridge, O. CARLTON, Esq., of Salem, both of this city, and other gentlemen. Application may be made at MR. FOSTER'S Bookstore, or the Chronicle Office.

DR. JOHN C. MOTT,
Physician and Surgeon,

☞ 36 COURT STREET, corner of Hanover, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Secondary Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases. Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Accounts furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno Staw

THE CONFESSIONS AND EXPERIENCE OF AN INVALID.

Published for the benefit, and as a warning and a CAUTION TO YOUNG MEN who suffer from Nervous Debility, Premature Decay of Manhood, etc., supplying at the same time THE MEANS OF SELF CURE.

By one who has cured himself after being put to great expense and injury through medical humbug and quackery.

By enclosing a post paid addressed envelope, single copies may be had of the author.

Address NATHANIEL MAYNARD, Esq.,
dawly may20 Bedford Kings County, N. Y.

Local.

☞ At a special meeting of the Board of Aldermen, on Tuesday evening, a petition, signed by Lory Odell and sixty-six others, was received, asking that the proposed location of the new Hook & Ladder House might be changed. A. R. Hatch, Esq., appeared in behalf of the petitioners. The grounds on which they ask the change are—It will deprive the city of what should be kept as a verdant spot, to be enjoyed by our citizens, and used for occasional public purposes; the scholars will be deprived of much needed light and pure air, and the Court House will be rendered dark and unpleasant; it will tend greatly to depreciate public and private property in that vicinity. The Board ordered the petition to be referred to the Building Committee, with instructions to advertise for proposals for a lot on which to erect the building.

The ordinance for the better protection of shade trees, and the joint resolutions in relation to the collection of taxes, were passed.

The Committee on the Haven Medals reported a plan, which was accepted. The subject was referred to Ald. Adams, Nichols and Rider, with power to carry the plan into execution, and to recommend an appropriation, if necessary.

☞ Mr. J. Prescott Eldridge advertises another Dramatic Entertainment for this, Thursday, evening, at the Temple. His exhibition on Tuesday evening last was a most happy and decided success, and afforded those present a rare opportunity to witness the most accurate impersonations. He is a young man, possessing remarkable histrionic abilities, and we have seldom, if ever, seen his equal, in this city, or elsewhere. His talent should draw a full house this evening, for although there may be different opinions entertained in regard to the "gift" feature which he advertises, there can be none concerning the wonderful excellence of his impersonations. And as regards this practise of making presents,—an experience of four years has convinced him that it is advantageous to himself and attractive to the public. His exhibition alone, however, is sufficiently attractive.

☞ The fine little organ built by Messrs. Barton & Cobb, a few years ago, has been purchased by the Episcopal Society of Epping; and we saw it on Wednesday afternoon being packed for removal under the direction of Messrs. Lawrence, of Epping, and Cobb, of this city.

☞ We are pleased to learn that Mr. D. M. French, formerly of this city, has sold his excellent marble bust of Rev. Dr. A. P. Peabody to Harvard College.

☞ It will be seen that Mr. Joseph Whidden, 2d, has sold out his horse-shoeing business to Messrs. Leach & Lydston; and has bought out the livery stable of Mr. Woodbury Locke. Both parties are well acquainted with their business, and will attend to it carefully, and so undoubtedly give satisfaction.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, on Thursday next, May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

☞ Ship Express, Frost, from Callao March 5, for Antwerp, put into Valparaiso previous to April 17 in distress. A letter from the mate states that on the 3d of April, in lat 49 20 S, lon 88 30 W, encountered a hurricane, during which shipped a tremendous sea, which stove in cabin skylights, forward part of cabin, stripping off panels and breaking in bulkheads in forward cabin, nearly suffocating and otherwise injuring Mrs. Frost and Stewardess. At 8:30 P. M., the ship lying in the trough of the sea and rolling violently, shipped a sea abaft the starboard cathead, which filled the decks full of water, carried away deck house and wrenched ringbolts and sparlashings from the deck, letting spars adrift; after much difficulty secured the floating spars about deck, so that the man could stand at the pumps. 11 P. M. shipped another violent sea abaft main rigging, which completely filled the decks, straining ship badly; sounded pumps and found four feet water in the hold; examined the between decks, and found about 20 tons of water abaft the guano; all hands were set to work at pumping, bailing and throwing cargo overboard to lighten the vessel. At 4 A. M., morning of the 4th, the gale moderating, discovered the starboard main chain plates carried away, head and stern pumps gone under poop and forecastle decks. At noon bore up for Valparaiso in order to save cargo and ship.

☞ The sloop-of-war Ossipee has broken down again and is at Hampton-Roads. On the 16th she was got under way for Mobile, but when a few miles out one of the piston rod stuffing boxes broke. The repairs will take about ten days.

☞ An attempt to launch the gunboat Pontoosuc at Portland on Tuesday was ineffectual.

Mr. Wm. Grace:—I wish to state to you for the benefit of those similarly afflicted the great relief I have found from the use of your Salve. I have been troubled with one of those old virulent ulcers of the leg for three or four years, and tried various remedies without success. I procured from Dr. Wm. R. Preston, Portsmouth, two boxes of your Salve, and it has entirely cured the ulcer, and I know of two other cases that have been cured by the same, I am desirous to aid you in your good work of relieving the afflicted, and send this for your use. Respectfully yours,

ANTHONY C. CAMPBELL.
Portsmouth, Feb. 17th, 1863.

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealth compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

☞ See you fair maiden in another column, picking Sambucu Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

Notice.

In conformity to a vote of the Board of Mayor and Aldermen, the Committee will receive PROPOSALS, until Thursday Eve May 21, 1863, for a suitable LOT OF LAND on which to erect a Hook & Ladder and Engine House, &c. for the City.

JONATHAN DEARBORN,
JOHN H. BROUGHTON,
JOHN E. RIDER, Committee.

LODI MANUFACTURING CO.'S POUDRETTE.

J. F. SHORES, Jr., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be **$1.70 per Barrel,** without regard to quantity, delivered at any wharf or depot in the city. ☞ A discount from this price to those who buy to sell again.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipisogee, Nov. 10, 1862.

Agents Lodi Manufacturing Co., Boston.

GENTS.:—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves satisfied to use each an increased quantity this next Spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops. Our mode of applying the Poudrette is to put about a handful in each hill, and plant the seed in direct contact. I think I shall want double the quantity next Spring that I had this year.

Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro', N. H

Also for sale

Coe's Superphosate of Lime.

Orders received for Brecht's "FLOUR OF BONE," & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults where it accumulates in many houses of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.

From the success met with last season, the subscriber feels to himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ESSEX MILLS, POUDRETTE, Newburyport, Ma." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

IRRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.

I have received certificates of its value, a few of which are here inserted.

ALFRED, Me., Dec. 29, 1862.

MESSRS. NOYES & LITTLEFIELD:—

Gents,—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its utility. When I opened it I was fairly sick of it saying to myself it looks more like loam than any thing else, and is good for nothing; but how mistaken I was, for where I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.

Yours, truly, WILLIAM JEWETT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 29, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively, also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public as such.

No. 1 Market Square

Morning Chronicle.

ATTAINMENT.

Attain the sum
Of wisdom; hope no higher, though all the stars
Thou know'st by name, and all the ethereal powers,
All secrets of the deep, all Nature's works,
Or works of God in Heaven, air, earth or sea,
And all the riches of the world enjoyest,
And all the rule, one empire; only add
Deeds to thy knowledge answerable; add faith,
Add virtue, patience, temperance, add love,
By name to some called charity, the soul
Of all the rest.

—MILTON.

GOODNESS.

Do and suffer naught in vain;
Let no trifle trifling be;
If the salt of life is pain,
Let ever wrongs bring good to thee;
Good to others, few or many,
Good to all, or good to any.

—ELLIOT.

We get no good
By being ungenerous, even in a book,
And calculating profits—so much help
By so much reading. It is rather when
We glaringly forget ourselves, and plunge
Soul-forward, heading into a book's profound,
Impassioned for its beauty and salt of truth—
'Tis then we get the right good from a book.

INFLUENCE OF A TRUE WIFE.—A sensible, affectionate, refined, practical woman, who makes a man's nature all the stronger by making it more tender—who puts now heart into all his worthy strivings—gives dignity to his prosperity, and comfort to his adversity. Every true life wields a still greater power when it feels a living heart drawing it with irresistible force into every position of duty.

FERGUSON & CO'S
LIVERY STABLE,
REAR NO. 2 CONGRESS ST.
Having purchased the Livery Establishment recently owned and conducted by MR. F. H. BLAISDELL, and refitted it throughout, we are prepared to furnish teams of one horse, two horse, four horse carriages, as may be desired, and of the best, to customers who favor us with a call.
To those who have patronized us for the past few months, we tender our thanks, and trust by a strict attention in furnishing the riding public with
NEAT & FASHIONABLE TEAMS,
to merit the further patronage of all others who desire to be well served.
WM. P. FERGUSON, JOHN H. FERGUSON.
Portsmouth, May, 1863.

Hacking.
JOHN S. SIDES would inform his friends and the public that he has purchased the HACKING TEAMS recently owned by Mr. BLAISDELL, and having a large supply of good HACKS, can fill orders for any required number at all times, for FUNERALS, PARTIES, or other riding, to the satisfaction of customers. All business promptly attended to. Orders are left at the Livery Stable of Mr. JOHN H. FERGUSON.
Portsmouth, April 14th, 1863.

Hacking Notice—Removal.
WM. O. SIDES has just received his Hack Office from VAUGHAN STREET to No. 55 CONGRESS STREET,
Next door to I. W. Prescott's. He would invite the orders of his old patrons and the public, in his new and more convenient location.—Prompt attention to all orders, by day and evening.
WM. O. SIDES,
55 CONGRESS STREET.
Portsmouth, Oct. 15th, 1862. tf

AMERICAN STABLE,
8 1-2 Vaughan Street,

Charcoal,
in any quantity.
GERMAN BIRD CAGES.
A fresh invoice of new Styles just received and for sale at fair prices.

FOUND AT LAST!
A KEROSENE LAMP that will burn well and give good light without a chimney. It is simple in construction, and is adapted at low prices, for the purposes of a Kitchen and Chamber Lamp, and for Lanterns it is economical and invaluable. ☞ Call and see it.
BAILEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.
It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.
ANOTHER NEW STOVE!
THE MODEL COOK
FOR WOOD OR COAL.
The said—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire, so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long! and large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. A clock draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.
E. A. STEVENS,
No 46 MARKET ST.

Houses and Lands.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room by the chimney. Attached to this is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, so no dust can possibly escape into the room, and the shaking up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Hundreds in families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:
Portsmouth.

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE,
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the cool, thus saving at least 50 per cent. of the properties of the heat in the fuel.
To heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases or the coal as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For cases of magnificent economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

December 5th, 1862. ly

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.
1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, so when fitted it will be the work remaining the whole period.
6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.
Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DR. GOODALL,
DENTIST,
60 Congress St.
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, that he had of late many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.
The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insterstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Besides all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
All one who is waiting for their permanent teeth will, I am confident be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in block) for which you would pay $60.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturers in the country, $5.00 White.
ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.
I respectfully invite the public to Dr. Treadwell, Dr. Boardman, Dr Oliver and Dr. Bennett, for particular success in extracting teeth. Teeth extracted without pain with the perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the tissue. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Dehemattism, Chronic Complaints.
Excellent Wine for Invalids.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians, possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. FRIDAY MAY 22, 1863. NO. 80.

Advertising.
For a Square (1 inch) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $8, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly(Gazette)without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

WILL OF A WEALTHY CITIZEN OF ROXBURY.—The will of Mr. John Pickens, of Roxbury, former President of the Atlantic Bank, who died a few weeks since, was admitted to Probate on the 6th of this month. It contains several bequests for charitable purposes, as follows:

To the female Medical Education Society, $1000 is given; to the Massachusetts General Hospital, $1000 for free beds; and to the following societies $500 each viz: That for the Relief of Aged and Indigent Females, Female Orphan Society, Children's Friend Society, Howard Benevolent Society, Needlewoman's Friend Society, Mechanic Apprentices' Library, St. Vincent de Paul Catholic Female Orphan Asylum, Widow and Fatherless Society, Seamen's Aid Society, and Massachusetts Charitable Eye and Ear Infirmary.

To four ladies, $1000 each is left in trust, for distribution in charity to necessitous persons, and particularly to destitute widows with young children and no able relatives.

The other bequests amount to $154,000, divided among some 53 parties, personal friends and relatives, in sums ranging from $1000 to $15,000. The principal legatee with his wife and children receive together $50,000. To the widow of Hon. Horace Mann, a legacy of $1000 is bequeathed, and a similar sum to Mrs. Dr. Lyman Beecher. A considerable sum of money is given to Mrs. Dr. Osgood of New York.

The deceased was a bachelor, formerly well known in State street and a prominent man in the bank and insurance interest.—*Trav.*

Wheat, Rye, Corn.

WHEAT WHEAT
RYE, RYE,
CORN. CORN.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,
when made as it ought to be, from
WHEAT, RYE AND CORN,

is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a speciality in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale,

91 Washington Street, Boston,

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

C. A. RICHARDS,
General Agent.
Boston, May 19, 1863. 6mos eod

Navy Tobacco.

We would invite the attention of dealers to the above Tobacco **made by us.** It is warranted to be of SUPERIOR QUALITY than any in the market, and as good as the best from Virginia. Those disposed to encourage HOME MANUFACTURES, and all in want of GOOD TOBACCO in place of the very inferior quality with which the market is flooded, can obtain it in any quantity for trial.

Pensions, Bounty, and Arrears of Pay due to Soldiers in the Present War prosecuted

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MAY 22, 1863.

THE REBELLION.

A reconnoissance by a body of our troops from Helena toward Little Rock, Ark., destroyed 200,000 bushels of corn, several buildings containing stores, a number of grist mills, besides whipping two rebel brigades, with a loss of 2 killed and 4 wounded, the rebels losing 55 killed and a large number wounded.

A Federal force, by a raid from Corinth on Wednesday last into Alabama, took 400 prisoners and 600 horses. The rebels are reported to have evacuated Warrenton, Miss., after destroying the batteries.

Gen. Grant officially reports that he captured Jackson, Miss., on the 14th, after a fight of about 3 hours. Joe Johnston was in command. The enemy retreated north, evidently with the intention of joining the Vicksburg forces. The evacuation of Vicksburg is not confirmed.

☞ Jackson, reported captured by Gen. Grant, is the capital of Mississippi, is at the point where the railroad from Vicksburg eastward to Alabama crosses the great road leading from New Orleans to Memphis and other parts of Tennessee, and must command all the approaches to Vicksburg from the east. It was in the State-House at Jackson that Jeff. Davis made his first great speech after his return from his trip to this State in 1859, in which he developed, as he never had before, his treasonable proclivities, and avowed his readiness, under given circumstances, to raise a lone star flag, and under it to lead his State out of the Union.

☞ The manager of a Louisville theatre recently announced to his audience that the orchestra was about to play a national air, and that whoever chose to retire might do so before the music began. Whereupon some twelve or fifteen ladies thought it pretty to leave the building with much rustling and demonstration of disgust. When at the door they were all hospitably received by the provost guard, and, in spite of indignant protests, taken to the guard house for contempt of the flag. It is believed another announcement by the manager will be superfluous.

☞ A Democratic State Mass Meeting, to protest against the arrest of Vallandigham, &c., was held at Indianapolis, Ia., on Wednesday. The dispatch says a good deal of excitement prevailed, and forty or fifty arrests were made for carrying concealed weapons, shouting for Jeff. Davis, &c. A military guard was necessary to preserve order in the city. Persons on the trains leaving the city in the evening, commenced firing on the Soldiers' Home and the houses on the line of the railroad. The military authorities ordered the trains to be stopped, and the passengers were searched. About 500 revolvers were taken and numerous arrests made. A large Union meeting was held in the evening.

☞ Hon. John J. Crittenden closed an eloquent speech at Frankfort, Ky., the other day with the following patriotic sentiment:—

"I look forward to peace, to a successful termination of this war, which will secure a reliable peace, and as is now the prospect. Whether Hooker has re-crossed the Rappahannock or not; whether Richmond is taken or not; whether a defeat or victory—my determination is to stand by and maintain the government, and do all I can to promote a vigorous prosecution of the war."

☞ A letter dated off Mobile, May 7, states the British rebel steamer Eugenia was captured on the night previous by the gunboats Cuyler and Kanawha. It is reported that a rebel General was among her passengers from Havana. A Key West letter mentions that 40 captured craft are now in that port.

COLONIZATION.—The President and some of the members of the Cabinet who have favored the scheme of colonizing the liberated slaves, are understood to have changed their views, and are now favoring the idea of using them in the military and naval service, to aid in suppressing the rebellion in the South.

☞ The Crenshaw woolen mills, in Richmond, were burned on Friday. A portion of the Tredegar Iron Works was also destroyed.

☞ An exchange says an aged citizen of Pittsfield, Mass., who is in ill health, recently called, in his night clothes, upon a neighbor, and invited him to his funeral.

☞ Harper's New Monthly Magazine for June contains a good account of the Indian Massacres in 1862, illustrated with numerous engravings. For sale by J. F. Shores, jr., and J. H. Foster.

☞ The office of the Monitor, a Democratic newspaper in Huntington, Pa., was destroyed on Wednesday, and the material thrown into the street. Loss $1000.

☞ Gen. Meagher's resignation has been accepted, and he bade farewell to his regiment on Wednesday.

NEW HAMPSHIRE ITEMS.

—— Eight companies of the 3d regiment, under Col. Jackson, are on Botany Bay Island, 40 miles from Port Royal.—Cos. I and E are at Bay Point, opposite Hilton Head. The Third numbers 700 men fit for duty, and 800 in all. The regiment is in much better health than a year ago.

—— The annual meeting of the N. H. Bible Society will be held in the North Church (Dr. Bouton's) Concord, June 16th. Delegates from County Societies are expected to attend; and the friends of the cause throughout the State are bid welcome to this anniversary.

—— The Manchester American says "the promotion of Col. Bailey to the head of the 2d Regiment is very gratifying to his numerous friends in Manchester. He commenced his military services about two years ago as Lieutenant, and has been promoted regularly as vacancies occurred till now he is Colonel, and that too at 21 years of age." The American also gives the following promotions in N. H. regiments, in addition to those already published:

2nd Regiment—Jacob Hall, George H. Shute, Chas. Vickery, Oscar A. Moor, Silas Hayward, Edward Dascomb, to be 2nd Lieutenants.

Third—Leonard F. Place to be 1st Lt.; Frank L. Morrill and Wm. H. Trickey to be 2nd Lieuts.

Eighth—Thos. G. Prescott to be 2d Lt.; Michael O. Grady to be 1st Lieut.; Patrick Doherty to be 2d Lieut.

—— It is now thought that the 2d regiment will leave for Washington on Monday next.

Charles H. Bell, (elected),	3141

☞ The second attempt to launch the gunboat Pontoosook, at Portland, Wednesday, was successful. Indeed, so eager was she to plunge into her native element that she started before the time assigned for her to go, carrying with her most of the blocks and somewhat astonishing the men who were at work underneath her. She is a mate of the Agawam, launched some weeks since. We take the following account of the launch from the Portland Press:—

She was launched in good style and immediately towed around to Franklin wharf, to receive her machinery from the Portland Company, and her rigging. She is the counterpart of the Agawam, which was launched a few week ago. Both were built by Mr. G. W. Lawrence of Thomaston, for the U. S. government, and under the personal supervision of Mr. W. F. Laighton, of the U. S. Navy, of Portsmouth, and have been rated as No. 1 by Mr. S. M. Pooke, general naval inspector of the vessels built on the Atlantic coast. The armament of each will be put in when completed, at Portsmouth or Charlestown, to consist of 2 100-pounder rifled cannons, our 9-inch guns, 2 32-pounders and two howitzers; also four howitzers on each corner of the hurricane deck. They are to be schooner rigged, with standing rigging of wire and the rigging of the best Russia hemp. They are 974 tons burthen with their deck planks of white oak. The cabins, ward rooms and steerages are fitted up with excellent accommodations, and they are, as a whole, an honor to the enterprizing and faithful builder, and a valuable acquisition to the Navy.

GEORGIA.—In his recent message to the legislature of that State, Gov. Brown, of Georgia, says: "Attempt to conceal as we may, the fact is undeniable, that the great question in this revolution is now a question of bread. The army must be fed, and their families at home supported, or the sun of liberty will soon set in darkness and blood, and the voice of freedom will be forever hushed in despotism." By liberty, Gov. Brown evidently means the precious privilege of holding the working class as slaves to the aristocracy. To cut off this is the despotism he dreads. U. T.

☞ The first rebel congress went out of existence at Richmond at ten o'clock, on the night of the 1st inst. The most important measures passed during the session were a taxation act, a currency act, the impressment act, the formation of a new flag, and the adoption of a new seal. The joint resolutions offering terms of peace to the Northwestern loyal States were defeated in both houses.

☞ Mayor Anthony, of Leavenworth, Kansas, fined the editor of The Times $20 for criticizing Gen. Hooker's campaign.—The editor wouldn't pay, went to jail, was habeas corpused, and thus the case stands.

The following is a genuine transcript of an epitaph:—"Here lies the remains of Thomas Woodcock—the most amiable of husbands, the most excellent of men. N. B. the name is woodcock, but it would not come in rhyme."

[Communication.]

EARLY VEGETABLES.

One thousand dollars or more sent to Boston every spring for early vegetables; and May 20th, small lettuce heads 10 cents each; bunch of radishes the same; asparagus twelve cents; tomatoes 37 1-2 cents a quart box, and not plenty. Messrs. Editors,—does not the above indicate that our city is deficient in what might be its early productions. A few mornings since the writer took an early and wholesome walk over to North Portsmouth, and round by the Woodbury mansion, and noticed the improvements commenced and going on in that neighborhood. The southerly slope of the ground, and the warm, dry and arable soil suggested what a grand place it would be to raise early vegetables, and what a profitable and beautiful place the whole neighborhood might become. What "Paradise" is to Salem, Mass., this might be to Portsmouth. When Woodbury road is widened, straightened, and graded, (which work has been commenced)* and the lands tastefully laid out under proper restrictions, it can be made the most healthy and beautiful part of the city; and with a bridge over the north pond, what a delightful walk or retreat from the heated and dusty city, there to sit and view the beautiful sheet of water, on which "gondolas," rivaling those of the far-famed city of Venice, might float, giving health and enjoyment to their occupants. When we see how far and how high the skating fever has been raised in our extreme cold weather, and the coasting excitement in New Bedford, is it not easy to conceive how far the gondola enthusiasm might prevail, which we think would be much more delightful and healthy, as it would occur in the Summer months? With our beautiful shaded city on the south, and "Paradise" on the north, and the tasteful gondolas moving in all directions on the lake, with their pleasure-loving occupants tuning their merry voices for their own enjoyment, and chiming in with feathered and instrumental music, how beautiful might be the scene! It would seem that our own citizens might have their full enjoyment, and present an inviting prospect and inducement for others to join our somewhat stationary city.

But what a digression! When we sat down to write, we thought to suggest to some of our enterprising citizens, or those that would wish to be such, to start or establish on the location referred to, a place for raising early vegetables, and not have so many brought from other places.

The season in and around Boston is just one week earlier than in Portsmouth, and it seems a month or more before the vegetables here meet those brought from other places,—probably owing mostly to the facilities for raising them which they have, and which our people have not. For about twenty miles around Boston the ground (some of which used to be mere sand) has the appearance of a highly cultivated garden, owing to perseverance and the extensive use of night-soil; and this is where the great proportion of the early garden sauce comes from that we have,—the earliest being, perhaps, assisted by suitable buildings, which when once properly built, do not cost much to keep them in repair. It is strange and too bad that our city should neglect or be indifferent to the operations of a system, which takes over a thousand dollars every spring from it to enrich other places (now being overgrown) and it is only one way among a dozen or more that operate in the same manner, only some to a much greater extent. B.

*"And why may not the city make it profitable to sell house lots on Woodbury street, as well as any one else? It would seem so, if it is true, as has often been stated, that a part of the land might be sold, not only without detriment, but to make the farm more profitable.

ALMOST A FATAL ACCIDENT.—Hon. F. O. J. Smith came near meeting with a serious if not fatal accident, last evening.—His horse was standing before the door of the International House, when he suddenly became frightened and ran away, but fortunately no one was in the wagon, and the only damage or injury resulting was to the wagon and harness. Another wagon and harness was then procured, and Mr. Smith started for home, but on the way the horse again took fright and ran, and Mr. Smith being unable to stop him when he arrived at his house, jumped out, receiving but slight injury, leaving the horse to come back to the city, which he did in double quick time, and when he got back, the other carriage and harness were pretty well used up. It is gratifying to record that Mr. Smith escaped as fortunately as he did.—*Portland Advertiser.*

☞ Charles H. Grant, alias Gordon, who was recently detected in a number of burglaries in Brooklyn, has been sentenced to 20 years' imprisonment in the State Prison.

☞ A white man was killed by a free negro in New Albany on the 17th. The greatest excitement prevailed, and the military had to be called out.

☞ Surgeon Gen. Hammond has determined to abolish the use of Calomel and Tartar emetic in the army.

☞ Pleuro Pneumonia is again manifesting itself in Massachusetts, particularly in Waltham, Lincoln and adjacent towns.

THE ATLANTIC MONTHLY, for June, is issued, and while perhaps not so interesting a number as some which have preceded it, is, on the whole, interesting and valuable. The July number will commence the 12th volume, with a circulation throughout the country greater than any American magazine has ever before acquired. The high character which the magazine has ever maintained, has merited their popular appreciation.

☞ The call for a Union State Convention in Maine has been issued by the Republican State Committee. It is addressed to all "who are unconditionally loyal to the Government of the United States, and who unconditionally support all its measures for the suppression of the rebellion, and who are resolved to spare no endeavor to maintain our National Union, both in principle and territorial boundary."

☞ "We learn from an Eastern exchange that 10,000 cows are required to supply Boston with milk;" so says the Sunday Atlas, which also facetiously remarks: "The number of hydrants required to furnish New York with the same material does not seem to be mentioned."

☞ The following short and pithy order was issued by Gen. Banks, under date of April 29:

"Any person who shall be convicted before the Commanding Gen. of this Department of furnishing supplies to the enemies of the United States in arms, shall suffer the penalty of death."

MEDITATIONS

ON

DEATH AND ETERNITY,

TRANSLATED FROM THE GERMAN OF SCHOEKEN.

The circumstances under which this volume has been published are very peculiar and interesting. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the Queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her own immediate family. The volume is now reprinted in America, where so many afflicted hearts are in deep and overwhelming sorrow, for a consolation.

TWO FRIENDS.

BY THE AUTHOR OF "THE PATIENCE OF HOPE," AND "PRESENT HEAVEN."

MISS DORA GREENWELL, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of our day.

For sale by JOSEPH H. FOSTER.

For eight months, $1.

Single copies 3 cents, in all cases.

Portsmouth, Dec. 1, 1863.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party notified to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late Firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first-class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 CHARLES H. MENDUM.

School for Young Ladies.

MISS MILLER'S School is removed to the TEMPLE, where the Summer Term commenced on MONDAY, May 11, with accommodations for a few more scholars. Instruction given in the Latin and French languages, Music and Drawing, with the other branches of education usually pursued in such schools.

Private Tuition.

Young Ladies or Gentlemen wishing to pursue the study of Latin, in the Office or college or otherwise, can find an opportunity for such study under a private tutor, well qualified for this task, who has liberty to refer to REV. DR. PEABODY of Cambridge, O. CARLTON, Esq., of Salem, both late of this city, and other gentlemen. Application may be made at Mr. FOSTER'S Bookstore, or the Chronicle Office.

DR. JOHN C. MOTT,
Physician and Surgeon,

☞ 35 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8taw

Local.

☞ That Concert Wednesday evening by Mr. Davis and the choir of the Universalist Church at Concord, was a very agreeable entertainment; and the performances highly creditable to those concerned, all things considered. Mr. Davis was suffering from hoarseness, but his evident successful earnestness and devotion to his duties as teacher and leader, was gratifying to those who invited him to Portsmouth. Mr. Ingalls has a very fine tenor voice, and is a rare balladist. His Vive l'America was rapturously encored. Miss Morse has a very sweet and clear voice, and executes well—we may say surprisingly well for so young a lady, who has taken lessons but a single year. Miss Marcy has a rare contralto voice, and is a very pleasing singer. Mr. McFarland's bass was smooth and rich, rather than powerful. Mr. Davis proved himself an admirable teacher and conductor. Mr. Morey handled the piano skilfully and with good taste, and combines the rare qualities of a good soloist and a fine accompanist. The piano was indeed a splendid instrument and was much admired for power and fullness, no less than sweetness of tone. So bell-like is it quality that a musical gentleman on entering the hall, supposed he heard a flute also. The audience, though eminently respectable and appreciative, was not so large as the performances or "the cause of music" should have drawn out.

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, on Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

The Portsmouth Chronicle publishes a list of births in that city. It might lead outsiders to form a more favorable opinion of the morals of the people of that ancient town, if the births followed the marriages, instead of preceding them.—*Portland Press.*

Aren't people born before they are married, down East? We put the three great events of life in the order in which they generally occur up in this direction. We don't see how the Press editor can improve on that, unless he should be born again.

Communication.

OUR WHISTLERS.—This city is filled with a class of artists, more numerous than in any other city, whom for want of a better name we call whistlers. Their public performances are continued without cessation all day: we hear them everywhere from early morning till late at night.—Without any previous study of the art, or preparation of any kind, they commence their public performances when nine or ten years old, and continue them till they are eighteen or twenty, stunning our ears with shrill, harsh and horrid sounds, unlike anything in the air above, the earth beneath, or the waters under the earth. Public practice so far has produced no proficiency, or even improvement. As yet their performances have hardly reached the melody produced by filing a mill saw. A good whistler is worth hearing. He can whistle a tune and make music. So far our artists have never been able to do either. It is not, however, our purpose to produce discouragement. No doubt they have a natural gift for whistling, which, if properly improved by education, would place them in the highest rank of art. What we wish to do is to suggest that all those who are ambitious enough to perform in public should just procure an instructor, a master of the art, and take lessons; or if an instructor cannot be obtained, that they get together, teach each other, and practice in private, till they can whistle at least Old Hundred and Yankee Doodle, so that their auditors will be able to distinguish the one from the other. We admire good whistling.

G.

☞ We understand that C. C. Coffin, Esq., more widely known as "Carleton," the war correspondent of the Boston Journal, is to lecture in this city next Wednesday evening.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, on Thursday next, May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

☞ ATTENTION, THE WHOLE! ☜

EXETER, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I feel good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

LODI MANUFACTURING CO.'S POUDRETTE.

J. F. SHORES, Jr., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be $1.70 per Barrel, without regard to quantity, delivered ☞ any wharf or depot in this city. ☞ A discount from this price to those who buy to sell again.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipesaukee, Nov. 10, 1862.

Agents Lodi Manufacturing Co., Boston.

GENTS.—I have used the Poudrette made by your co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use each an increased quantity this next spring. Planting season come late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our potatoes. Our mode of applying the Poudrette is, to put about a handful in each hill, and place the seed to direct contact. I think I shall want double the quantity next Spring that I had this year.

Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro', N. H

Also for sale

Coe's Superphosate of Lime.

Orders received for Breed's "FLOUR OF BONE," & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in, many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.

From the success met with last season, the subscriber flatters himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ESSEX MILLS, POUDRETTE, Newburyport, Ms." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.

I have received certificates of its value, a few of which are here inserted.

ALFRED, ME., Dec. 29, 1862.

Messrs. NOYES & LITTLEFIELD:—

Gents.—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its utility. When I opened it I was fairly sick of it, saying to myself it looks more like loam than any thing else, and is good for nothing, but how mistaken I was, for where I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.

Yours, truly, WILLIAM O. FELT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 28, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively,—also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

Morning Chronicle.

A SLEEPY WISH.

BY ETHEL LYNN.

I wish I could sleep till war should be over,
And never wake up till I know
The statesmen so wayward had come to their senses,
And promised allegiance anew.

Till Abraham settles the worrisome seat,
And Davis—it don't matter how,
Whether Jefferson, lowly and humble, comes back,
Or is tied to the sour apple bough.)

Till cotton is growing and wool is put down,
Till dollars are dollars once more,
Till gold is at par, and the finance foot
May venture to step in a store.

Till bonnets come down in shape and in price,
And coffee don't bring to your mind
Agricultural thoughts, as you anxiously sip,
Trying thus the true flavor to find.

I am tired of battles and music and blood,
Of seeing poor, maimed, shattered men;
Of hearing how General Somebody went
To a fort, and then came back again.

Of seeing brass buttons on lagards at home,
Of Shoddy—who holds his head high,
As the head not far from the blood on the ground
Like Abel's, a dead brother's cry.

O! evil and sneer coming over the sea
At the wounded Republic, sore crushed!
For the scream of our eagle, the eagle, exultant no more,
By the cannons' loud thunder is hushed.

Now if one could sleep—and upon a spring day,
Like a dormouse, just venturing out,
Should find everything in a prosperous state,
Methinks there would go up a shout.

No more vacant chairs by the sad waiting beartbs;
No more "missing" links from the chain;
Nor graves where a kiss, and a tear may be a flower,
Shall mark where a hero was slain.

My prayers for the Union, my hand for her flag,
My hopes for her triumph at last;
But as I can't fight, I do wish I could sleep
Till the wearisome struggle is past.

—*N. Y. Ledger.*

ATTENTION, THE WHOLE!

RYE, N. H., Feb. 28, 1864. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it; much all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

FROM ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for over three months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow worse till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

AMUSEMENT FOR THE MILLION!

S. O. WHEELER'S GREAT INTERNATIONAL CIRCUS!

And Model Arena,

REPRESENTING THREE GREAT NATIONS.

America, England and France.

Consisting of

Educated Horses!

Beautiful and Accomplished

LADY EQUESTRIENNES

CLASSIC AND MODERN GYMNASTICS,

HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one of the "Domestic Institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and front of the fire; so arranged that it can be used separately by a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 2 feet long, or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

E. A. STEVENS,

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which secures to them the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room; also, in the extension top, is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, so that it can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT" VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this invaluable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire can be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

December 5th, 1862. 1y

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is properly made, it can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a tucker, so when finished it never can smell more than a piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DR. GOODALL,

DENTIST,

60 Congress St.

PORTSMOUTH.

Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,
Entrance on Court Ist, 1863.

DR. GOODALL,

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept sweet and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. Treadwell, Dr. Boardman, Dr. Oliver and Dr. Bennett, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. Wm. Grace, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. SATURDAY MAY 23, 1863. NO. 81.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

"SANDS OF LIFE."—Holbrook, of the United States Mail—who has an inimitable faculty of telling a good story in a capital manner, gives the following account of a "sell" perpetrated at the expense of the noted "retired physician" who has such a tender regard for suffering humanity:—

"The detection of Brophy, the Jersey City mail robber, is of course regarded as of no small public benefit by the citizens of that place, and perhaps by none more so than that long suffering individual, the celebrated 'retired physician, whose sands of life have nearly run out,' (or who, as another expressed it, 'has been afflicted with a loose tail board to his mortal sand cart.')—This superanuated disciple of Galen, it appears, has been for many years awaiting the final exhaustion of his stock of sand in the peaceful retirement of Jersey City, from whence he issues his well known advertisements, and where his letters are addressed; and as most of these were handled by Brophy, it is not surprising that the number which reached their destination recently began to grow 'small by degrees.'—Since Brophy's arrest, however, the heart of the aged and afflicted ex-practitioner has been gladdened by a very perceptible increase in his correspondence, while, as we learn, from that (or some other) cause, he would now hardly be supposed, from his appearance, to be over thirty-five years of age! This apparent juvenility may however be accounted for by the fact that some benevolent individual recently forwarded to him by express, a large (though *unpaid*) package, which, on being opened, was found to contain a half bushel bag of the article of which he was in such evident need—sand!"

THERE'S HEALTH FOR THE MILLION!
DR. CLARKE'S
SHERRY WINE BITTERS!
Palatable and Healthy.
Prepared from Rock Rose, Sarsaparilla, Dock Root, and a great variety of Roots & Herbs.
Preserved in the best Sherry Wine and Whiskey
Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face, and Humors of all kinds.
They are safe for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.
N. B.—If you wish a good Bitter, *Call for Clarke's, and take no other.*
Beware of all imitations, as they contain vile drugs and cheap poisonous liquors, which will destroy your health and life quicker than disease.
Our system is to keep up the quality and make the price in proportion.
Sold by druggists, grocers, hotel-keepers and dealers generally.
Manufactured by E. R. CLARKE, Sharon, Ms.
Price only 50 cents for the Trial Bottle, 75 cts. for one quart, $1.50 two quarts.
Sold in Portsmouth at wholesale and retail by N. F. MATHES, 88 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

Navy Tobacco.
We would invite the attention of dealers to the above Tobacco made by us. It is warranted to be of BETTER QUALITY than any in the market, and as good as the best from Virginia. Those disposed to encourage HOME MANUFACTURES, and all in want of GOOD TOBACCO in place of the very inferior quality with which the market is flooded, can obtain it in any quantity for trial.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, MAY 23, 1863.

THE REBELLION.

A dispatch from Joe Johnston, to the rebel war office, dated Brondsville, Miss., 18th, says Pemberton was attacked on the morning of the 16th, near Edwards' Depot, and after nine hours' hard fighting was compelled to fall back behind Big Black River.—The battle was fought at Baker's Creek, 20 miles west of Jackson. Pemberton estimates the rebel loss at 2000,—but says ours was three times as many.

In regard to Gen. Grant's movements the accounts are very much confused. One rebel dispatch says there was an indecisive battle near Edwards' Depot, on Saturday, 16th. The loss was heavy on both sides: the rebel Gen. Tilghman was killed. The rebels fell back across the Big Black river, destroying the bridge. The Federals said that their loss was 600, and that they took 16 guns; the rebels say they lost no artillery. The Federals advanced 8 miles north, and on the morning of the 18th found Joe Johnston in line of battle. Rebel papers report large reinforcements on the way to Johnston.

The Richmond Examiner says the opinion seems to be that a large force, 75,000 men, were landed at West Point simply by way of diversion, but that the greater part of them have since been re-shipped and sent to Hooker, who is known to be in sad need of them.

Another rebel raid in Pennsylvania and Maryland is deemed imminent.

It is said that New York has filled her quota under the last call.

Communication.

Parties, partisans, and party names, are mixed up in great confusion by the rebellion. For example, a paper now before us, heads the story of Mr. Vallandigham's arrest, with the words, "Abolition Despotism:" though it is very well known that Gen. Burnside, who made the move, is no abolitionist, but a member of the democratic party. In another part of the same paper it is said that 'several of the most prominent newspapers of the Administration party express disapprobation' of this step. This is true: and it is also true, that almost all the abolition or anti-slavery papers have taken this ground; while papers less opposed to slavery are either silent or approving. It is remarkable that Mr. V. himself, in his letter, says:—" in obedience to the demand of the disunion men of the South, as well as the demands of Northern Abolition disunionists and traitors, I am here in bonds." But the general voice of the abolition papers clearly shows his latter statement to be false, though we dare say he thinks it true. And the former assertion that he is in bonds at the demand of the rebels, is absurd and ridiculous. He is the victim of an adjudged military necessity, and the wisdom or folly of the arrest is yet to be proved—but the rebel papers are already expressing sympathy for him. U. T.

REBEL SYMPATHY FOR VALLANDIGHAM.—The Richmond Examiner speaks as follows of "the sodden imprisonment and probable sentence of death of Mr. Vallandigham," for his opposition to the Federal Government:—

If sympathy for an individual and an enemy were permitted, sorrow for the fate of Vallandigham would be felt by most men of heart in the South. Vallandigham, Pierce and one or two other citizens of the United States, have displayed the highest courage and the most honorable patriotism amid the wild wickedness of their country. They will hold in the history of their times a place not less respectable than that allotted to Chatham and Burke in the parallel story of the war between England and the Colonies.

A Cincinnati dispatch says that President Lincoln has changed Gen. Burnside's sentence of Clement L. Vallandigham from confinement in Fort Warren to transportation through the Federal lines. Vallandigham is to be sent to Louisville on the gunboat Exchange, and will be handed over to Gen. Rosecrans, who, under a flag of truce, will deliver him into the lines of Gen. Bragg.

A friend informs us that a worthy man, residing in a certain town in Maine, which it is unnecessary in this connection to mention, a short time since had the misfortune to lose his wife. Over her grave he caused a stone to be erected, on which, in the depth of his grief, he had ordered to be inscribed:—

"Tears cannot restore her: Therefore I weep."

A Valparaiso correspondent says that a Spanish war steamer, named the Cavadouga, has arrived there, bringing two men said to have been picked up from an island near Cape Horn, where they had been living, after shipwreck, twenty-three years.

Eight hundred rebel sympathizers in Washington have been placed on a list, and upon their first overt act they will be sent to the rebel lines.

Communication.

REVERDY JOHNSON'S PLEA.

Hon. Reverdy Johnson, of Maryland, has written a long and able letter on the Peace Convention of 1861, which is published in the National Intelligencer, and copied in some other papers.

Mr. Johnson considered the disunionists, North and South, to be "few in each section, but they were zealous, reckless, and fanatical, and needed only, to succeed, topics with which to delude and madden the mind of the honest masses around them.—These—(he says)—all good loyal men were solicitous to deprive them of, and hence they were most anxious to place *slavery*, the chief *cause* of mischief, beyond their reach."

How was this cause to be removed, and where was it to be carried? Mr. Johnson shall tell us. He wished and urged the adoption of "seven amendments to the Constitution, reported by a majority of the Committee of which Mr. Guthrie was chairman," but which the Peace Convention did not vote to accept.

One thing is very clear, viz. that neither Mr. Guthrie nor Mr. Johnson nor those who acted with them, went for the "Constitution as it is, but for very great and radical changes, introduced by *seven* amendments.

Mr. Johnson says:

"All the Southern and many of the Northern members of the Convention thought that *satisfactory guarantees* should be offered the *South*, and that to make the recommendation of the Convention effective, the proposition should receive *unanimous* support."

That is to say the Peace Convention should *unanimously* agree to put into the Constitution of the United States, seven strong guarantees that slavery should be upheld, protected and held sacred from intrusion,—though the fathers of the country, in 1787, were very careful to keep them out of it, and would not have the word slave or slavery in the document any where.

The Peace Convention, Congress, and the people were thus desired to do all that the Democratic party had just *refused to do* in favor of slavery, and a great deal more of the same sort. Mr. Johnson hoped the convention would do it; and several Southern men agreed. "Of those from New York, all concurred but a bare majority," i. e. a bare minority concurred, which was not exactly the unanimous vote desired.—But adds Mr. Johnson:—

"Had the New York delegates adopted a different course—had she spoken with one voice in support of the Guthrie report (so justly potential as that voice ever is), I believed then, and believe now, that the desired *unanimity* in support of the report could have been obtained, and that Congress would have acted upon it at its then session, or if not, that the South would have felt such an assurance of *security* in the recommendation of the convention, that no *immediate* attempt at rebellion would have been made."

This would have been great condescension: if the Peace Convention would *unanimously* eat all the dirt that the Charleston Democratic Convention would not swallow,—then the rebels, who had blown up the democratic party, would not blow up the country *immediately*,—but would wait in *security* for a more convenient season in which to accomplish their purpose! Surely we ought to be greatly obliged to them.

And now Mr. Johnson wishes us to come to such terms as Mr. Guthrie and his friends proposed; and says that they "and the thousands who united with them still have in their hearts, as *pure* as ever, *love* of the Union which their fathers constructed.—*Satisfy* them that, the war ended, that Union will be as it was *intended* to be, and was before treason and *fanaticism* involved us in the existing frightful struggle, and much, very much will be done to bring the struggle to an end, and to restore our former nationality."

Mr. Johnson is an able lawyer, and a politician of more than ordinary sagacity: yet being an old man, he deems it possible, as well as desirable, to put things back again into their old places, as they were before the rebellion broke out in the Charleston Convention,—or before Mr. Douglas stood up against the Lecompton swindle.

To *satisfy* the people referred to, we find in Mr. J.'s own words, that "slavery, the chief cause of mischief," must be "placed beyond the reach of" *fanatics*: that is, it must be put up so high in the constitution, be so thoroughly guaranteed, and be so nearly the supreme power in the land, that no mudsill can act or even speak against it.

The signs of the times to-day, do not look like it. We are in the midst of a great convulsion, a great revolution, in the course of which Constitutions and Laws, State Powers and Individual Privileges get roughly handled. How much of liberty we may be able to preserve, or to how much despotism we may submit, is yet unknown, because it is in the future. But the old aristocracy, which ruled the country by means of slavery, having committed suicide as well as treason, is past all hope from the doctors. U. T.

The Syracuse Courier states that Mrs. Vallandigham has become insane.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Allen—Usher—Shubael Dummer—Indian War—Queen Anne—Small Pox in 1692.—John Tufton Mason having died without issue, the title to the estate in New Hampshire descended and came to his brother, Robert Tufton Mason, who suffered a fine and recovery in the Court of King's Bench in England, for the purpose of docking the entail; and on the 27th of April, 1691, he sold his title to the lands in New Hampshire, to Samuel Allen of London, merchant, for seven hundred and fifty pounds.

Allen applied to the King to recognize his title, and at the same time solicited the appointment of Governor of the province. The inhabitants held another convention by deputies, and petitioned the King to be reannexed to Massachusetts; but the importunity and influence of Allen, prevented the union.

A party of Indians came from the Eastward in canoes to Sandy Beach, where they killed and captured twenty-one persons; Capt. Sherburne of this town, a worthy officer, was killed by them at Eastward.

On the 25th of January, 1692, the town of York was destroyed. Most of the houses were unguarded and were surrounded by the Indians, who fired a gun as a signal, upon which the inhabitants ran to their doors, and about fifty of them were killed on the spot, and nearly an hundred captured. The minister, Shubael Dummer, who was greatly esteemed, was shot dead as he was mounting his horse at his door, and his wife and family were made prisoners. They set fire to the houses, four fortified houses only holding out against them. A party of men were sent from this town to their assistance, but arrived too late to afford relief or rescue the captives.

Whether Mr. Moodey made any further overtures to the town is uncertain; but they relaxed from their determination to have no further connection with him. On the 18th of January they voted, "That whereas our reverend pastor, Mr. Joshua Moodey, was for a long time agon driven from us, and the troublesomeness of the times having hitherto hindered his return, the town doth now invite him to return and supply his place as formerly; and on that condition, the town doth engage to make good his salary in every respect as formerly, so long as said Mr. Moodey doth supply the place of the ministry here."

William III. King of England, died Feb. 23, 1692. He was succeeded by Queen Anne.

Notwithstanding the application of the inhabitants to be united with Massachusetts, New Hampshire was established as a separate government, and Allen obtained the appointment of Governor. His commission was dated the 1st of March, and his son-in-law, John Usher, was appointed Lieutenant Governor, with full power to execute the office in the Governor's absence; for which services Allen promised to pay him £250 per year. Usher was peculiarly disagreeable to the people, not only on account of his connection with Allen, but because he had been an active agent under Andross in carrying the arbitrary measures he had adopted into effect.

Usher arrived here and published his commission on the 13th day of August. He immediately undertook the administration of the government much against the wishes of the people. One of his first acts was to obtain possession of the papers relating to Mason's suits. He ordered Pickering to be brought before him, and demanded the record and files, which he had forcibly taken from Chamberlayne. Pickering refused to deliver them, or give information where they were, unless to the Assembly or to some person authorized by them to receive them; upon which the Lieutenant Governor ordered him to be imprisoned. After having been detained in prison some time he submitted, and delivered them to the Secretary by Usher's order.

The small pox made its appearance this year; it was communicated from cotton imported from the West Indies. But few persons were acquainted with the disorder, and as none knew the proper method of treating it, a great mortality ensued. Almost every person who was attacked by it fell a victim to the fatal disease.

At a General Assembly held at Portsmouth on the 2nd Tuesday of October, several of the representatives refused to take the oaths appointed by act of Parliament, instead of the oaths of allegiance and supremacy according to the custom of England, by swearing upon the Bible. The Council "ordered that the oaths be administered to such of the Assembly, as have so refused, by lifting up of their hands, considering the present troubles and circumstances of affairs." John Hinkes, Esq., one of the Council, entered his dissent from the above said order, in the manner of administering the oath, and being one of the commissioners appointed in the dedimus to administer the oaths, he refused to act. His name was erased from the commission, and that of Nathaniel Fryer was inserted in its stead.

Mr. Richard Martyn, Capt. Elias Stileman and Capt. John Pickering were the representatives from this town. The Assembly made choice of Richard Martyn for their speaker, and presented him to the Lt. Governor, who approved of the choice.

A deserter from the Maine Seventh, named Joseph T. Marshall, of Dresden, was arrested in Bath, on Monday evening, and conveyed to Augusta jail. The Times says he has been arrested several times for desertion. He is now in a tight place, and the treatment being meted out for such offences in other parts of the country, does not indicate a very pleasant sequel to the affair.

The Sultan of Turkey saw a railway for the first time in his life during his visit to Egypt. He was very much frightened at it, and from Alexandria to Cairo would not allow the engine to go at even ordinary speed, and was eight hours on the road.

The soldier, whose wife sent him nearly 200 corn poppers, has made a good thing out of it, having received double price for them in the army.

A very neat trotting wagon just made by Mr. C. P. Kimball, of Portland, and to be used at the Spring races in New York, weighs only 68 1-2 pounds.

The Chattanooga Rebel complains that money getters in the Confederacy besiege Yankee prisoners with offers of two for one for their "greenbacks."

A Government agent went out in a recent European steamer on business connected with the counterfeiting of U. S. notes in England.

MEDITATIONS

ON

DEATH AND ETERNITY,

TRANSLATED FROM THE GERMAN OF ZSCHOKKE.

The circumstances under which this volume has been produced are very peculiar and interesting. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her own immediate family. The volume is now offered to the American, where so many afflicted hearts are in deep and overwhelming sorrow, and need consolation.

TWO FRIENDS.

BY THE AUTHOR OF "THE PATIENCE OF HOPE," AND "THREE HEAVENS."

Miss DORA GREENWELL, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of our day.

Single copies 3 cents, in all cases.

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper thereto."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late Firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. tm24 CHARLES H. MENDUM.

Scrofulous Affections, Tumors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and a competent nurse.

Boston, April 8, 1863. 1yr spno 8taw

Local.

IN BOARD OF ALDERMEN, on Thursday evening, the committee to whom was referred the subject of the purchase of the Old South Meeting House, reported that, having obtained the opinion of the City Solicitor, they had purchased the building.

It was voted that the propositions for lots for the new Hook & Ladder House, and the whole subject of the erection of said building, be referred to the Building Committee, with power to act; but with directions not to incur expense for a lot of land for said purpose, without first consulting the Board. Adjourned to Tuesday evening next.

☞ 1st Lieut. George E. Sides, of this city, has been promoted to Captain of Co. K, 2d regiment. Sergt. Enoch G. Adams has been made a 2d Lieutenant. Among other promotions are—2d Lt. Charles H. Shute, Co. D, to be 1st Lt.; Sergt. Oscar A. Moor, Co. I, to be 1st. Lt.; Sergt. Maj. Frank C. Wesley to be 2d Lt.; Sergt. Silas Hayward, Co. A, to 2d Lt. An order from Col. Bailey, May 21, says—All passes granted prior to this date are hereby revoked. All members of the 2d N. H. V., of whatever grade, are ordered to report at Concord immediately.

☞ Rev. N. Day of Newton, N. H., will preach at the Christian Church, Court street, to-morrow.

☞ The U. S. frigate St. Lawrence, (flagship East Gulf Squadron) from Pensacola, arrived in the lower harbor on Friday morning. The following is a list of her officers:—

Com'r. James F. Schenck; (Fleet Surgeon, G. R. B. Horner); Paymaster, Washington Irving; Asst. Surgeon, Wm. K. Van Reypen; Acting Asst. Paymaster, Albert B. Poor; Acting Asst. Surgeon, A. Shirk; Acting Masters, Wm. H. Smith, John Fuller, Chas. DeBevoise and Geo. J. Murray; Acting Master's Mates, Edmund Pavys, E. S. D. Howland, John Boyle, Victor W. Jones and Theodore W. Jones; Boatswain, John A. Briscoe.

This is her tenth cruise, and at its close she is as sound as when she sailed from Boston, needing only such general repairs as vessels require when a long time in active service. She will now probably be made a guard-ship, as sailing frigates need too many men, and move too slowly to be of use in war time. The St. Lawrence is a 50-gun frigate, carries 500 men and a guard of marines.

FRIDAY, May 22, was the warmest day of the season,—the thermometer rising up to 90°.

NEW HAMPSHIRE ITEMS.

—— A correspondent of the Claremont Eagle states that the Committee, of which Judge Fowler is Chairman, appointed by the last Legislature, to consider and report upon the various propositions for giving inferior courts increased jurisdiction, met in Concord a few days since. There are said to be Constitutional difficulties in the way of the main feature of the bill introduced at the last session, but the Committee unanimously agreed upon a system which provides for inferior *County* Courts, with juries, having jurisdiction where the amount in controversy is not more than $75. An appeal may be taken, of course, but the one taking an appeal must pay his own and double costs to his opponent if defeated in the upper court. It is also to be recommended that where practicable the present Judge of Probate shall be the presiding Judge of these Courts.

—— The Ballot states that it is proposed to lay pipes from the gas works in Exeter to Newmarket, to illuminate the factories, stores and dwellings in that town. Although eight miles distant, it is said light can thus be furnished cheaper than by erecting new works. The pipes would also go through South Newmarket, and it is probable that no inconsiderable quantity of gas would be consumed in that village.

—— The Governor and the Council are at a dead-lock about an Attorney General. The Governor has nominated Austin F. Pike, of Franklin; Samuel M. Wheeler, Dover; Thomas M. Edwards, Keene, and William L. Foster, Concord, in the order in which they are here named, and the Council have failed to agree.

—— The Manchester American states that the Nashua Manufacturing Company has contracted to furnish government with one hundred and seventy-five thousand pairs of cotton-flannel army drawers. The corporation cuts out the drawers, provides thread, buttons, tape, &c., and pays the immense sum of eight cents per pair, two cents less than last year, for making them up.

—— Rev. J. M. Durgin, of Gilmanton, a private in the 12th Regiment, reported killed, is alive and on his way home. He was wounded and taken prisoner. Col. Potter has been exchanged.

—— The Manchester American, one of whose editors is a member of the Legislature, will each morning publish full reports of the previous day's proceedings.

—— Hall's brigade band, of Boston, 20 pieces, has been engaged for the celebration of the coming Fourth of July in Manchester.

☞ Rev. Mr. Medbery will preach at the City Farm, to-morrow afternoon, at five o'clock.

RYE BEACH.—We learn that the Atlantic House is already open for company, and of course mine host Philbrick is as ready and able as ever to entertain visitors satisfactorily.

THE NEWS.—The Manchester Union, stating that the N. Y. Daily News has been started again, says:

"It is published by Hon. Benj. Wood, and is "devoted to peace and constitutional liberty." It will be remembered that this paper was suppressed some two years ago for telling the truth."

The N. H. Patriot seems doubtful about "its probable influence upon the Democratic party," and says:—

"If it seeks to divide the party, to embarrass it by ultra and impracticable views and theories, no matter how violent it may be towards the administration, it will be tolerated and even encouraged; but honest fidelity to the party and judicious effort for its unity, will endanger the life of the News."

—— It is said that Gov. Berry will give a valedictory address upon his retirement from office, as did Gov. Goodwin.

—— A valuable horse became frightened in Manchester at an approaching engine, ran off among the tracks and, falling, broke his neck.

☞ Three rebel spies and one aiding citizen were captured a few days since near Stafford Court house, Va. They had passes and have been in and out of our lines during the whole winter.

BAYARD TAYLOR.—George H. Boker, Philadelphia, denies that Bayard Taylor was removed from the office of Secretary of Legation because he allowed his name to be used in the S'nate against the nomination of Mr. Clay as Minister to Russia. Mr. T. sent in his *resignation*, to take effect upon the date of Mr. Cameron's. Mr. Boker makes this statement from a perfect acquaintance with the facts of the case, and his character is a guaranty of its truth.—*Trans.*

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, on Thursday next, May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

MARRIAGES.

In this city, on Wednesday evening, at the residence of the bride's father, by Rev. Mr. Patterson, MR. ALFONZO MARSTON, of Lynn, Mass., to MISS CARRIE A. RAND, daughter of J. G. Rand, Esq., of this city.

DEATHS.

At Suffolk, Va., May 3d, killed in the engagement, MR. JOHN HARRISON FOYE, aged 29, son of Mr. Nathaniel G. Foye, of Rye, N. H. He was a member of Co. G, 13th Regt. N. H. V.

LODI MANUFACTURING CO.'S POUDRETTE.

J. F. SHORES, JR., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be **$1.70 per Barrel,** without regard to quantity, delivered at any wharf or depot in this city. ☞ A discount from this price to those who buy to sell again.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipesaukee, Nov. 10, 1862.

Agents Lodi Manufacturing Co., Boston.

GENTS:—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use such an increased quantity the next spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops; our mode of applying the Poudrette is, to put about a handful in each hill, and place the seed in contact therewith. I think I shall next Spring double the quantity next Spring that I had this year.

Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro', N. H.

Also for sale
Coe's Superphosate of Lime.
Orders received for Breed's "FLOUR OF BONE," & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to five of barnyard manure.

From the success met with last season, the subscriber flatters himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ESSEX MILLS, POUDRETTE, Newburyport, Mass." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.
I have received certificates of its value, a few of which are here inserted.

ALFRED, Me., Dec. 29, 1862.

Messrs. NOYES & LITTLEFIELD,
Gents,—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its fertility. When I opened it I was fairly sick of it saying to myself it looks more like loam than any thing else, and it good for nothing; but how mistaken I was, for where I used it I think I got from one-third to one-half more corn than where I used barn yard manure, and the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.

Yours, truly, WILLIAM JEWETT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 28, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some, but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively.—also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

Morning Chronicle.

GENTLEMANLY LADIES.—In a railroad car the seats were all full except one, which was occupied by a pleasant-looking Irishman—and at one of the stations a couple of evidently well-bred and intelligent young ladies came in to procure seats; seeing none vacant, they were about to go into the back car, when Patrick arose hastily and offered them his seat with evident pleasure. "But you will have no seat for yourself," responded one of the young ladies with a smile, hesitating with true politeness to accept it. "Never you mind that" said the gallant Hibernian, "ye're welcome to it. I'd ride upon the cow-catcher to New York any time for a smile from such jintlemanly ladies!" and he retired hastily into the next car, amid the cheers of his fellow-passengers.

People's Shoe Store.
4—Congress Block—4

Ayer's SARSAPARILLA,
THE WORLD'S GREAT REMEDY FOR
Scrofula And Scrofulous Diseases.

From Emery Eden, a well-known merchant of Oxford, Maine.
"I have sold large quantities of your SARSAPARILLA, but never yet the bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.
"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, of Boston, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.
"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Your SARSAPARILLA has cured her, and we believe SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Morse, Merrill & Co., manufacturers of enamelled papers in Nashua, N. H.
"I had for several years a very troublesome humor, which was given to breaking out on me until it disfigured my features and became a miserable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I commenced your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the old blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Houston St., New York.
"DR. AYER. I seldom fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to "be profession as well as to the people."

From J. E. Johnston, Esq., Waterman, Ohio.
"For nine years, I had the yellow blotches on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.
"I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tuskingum Democrat, Ohio.
"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal up from the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he now is healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Hiram Stout, of St. Louis, Missouri.
"I find your SARSAPARILLA to be an effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The physicians are indebted to you for some of the best medicines we have."

From A. J. Freith, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.
"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* types, and critical in some cases that were too obstinate to yield to other remedies. I do not know what we can call upon with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury or quicksilver, which grew worse more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Corruption*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of this SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.
"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:
"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,
when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS
possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.
Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

FERGUSON & CO'S
LIVERY STABLE,
REAR NO. 28 CONGRESS-ST.

☞ Call and see it.

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.
It is now one the "domestic institutions" N. family should be without it. Try one, if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!
THE MODEL COOK
FOR WOOD OR COAL.
The word—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire, so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly "feet long" or large enough to take six large plates on the bottom, every part of which will take evenly at the same time. A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet introduced, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With this stove, the upper part is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling out of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE,
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacturers and sole of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to carry off the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating apparatus have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason of the failure is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off in a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinker, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.
1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. When the mouth is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when disinfected the work presents no impurities.
6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

Dr. GOODALL,
DENTIST,
60 Congress St.,
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, having had of late many calls to insert teeth upon VULCANIZED RUBBER, that he will hereafter do so, as he THINKS THEM in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.
The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no crevices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set of Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.
ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.
☞ Please call and, examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.
This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.
Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.
And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find the Salve their best friend.
It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.
MANUFACTURED BY
WILLIAM GRACE,
Amesbury, Mass
PRICE 25 CENTS PER BOX.
Each box has the above cut and the fac-simile of the proprietor's signature attached to it, which is duly copy-righted.

OFFICE,
EXCHANGE BUILDING, OPP. POST-OFFICE,
Portsmouth, N. H.
DAILY $5 per year, or $4 in advance.
WEEKLY $1.50 per year, or $1.25 in adv.

Advertising.
For a Square (1 inch) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $5, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this City and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

Fashions for Summer.
Mme. Demorest's QUARTERLY MIRROR OF FASHIONS for the Summer contains besides the usual unequalled variety of plates, illustrations, descriptions, of, and information concerning the styles now fashionable, *two full size* new and valuable DRESS PATTERNS, and a large extra sheet of BRAIDWORK. Morning Chronicle.

Portsmouth, N. H.

MONDAY, MAY 25, 1863.

THE REBELLION.

A rumor comes up from the Army of the Potomac that the line is being changed to a point more convenient for the defence of Washington if necessary.

Port Hudson was bombarded on the 9th and 10th. The firing on the 10th was rapid on both sides. The Richmond with a full broadside silenced the enemy's guns.—None of our vessels were injured.

Our gunboats have been up the Red river and succeeded in breaking the rebel raft loose, and it floated away. A rebel battery still farther up the river was shelled two hours, but was not taken. Warrenton, Miss., is in our possession, and teams are constantly employed in hauling stores from that point.

There was a small engagement on the night of the 14th between a detachment of our forces and about 100 rebel soldiers on Morris Island, in which the latter were driven back across the creek. Our loss was one man slightly wounded. At the latest dates it seemed to be the general impression that the Monitors would attempt the reduction of the outer forts before again attacking Sumter.

Rebel deserters say Lee is inclined to cross the river and attack Hooker. The railroad to Richmond is reported to be in complete running order.

By Telegraph, Sunday, to Messrs. Hutchings, Haley, and others.

The following is announced by permission of the President:

MEMPHIS, 23d.—Official information from below to Wednesday says Gen. Grant has captured Haines' Bluff and the outer works of Vicksburg. A large number of prisoners and 57 pieces of artillery were also taken. The battle is still raging, with every prospect of capturing the entire force in Vicksburg. We hold Jackson, Black river bridge, and Haines' Bluff.

CAIRO, 23d.—The reports from Gen. Grant's army are highly important, and are believed to be reliable. It seems that after accomplishing all that could be desired at Jackson, Gen. Grant marched toward the Black river bridge, burning all the bridges behind him, doubtless with the intention of preventing an attack in his rear. At the Black river bridge a heavy battle was fought, and it is stated that we captured 27 guns and a large number of prisoners, and that the rebels were driven back towards Vicksburg. If the rebels do not escape up the Yazoo river most of their army must be captured.

WASHINGTON, 23d.—The following dispatch has just been received at the War Department from Memphis, 23d—I forward the following just received from Col. John A. Rawlins, Asst. Adj. Gen., dated the rear of Vicksburg, 20th. The army of the Tennessee landed at Brulingsburg, on the 30th ult., and on the 1st we fought the battle of Port Gibson and defeated the rebels under Gen. Bowen, whose loss is killed, wounded and prisoners was at least 1500, and in artillery 5 pieces. On the 12th, at the battle of Raymond, the rebels were defeated with a loss of 800. On the 14th, Gen. J. E. Johnston was defeated and Jackson captured, with a loss to the enemy of 400 killed, besides immense stores and 17 pieces of artillery. On the 16th, we fought the bloody and decisive battle of Baker's Creek, in which the entire force of Vicksburg, under Gen. Pemberton, was defeated, with the loss of 29 pieces of artillery and 4000 men. On the 17th, we defeated the same force at the Big Black river bridge, with the loss to the enemy of 2600 men, and 17 pieces of artillery. On the 18th we invested Vicksburg closely. To-day Gen. Steele carried the rifle-pits on the north side of the city.—The right of the army rests on the Mississippi above Vicksburg. There are 15,000 or 20,000 men in Vicksburg, and Pemberton has lost nearly all his field artillery.—I learn that the cannonading at Vicksburg closed about 8 o'clock P. M., on the 20th. Gen. Grant has undoubtedly captured nearly everything.

A New York dispatch says Gen. Butler is to be placed in a new department, comprising the free states west of the Alleghanies, to enforce the conscription act.

☞ Gen. Burnside says the arrest and trial of Vallandigham were upon his own responsibility. After the arrest President Lincoln telegraphed to Gen. Burnside that he would sustain him in his efforts to support the government.

☞ The latest fashionable innovation was seen at a dinner party of a great official, namely, the photograph of the giver of good cheer on the back of the bill of fare o the dinner, one of which was supplied to each guest.

☞ Mr. S. A. King, the celebrated aeronaut, will make two ascensions from Boston Common on the 4th of July. He gets high very often, as on that occasion he will make his 110th ascension.

☞ An investigation has been had into the origin of the taking of Richmond stories, which so convulsed the entire North, and it turns out that the whole thing was a pure invention, for which the Government and the telegraph were not in any wise responsible. The report originated in the brain of a Philadelphia broker, who went from Washington and palmed off his "information" upon the too susceptible Philadelphia Inquirer, which in turn bulletined it as coming from a Washington correspondent of that paper. The Philadelphia evening journals copied it, and added to it as coming from "private sources," the confirmatory street reports which were so specially gotten up on the publication. An attempt was made to telegraph the printed copy to New York, but the War Department prohibited it, and it was sent through on a late train to New York by a special messenger. Thence it was telegraphed by the Independent Telegraph Company to Boston, &c., an order prohibiting its transmission over the other lines having been issued. From Philadelphia it was sent west over a railroad line.

☞ The Portland Courier states that a young lady in a town but a few miles distant from Portland, some time since was troubled with a lameness in her ancle, which was attributed to over-exertion by dancing. The lameness increased and the ankle swelled badly, but in time the pain gradually went into the foot, where a sore appeared to be coming on the top. It was pronounced to be a bone sore, and the young lady's friends condoled with her at this great affliction, and of course she was soon badly frightened. At last she felt a pricking sensation in the bottom of her foot, and all thought it was a small splinter of bone, trying to work its way through the skin. The doctor with his instruments then removed the supposed piece of bone, when lo—it proved to be a *hog's bristle* which had occasioned all this trouble, and which it is said she must have drank in water several years ago.

☞ On Sunday morning, May 10, at Brooklyn, a large number of children were brought forward by their parents to be baptised in the Pilgrim Church, by Rev. Henry Ward Beecher. When all these had been baptized, the minister brought forward a little girl of five years, with a pleasant face, light hair, and complexion "fair as a lily." He said to the audience—"This child was a born slave, and is just redeemed:" and then baptized her by the name of Fanny Virginia Carsiopeia Lawrence. The child was brought from our army hospital, at Fairfax, Va.

☞ The 2d Maine Regiment is on its way to Bangor to be mustered out of the service, having served the term of its enlistment—two years; how well can easily be surmised by the fact that no movement of the Army of the Potomac, from the first Bull Run battle to the recent engagements near the Rappahannock, has taken place that they have not participated in. There have been nearly 2,000 men connected with this regiment since its organization, and it returns home now with about 200!

VESPER SERVICE.—The Press states that Rev. Mr. Stebbins' society in Portland (Unitarian) have agreed to hold a vesper service during the summer, at 7 1-2 o'clock P. M., in lieu of the usual afternoon service, thus avoiding the extreme heat of the middle of the day, which time is to be devoted to the Sunday School. A book for Vesper service has been adopted, consisting of readings of selections from the old and new testaments, anthems, chants and hymns by the choir, and some by the congregation, prayers silent and vocal, and a short address. There will be no sermon given.

QUACKERY.—We have already mentioned that Surgeon General Hammond has ordered mercury and tartar emetic to be struck from the list of military supplies.—He says that mercury has been used in such excess in the army as to produce mercurial gangrene, and that both these medicines have done more harm by misuse than they have good by proper administration. This indicates a vast amount of quackery among the surgeons;—and the change shows that medical practice can safely dispense with these powerful agents.

☞ It appears by later accounts, that the State Capitol at Jackson, Miss., was not burned, as reported. One dispatch says the furniture of the Capitol was badly abused, and the Governor's mansion demolished. It was reported in Mobile that some of the burning was done before the rebels retired. The Confederate House was burned by the proprietor.

☞ All the colored regiments in Gen. Banks' Department, except the Engineer corps, have been turned over by him to Gen. Ullman, who has the entire control of their equipment and organization. In addition to the present four regiments there are already 2500 recruits in camp. Gen. Ullman will immediately proceed to organize corps d'armee of infantry, artillery and cavalry, under white officers.

NEW HAMPSHIRE ITEMS.

—— A Nashua correspondent of the Manchester Union states that Gen. George Stark has recently purchased three valuable farms in Merrimac and another in Hollis, which he is improving to a great extent.—He is a gentleman of rare good taste, and exceedingly fond of agricultural pursuits.

—— Rev. Mr. Rowell, of Kittery, Me., is hereafter to supply the desk of the Christian Society at Wolfboro'.

—— The first number of the Democratic Sentinel will be issued at Concord, May 29th.

—— The wife of a N. H. soldier, reported killed in the battle at Fredericksburg, was suddenly stopped in her pursuit of a pension, by the appearance of her husband, alive and well.

—— Mr. Richard M. Ordway, mason, and Mr. Benjamin Kimball, Master Mechanic of the Concord R. R. Repair Shop, both of Concord, met with serious injury in Nashua on Wednesday. They were upon a staging beneath the concave roof of the Engine House, examining for contemplated repairs overhead, when the timbers of the ceiling gave way, together with the staging, and fell to the ground. It is thought they will recover, although severely injured by the falling timbers.

—— F. O. French, Esq., late Deputy Naval Officer at Boston, and son-in-law of Hon. Amos Tuck, the present Naval officer, has been appointed Deputy Collector at Boston.

—— Dover's streets are watered by a City Sprinkler.

—— The Strafford Guards, Dover, Capt. Z. S. Wallingford, will celebrate their 50th Anniversary, on Wednesday, May 27th.—The Company, after dress parade in front of the City Hall, will proceed to Horne's Hill, for target shooting. They will dine at the New Hampshire House.

☞ The miserable, brutal murderer of the Warden of the Maine State Prison pleaded guilty and was sentenced to death. By the laws of the State the execution cannot take place under a year, and then the Governor must issue an order. There seems little room for doubt that the Governor will in this case sign the warrant.

☞ The Deseret News of April 29, says that several tons of cotton grown in Deseret will be brought to the States by teams. Its high price renders exportation profitable.

☞ Two prisoners escaped from the jail in Chelsea, Vt., on Monday night. They burned the jail and a dwelling house near by, stole a horse and carriage, and left.—The horse was found in a piece of woods in Lebanon, but the jail birds are still at large.

☞ The narrow strip of land at the north corner of Bromfield and Washington streets, Boston, contains but 500 square ft., for which the owner receives an annual rent of $2000. This is $4 a year for each square foot of the land.

☞ Strange stories are told in Washington about a Brigadier General who has received a present of a white feather from the men of a brigade in whose rifle pits he sought refuge during a recent engagement, until a cessation in shelling enabled him to "skedaddle" to the rear.

☞ Dr. J. B. Upham of Boston, for a year past a volunteer in the hospitals at Newbern, has made the liberal donation of $600 in trust to Mrs. General Foster, to supply with wine and other luxuries the sick and dying soldiers of the Stanley Hospital, Newbern.

☞ A commemorative service was held at Trinity Church, N. Y. on Wednesday, in honor of William Bradford, the first printer of the Bible in this country, and whose name bears the same relation to the art of printing in this country as does that of Caxton to the art in Great Britain. Mr. B. printed the Bible under the auspices of Trinity Church, of which he was a member. Wednesday was the two hundredth anniversary of his birthday.

☞ Charles W. Bradley of New Haven went into a room with a lamp a few nights since, where gas was escaping, when an explosion followed which barbered him completely—hair and whiskers—in "the quickest time on record," besides smashing up things generally.

☞ The Bangor Times learns that ten columbiads of ten-inch caliber have arrived at Fort Knox, and will be immediately mounted and placed in readiness to prevent the approach of enemies. A good supply of ammunition has also been received.

☞ Obed Reynolds has been convicted at New Bedford of the murder of John Bullock. The evidence was entirely circumstantial.

☞ A chalk mine has been found in Washington County, Nebraska,—the first native deposit discovered in America.

☞ A dispatch from Pensacola from New Orleans, 15th inst., mentions a rumor that the Hartford was burnt by Farragut after being stripped.

☞ Capt. H. S. Stellwagen has been ordered to the command of the sloop-of-war Constellation, in the Mediterranean.

☞ At a recent trial in the Massachusetts Superior Court of a man charged with keeping a liquor nuisance, the defendant, who managed his own case, argued to the jury that he had paid for a license to the U. S. Collector of Internal Revenue, purporting to give him permission to sell ardent spirits, and that this should be a sufficient excuse for his violation of a State law. Judge Wilkinson charged the Jury, that as the United States law on the subject expressly provided that nothing in that law should be held to authorize any act in conflict with State laws as to the sale of intoxicating liquors, the defendant was liable for such sales, and the jury returned a verdict of guilty.

☞ It is said that one of the rich men in New York recently, on being required to give an account of his personal property for taxation, gave a note to his wife for five hundred thousand dollars, and then swore he was worth only fifty thousand dollars personal, and owing five hundred thousand dollars.

☞ A battery of eight guns is in course of construction at the Charlestown Navy Yard. It is intended to mount six guns of 10-inch and perhaps larger calibre, the other two being of less size. This battery forms a part of the scheme of defence for Boston harbor recently determined upon.

☞ Scientific men are discussing whether rockets may not be so improved as to restore them to use as engines of war.

☞ All the able-bodied contrabands in Washington are to be put to work on the abandoned farms in Fairfax county.

☞ Red, ripe, luscious strawberries have made their appearance in Chicago, from the strawberry beds of Southern Illinois.

☞ A woman was found dead on Thursday at her house in Portland—supposed to have died from excessive drinking.

☞ Dr. Webster reports that all our dead of the late battles have been buried.

☞ Richmond papers of the 20th are full of sympathy for Vallandigham.

☞ James Bishop & Co., of New York, it is said, are the largest dealers in rubber in the world

Lecture by "Carleton."

C. C. COFFIN, Esq.,
Known as "Carleton" of the Boston Journal, will deliver
A LECTURE,
AT THE TEMPLE.
On WEDNESDAY EVE'G, May 27th, at 1-4 before 8 o'clock,
in which he will give his own experiences as an eye-witness in the principal battles of the present war. Some of the most thrilling scenes and interesting incidents in the naval fight at Memphis, the battles at Antietam and Donelson, &c., will be related. He will endeavor to give an intelligible idea of the position of the armies, and also vivid pictures of the charges of our brave soldiers, together with many exciting and interesting facts connected with those fearful conflicts.

Tickets 15 cents—to be obtained of J. H. FOSTER, N. P. THACHER, and at the door.

MEDITATIONS
ON
DEATH AND ETERNITY,
TRANSLATED FROM THE GERMAN OF ZSCHOKKE.
The circumstances under which this volume has been produced are very peculiar and touching. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the Queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her very numerous family. The volume is now reprinted in America, where so many afflicted hearts are in deep and overwhelming sorrow, and need consolation.
TWO FRIENDS.
BY THE AUTHOR OF "THE PATRONS OF HOPE," AND "PRESENT HEAVEN."
MISS DORA GREENWELL, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of our day.

Administrator's Sale of
HOUSE & LAND ON GATES STREET.

By virtue of a license granted to me by the Hon. WM. W. STICKNEY, Judge of Probate for this County, I shall sell at Public Auction, on the premises, on SATURDAY, the Sixth Day of June next, at 12 o'clock at noon, all the right in equity of EBENEZER RUNNELLS, late of Portsmouth, deceased, to redeem the real estate in Gates Street in Portsmouth bounded by land of Benjamin Russell, Benj Bailey, Gates street, and Manning street, being the homestead occupied by said deceased in his lifetime and numbered 19 on Gates Street.

A statement of the incumbrance can be seen on application to the undersigned. The present mortgage can remain on the premises if desired by the buyer. Terms of the sale cash.

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may choose the paper therefor."

Will our subscribers remember this, and when they have occasion to advertise business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late Firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 CHARLES H. MENDUM.

School for Young Ladies.

MISS MILLER'S School is removed to the TEMPLE, where the Summer Term commenced on MONDAY, May 11, with accommodations for a few more scholars. Instruction given in the Latin and French languages, Music and Drawing, with the other branches of education usually pursued in such schools.

Private Tuition.

Young Ladies or Gentlemen wishing to pursue the study of Latin, in fitting for college or otherwise, can find an opportunity for such study under a private tutor, well qualified for this task, who has liberty to refer to REV. DR. PEABODY of Cambridge, O. CARLTON, ESQ., of Salem, both late of this city, and other gentlemen. Application may be made at MR. FOSTER'S Bookstore, or the Chronicle Office.

DR. JOHN C. MOTT, Physician and Surgeon,

80 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1862. 1yr spno 8aw

Local.

"CARLETON'S" LECTURE.—All who want to hear a description of some of the greatest battles of the war, should attend the lecture of "Carleton" at the Temple on Wednesday evening. See advertisement in another column.

POLICE COURT.—Ellen Gosnell, common drunkard, was sentenced to 3 months in the House of Correction, and to pay costs, $5.36.

John Murphy, for same offence, received the same sentence.

Fanny Cantlin, for an assault on Julia W. Weeks, was fined $1 and costs—$5.80.

Hannah Foley, for larceny, was fined $3 and costs—$4.86, and ordered to pay three times the amount stolen. She sold a glass of beer, and on being tendered a $2 Treasury note for payment handed back 25 cents, declaring that it was the right change, and refusing to give any more.

Louis Trefethen, for being drunk, was ordered to pay a fine of $3 and costs, $3.86.

Mrs. Cahill, for being drunk and disorderly, was fined $3 and costs, $4.80.

☞ The U. S. frigate St. Lawrence came up to the Navy Yard Saturday noon. She will be dismantled immediately, and it is rumored that she is to be rassed. Quite extensive alterations and repairs will, it is thought, be made, before she again goes to sea—when it is said she will be used for a magazine ship at Port Royal.

☞ Companies D, E, and K, of the 2d N. H. regiment, which have been stationed as garrisons in the forts in Portsmouth harbor since the return of the regiment; on Saturday proceeded to Concord, in order to rejoin the remaining companies preparatory to their return to Washington.

☞ We understand that it has been definitely settled that the new Hook & Ladder House shall be erected on the land east of the Court House, as was originally intended.

☞ Mr. Thomas L. Tullock, jr., of this city, is appointed Acting Assistant Paymaster, U. S. Navy, and in pursuance of orders, has gone to New York, to report for duty.

☞ In the Statesman's last list of sick and disabled soldiers at the hospitals in Washington, appears the name of Dwight Hanscom, of Portsmouth.

☞ The divorce of Mr. Brannan from his wife has been accomplished at Washington. She suddenly disappeared some years ago from Staten Island, and was supposed to have been murdered. Subsequently she was found in Italy with an officer, who has since been killed at Fair Oaks.

☞ The schooner Sunny South, at Bermuda, reported April 24th, lat. 27, lon. 71, passed wreck of a vessel bottom up. Previous day saw several chests of tea and picked up one, contents spoilt by salt water. It is surmised that the wreck was the remains of some homeward bound East Indiaman, destroyed by the Alabama.

MORE NEUTRALITY.—The Glasgow Herald states that three swift river steamers have been purchased at that port for the rebel government, and that other vessels are building at Scottish shipyards for the South.

☞ The next draft is to be for 300,000 men to fill up the old regiments and prepare them for effective action immediately. It is reaffirmed that the law exempting on payment of three hundred dollars will be evaded.

☞ The Hartford Post says Vallandigham, who was captured by a detachment of the red-legged rascals, was taken *Zouaviter in modo, fortiter in re.*

☞ A Valparaiso correspondent says that a Spanish war steamer, named the Cavadouga, has arrived there, bringing two men said to have been picked up from an island near Cape Horn, where they had been living, after shipwreck, twenty-three years.

☞ All places of public resort in New Orleans, except churches, have been ordered to display the national flag, and all places of amusement to commence and close their performances with a national air.

☞ Americans in Mexico are of the opinion that the French expedition has been a failure. Nearly 2000 of their soldiers have gone over to the Mexicans within two months.

☞ Frederick Douglass, the celebrated anti-slavery orator, in whose veins English and African blood are equally mixed, has two sons in the 54th Mass. Regiment, about to leave for the seat of war.

☞ A column of infantry will generally pass over about five miles in two hours, halts included. A column of cavalry, at a walk and trot alternately, makes about six miles per hour.

☞ The laboring classes, "the mudsills" of the State of New York, have at this moment over $80,000,000 to their credit in the savings banks—a larger sum than all rebeldom could raise.

☞ A petition is in circulation in Franklin County, Ohio, representing that "the most sacred rights of the citizen, as guaranteed by the Constitution, have been violated in the arrest of Vallandigham," and demanding of the President his immediate and unconditional release.

☞ The Washington correspondent of the N. Y. Tribune says that Gen. Banks in a private letter expresses the expectation that Louisiana will soon be ready to enter the Union again, this time as a free State.

☞ William Robe, who has been collecting evidence against the Knights of the Golden Circle, was shot dead while at work in a field, by a Copperhead named Bailey, in Indiana on the 21st.

☞ Adm. Foote has thrown away his crutches, and asked for a command afloat. He is now at the head of the Bureau of equipment and recruiting for the Navy, at Washington.

☞ Thirty-eight thousand immigrants had arrived at New York, last week, since January 1st, against fourteen thousand in the same time last year.

☞ Prof. Egbert C. Smyth, of Bowdoin College, has accepted the offer of the chair of Ecclesiastical History, in the Andover (Mass.) Theological Seminary.

☞ Bermuda advices of the 5th inst. give a rumor that Semmes has resigned the command of the Alabama to his first officer, and taken command of a "fine Confederate ship mounting 22 guns."

☞ There is a poor fellow on the Pont des Arts, Paris, who, with no instrument but an accordeon, has in a few years amassed money enough from his admirers to buy two large houses in Paris.

A CALL.—We learn that a certain Louisville editor received a polite but pressing invitation to call on General Burnside the other day. He went.—*Nashville Union.*

☞ Wm. D. Blake, of Camden, Me. who murdered Freeman Patterson, received his sentence on Monday to be hung.—He pleaded guilty.

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, on Thursday next, May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

MARRIAGES.

In Cambridge, Mass., May 21st, by Rev. A. P. Peabody, D. D., assisted by Rev. W. Newell, D. D., CHARLES A. CUTTER to SARAH FAYERWEATHER APPLETON, daughter of the late Charles J. Appleton of this city.

LODI MANUFACTURING CO.'S POUDRETTE.
J. F. SHORES, Jr., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be $1.75 per Barrel, without regard to quantity, delivered at any wharf or depot in this city. ☞ A discount from this price to those who buy to sell again.
Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.
WOLFBORO, N. H., Lake Winnipiseogee, Nov. 10, 1864.
Agents Lodi Manufacturing Co., Boston.
GENTS.:—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use each an increased quantity this next Spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops. Our mode of applying the Poudrette is to put about a handful in each hill, and place the seed in direct contact. I think I shall want double the quantity next Spring that I had this year.
Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro, N. H.
Also for sale
Coe's Superphosphate of Lime.
Orders received for Breed's 'FLOUR OF BONE,' & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.
An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.
It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.
It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.
From the success met with last season, the subscriber flatters himself that he can manufacture an article superior to any in the market.
I shall use as my trade mark the brand, "ES SEX MILLS, POUDRETTE, Newburyport, Ms." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.
HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.
I have received certificates of its value, a few of which are here inserted.
ALFRED, Me., Dec. 29, 1862.
Messrs. NOYES & LITTLEFIELD:—
Gents,—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its utility. When I opened it I was fairly sick of it, having to myself it looks more like loam than any thing else, and is good for nothing; but how mistaken I was, for when I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.
Yours, truly, WILLIAM H. WEIT.
Extract of a letter of P. B. Falls.
SALMON FALLS, N. H., Sept. 28, 1862.
I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some, but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively;—also my neighbors will want considerable about here.
PORTSMOUTH, N. H., January, 1863.
This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

From the Journal

THE PORTS IN OUR HARBOR.

We take much pleasure in informing our readers that the progress on Forts McClary and Constitution (under Capt. Paine, the U. S. Engineer in charge) is very satisfactory, more so than was expected. The iron for the railways has already arrived, and the cars for moving the stone are built. This last, by the way, is by Portsmouth hands, as also much other work in wood and iron, the wood work of the Cranes and Derricks. The wire ropes, cables, to sustain the Derrick masts, are of the best kind, and have just arrived from Trenton, N J.

The new wharving at both Forts is now finished and the first cargo of stone is to arrive this week. And though last, not the least essential, the money to pay for the thorough execution of these long delayed additions to our defences is freely forthcoming, now that the credit of the government is once more in the ascendancy. In short, if no unfortunate obstructions should embarrass, we confidently rely upon great progress this summer in the construction of both Forts. Although this preparatory work is expensive, yet it will ensure great despatch in execution, which is felt to be an important object for the whole seaboard, considering the possibility of foreign war.

Our present defences, especially with the new guns, are respectable, but we wish to see them still more formidable.

UNION OF NEWCASTLE TO PORTSMOUTH.—That town was originally a part of Portsmouth. It was separated from Portsmouth in 1698, and after trying the experiment of living "out of the union" 170 years, now asks to be taken back. They look to the Bridge being made free, to an increase of the value of real estate, a decrease of taxation, a relief in pauper support, and to having better schools. Whether they can obtain all these advantages without an increase of the expenses of Portsmouth, will have to be considered. We may derive advantages which will more than compensate for the expense.

It is stated that the original cost of the Newcastle Bridge was $10,000. This is a mistake—we have in our hands the statement of the builder made at the time, that the cost was about $7000.

SEASON OF BLOOM.—This is it. We are in the midst of the beauty of the first green leaves, and the rare shades of the blossoms—all beautiful, all heart-cheering. A gentleman just returned from the ever green fields and shrubbery of Brazil, remarks to us, that he had rather live where the leaves sometimes die and the trees become bare—there is something so beautiful in witnessing a renewal of the foliage. Perpetual summer is too monotonous. The chills of the North give a beauty to the changing seasons which the tropical regions know not.

Notwithstanding the immense product of the apple-last year, the apple trees promise a clearer supply this year. Pear trees also promise well.—The cherry and the plum look more promising than for several years past.

It was very cold for the season, on Saturday morning, the mercury sinking to 37 deg. and white frost appearing in this neighborhood. It was not cold enough to injure the fruit prospect, but a few degrees lower would have destroyed the crop for this year.

LECTURE BY "CARLETON."—Our citizens will be pleased to learn that C. C. Coffin, (Carleton) the popular war correspondent of the Boston Journal, has accepted an invitation to address the people of Portsmouth on the scenes in the present war which he has witnessed.

Of his lecture in Boston, the Post says, "The Hall (Tremont Temple) was full in every part, and not a few remained standing during the evening. The description of the various battles was varied and interesting." In Portland on Saturday evening the City Hall was "completely filled." The Press says the description of the gunboat battle before Memphis, was "exceedingly thrilling, and interrupted by repeated bursts of applause."

INSTALLATION.—REV. GEORGE M. ADAMS, late of Conway, Mass. will be installed as Pastor of the North Church, in this city, on Wednesday, June 3d. Sermon by Prof. Park, of Andover, Mass. The services in the church will be at 2½ in the afternoon.

Admiral Geo. W. Storer of this city, has again left for Brooklyn Navy Yard, on duty as President of a Court of Inquiry.

Health Regulations.

THE BOARD OF HEALTH of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of health in the City to aid them in the execution of their duty.

SEC. 2.—All waste water of houses yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

SEC. 4. No person shall be allowed to throw any vegetable or dead animal substance, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

SEC. 5. The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies shall be required to cause them to be emptied within ten days from the promulgation of this ordinance, and in future or on before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

SEC. 11. The health officers may give written notice to the owner or occupier of any building, yard or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, yard, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

SEC. 14. The owner or occupier of any building, yard or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

SEC. 16. And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

ADAMS PERRY,
THOM AS CLAPHAM,
RICHARD L. RANDALL,
Portsmouth, May 2, 1863. *Health Officers.*

FERGUSON & CO'S
LIVERY STABLE,
REAR NO. 29 CONGRESS ST.

Having purchased the Livery Establishment recently owned and conducted by Mr. F. H. BLAISDELL, and refitted it throughout, we are prepared to furnish Teams of one horse, two or four, with Carriages as may be desired, and of the best, to customers who favor us with a call.

To those who have patronized us for the past few months, we tender our thanks, and treat for a strict attention in furnishing the riding public with

NEAT & FASHIONABLE TEAMS,

to merit the further patronage of all others who desire to be well served.

WM. P. BURLEY, JOHN H. FERGUSON.
Portsmouth, May, 1863.

Hacking.

JOHN S. SIDES would inform his friends and the public that he has purchased the HACKING TEAMS recently owned by Mr. BLAISDELL, and having a large supply of good HORSES, can fill orders for any required number at all times, for FUNERALS, PARTIES, or other riding, to the satisfaction of customers. All business promptly attended to, if orders are left at the Livery Stable of Mr. JOHN H. FERGUSON.
Portsmouth, April 14th, 1863.

Hacking Notice—Removal.

WM. O. SIDES having removed his Hack Office from TAYLOR STREET to CONGRESS STREET,
Next door to F. W. ROGERS' Store—would invite the orders of his old patrons and the public, in his new quarters, more convenient location. Prompt attention to all calls, day and evening.
WM. O. SIDES,
61 Congress Street.
Portsmouth, Oct. 18th, 1862.

AMERICAN STABLE,
31-2 Vaughan Street,

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.
"This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.
It is in use on the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!
THE MODEL COOK
FOR WOOD OR COAL.
The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the Stove and in front of the fire; so arranged that it can be used separately for a roaster or by the removal of a simple plate in connection with the top of oven, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every article of which will bake evenly at the same time! A check draft is applied to the stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.
E. A. STEVENS,

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger, than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shaking up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be kept burning day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. We refer to families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE,
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The due or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue so small and the fire may be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of joints by which other Furnaces are formed, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have been using them in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.
1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. Without the arch in the palate we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work appears as one whole piece.
6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.

DR. GOODALL,
DENTIST,
60 Congress St.
Residence 12 Court St.

DENTISTRY.
No. 60 CONGRESS STREET, }
Portsmouth, Oct 1st, 1863. }
DR. GOODALL
Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the right of VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as perfectly as desired.
The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Besides all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the section is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set of Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of all other bases, and is by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.
ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.
I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT;
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints
Excellent Wine for Females.
Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a mild Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.
Gen. W. Scott, U. S. A. Dr. Ward, Newark.
Gov. Morgan, N. Y. State Dr. Wilson, 11th St. N. Y

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though everyism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

Fashions for Summer.

Mme. Demorest's QUARTERLY MIRROR OF FASHIONS for the Summer contains besides the usual unequalled variety of plates, illustrations, descriptions of, and information concerning the styles now fashionable, *two full size* new and valuable DRESS PATTERNS, and a large extra sheet of BRAIDWORK. Price only 25 cents. Just issued, and for sale by

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, MAY 26, 1863.

THE REBELLION.

Hearts throbbed joyously on Monday morning, when it was announced that General Grant's brilliant achievements had gloriously culminated in the capture of Vicksburg, on the 20th. Previous to that date, he had captured 64 guns and taken 9400 prisoners; and now, a dispatch says, "the Stars and Stripes float over Vicksburg, and the victory is complete." Adm. Porter co-operated with Gen. Grant in the siege, his fleet cannonading the city and its works by night, while Grant's army assailed it by day, thus giving the rebels within the town and intrenchments not a moment's relaxation, from the perils of their situation. Our loss is reported to be heavy. Although up to 2 P. M., Monday, no official dispatches had been received in Washington absolutely confirming the capture of the city, it is said two other dispatches had been received, making the same statements, —one of them asserting that the whole rebel army had been captured. Capt. Pennock, of the fleet, reports officially the capture of Haines' Bluff, on the 18th. The rebels commenced evacuating the day previous, but a party remained behind in the hope of taking away or destroying a large amount of ammunition on hand. These, at sight of the gunboats, ran away, leaving everything in good order,—guns, forts, tents and equipments of all kinds. The works were very formidable. There are 14 of the heaviest kind of mounted 8 and 10 inch and 71-2 inch rifled guns, with ammunition enough to last a long siege. Capt. Pennock burnt up the gun carriages and the encampments, blew up the magazine, and destroyed the works generally. The works and encampments covered many acres of ground, and the fortifications and rifle pits extended a mile and a quarter. Capt. Pennock says—"such a net-work of defences I never saw. The rebels were a year constructing them, and all were rendered useless in an hour." He speaks in the highest terms of the noble achievements of the army and navy, and says the fall of Vicksburg is "a mere question of a few hours, and then, with the exception of Port Hudson which will follow Vicksburg, the Mississippi will be open its entire length."

The Savannah Republican of the 18th expresses apprehensions of another invasion of Georgia. It says—"Our dispatch announces the marching of seven or eight thousand Yankees upon Rome, in this State. No particulars are given of their whereabouts, only an assurance that preparations are being made to meet and repel the invaders."

Adm. Porter officially reports that after turning over Alexandria, La., to Gen. Banks, he deemed it prudent to return with the largest vessels to the mouth of the Red river, as the water began to fall. He attempted to destroy Fort Decrassey, but succeeded in destroying only the three heavy casemates commanding the channel, and a small water battery of two guns. About 600 yards below he destroyed by bursting one heavy 32-pounder and some gun carriages left by the rebels in their hurry.—He could not spare the powder to blow up the main fort, which is extensive but incomplete, on a hill 900 yards from the water. This will be destroyed by the vessels, which will be ordered to work upon it occasionally. In this fort was mounted a 11-inch gun, which the rebels threw overboard in their panic at the approach of our gunboats.—Adm. Porter sent Com'r Woodworth, with four gunboats, up Black river to make a reconnoissance: he destroyed a large amount of stores, valued at $300,000, consisting of salt, sugar, rum, molasses, tobacco and bacon.

Ten Federal regiments are reported by a rebel newspaper correspondent, to have been advancing on Cumberland Gap on the 17th, while another force was going by way of Big Creek Gap.

Members of the 34 Ohio regiment, now at Columbus, O., say that the surrender of Col. Straight and his forces near Rome, Ga., was justifiable and unavoidable, the enemy occupying an impregnable position with overwhelming numbers.

Gen. Curtis relinquished and Gen. Schofield assumed command of the department of Missouri on Sunday.

☞ The Richmond Dispatch says that two Yankee officers, captured near Jackson, Miss., started to Richmond with several other prisoners, but when near Atlanta, Ga., succeeded in bribing two of the guard, and made their escape, their custodians leaving with them.

☞ Wendell Phillips says he believes in Hooker. He says that if he has faults, he prefers a diamond with flaws to a pebble without.

☞ The Union League of Philadelphia, are to have a grand convention on the 4th of July. President Lincoln has promised to attend unless something unforeseen occurs in the meantime to prevent.

NEW YORK CITY RAILROAD.

NEW YORK, May, '63.

There are some facts of interest connected with our street railway, from which an opinion may be formed of the probable success of an additional one as a popular and convenient institution.

That our "via sacra" is to become the line of a railway, seems to be generally conceded. True the supporters of each bill have reached nearly a Kilkenny cat-stage of proceedings, yet their interest—in both senses of the word—in the scheme, continues unabated.

There are now six city railroads in operation. From the State Finance Report I glean the following statistics.

The Fourth Ave. R. R. (controlled by the Harlem R. R. Co.) carried during the year 1862, on 60 cars, 4,000,000 passengers, and received $200,000. The "Third Ave.," over eight miles of double track, running 104 cars, carried twelve million passengers and received $600,000. The Sixth Ave. line carried 7,000,000,—Eighth Ave. 5,500,000, and the others two to three millions each—having from fifty to seventy-five cars each.]

It is estimated from these figures as a basis that the cars on Broadway would carry nearly five thousand persons per hour, or about 70,000 during the day,—amounting to something like 25,000,000 passengers for the year. There are at present 650 stages on Broadway, making four round trips each day, and averaging twenty passengers each trip. Large as the figures may appear, they are rather an under-estimate.

One of the greatest objections to a railroad on Broadway, is the fear that it can only do the business offered to it, by such an occupation of the street as would prevent its use by any other conveyance, or keep up a continuous and perilous blockade.

Many years ago the charter was granted to the Harlem R. R. Co.—In this charter was inserted the privilege of laying with the permission of the city government, tracks in any avenue in the metropolis. Within the past two or three years there has sprung up what is properly known as the "Broadway Railroad Scheme," headed by Geo. Law and opposed by Vanderbilt and others. These are the grand sachems of the opposing factions. Last year the attempt to force the bill through the Legislature failed. This year the effort was renewed and succeeded. The bill passed.

For the purpose of defeating the bill, the Harlem R. R. Co., under the privilege before alluded to, made application to the city government for a permit to lay a track on Broadway. It was granted. Now comes the strategy compared with which McClellan's peninsular campaign, is mere child's play.

Immediately upon this grant, the Legislature *repealed the privilege* inserted in the charter years before. Before the repeal could be confirmed by the other branch, the Harlem R. R. Co., (backed by the opponents of the Broadway bill) planned to have the rails down. Five thousand men, with as many spades and picks, were to have been stationed at night along Broadway, and the track laid the whole extent before daybreak. Appearing along there about midnight I stopped, thinking I might extract some *Chronic-oil* from the excitement. Dirt and dust flew in all directions; but hardly had the workmen broken the pave a block, before an injunction was served. That injunction saved us from the sight of a rail track fronting our business emporium the next morning. Thus matters at present.—Litigation will probably now remain be an extended feature in the programme.

Besides this Broadway Road, we have others planned and in process of construction. Two called the Gridiron Roads, one through 14th and the other through 34th streets,—another termed the "cross cut" road is to be laid through Grand street, and still another known as the "belt road" is designed to make the complete circuit of the city, through Washington street on the one side and South Street on the other. So you see we are to have railroads in plenty. Indeed, the subject is getting to be what an Irishman would call a *rale* nuisance.

NEWINGTON.

☞ A Port Royal letter reports that Capt. Arnold, of the 47th N. Y. Regiment, who was recently captured by the rebels, was hung by them for alleged desertion, it being charged that he was in a Savannah militia company at the outbreak of the rebellion and deserted. It is understood that Gen. Hunter will execute certain prisoners in his possession if the report proves true.

☞ A Pittsburg Company have just turned out the rim of the fly-wheel of a new rolling mill. It is cast in one piece, is twenty feet in diameter, and weighs twenty-three tons. From the size of the fly-wheel we may form some idea of the power of the engine.

☞ Albert Gunn was recently discharged for making false entries in the Quartermaster's Department at Washington. His dismissal reads thus, "A. Gunn discharged for making a false report."

NEW ORLEANS ITEMS.

NEW ORLEANS, May 5.

Our citizens were aroused yesterday by the news that Col. Grierson, with two regiments of Illinois cavalry, had arrived at Baton Rouge the evening previous, having made a raid from Lagrange, Tenn., through almost the entire length of the State of Mississippi, on their way burning bridges, cutting railroads and telegraphs, destroying cars, locomotives and rebel stores, capturing prisoners, live stock and contrabands, and playing the very dickens generally. About sixteen days were consumed in the trip, and the command arrived in good condition, having sustained but a trifling loss in killed and wounded. Jeb. Stuart must look to his laurels.

Right on the heels of this, we have news this morning that the gunboat Arizona has ascended the Atchafalaya to Red river, at the mouth of which she communicated with Admiral Farragut, who has posted himself there as a blockader. On each side of his vessels he has rafts of immense cypress logs to resist the attacks of rebel rams, who buttoed the Indianola so unmercifully.

Nearly all the lower fleet is at present anchored abreast this city.

Some hundreds of the prisoners captured in the battles of the Teche have taken the oath of allegiance, and been released.—They are mostly conscripts.

Considerable cotton and sugar will be secured as one of the results of Banks' recent movement.

There are in New Orleans, depleted as it is, two specie paying banks—the Southern Bank, which during all the war has redeemed its issues in coin, and the Bank of America.

An aggregate of nearly fifteen hundred orphans are provided for by six charitable institutions of this city, distributed nearly as follows:—

St. Mary's Orphan Boys' Asylum	25	per cent.
St. Joseph's Asylum	18	"
Camp Street Asylum	18	"
St. Elizabeth's Asylum	16	"
Orphan's Home	12	"
St. Vincent's Asylum	10	"

A week or two since, in one of the courts of this city, a negro woman was sentenced *to sixty days* imprisonment for kidnapping. One of her victims was *her own daughter*, a girl of seventeen.

Within five minutes' walk of the St. Charles Hotel are two signs—one "W. Kick, bootmaker;" the other, "M. Stitch, tailor."

The arrival of steamer Crescent, from Philadelphia, brought us intelligence of the loss of steamship Union, on her way from New York to this port—making the fourth within about six months, viz.—Ella Warley, Bio Bio, Marion and Union.

A short time since, McNair, principal of the Boys' High School, informed his pupils that the next morning the stars and stripes would be flung to the breeze from that institution, and any youth indiscreet enough to dissent from such proceeding, would be summarily ejected from the school. Morning came, bright and beautiful, but the gates of the schoolhouse and of the principal's residence were hung with heavy bows of black crape. Those who had noticed these emblems of woe were a little astonished to meet McNair not long after, trudging toward the school with the flagstaff on his shoulder.

The publication of an order commanding registered enemies to leave this department on or before the 15th inst., has created quite a stir among that numerous class of our community. The alternative is to subscribe to an oath to support the Constitution of the United States, and also the Government. Those who maintain that the administration has recklessly violated the most sacred portions of the constitution, contend that the simple taking of this oath is of necessity a perjury.

ION.

☞ Dr. Oliver Wendell Holmes has accepted an invitation to deliver an oration on the 4th of July, before the city authorities of Boston. William Everett, son of Hon. Edward Everett, will read the Declaration of Independence. He is fresh from Trinity College, England. Rev. Dr. Robbins is to be Chaplain. The exercises will probably take place at the Boston Theatre.

☞ A man in Laporte, Indiana, while digging a well recently, went down into it, and when within ten feet of the bottom he fell from the box in which he was standing. Another man descended, but had not gone down more than fifty feet, when he called to those at the windlass to draw him up.—They did so, but when within three feet of the top he appeared perfectly crazed, let go his hold on the rope and fell to the bottom of the well. The two men were drawn out with iron hooks, both dead.

☞ The steamer Constitution, from San Francisco, arrived at Panama on the 16th, bringing Puebla dates of April 30. The French had been driven from Puebla at the point of the bayonet, losing 6000 men. They would probably retire to the seaboard, as the rainy season had set in. The roads to Vera Cruz were in a bad condition and infested with guerillas. The yellow fever was soon expected.

☞ The rebel General Lloyd Tilghman, killed at the battle of Edward's Ferry, near Vicksburg, belonged to a Maryland family. He was a graduate of West Point. He was taken prisoner at Fort Donelson, and was brought to Boston and imprisoned at Fort Warren. He leaves a wife and a family of children; also a mother and two sisters, who are devoted loyalists. Gen. Tilghman married Miss Augusta Boyd in Portland, daughter of Gen. James C Boyd, and own aunt to Col. Charles B. Merrill, of the 17th Maine Volunteers.

☞ At the late session of the Confederate Court in Columbia, S. C., two men were capitally convicted of having in their possession counterfeit notes of the Confederacy, with intent to utter the same, and were under sentence of death to be hanged on the first Friday in August next.

☞ It is reported that Gov. Seymour, of New York, is to visit Gen. Hooker's army.

FOUND—Saturday, a PORTE MONNAIE containing money. Apply at Chronicle Office, and describe property. 3my20

Portsmouth, May, 1863.

MEDITATIONS
ON
DEATH AND ETERNITY,
TRANSLATED FROM THE GERMAN OF SCHOEKE.
The circumstances under which this volume has been produced are very peculiar and interesting. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the Queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her own immediate family. The volume is now reprinted in America, where so many afflicted hearts are in deep and overwhelming sorrow, and need consolation.
TWO FRIENDS.
BY THE AUTHOR OF "THE PATIENCE OF HOPE," AND "PRESENT HEAVEN."
Miss DORA GREENWELL, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of her day.

Single copies 3 cents, in all cases.

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late Firm of JONES & MENDUM for CASH, at low prices, for 30 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 CHARLES H. MENDUM.

Local.

"CARLETON'S" LECTURE.—Our exchanges speak in very high terms of the lecture on the war delivered by "Carleton" in Portland, Boston, Newton, Taunton, Watertown and other places. The Boston Journal says:—

"Mr. C. C. Coffin, more widely known as a war correspondent of this paper, gave a lecture in presence of a most flattering audience in point of numbers, of ladies and gentlemen. Judge Russell introduced Mr. Coffin, who proceeded to give a graphic and interesting narrative of the various battles, many points in which were received with applause."

A Portland paper says of his lecture there:—

"The description of the battle of Antietam was graphic—the lecturer bringing the scene into the hall in a manner calculated to fix it definitely in the minds of those who heard him. His account of the great struggle was evidently listened to with intensest interest."

We hope our citizens will avail themselves of the opportunity of hearing Mr. Coffin to-morrow evening.

☞ Not only the streets of Dover, but also those of Manchester, Concord, and Newburyport are sprinkled with a watering machine. We can think of no way that some one or ones of our wealthy citizens could render this city a greater good, in its present embarrassed condition, and themselves more benefit, than to make the city a present of an efficient watering machine.—It would be a most valuable kindness, and doubtless it would be remembered with lasting gratitude. It is one of those things that it is economical to have, and a great trial and waste to do without.

A Portsmouth (N. H.) correspondent informs us that the rumored arrival of the St. Lawrence at the Kittery navy yard for repairs, is erroneous. She has been collecting the sick and wounded at the various stations and on board the fleet, and bringing them North. The Franklin, which has been eight years finished, rests on the stocks, a ship of the same class as the Colorado, but of a finer model, believed to be swifter than any other vessel in the navy. She fought to be afloat and after the Alabama, but seems destined to share the fate of another Alabama, of ancient model, which after a tranquil forty-eight hours under a ship house in the same yard, is perishing of dry rot. Two more gunboats are to be launched next month.—*Portland Press.*

Now, friend Press, didn't you mean to say "a tranquil forty-eight years," altho' even in that expression you take some liberties with the President's English? Also know, O Press, that the St. Lawrence has arrived at the Portsmouth Navy Yard for repairs, and will be repaired there. Her "rumored arrival at the Kittery Navy Yard for repairs, is erroneous."

☞ The Deseret News, of May 6, published at Great Salt Lake City, Utah, contains the following in relation to one of the sons of Portsmouth:—

Mr. I. R. Thompson, who accompanied Hon. Frank Fuller to this place in 1861, and has acted as his private secretary and clerk since that period, left in the overland coach on Monday evening for San Francisco, where he intends to reside for the future. He is a most estimable young man, and we join with his numerous friends in wishing him every success.

☞ It will be seen by his advertisement, that Mr. J. Howard Dodge has taken the stand No. 96 Market street, for a grocery store. The stand is convenient for a large class of customers, and we doubt not he will exert himself to please his patrons.

—— The News-Letter states that the jury, in the case of Bassett vs. Salisbury Manufacturing Company, voted as follows:—Six that it had flowed the land; and six that it had not, (and the jury all examined the land); five of the jury voted that it was a damage, and seven that there was no damage.

—— A barn owned by Mr. Chas. Langley, in Exeter, on Stratham Road, was burned on Saturday afternoon, and his house considerably damaged. The fire was set by children playing in the barn with matches.

☞ A Charleston despatch of the 21st says—"The steamer Norseman, with 150 bales cotton, for Nassau, struck a snag, supposed to be the wreck of the Georgiana, in going out last night. She was run ashore on Long Island Beach, and is believed to be a total wreck."

☞ A reply from one of the clerks in the Treasury Department at Washington, to a letter of inquiry from Massachusetts, says:—"*No such man hear.* J. L. B. M." He should be promoted at once.

☞ The Domestic Missionary of Taunton reports the number of drunken women in that town at five hundred!

☞ Six of the most powerful, as well as largest iron monitors ever built, are in course of construction at St. Louis.

☞ A publisher in Mobile has in press a book entitled "Raids and Romance of Morgan and His Men."

☞ Mr. Charles Dickens is about to write a novel on the Roupell forgery case.

☞ This is "anniversary week" in Boston.

BEAUTIFY YOUR PREMISES.—Every person who owns a foot of earth, or has the lease of a Southern wall, whereon to let a vine creep up, and lets May or June go by without improving the opportunity of doing something for their beautification, should be considered remiss in a very important duty. No matter if you don't own the house and yard you occupy, still plant flowers, and vines, and shrubbery, for your own comfort and your own heart's sake:

Let the flowers look up in every place,
Through this beautiful world of ours;
For dear as the smile of an old friend's face,
Is the smile of bright sweet flowers.

EXAGGERATED ESTIMATES.—The withdrawal of silver change and the substitution of a small paper currency, has served to correct one of the exaggerations which are common and to a great extent peculiar to this country. Heretofore, it has been generally estimated that the quantity of change in circulation in this country was $50,000,000. Now it appears that fifteen millions only of the postal currency has filled all the channels of circulation. The government has printed only eighteen millions, and it has three millions on hand for which there is no call.

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, on Thursday next, May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

☞ See yon fair maiden in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. Iy.

DEATHS.

In Rye, May 24th, Mr. JOHN BROWN, aged 88 yrs., 5 mos., and 4 days.

"An honest man," a respected citizen, correct and temperate in his habits; and a devout pious christian, having strong faith in Him who says, "I am the Resurrection and the Life."—*Com.*

In Newburyport, May 21st, of paralytic shock, Mrs. NANCY L. PEARSON, aged 65 years, wife of Dea. John Pearson. Portland papers please copy.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Books, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove my home is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Late Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in form to secure for them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability in his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. 3lawly

New Room Papers.

J. F. SHORES, Jr.,
No. 1 Congress Block,

has just opened and will be happy to exhibit them to his friends and the public a very large stock of

Garden and Flower Seeds.

J. F. SHORES, No. 1 Congress Block, has on hand a general assortment of

VEGETABLE & FLOWER SEEDS.

LODI MANUFACTURING CO.'S POUDRETTE.

J. F. SHORES, Jr., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be **$1.70 per Barrel**, without regard to quantity, delivered at any wharf or depot in this city. ☞ A discount from this price to those who buy to sell again.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipesogee,
Nov. 10, 1862.

Agents Lodi Manufacturing Co., Boston.

GENTS.:—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use each an increased quantity this next spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops. Our mode of applying the Poudrette is, to put about a handful in each hill, and place the seed in direct contact. I think I shall want double the quantity next Spring that I had this year.

Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro, N. H

Also for sale

Coe's Superphosphate of Lime.

Orders received for Breed's "FLOUR OF BONE," & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.

From the success met with last season, the subscriber flatters himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ES SEX ANNUL. POUDRETTE, Newburyport, Mass." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.

I have received certificates of its value, a few of which are here inserted.

ALFRED, Me., Dec. 29, 1862.

Messrs. NOYES & LITTLEFIELD:—

Gents,—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its utility. When I opened it I was fairly sick of it, saying to myself it looks more like loam than any thing else, and is good for nothing; but how mistaken I was, for where I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.

Yours, truly, WILLIAM H. CONANT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 28, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some, but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively,—also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

PROTECTIVE WAR CLAIM ASSOCIATION FOR NEW ENGLAND.

INCORPORATED 1863.

Office, No. 11 Railroad Exchange, Boston, Mass.

Chief Justice BIGELOW, President.
His Excellency JOHN A. ANDREW, and AMOS A. LAWRENCE, Vice-Presidents.
WALDO HIGGINSON, Treasurer.
U. TRACY HOWE, Secretary.

Directors.

Judge Hoar,	Martin Brimmer,
Joseph Cooolidge,	George B. Emerson,
Edward Atkinson,	William Appleton,
Quincy A. Shaw,	Richard Frothingham,
Charles E. Norton,	George S. Hillard,
Geo. Wm. Bond,	Patrick Donahoe,
Jas. Freeman Clark,	F. W. Lincoln, Jr.

Objects.

The objects of the Association are:

I. To secure to soldiers or sailors, and their families, any claims for pay or pensions, &c., at the least cost to the claimant.

II. To protect soldiers or sailors, and their families, from imposture and fraud.

III. To prevent false claims from being made against the Government.

IV. To give gratuitous advice and information to soldiers and sailors, or their families needing it.

The Board of Directors supervise and control the entire business of the Association, and the character and standing of those gentlemen will be a guarantee to the public that the business of the society will be conducted with fidelity and economy.

All applications relating to the business of the Association, whether by letter or in person, should be made to

☞ ATTENTION, THE WHOLE! ☜

RYE, N.H., Feb. 26, 1866. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWEETS SANACRA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.

JORDAN JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S SANACRA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1861.*

DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your SANACRA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one wishing the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N. H., promptly attended to. may26o

Wheat, Rye, Corn.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made and sold as such, is the only article of WHEAT RYE WHISKEY which is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a speciality in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desiring to procure a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, **91 Washington St, Boston.**

Each bottle enclosed in a neat pasteboard box, to ensure its safe transportation.

C. A. RICHARDS, General Agent.

Boston, May 15, 1863. 6mos eod

HALEY, MORSE & BUYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

This Wringer has had immense sale in this city and vicinity, and a years trial has proved its many excellent qualities.

It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the peculiar construction of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or by the removal of a simple plate; in connection with the larger oven, for baking; giving an oven nearly 2 feet long, or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time. It is also supplied in all this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MAGEE

COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cooking being heavier, and the oven larger than usual. The oven plates are covered with plaster, which, combined with the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the sitting room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Numerous families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

Biddeford, Me.

Capt Ira Andrews,

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—OF the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacturers and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable, and as some of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat, from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron R. Hill,	Charles E. Mendum,
Henry F. Wendell,	John Sise, and others.

SEMI-WEEKLY LINE.

The splendid and fast Steamships CHESAPEAKE, Capt. Willetts, and PARKSBURG, Capt. Hoffman, will, until further notice, run as follows:

Leave Brown's Wharf, Portland, every WEDNESDAY and SATURDAY, at 4 o'clock P. M., and Pier 38, North River, New York, every WEDNESDAY & SATURDAY at 3 o'clock P. M.

These vessels are fitted up with the accomodations for passengers, making this the most speedy, safe and comfortable route for travelers between New York and Maine. Passage $5.00, including Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, and St John. Shippers are requested to get their Freight to the steamer as early as 3 P. M. on the day that she leaves Portland. For Freight and Passage apply to

EMERY & FOX, Brown's Wharf, Portland.

H. B. CROMWELL & CO., 86 West St., N. Y.

December 5th, 1862. 1y

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depression—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretion of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a dancer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

Dr. GOODALL,

DENTIST,

60 Congress St.

PORTSMOUTH.

Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,

Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth with I. Am. cushion, or RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon this BASE, or the usual one, upon GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the mouth, the mouth and cheeks. There are no insertices, or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my terms are extraordinarily low.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. HENRY, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. **Regulation of Adults' and Children's Teeth** will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine:

Gen. W. Scott, U. S. A. Dr. Ward, Newark.
Gov. Morgan, N. Y. State Dr. Wilson, 11th St., N. Y
Dr. Parker, N. Y. City Dr. Dougherty, Newark
Dr. J. R. Chilton, " Dr. Parish, Phila.
Drs. Darcy and Nicholl, Newark, N. J.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J." is over the cork of each bottle.

Make One Trial of this Wine.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

Have you used the Strela Matches?

J. F. SHORES, JR., No. 1 Congress Block, has just received from the manufactory a large lot of

STRELA MATCHES.

These matches are without sulphur and without smell in burning, which adapts them for the Sick Room, the Parlor, or for general use, being nearly as cheap as any other kind of Matches. They are put up in boxes of 150 matches, and are sold at the low price of THREE cents per box, or 12 boxes containing 1800 matches for 25 cents—being 2 72 for a cent!

Dealers supplied at the manufacturer's price.

BUY CALIFORNIA WINES.

They are the Purest!
The Best!
The Cheapest!

"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.

The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.

The Port has a fine flavor and body; and The Port is excellent because it is pure.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, MAY 27, 1863.

THE REBELLION.

Guerrillas captured the town of Richmond, Clay Co., Mo., last Tuesday night after a short fight, taking the Federal force prisoners. The town was robbed of everything that could be carried away. The same band plundered the town of Plattsburg, Clinton Co., on Thursday, and robbed the Court House of $11,000 belonging to the State.

Gen. Herlburt sends a statement showing the condition of affairs at Vicksburg at 9 o'clock Friday night. The city was not at that time taken. Great advantages, however, had been gained, the enemy making firm resistance. We at that time completely commanded the town. Our men had their colors planted on the enemy's outer works. Some of our troops were within a mile and others within a mile and a half of the Court House. The monitors and gunboats were in front of Vicksburg hard at work. Another dispatch says it is believed that a large number of women and children still remained in the city. Our loss up to Friday morning is estimated at about 1000, killed and wounded. But few officers of distinction had been injured. Not a General or a staff officer on our side was killed. The men are enthusiastic when Gen. Grant appears. His reckless exposure of himself on the field of battle won the unbounded admiration of his men.

Rebel dispatches, 23d, to the Mobile papers, state that Gen. Grant had been repulsed in three desperate assaults on Vicksburg; that Snyder's Bluff had been evacuated; and that Yazoo City was captured by the Federals and the Navy Yard burnt by the rebels. Johnston is reported to have thrown from 10,000 to 12,000 rebel troops over the Big Black river to Vicksburg.—Our own accounts, however, which are two days later, report that our loss had not been very heavy for the position we had gained. Our men completely encircled the town, and on the night of the 22d had their colors planted on the enemy's works, and were lying on the exterior slope, while the gunboats and mortar boats were in front, working away.

A correspondent of the N. Y. Times says Gen. Banks still had his headquarters at Alexandria, La., on the 12th, but his troops were moving up the river toward the enemy. The same correspondent makes the somewhat startling announcement that four transports, with troops from Gen. Hunter's department, were at New Orleans, and others were coming.

The rebels crossed the Cumberland river on Monday at Fishing Creek and Hartford, Ky., but were driven back by our forces after slight skirmishing.

The rebels on the 19th attacked our forces near Raleigh in Western Virginia: the fight lasted until the following day, when the rebels fell back. It is thought that the attack was a feint to cover operations elsewhere.

Humphrey Marshal is reported to have been arrested and sent to Richmond on charges of disloyalty and treason to the Southern Confederacy.

Price is reported by the rebels to have captured St. Helena, Ark.

The rebels were routed in a skirmish near Fort Donelson, last week.

☞ The correspondent of the N. Y. World, who was recently captured while attempting to run by the batteries at Vicksburg, arrived in Washington on Monday, from Richmond. He gives the following items gleaned in his tour of three weeks in the Southern States:—

The crops in Mississippi and Alabama were excellent. At Atlanta he was confined in a prison in consequence of the excessive attention shown Union prisoners by the populace two days before. At Richmond a report was current on Saturday that Vicksburg had fallen. The next rebel line of defence is Tombigbee river, thus releasing the whole State of Mississippi.—There are no forces in the interior of the Confederacy. The railroads are in a bad condition. The strength of the rebel army may be put down at 300,000 men, half of which are in Middle Tennessee and Virginia. The rebels robbed and maltreated our wounded in Alabama. At Atlanta, Augusta, Columbia, Knoxville and Weldon our prisoners were greeted with substantial evidences of kindly feelings. The solid men of the South are anxiously asking what terms we can offer and what is to be their fate. The impression is gaining ground in the Confederacy that we can outlast them and overrun their country.

☞ The N. Y. Herald's dispatch says private letters from substantial citizens of Louisiana state that she will willingly reenter the Union as soon as the armed hordes of the Confederacy are driven from her borders.

☞ We have received a copy of the New York Copperhead. It speaks of "a very filthy, dirty, nasty, beastly, black republican paper." We are willing to exchange papers with almost any one, but we don't wish to exchange blackguardism with them.

DRUGGING AND ROBBING.—It appears by the Bangor Whig that Rufus M. Jewell, who for some time has kept a groggery in Waterville, is now in jail for want of $2000 bonds, charged with robbing Benj. P. Chapman of one hundred and forty dollars on the evening of May 1st.

On the examination Chapman testified that he drank in Jewell's shop two or three times during the day of May 1st, and while paying for his liquor exposed his money to Jewell. He went in again about 8 o'clock P. M., and called for whiskey. Jewell got him a glass, and put into it what he (Jewell) said was liquid sugar, and invited him to go into a small room leading out of the bar, where he took a seat. The liquor he had drank soon had a strange effect on him, different from what he ever felt before.—He was weak, stupefied and exhausted.—He soon reclined back upon a table, and was completely prostrated, although conscious of his condition and all that took place. While in that state Jewell took his wallet and left the room, but soon returned and replaced it, leaving him this time alone for over an hour. He recovered, and as soon as able to walk, went away, and examined his wallet, and found he had been robbed of $140. Chapman also testified that while being robbed, he did not dare to resist or make an outcry, lest he should be murdered on the spot,—believing that a man who would drug and rob would also murder to conceal the robbery. Chapman is said to be a man of truth and veracity, and if so, the robber will probably serve the State awhile in prison. But what shall be said of the wisdom of Chapman, putting himself in the power of such a man? It would be wiser to keep out of his den.

☞ The opposition party in North Carolina, which is headed by Gov. Vance and already is in the ascendancy by a two-thirds vote, is making itself heard in relation to the despotic measures advocated in some rebel quarters. Gov. Vance's special organ, the Raleigh Standard, in commenting upon an article in the Richmond Enquirer, favoring an "imperial despotism" like that of France, after mentioning the gradual steps by which usurpers have ever wrested from a people their liberties, says:

"The argument now is, we hate Lincoln so bitterly that in order to resist him successfully we must make slaves of ourselves. The answer of our people is, we will be slaves neither to Lincoln nor to Davis, nor France, nor England. North Carolina is a State, not a province. She has 80,000 as brave troops as ever trod the earth. When she calls them they will come. If the worst should happen, she will be able to take care of herself as an independent power."

☞ The London correspondent of the New York Herald states that two iron-clad rebel privateers had sailed from England for the coast of China, in order to operate against the merchant shipping of the loyal states in the waters of China and India.—These vessels are described as powerful, swift and heavily armed, and the writer anticipates that they will inflict very heavy losses on our commerce. That they have sailed he does not doubt, and give such reasons for conviction as may induce others to think they are well founded. This naval movement of the rebels had been planned from the beginning of the war, and it is said that it has been undertaken just now in consequence of Confederate agencies to direct the work having been formed in Shanghae, Calcutta, Singapore, and other cities of the Eastern coast, in communication with a large number of sympathizers and abettors who are enumerated by the writer.

☞ Mr. Vallandigham arrived at Murfreesboro' on an extra train from Nashville, on Sunday night, and after a conversation with Gen. Rosecrans, was put into an open wagon, escorted by cavalry to an outpost, and delivered to the enemy on Monday forenoon. A single rebel private received him, to whom Mr. Vallandigham said—"I am a citizen of the United States. I am here against my will. I surrender myself as a prisoner-of-war."

The N. Y. Tribune's Murfreesboro' dispatch says that Vallandigham was given to understand by Gen. Rosecrans that should he arrange to return to our lines, the President's orders were to carry the original sentence into effect, which would be executed.

☞ The story going the rounds of the Northern papers that the ill fated Keokuk was run ashore intentionally by her pilot, and that he (the pilot) passed through Philadelphia a few weeks ago under arrest on this grave charge, is a canard. The pilot who took the Keokuk into and out of the action of the 7th of April, was the renowned Robert Small, a runaway slave, who run out of Charleston harbor with the little steamer Planter, in open day, and surrendered her to the blockading fleet, a little over a year ago.

☞ A distinguished writer says that "nothing is best achieved by indirection." The workings of a corkscrew would seem to be a refutation of that plausible theory.

☞ Seven large vessels are being built in Thomaston, which is second to Bath as a ship-building town in Maine.

NEW HAMPSHIRE ITEMS.

—— The Manchester American states that the announcement which has been made in some papers that Hon. William C. Clarke, of Manchester, has been appointed Attorney General, is premature. It says:

Judge Clark was nominated by the Council, with the understanding that Governor Berry would approve the nomination, but when the Governor and Council held their meeting, His Excellency, for some reason not made public, declined to sanction the appointment, and the matter was postponed. The incoming Governor will make the appointment a sure thing at the first opportunity.

—— Mr. Sherburne Blake, of Raymond, who, on Thursday last, was engaged in his ordinary work, apparently in good health, was taken sick during the night and died before morning. He was about 65 years of age.

—— The American tells the story of a smart boy, who was confined in the jail at Concord, but was taken out to relieve the Deputy for a short time in the performance of his duties. He relieved the Deputy of three or four dollars, however, which he stole from his coat, and then directed his steps towards Dunbarton. There he traded away some articles belonging to a family with which he stopped, thus obtaining a few dollars, and then went to Manchester. In that city he worked for a farmer for a few days, stole $10, and started off for a new field of operations. The reporter is still in pursuit, deeming him worthy of being followed up.

—— The Manchester Mirror states that buying and selling horses has been lively in that section the past two months, some at tall figures. Mr. Eaton, the conductor, sold a pair in March to go to New York, for $700. Mr. Taggart sold his Nat Baker for $2000. Dr. Geo. A. Crosby sold his roan for $850. S. L. Fogg sold Burgess' pair of black horses for $1000.—Frank W. Nichols sold the Smith horse, that came from Cohoes, N. Y., to a gentleman in Providence, for $900.

—— The Mirror states that the officers of the Star Spangled Banner Lodge, connected with the Second Regiment, were installed at Concord on the 14th inst., under their recent reorganization. The dispensation under which this Lodge is held, was granted on the 17th of June, 1861. Chas. Walker, of Concord, the first master, was accidentally killed when going out with the regiment. Thomas Snow was the next master. Work was commenced by the Lodge at Bladensburg in October, 1861, and the degrees were conferred on about twenty candidates. On the 30th of June following, the dispensation was lost on the battle-field near Malvern Hill, Va. Gen. McCall's adjutant, in his flight, discovered the dispensation, it being enclosed in a tin box, and carried it to Philadelphia, where it remained in his office till January last, when it was recovered by the Lodge. The jewels of the Lodge were left at Warrenton Junction Aug. 25, 1862, with the baggage of the regiment, which was set on fire to prevent its falling into the hands of the enemy.

☞ The Richmond Enquirer has a tender and touching way of speaking of the women who participated in the recent bread riot in that city. It says:—

The rapscallion council of forty or fifty viragos, which illustrated the beauties of she-mobism, on the 2d of April, was introduced to the Grand Jury of Judge Meredith's court, yesterday. The jury managed to get through with about thirty cases, and returning the true bills against them all, adjourned until Thursday next, to dispose of the rest.

☞ An ecclesiastical trial occurred lately at Peoria, Ill., and, to prevent its publication, all the persons were previously sworn not to divulge the proceedings.—The trial was held in a building in which a fire company met in one of the rooms. Two reporters for the press took a suction hose, fastened it to the end of a stove pipe, inserted it in the chimney, and by that means conveyed the sound into the room below, where they took notes, which next morning appeared in the newspapers generally, to the surprise of the court. The means adopted were more ingenious than the effort to secure such information was justifiable.

☞ A deserter from Charleston, who was on the rebel ram Chicora, reports that the rebels attempted to explode the huge torpedo in the main ship channel at Charleston when the frigate Ironsides was over it, but it failed to explode. The rebels, the day after the fight, laid down between thirty and forty fresh torpedoes in the channels to blow up our vessels in a second attack.

☞ The Charleston Courier says: "There are some faces in this city which are universally elongated on the reception of news of any disaster to the Yankees, and yet tolerably cheerful in expression when a disaster is reported on the other side." Charleston papers of the 7th report the departure of troops from that city for the West.

☞ A Chinaman, named Sin, has been bound over in New York to answer to a charge of keeping a gambling place, the accusation being brought by another Celestial. The name is appropriate.

☞ A Washington letter of 24th, to the N. Y. Commercial, says Gen. Butler has not been ordered there. Prominent Senators have stated that all efforts to secure a command for him proved futile. It is equally improbable that there will be any Cabinet changes which will give him a position, as the President has declined to listen to the pressure for removal of Mr. Stanton or Mr. Seward.

☞ Quite a number of young men have recently left Portland, Me., for California. It is their misfortune that their departure just now gives rise in some minds to the suspicion that some of them are fleeing from the draft to come.

☞ The Confectionery and Fancy Goods' Store, of Mr. T. B. Ellis, on Factory Island, Saco, was entirely burned out inside, between 1 and 3 o'clock, on Monday morning last. Goods in the store were entirely consumed. Origin of the fire unknown.

☞ A foundling at Lille, who earned his living as a cotton spinner, has been discovered to be the son of a Russian Prince and a Belgian Marquise, and entitled to an estate of $2,000,000.

For sale by JOS. H. FOSTER.

MEDITATIONS
OR
DEATH AND ETERNITY.

TRANSLATED FROM THE GERMAN OF ZSCHOKKE.

The circumstances under which this volume has been produced are very peculiar and interesting. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the Queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her own immediate family. The volume is now reprinted in America where so many afflicted hearts are in deep and overwhelming sorrow, and need consolation.

TWO FRIENDS.

BY THE AUTHOR OF "THE PATIENCE OF HOPE," AND "PRESENT HEAVEN."

Miss Dora Greenwell, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of our day.

Lecture by "Carleton."

C. C. COFFIN, Esq.,

Known as "Carleton," of the Boston Journal, will deliver

A LECTURE,

AT THE TEMPLE,

On WEDNESDAY EVE'G, May 27th, at 1-4 before 8 o'clock,

in which he will give his own experiences as an eye-witness in the principal battles of the present war. Some of the most thrilling scenes and interesting incidents in the naval fight at Memphis, the battles at Antietam and Donelson, &c., will be related. He will endeavor to give an intelligible idea of the position of the armies, and also vivid pictures of the charges of our brave soldiers, together with many exciting and interesting facts connected with the fearful conflicts.

Tickets 15 cents—to be obtained of J. H. FOSTER, N. P. THACHER, and at the door.

Livery Stable Notice.

JOSEPH WHIDDEN, 2d, having bought the Livery Stock of Mr. WOODBURY LOCKE, and taken the Stable recently occupied by him, on **Fleet Street,** near FRANKLIN HOUSE, would respectfully solicit a share of patronage from his friends and the riding public generally. Good teams at fair prices.

Thankful for past favors, he hopes for a continuance of the same. ma27 1

Farriery.

LEACH & LYDSTON having formed a partnership and taken the old stand of Mr. WHIDDEN, No. 17 Fleet Street, are prepared to guarantee satisfaction in the HORSE SHOEING line, in all cases. Please give us a call.

LEONARD LEACH. LAWRENCE K. LYDSTON.
Portsmouth, May 21, 1863.

Attention, Company!

Volunteers, who expect to retain their health unimpaired during the campaign, must see to it themselves, do not trust to the Army surgeons, supply yourselves with HOLLOWAY'S PILLS AND OINTMENT. Every English Soldier's Knapsack contains them. Only 25 cents per box or pot. 212

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 3taw

Local.

THE LECTURE THIS EVENING.—We would once more call the attention of our readers to the lecture of C. C. Coffin, Esq., (Carleton) this evening at the Temple. Among the different battle scenes of which he has been an eye-witness, are,—the battles of Bull Run, Fort Donelson—including the irresistible charge of Norman's Brigade—Island No. Ten, the naval battles before Memphis, resulting in the "wiping out" of the rebel fleet by our fleet under Com. Davis; Antietam, Fredericksburg and the bombardment of the Charleston forts by our Monitors. Mr. Coffin has had rare opportunities of observing these great contests, and speaks whereof he knows, being acquainted with the various localities and positions of the contending forces.

Those who have perused his thrilling accounts of the battles, as published in the Boston Journal, will need no extra urging to go and hear him.

IN BOARD OF ALDERMEN, on Tuesday evening, the Finance committee were empowered to purchase such furniture now in Hanover street Chapel as they may deem advisable, and to furnish the rooms for occupancy by the schools.

The Mayor was authorized to employ a person to obtain signatures to a petition to the Legislature for a railroad from Dover to this city. [This petition was signed by the Mayor and those members of the two Boards who were present at this meeting.]

In the Common Council the Police bill was reported back by the committee, with several amendments. The title of the bill was changed to "a bill providing for the reorganization of the City Police." The Council then, by a vote of 14 to 2, rejected the bill.

The bill for the protection of shade trees, and the joint resolution in relation to the collection of taxes, were passed in concurrence.

☞ Mr. Davis' Singing Schools are *not* to commence *this* (Wednesday) afternoon and evening, but will be held on Wednesday when they do begin,—of which exact time, due notice will be given. We are desired to state this, to prevent misapprehension.

☞ Capt. Joseph A. Somerby, one of the branch pilots of Newburyport, about three weeks since jammed his hand by a chain on board a vessel in the harbor, and when it had nearly healed he wounded it again on board the pilot boat, after which the lock-jaw ensued, and he died on Saturday. He had been a pilot some fifteen years, and for a quarter of a century before that was master of a vessel from Newburyport. Within a few days another man has died in that city from lock-jaw, and both from causes that were not considered at all dangerous at the outset. Each of them accidentally jammed his hand, but not sufficiently to confine them to the house or give the least apprehension of danger.

☞ Jamaica letters report that on the 7th of April a sea fight took place off Pedro Bluff, between a large war steamer strikingly like the Alabama and three other vessels. Heavy firing was heard at 9 o'clock in the morning, and vessels were seen distinctly from the shore, pouring broadsides into each other. The firing lasted until about 2 o'clock in the afternoon. No particulars given.

☞ Says the Bangor Whig, "A company is being formed to build a steamer to run between Bath, Wiscasset and Boothbay. Good for the public—hard for the stockholders!"

☞ A correspondent of the Boston Herald, writing from off Charleston harbor, 17th, denies that the rebels have recovered the guns of the Keokuk, as the Charleston Mercury asserted.

☞ The Harvest Moon already blesses the good people of Portland. It is a steamboat, which came up from Bangor in 10 hours and 15 minutes.

☞ Mr. James F. Hamilton, of Portland has been appointed acting Assistant Paymaster in the U. S. Navy. He has been a clerk in the naval office at Cairo, Ill.

☞ Despatches received at Cincinnati say the rebel General Wharton was thrown from his horse at Sparta, Tennessee, last week, and fatally injured.

☞ General Banks, in his march, captured rebel orders for the enrolment of negroes into regiments.

☞ The ancient English "yard" was a measure of length, based upon the length of the arm of King Henry I.

☞ A young huckster-woman ate fifty oranges one after another, at Columbus, Ohio, the other day, on a wager. She received $5.

☞ There is a shop kept by an old maid in New York in the windows of which appear these words: "No reasonable offer refused."

☞ Down in Waterville, Me., they speak of a drunken man as "undignified."

☞ Gen. John C. Pemberton, of the rebel army, is a native of Pennsylvania.

☞ The steamer Magenta was sunk near De Witt, on the Missouri river, on Friday last. The boat and cargo were a total loss. The boat was valued at $40,000, and was insured for $32,000. The value of the cargo is estimated at $25,000.

☞ The Portland Argus states that a soldier of the Massachusetts 1st shows pretty clearly that Stonewall Jackson did fall by the bullets of our soldiers while he was in the front reconnoitering, where the bullets fell fast and thick from our rifle pits.

☞ The Richmond Sentinel of the 19th contains an article arguing against receiving men sent South by President Lincoln, and says—"We must require of all who are received that they join their efforts with ours against the common enemy. They must assume our allegiance and its duties."

☞ The Richmond Despatch of the 22d says—"Gov. Shorter, of Alabama, has demanded, under the order of the President, all the officers taken in Alabama, found serving with armed slaves, by Gen. Forrest."

☞ Landseer, the famous painter, was recently waylaid by some English young ladies, and made to draw a sketch of a dog for a fancy fair. The sketch sold for a £100 note.

☞ A meeting of house carpenters was held in Portland on Saturday evening last, and a resolution adopted that they would demand $2 per day after the 1st of June.

☞ The general election in France occurs on the 31st of May.

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the vice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, on Thursday next, May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

MARRIAGES.

LODI MANUFACTURING CO.'S

POUDRETTE.

J. F. SHORES, JR., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be **$1.70 per Barrel**, without regard to quantity, delivered at any wharf or depot in this city. ☞ A discount from this price to those who buy to sell again.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipesogee, Nov. 10, 1862.

Agents Lodi Manufacturing Co., Boston.

GENTS.—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use each an increased quantity this next spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops. Our mode of applying the Poudrette is, to put about a handful in each hill, and place the seed in direct contact. I think I shall want double the quantity next Spring that I had this year.

Yours, Respectfully,
AZEL HALEY,
Cashier Lake Bank, Wolfboro, N. H

Also for sale

Coe's Superphosphate of Lime.

Orders received for Breed's "FLOUR OF BONE," & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.

From the success met with last season, the subscriber flatters himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ESSEX MILLS, POUDRETTE, Newburyport, Ms." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.

I have received certificates of its value, a few of which are here inserted.

ALFRED, Me., Dec. 29, 1862.

Messrs. NOYES & LITTLEFIELD:—

Gents,—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette on his experiment, with but little faith in its utility. When I opened it I was fairly sick of it saying to myself it looks more like loam than any thing else, and is good for nothing; but how mistaken I was, for where I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by it.

Yours, truly, WILLIAM JEWETT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 28, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some, but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively,—also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

ATTENTION, THE WHOLE!

RYE, N.H., Feb. 26, 1862. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWEET'S PANACEA, and several bottles of his HUMOR WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JONATHAN JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1861.*

DR. SWEET: *Dear Sir*—Twenty years, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, unable to her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced taking your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicines one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N. H., promptly attended to. mar20ly

Wheat, Rye, Corn.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that the

Pure Bourbon Whiskey,

when made as it ought to be from

WHEAT, RYE AND CORN,

is without doubt, the most healthful and medical spirit that can be made. Having determined to make the sale of this article a specialty in his business, he has accepted the

General Selling Agency for a large Distillery in the Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf Whiskey."

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

The celebrated Wheat Whiskey will be put up in cases containing one dozen bottles each, and offered to the trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," and their orders for any quantity required to the General Depot for its sale, **91 Washington St. Boston.**

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

C. A. RICHARDS, General Agent.

Boston, May 19, 1862. 3mos.cod

HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *secret*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 3 feet long! or large enough to take six large plates on the bottom, except part of which will bake cake at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from passing to the room. With the extension top there is a large copper reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of a re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK,

Also on hand an assortment of the different sizes

—or the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and no more of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of the dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 50 to 60 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert B. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depression—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the contents of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean as sweet as easy as a tooth, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET.

Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, on the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in Rubber) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for Extracting is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. HARVEY, for particular success in extracting Teeth. Teeth extracted without pain and the perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Reputation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** In all other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and as a excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have used the Wine.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

☞ The Post states that a few mornings since a pair of very honest Hibernians in Boston were sent to recapture a canary which escaped from his cage and flew to a tree. One of them commenced to pelt him with stones, to dislodge him, when his companion cried out "hauld on Jack, I'll kitch the little divil *wid a bit o' salt on his tail.*" He then set the cage on the wall, directly beneath where the bird was perched, and handing to "Jack" a small glass vessel containing perhaps a gill of *fine salt*, he said, "now Jack, you watch wid you're eye, while I climb the tree and shake the spalpeen off, and when he comes down, *throw the salt on his tail* and then put the little divil in the cage!" Upon this, he threw his arms around the trunk of a tree of the circumference of some three and a half feet, clinging to it with dear life, and simply jerking his feet from the ground for ten minutes, when some persons, who had been enjoying the fun, laughed so heartily that Jack and his friend ran away and could not be found again for twenty-four hours.

JEALOUS OF HER CHARACTER.—This morning an Irish woman 50 years of age, called upon the city clerk and wanted a certificate of marriage. She had been unlawfully living the past fourteen years, she said, with a Celt by whom she had had six children, but they were all dead, bless their souls, and now she wished to have the nuptial knot tied. To use her own language, "Och," said she, "I wish to keep meself out of people's mouths. Bedad I should niver hear the last ov it, if I don't git married, an' it's me character that I'm lookin' out for." The certificate was granted.—*Portland Courier.*

Have you used the Strela Matches?
J. F. SHORES, JR., No. 1 Congress Block, has just received from the manufactory a large lot of
STRELA MATCHES.
These matches are without sulphur and without smell in burning, which adapts them for the Sick Room, the Parlor, or for general use, being nearly as cheap as any other kind of Matches. They are put up in boxes of 150 matches, and are sold at the low price of THREE cents per box, or 12 boxes containing 1800 matches for 25 cents—being 72 for a cent!
Dealers supplied at the manufacturer's price.

BUY CALIFORNIA WINES.
They are the Purest! The Best? The Cheapest!
"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.
The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.
The Port has a fine flavor and body; and The Port is excellent because it is pure.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, MAY 28, 1863.

THE REBELLION.

The impression prevails in the neighborhood of Rappahannock Station, that Stuart is concentrating a large body of his cavalry between Culpepper Court House and Brandon Station, Va. It is reported that he has sent about 100 men to reinforce Mosby that he may continue his depredations around our lines. The N. Y. Times, however, says there is no truth in the statements. Gen. Stahl telegraphs that there is no sign of the enemy on his front.

Adm. Porter reports that a strong casemated water battery, intended for eight 10-inch guns, had been discovered at Warrenton, Miss., by Lieut. Com'g Wilson, of the Mound City. He effectually destroyed it in an hour, the rebels having been five months in building it, working mostly day and night. The rebels set all the houses containing their stores on fire as the gunboats approached, and what they left Adm. Porter ordered to be destroyed. He says Warrenton had been a troublesome place and merited its fate.

A correspondent of a Cincinnati paper, who has returned from an extended tour to several outposts on the Cumberland, says the reports of large rebel forces in East Tennessee have been much exagerated.—Their principal numbers are collected in Wayne county, Ky., under Morgan and Wheeler.

From a private dispatch from an Illinois officer, dated on Sunday last, it is inferred that the city had not been captured up to that time. It is reported at Washington that the rear defences of the place are more formidable than at first supposed—that an inner line of works has been discovered, which it will be necessary to carry by storm. The siege is evidently a more laborious work than was by many anticipated. The N. Y. Tribune's dispatch states that Gen. Grant, in his dispatch on Friday, said that he had intercepted a dispatch from Jeff. Davis to Gen. Pemberton, in which he promised him reinforcements to the number of 100,000 men if he will only hold out two weeks. The World says editorially that Gen. Grant has been heavily reinforced since his right wing has been able to communicate with Adm. Porter, and with all his losses in battle he cannot have less than 60,000 effective troops. It is highly improbable that the rebels will be able to bring a force in his rear large enough to raise the siege. Johnson's and Loring's armies combined, it is admitted, are only 12,000 strong.

Gens. Grant and Banks and Adm. Porter are co-operating. All our accounts from Vicksburg are sanguine of ultimate success. Richmond papers of Tuesday give no later news from there, which is regarded as a good sign.

There are reports that Beauregard has left Charleston with most of his forces, and gone either to Virginia or the West.

The report through rebel sources of the capture of Helena, Ark., by Price, is false. The Cincinnati Gazette publishes letters from that place dated the 26th. Price was threatening an assault, but it was merely a feint to cover a contemplated movement on some other point.

It is hinted that Gen. Rosecrans' columns are already in motion.

The impression is gaining ground in Washington that Lee meditates an advance.

☞ The second anniversary of the Philadelphia Cooper Shop Volunteer Association was celebrated on Tuesday. Their report shows that 87,433 soldiers were fed during the year, while passing through the city. The receipts from subscriptions and the expenses were about $15,000.

☞ It is denied that there is any truth in the report that Gen. Burnside has asked to be relieved of the command of the Department of Ohio.

☞ Another correspondent, that of the N. Y. Tribune, at Hilton Head, denies that the rebels have recovered the guns of the Keokuk. He says they have been shelled away at every attempt.

☞ The New Orleans Era urges the importance of a federal move upon Mobile. It says the place may be captured before the fleet, the rebels are building there, is completed.

☞ The case of Gen. Jeff. C. Davis, for shooting and killing Gen. Nelson, has been continued until the next term of the Louisville Circuit Court. The indictment charges Gen. Davis with manslaughter.

☞ The Portland City Council have refused to permit dramatic entertainments in that city on Saturday evenings.

☞ The book-sellers in Portland have agreed to close their stores at half past six P. M., during the summer.

☞ Gen. Grant was 41 years old the 21st of last month. His birth-place is Point Pleasant, Ohio.

BATTLE EXTRAORDINARY IN ILLINOIS.—A few days since, at Shawneetown, Ill., a Colonel of volunteers found that he had let his house to a woman whose longer stay in it would not be creditable, and ordered her out. Having the advantage of contract and possession, neither coaxing nor threatening availed to induce the woman to vacate the premises.

The Colonel, determined to carry his point at all hazards, planted a battery, consisting of one 6-pounder, within point blank range. The feminine heroically stood her ground, and the Colonel opened a brisk cannonade upon his own house, three shots passing directly through it.

The Madame stood her ground bravely for a time, until the fire becoming too hot she changed her position, retired to the back yard and there formed a new line of battle. The firing of artillery ceased, and the Colonel cautiously advanced to reconnoitre in front.

Discovering that the enemy had been dislodged by his artillery, he advanced within the house, when the enemy opened a rapid fire upon him with a revolver, at short range, clipping locks of hair from both sides of his head and perforating his clothing.

Having emptied her six-shooter the Colonel opened fire in reply with a six-shooter, exhausting all his shot, without material loss to the enemy, who, becoming much demoralized, hung out a flag of truce and sued for peace, which was made, as it usually is made between belligerents—on the very terms proposed before the war commenced. She vamoused the ranche. The battle was spirited while it lasted, and produced great excitement in Shawneetown.

"LET WELL ENOUGH ALONE" is a proverb of great antiquity and wisdom, but it is not one which Americans regard with favor. Hence came abolitionism, secessionism, rebellion, civil war. From this restless spirit of change come bankruptcies innumerable and miseries incalculable. To abandon a legitimate calling for untried and perilous experiments is so common among us as to excite no marvel. Yet this erratic propensity is the ruin of thousands. For example (says a recent essayist), we find numbers of smart lawyers, skillful doctors, and first-rate mechanics, stepping out of the safe path to competence, and perhaps to eminence, which lies straight before them, into fields of speculation where they are almost sure to be overmatched by professional experts, whose business it is to entrap the verdant.

Wall street seems a veritable Dorado to some of those ambitious individuals; but after running the gauntlet between its bulls and bears for a few months or weeks, as the case may be, they usually come out with pockets to let and rueful visages. Others are caught by seductive advertisements, and risk their all in some scheme from which they stand about as much chance of realizing anything but a dead loss of cost and time, as they would of beating a Mississippi black leg at "unlimited loo."

There are a still more numerous class, who fancy they are destined to political preferment, and who go into the slang-whanging business at the expense of every sentiment of self-respect to find themselves at last the bankrupt dupes of shrewder demagogues than themselves.

In ninety-nine cases out of a hundred the man who forsakes his legitimate occupation for any employment or pursuit that he does not understand, is bitterly taught the truth of the maxim "Let well enough alone."—*N. Y. Argus.*

☞ Gen. Dix has issued an order directing the military officers of his department to unite with the medical officers in carrying out measures and regulations as will most effectually prevent the development of disease, and preserve the sanitary condition of the troops. The disinterment or removal from the department of any deceased person is prohibited until the winter months.

☞ The 2d Maine regiment (a two years' regiment) arrived in Bangor Tuesday morning, and were most enthusiastically received by the military, firemen, Knights Templar and citizens. A bountiful collation was prepared for them by the City Authorities, and welcome speeches were made by the Mayor, Vice President Hamlin, Ex-Gov. Washburn and others.

☞ In New York on Tuesday gold opened at 143 1-2 and 143 3-4, fell to 141 3-4 a 142 under the report that a dispatch had been received announcing that Vicksburg certainly was in our possession. It has since advanced to 144 3-7 a 145 on false reports that Lee was threatening Maryland.

☞ There is to be another celebration at Fort Popham, Me., this year. It might be well to have a special committee on clam chowder, with the Portland literary gentleman, who wrote so strongly against that furnished last year, as Chairman.

☞ The rebels find consolation in attacks on Pemberton's alleged lack of loyalty to their cause. They accuse him of selling out to Grant; also of planning the military operations of the last four weeks so as to insure the latter's success.

☞ The London Times admits that the capture of Vicksburg and Port Hudson would be one of the "substantial victories of the war." Let the admission be put on record. When these strongholds *are* captured, the Times may find it convenient to pooh-pooh at the result, and pronounce it of "no consequence."

NEW HAMPSHIRE ITEMS.

—— The citizens of Warren propose to celebrate the one hundredth anniversary of the settlement of that town, on Tuesday, the 14th day of July. William Little, Esq., of Manchester, has been invited to deliver an address, and the Rev. Ezekiel Dow, of Braintree, Mass., a poem.

—— At the annual meeting of the Montreal Railroad at Laconia on Monday, the old Board of Directors were re-elected by a unanimous vote. The annual report shows an improved condition of the corporation, and that its affairs are well managed.

—— The 2d Regiment, Col. Bailey, left Concord on their return to the seat of war, on Monday.

—— There are indications that there will be considerable rivalry among the Manchester papers in giving early reports of the next session of the Legislature. The Mirror announces that it will receive a synopsis by telegraph; the forenoon proceedings in season for the one o'clock edition in the afternoon, and the afternoon proceedings in season for its five o'clock edition. The proceedings of evening sessions will be published in the morning edition.

—— The Legislature will meet on Wednesday next.

—— The 3d N. H. Regiment reached Jersey City on Tuesday morning, and took an early train for Philadelphia and the South.

—— The Mirror states that the gross receipts of the Union Fair in Manchester were $4,430.90, and that the expenses will amount to about $500.

ENROLLING OFFICERS.

The following is a list of the towns composing the several Sub-Districts in the 1st N. H. District, with the enrolling officer in each sub district:—

ROCKINGHAM COUNTY.

District No. 1—Newcastle, Isle of Shoals and Ward Three in Portsmouth—Charles W. Bailey, Portsmouth, Enrolling Officer.

2—Wards 1 and 2 in Portsmouth—Oren Bragdon, Portsmouth.

3—Stratham, Greenland, Newington and Rye—Gilman H. Jenness, of Rye.

4—North Hampton, Hampton, Hampton Falls and Seabrook—Horace A. Godfrey, Hampton Falls.

5—Exeter, Newmarket and South New Market—George G. Lougee, Exeter.

6—Epping, Fremont, Brentwood—Geo. E. Lawrence, Epping.

7—Newton, Kingston, E. Kingston, Kensington and South Hampton—John L. Greeley, East Kingston.

8—Hampstead, Atkinson, Plaistow, Sandown and Danville—Caleb Moulton, Hampstead.

9—Londonderry, Derry, Windham and Salem—Robert C. Mack, Londonderry.

10 — Candia, Raymond, Auburn and Chester—Wm. Greenough, Chester.

11—Northwood, Deerfield and Nottingham—W. S. Ring, Northwood.

STRAFFORD COUNTY.

12—Dover—James M. Hayes, Dover.

13—Madbury, Durham, Lee and Rollinsford—John B. Saunders, Durham.

14—Somersworth, Barrington and Strafford—James B. Shapleigh, Somersworth.

15—Rochester and Milton—Joseph H. Worcester, Rochester.

16—Farmington, Middleton and New Durham—George P. Edgerly, Farmington.

BELKNAP COUNTY.

17—Alton, Barnstead and Gilmanton—John K. Woodman, Gilmanton.

18—Sanbornton, Gilford, Laconia and Upper Gilmanton—Warren H. Smith, Sanbornton.

19—Centre Harbor, Meredith and New Hampton—John M. Flanders.

CARROLL COUNTY.

20—Tuftonborough, Moultonborough and Sandwich—Ansel True.

21—Wolfborough, Brookfield and Wakefield—John G. Cate, Wakefield.

22—Tamworth, Ossipee, Effingham—James J. Clarke, Tamworth.

23—Freedom, Eaton and Conway—Leavitt H. Eastman, Conway.

24—Albany, Jackson, Bartlett, Chatham and Hart's Location—Samuel P. Meserve.

☞ The Cincinnati Enquirer says so far as the details of Vallandigham's imprisonment go, his friends make no complaint. He was treated as a gentleman by Gen. Burnside. His place of confinement was humane and comfortable, and his more intimate personal friends had access to him freely and at all hours.

☞ The Boston Post states that the late Stonewall Jackson at various periods of his life was afflicted with different forms of hypochondria. One of the manias was to believe that everything he eat went down and lodged in his left leg! At another time he would never eat except by the watch, at the precise hour; and he would take out his watch, lay it on the table, and eat at that moment. If the meal was behindhand he would not eat at all.

☞ In South Woodstock Me., recently the Rev. Mrs. Parker conducted the funeral services on the occasion of the burial of a lady parishioner. She is of the Methodist persuasion, and an acceptable preacher.

☞ The New Bedford Standard states that David Keith, who was found drowned in that harbor on Saturday, had deposits in several savings banks, amounting to about $2500, all of which he had saved from his earnings as a wood-sawyer.

☞ Twenty thousand brogan shoes for the negro soldiers are wanted by the Government.

BUSINESS NOTICES.

GRACE'S SALVE.—The increasing demand for Grace's salve from all sections, proves conclusively that it is surely working its way into the confidence of the people, as a remedy for the many external diseases that afflict mankind.

As a healing medium its virtues were tested many years in the Emerald Isle, and when that country had a name and fame, and could not only boast of the bravery in war, but the knowledge of the arts and sciences, and of its medical and surgical skill. The inventor of the salve was a physician and surgeon of high renown in the army, and his easy remedy for the cure of wounds, bruises, burns, sores, and in fact for nearly the whole list of ulcerations affecting the body, has stamped with a signet of approval the honor with which his name is held by his countrymen at the present time.

The extent of its usefulness in the old country is a remarkable feature of the salve, for we have the indisputable evidence that on the battle-field it was the most reliable remedy in use. And already in this country, although but recently introduced to the public, it is becoming the standard remedy for all the purposes to which a salve is applied. The proprietor is in possession of letters from persons of the highest character and responsibility, testifying in the most unequivocal terms to the cures effected in a great number of cases by its use. In this village we have known the most serious cases of salt-rheum cured by it, while several of our best citizens have tested its virtues and given it their approval. Therefore we have no hesitation in saying that the salve is all it professes to be—a speedy cure for nearly all external diseases.—*Amesbury Villager.*

VINUM SAMBUCI.—We have been shown specimens of sacramental or pure juice Wine, prepared by Mr ALFRED PRESTON, of Passaic, N. J., out of the Portuguese Elderberry, a valuable fruit which he cultivates in this country. In taste it assimilates to port without its heating qualities, being absolutely free from spirits further than the fermentation affords. Preference is given to it over all the other wines in New York and other hospitals, as a tonic, gentle stimulant, diuretic and sudorific. Mr. Preston has been nine years in the production of this Wine, and the newest wine he sells is four years old.

Dr. Chilton, the chemist, certifies to its purity and medicinal properties, and other eminent physicians attest its value as a tonic. It is difficult or impossible to get a glass of pure port wine for invalids, and this is a palatable substitute for the pure article, possessing many of the qualities of old port, being in fact considered superior.—*N. Y. Tribune.*

Our druggist Wm. R. Preston has procured some that is four years old, direct from the vineyard, and will furnish information and testimonials as to the virtues of the Sambuci.

More than one half the diseases of the human system are caused from the use of impure Breadstuffs; and as Saleratus and Soda are the essential properties for using, it becomes doubly necessary to be watchful. Herrick Allen's Gold Medal Saleratus is the only perfectly healthy article to be relied upon. Try one paper, and you will be convinced what we say is true. Never use Soda if you can procure this article. Go to your Grocer and get a paper. Depot 112 Liberty Street, New York.

MOCHA AND JAVA COFFEE.

(From the Celebrated Berry Mills, Lynn, Mass.)

This SPLENDID ARTICLE of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, D. P. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.

One Trial will convince the most skeptical of its merits.

☞ *TRY IT!* ☜

We are also introducing our

UNION COFFEE,

which has had the largest sale of any cheap Coffee in the market.

We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.

It will be found to make a clear, delicious coffee, equal to any 38. Domingo or Cape.

☞ All the Grocers have it.

N. BERRY & SONS,

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late firm of JONES & MENDUM for CASH, at low prices, for 30 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first class goods, and selected by the SUBSCRIBER WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c.' &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 CHARLES H. MENDUM.

School for Young Ladies.

MISS MILLER'S School is removed to the TEMPLE, where the Summer Term commenced on MONDAY, May 11, with accommodations for a few more scholars. Instruction given in the Latin and French languages, Music and Drawing, with the other branches of education usually pursued in such schools.

Private Tuition.

Young Ladies or Gentlemen wishing to pursue the study of Latin in fitting for college, or otherwise, can find an opportunity for such study under a private tutor, well qualified for this task, who has liberty to refer to REV. DR. PEABODY of Cambridge, C. CARTER, Esq., of Salem, both late of this city, and other gentlemen. Application may be made at MR. FOSTER'S Bookstore, or the Chronicle Office.

DR. JOHN C. MOTT, Physician and Surgeon,

☞ 86 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

☞ Superintendent Gilmore, of the Concord Railroad, President Kenrick of the C. & P. Road, Nat Head, Engineer Wescott, and others, made an early business trip to Portsmouth on Wednesday morning—leaving Concord in a special train about 4 o'clock, and arriving here in season for an early breakfast at the Rockingham House.

The work on the Concord Road's new wharves at the North End, is progressing favorably; and the excellent facilities to be there offered for heavy business, must materially increase the trade of this port and city.

☞ "Carleton's" lecture at the Temple, last evening, was mainly confined to descriptions of the naval fight at Memphis, the capture of Fort Donelson, the battle of Antietam, and the attack by the Monitors upon Charleston. He spoke an hour and three-quarters, holding the attention of his audience throughout in a manner which testified that he threw an additional interest and charm around the scenes which he described. His descriptive powers are remarkably good; to the oft wished for but seldom attained faculty of word-painting, he adds that no less desirable faculty which enables one permanently to fix in the minds of his hearers the exact relative positions of the localities mentioned, so that the picture is complete, vivid, and sharply defined in outline and minutiæ. Indeed, his lecture last evening consisted of four such pictures, causing his hearers to regret that time did not allow him to present the entire scene, of which those sketches gave such rich promise. These qualities, however, are rather those of the writer than of the speaker; yet while Mr. Coffin does not excel as an orator, his manner is comparatively easy and he leaves by no means an unfavorable impression in this respect. A more extended experience as a public speaker may enable him to correct faults of manner, &c., which even now may easily be overlooked by those who listen to him.

☞ Among the improvements going on about the city, we notice that the unsightly old brick pillars or monuments in front of the Rockingham House, have given place to a couple of good granite posts,—giving the whole front a much neater appearance, and considerably enlarging the entrance to the steps.

☞ Among the sales in Boston by J. L. Hénshaw, on Saturday, was $6000 Portsmouth 5's, 1883, for 102.

☞ Gov. Johnson, of Tennessee, has obtained authority from the War Department, officially approved by Gov. Seymour, to recruit a regiment of cavalry in New-York State for service in East Tennessee. He has also obtained permission to recruit in any State where the Executive will sanction it. All recruits will be duly credited to the State in its quota under the draft.

☞ In consequence of the sale of the Hancock estate, in Boston, the heirs have made a formal offer of gift of the house, furniture and fine old portraits, together with many other objects of historical interest, to the City of Boston—to be removed, and kept entire, as a museum of antiquity, open to the public forever.

☞ The New York Independent says: "Generals do not thrive under the drip of the Capital. At thirty six hours' distance from Washington armies and Generals succeed. At twenty hours' they just hold their own; but within six hours' they are as dead as a field of wheat under the shadow of upas trees."

☞ The Kinderbook Rough Notes says that John Van Buren, son of the late Ex-President Van Buren, has purchased the "Lindenwald" property for $30,000. It is reported that he intends to retire from active legal pursuits, and devote his attention to agriculture.

☞ A letter from an officer of the flagship Hartford, dated the 12th of May, says that the Hartford is still afloat, notwithstanding the numerous rebel reports of her destruction and capture, and that she still maintains her position at the mouth of the Red river in defiance of their threats.

☞ A letter from aboard the flagship Hartford says Gen. Banks has organized two regiments of native Louisianians. The Hartford sent him seven men, who had been hiding in the swamps six months.

☞ "Swedenborg observed that in Havana the English have a place all to themselves." So says an exchange. The item, which regularly goes the rounds of the press,—generally says "in Heaven."

☞ The body of a soldier in the 17th Maine regiment, was found in the water in Portland on Monday. He has been missing since February, and had been entered as a deserter.

☞ The Italian Government has commenced negotiating with France for putting a stop to brigandage upon the Roman frontier, which is said to be encouraged by the Roman Government.

☞ Through an error in the telegraphic dispatch, the people of San Francisco observed April 16th as the National Fast, instead of the 30th, as appointed by the President.

☞ The N. Y. Herald urges the re-nomination of Abraham Lincoln for President in 1864. The N. Y. Atlas hoists the name of Horatio Seymour.

☞ Gen. Meagher, who has resigned his commission, reached Washington Monday night, and will soon leave for New York, to retire to private life.

☞ The term of service of the Maine 27th regiment, enlisted chiefly in York Co., expires on the 30th of June. It is a nine months' regiment.

☞ During a period of about seven weeks railroad securities in New York have advanced on an average fully thirty per cent.

☞ Resolutions have been introduced in the Board of Councilmen in New York appropriating $1,000,000 to pay for the exemption of the "workingmen" of that city.

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening. Names for either class may be left at J. H. Head's store.

☞ S. O. Wheeler's great International Circus and Model Arena, will exhibit at Hale's Point, above Sagamore Mill, in this city, this day, Thursday May 28th, commencing at 2 and 7 P. M. Admission 25 cents.

Attention National Guard.

The members of the NATIONAL GUARD are hereby notified to meet at their armory in JEFFERSON HALL on THURSDAY EVENING, at 7½ o'clock, for a Street Drill. Per order

JAMES H. HEAD,
Clerk of the Company.

MEDITATIONS

ON

DEATH AND ETERNITY,

TRANSLATED FROM THE GERMAN OF ZSCHOKKE.

The circumstances under which this volume has been produced are very peculiar and interesting. It was a favorite book with Prince Albert, and he was constantly in the habit of having the "Meditations" read to him. After his death the Queen found much comfort in their perusal, and employed Miss Rowan to translate them, for private circulation among her own immediate family. The volume is now reprinted in America, where so many afflicted hearts are in deep and overwhelming sorrow, and need consolation.

TWO FRIENDS.

BY THE AUTHOR OF "THE PATIENCE OF HOPE," AND "PRESENT HEAVEN."

MISS DORA GREENWELL, the author of this new volume, has achieved a reputation in England and America, as one of the most thoughtful and suggestive writers of our day.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipiseogee, Nov. 10, 1864.

Agents Lodi Manufacturing Co., Boston.

GENTS.—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use such an increased quantity this next Spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops. Our mode of applying the Poudrette is, to put about a handful in each hill, and place the seed in direct contact. I think I shall want double the quantity next Spring that I had this year.

Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro, N. H.

Also for sale

Coe's Superphosate of Lime.

Orders received for Breed's "FLOUR OF BONE," & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same hill with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.

From the success met with last season, the subscriber flatters himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ESSEX MILLS, POUDRETTE, Newburyport, Ms." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.

I have received certificates of its value, a few of which are here inserted.

ALFRED, Me., Dec. 29, 1862.

Messrs. NOYES & LITTLEFIELD:—

GENTS.—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its utility. When I opened it I was fairly sick of it saying to myself it looks more like loam than any thing else, and is good for nothing; but how mistaken I was, for where I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was ripe two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.

Yours, truly, WILLIAM JEWETT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 28, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some, but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively,—also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

☞ ATTENTION, THE WHOLE! ☜

Rye, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years, some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been paid to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some few or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

Portsmouth, April 21st, 1852.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give my relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD,

From ELDER I. CHESLEY, Ev., May 31, 1841.

Dr. Swett: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors, and that from your visiting our house in the spring of 1840, she had been confined for a number of months, without the natural rest by day or night; and I also applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. MERRIT CLARK.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o

Wheat, Rye, Corn.

WHEAT — WHEAT

RYE, — RYE.

CORN. — CORN.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be, from WHEAT AND RYE, AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make this article of Whiskey a speciality in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY, manufactured from the BEST SELECTED WHEAT GRAINS, and made in the most careful manner.

This celebrated Whiskey will be put up in cases containing one dozen quart bottles, and offered to the Trade by his Traveling agents throughout the country, and always on hand in his warehouse in Boston, in bond, or duty paid, at his option.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire for or demand (from any Druggist or Grocer) "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, "311 Washington St., Boston."

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

C. A. RICHARDS, General Agent.
Boston, May 13, 1852. 6mos eod

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with theater, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large water Reservoir attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches and much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over those which many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which allow them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Greenleaf, Esq., Aaron H. Hill, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depression—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is equal to gum in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth.

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1853.

DENTISTRY.

No. 60 Congress Street, }
Portsmouth, Jan. 1st, 1853. }

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz. It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set of Gold

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

All other operations in Dentistry I will do at the usual rates. I will here mention that my price for Extraction is 25 cents.

I take pleasure in referring the public to Dr. Treadwell, Dr. Boardman, Dr. Oliver and Dr. Barrett, for particulars relative to extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. Wm. Grace surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. FRIDAY MAY 29 1863. NO. 86.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of a popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

ATTENTION, THE WHOLE!

EPPS, N.H., Feb. 26, 1846. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as the cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with diseases at my stomach, loss of appetite, and often vomitted up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Town ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our home in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may29o

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MAY 29, 1863.

THE REBELLION.

A council of war was held at the White House on Tuesday, at which the President, Sec. Stanton, Gens. Halleck and Hooker, and Asst. Sec. of the Navy Fox were present. It is said to have been the result of the last visit of Senators Wade and Chandler to the Army of the Potomac, and had reference to the offensive movements which the rebels in Virginia have been for some time threatening.

Gen. Grant's dispatch to the President on Tuesday is represented to have been very satisfactory in its details, but it contained information which, if published, might be useful to the enemy. Official dispatches to 4 o'clock Monday morning say all was then going on well. A special dispatch states that on Friday morning Gen. Pemberton sent a flag of truce to Gen. Grant, offering to surrender Vicksburg if Grant would allow the rebels lay down their arms and march out. The offer was refused.—Another dispatch says Gen. Grant's army is larger than has generally been supposed, that it stretches completely around the doomed city, each wing resting on the river. Rebel dispatches say their forces in Vicksburg have five months' supplies of every kind, and can be taken only when they have exhausted their supplies. The Richmond Whig, of May 25, briefly alludes to a rumor that Gen. Johnston has taken from Gen. Pemberton his sword, and placed him under arrest. We trust that act is to be reserved for Gen. Grant.

Jackson, Miss., has been destroyed, and our troops which occupied that place, are now acting as reinforcements to General Grant. The Richmond Enquirer, in speaking of the difficulty of an assault on Vicksburg, says that an attack can nowhere be made with a force equal to the garrison, and that on no side can more than 800 men be deployed in line for an assault. The character of the ground renders regular approaches difficult, while the heat and malaria of the country during the next six months of the year would make its siege at the present season one of the most murderous ones on record.

The rebels say Pemberton repulsed six attacks upon Vicksburg, but they greatly feared the next, which was about being made. They also say that Loring cut his way through at Haines' Bluff and escaped. The fact is, whoever commanded there was cut off from communication with the rebel forces at Vicksburg. The N. Y. Commercial says there can be no doubt that Gen. Grant had received ample reinforcements by the 25th.

A number of Tennessee conscripts in the fight at Raymond, Miss., refused to fire on our troops: they afterward deserted and have reached Cairo.

Recent reinforcements have secured New Orleans from any rebel invasion.

☞ A brig at Philadelphia from Pernambuco, brings Capt. Potter, of the ship Oneida as a passenger, who reports that his vessel, from Shanghae for New York, and bark Henrietta, from Baltimore for Rio Janeiro, were burnt by the Alabama on the 29th of April in lat. 1 40 S, lon. 29 30 W. The Alabama and Florida are cruising together. They had also destroyed previously the ship Louisa Hatch, from Cardiff for Singapore; ship Nora, from Liverpool for Calcutta; ship Charles Hill, from Liverpool for Montevideo; whaling barque Lafayette, brig Kate Koria, and schooner King Fisher.

☞ It is stated that the Court of Inquiry in the Corcoran-Kimball affair find that Lt. Col. Kimball was, at the time of halting Gen. Corcoran, intoxicated, and that he was not authorized in so halting him.

☞ The Press states that Gov. Coburn, of Maine, stopping at the United States Hotel, in Portland, was taken suddenly and very alarmingly ill on Wednesday afternoon. He became at evening more comfortable, but was not then considered out of danger.

HARVARD COLLEGE.—The Boston Journal states that the connection of Prof. E. M. Horsford with Harvard College has terminated, and there is a probability that Dr. Wolcott Gibbs, of New York, may become his successor.

☞ It is stated that the rebels in Texas have Gen. Hamilton's wife a prisoner, and will hold her as a hostage to check his labors in the North.

☞ D. H. Chandler, leader of the Portland Band has gone to Chantilly to take charge of the band of the twenty fifth Maine Regiment.

☞ 151 men have been enlisted at the naval rendezvous in Portland since the 1st of January.

Why is a lovely young lady like a hinge? Because she is something to adore.—*New Bedford Mercury.*

☞ The Mass. 54th regiment (colored) left for Port Royal on Thursday.

☞ A man residing in a city on the lower Kennebec, a short time since sent fifty dollars to the editor of the New York Journal of Commerce, with directions to pay one half over for the benefit of our sick and wounded soldiers, and send the other half to a Confederate hospital for the benefit of sick and wounded rebel soldiers. A few days afterwards he received a note from the editor, acknowledging the receipt of the money, and saying that he had paid twenty-five dollars to the Sanitary Commission, but as he had no communication with the rebels or the Confederacy, he respectfully returned the money! The story got out, and the Portland Press thought it too good to be kept.

☞ "Furniture Wives" was the name given by Charles Lamb to spouses selected to please the taste of friends and to answer the public demand—as some men buy pictures, not from any fancy for the particular pieces which they purchase, but to furnish their rooms according to the custom. A "brute" says there would be less objection to furniture-wives, if one could only exchange them, like other household stuff, when he is tired of the pattern.

☞ The valley to the Connecticut river will this season be appropriated almost exclusively to the culture of tobacco. In 1860 over six millions pounds of tobacco were raised in Connecticut and this year the amount will probably be doubled, which with the prices also doubled will render profitable returns to the producers. Connecticut is the tenth State in the Union in the amount of tobacco raised.

☞ An exchange states that the whole stock of tracts of the American Unitarian Association, many thousands in number, and weighing over a ton, were stolen in small lots from their store room in Boston and sold for paper stock, by a party of enterprizing little rascals. Several of the party have been detected and arrested, but the tracts have mostly gone into pulp.

☞ The payments made to the army within the last fortnight have amounted to $21,600,000. There are still unpaid $16,000,000, The troops yet unpaid are Gen. Grant's men, Rosecrans's, Gen. Schenck's, Gen. Heintzelman's and Gen. Peck's. The money is all ready for the Potomac army whenever the pay rolls are ready. Paymasters are now in New York with the funds en route to all the coast expeditions.

☞ The centennial anniversary of the settlement of Machias, Me., was celebrated in that town on the 20th. The usual ringing of bells, firing of cannon, speeches and a great procession were the order of the day. Prominent in this procession was a large kettle containing fourteen bushels of clams, drawn on a cart by a pair of oxen, which clams were made into "an enormous chowder!" One small boy, invited to a seat at the second table, it is asserted actually drank twelve cups of coffee, and eat a dozen doughnuts. It is thought probable that he will recover.

☞ The French reporters are ingenious. Their last thunder and lightning story is as follows: A lady and gentleman returning from a ball, given at Marseilles, found themselves overtaken by a thunderstorm. To the surprise of the gentleman he suddenly found his fair companion enveloped in flames. It would appear that the electric fluid had communicated with the steel of the crinoline, and ignited her dress.

☞ The Hon. Zadock Pratt, of Prattsville, New York, is preparing a colossal statue of his son, the late Col. George W. Pratt, cut in solid rock, just above Prattsville, where the Scobarrie river bends abruptly to the west, washing the base of an overhanging limestone cliff. Mr. Pratt is eccentric. A large and elaborately wrought tombstone near his house commemorates a favorite horse.

☞ Two valuable estates in Detroit, Mich., the property of rebels, have been seized under the confiscation act. One is that of Maj. Thomas Rowland, who has been dead for some years, the estate belonging to his grandchildren, living in Virginia. The other is that of Elisha Brevoort, now said to be in Texas.

☞ It is stated that fresh water salmon are caught at Ellsworth Me. It is said that they went up the Union river, on which Ellsworth is situated, many years ago, before the mills and the dams were built, remained there, could not get back, and so concluded to stay and multiply.

☞ A wealthy Frenchman in Naples recently committed suicide by cutting off his head with a guillotine of his own contrivance, which he had erected in his apartments. He was found neatly beheaded, and his head in a basket.

☞ The Boston Transcript learns from a paroled prisoner just from Richmond, that the rebel officers admit that Stonewall Jackson owed his death to Yankee balls fired from our rifle pits, by a part of the 1st Mass. regiment.

NEW HAMPSHIRE ITEMS.

—— A somewhat interesting case has occupied the Probate Court in Manchester for a week past,—a petition for the appointment of a guardian over a man who now possesses an ample fortune, but who was charged by those who are personally interested in the preservation of that fortune intact, with spending his money unwisely, and being likely to become a public charge. Fifty-three witnesses were examined. The decision of the Judge was averse to the appointment of a guardian.

—— The Caswell Hotel at Derry Village was burned at about half past one o'clock, on Sunday morning, the 24th.

—— Mr. L. H. Caldwell of the 9th N. H. Regiment, badly wounded in the service of his country, recently received from the citizens of Exeter the sum of $65, and from students of Phillips Academy $32, on his return from the seat of war, on his way to his friends in Maine. He is one of six brothers who have served in the present war.

——The Enquirer states that on Monday evening about six o'clock, a nice looking horse and carriage was found straying through the streets of Dover with a man and woman in charge too much intoxicated to guide the more respectable brute which drew them, or even to maintain an erect position in the carriage. A police officer took them in charge and conveyed them to the lock-up, from whence they resumed their journey the next morning, a soberer, if not a better couple.

—— A letter from Lancaster, Ky., 20th, states that Col. Walter Harriman of the 11th N. H. Regiment, is in temporary command of the 2d brigade, 2d Division, 9th Army corps, and that they are soon to move down the river to attack the rebel Gen. Morgan, who has a large force under him, on the Cumberland river, about 30 miles from where they are now encamped.

—— Ex-Gov. Noah Martin died suddenly in Dover on Thursday morning, of apoplexy.

—— The 2d regiment is now said to number 650 effective men. They are armed with Springfield rifles with the exception of Co. B, formerly known as the "Goodwin Rifles," which is supplied with Sharpe's weapon. A band of fifteen musicians, detailed from the ranks, furnish music for the corps. The regiment has passed through seventeen battles, and now return to the post of labor, eager and willing to do a soldier's duty, and with a steady endeavor to preserve the high and glowing fame that for the past two years has been freely accorded to this brave regiment of the Granite State. The following is the roster:—

Colonel, Edward L. Bailey, Manchester; Lt. Colonel, James W. Carr, Manchester; Major, Sam'l P. Sayles, Dover; Adjutant, Albert M. Perkins, Exeter; Quartermaster, James A. Cook, Claremont; Surgeon, J. M. Merrow, Salmon Falls; Assistant Surgeons, Sylvanus Buntin, Manchester, Wm. P. Stone, Danbury; Quartermaster Sergeant, Joseph H. Wilkinson, Fisherville; Hospital Steward, William. G. Stark, Manchester.

Co. A.—Captain, H. D. F. Young, Lancaster; Lieutenants, L. M. Converse, Marlboro', Silas L. Haywood, Fitzwilliam.

Co. B.—Captain, Joseph Hubbard, Manchester; Lieutenants, William W. Ballard, Littleton, George M. Shute, Concord.

Co. C.—Captain, John F. Holman, Great Falls; Lieutenants, George W. Roberts, Dover, Frank C. Wesley, Manchester.

Co. D.—Captain, Geo. E. Sides, Portsmouth; Lieutenants, Henry H. Hayward, Dover, Enoch G. Adams, Durham.

Co. E.—Captain, Wm. B. Smith, Exeter; Lieutenant, Jacob Hall, Barrington.

Co. F.—Captain, H. N. Metcalf, Keene; Lieutenants, H. R. Richardson, Lancaster, James H. Baker, ——.

Co. G.—Captain, James H. Platt, Manchester; Lieutenants, David Steele, Antrim, Edmund Dascomb, Greenfield.

Co. H.—Captain, J. N. Patterson, Contoocookville; Lieutenants, John D. Cooper, Concord, Andrew G. Bracey, Great Falls.

Co. I.—Captain, George W. Gordon, Allenstown; Lieutenants, Oscar A. Moar, Manchester, Charles Vickery, Derry.

Co. K.—Captain, Samuel O. Burnham, Pembroke; Lieutenants, Charles H. Shute, Concord, Charles W. Patch, Portsmouth.

☞ Gould & Lincoln, Boston, have just published their "1863 Annual of Scientific Discovery, and Book of Facts in Science and Arts." It is a closely printed volume o near 350 pages duodecimo,—edited by Dr. David M. Wells,—and crowded with the matter indicated by the title. It is for sale by J. H. Foster and J. F. Shores.

☞ A dispatch from San Francisco, says it is not believed here that the French have abandoned the siege of Puebla. On the 30th April, Ortega in Puebla advised Comonfort by special courier that the French continued the bombardment, and were constructing ditches and mines preparatory to another assault. This appears to be later news than any received from Puebla via Havana, and comes entirely through Mexican sources.

Quilp being about to leave town, remarked to his servant that he should "start for New York to-morrow, *Deo volente*," (God willing.) "What route is that, sir?" enquired the valet. "By way of Providence, of course!" replied Quilp.

BENEDICT ARNOLD.

Every school boy, who has read a history of the American Revolution, remembers the story of Benedict Arnold, the traitor. After betraying his command at West Point, he entered the British service, and did all the harm he could, to our people and cause. The following is an extract from his Proclamation to the citizens and soldiers of the United States, issued Oct. 20, 1780, which will be read with interest at the present time.

You are promised liberty by the leaders of your affairs, but is there an individual in the enjoyment of it, saving your oppressors? Who among you dare speak or write what he thinks against the tyranny which has robbed you of your property, imprisons your sons, *drags you to the field of battle, and is daily deluging your country with your blood?*

Your country once was happy, and had the proffered *Peace* been embraced, the last two years of misery had been spent in peace and plenty, and repairing the desolation of a quarrel that would have set the interests of Great Britain and America in a true light, and cemented their friendship.

I wish to lead a chosen band of Americans to the attainment of *peace, liberty* and *safety*, the first objects in taking the field.

What is America but a land of widows, orphans and beggars—but what need of arguments to such as feel infinitely more misery than tongue can express? I give my promise of most affectionate welcome to all who are disposed to join me in measures necessary to close the scene of our affliction, which must be increased until we are content with the liberality of the parent country, who still offers us protection and perpetual exemption from all taxes but such as we shall think fit to impose upon ourselves. BENEDICT ARNOLD.

☞ It is stated to be a fact that, with one single exception, the entire daily and weekly press of New York city have pronounced against the action of the Administration in its arrest of Mr. Vallandigham.

ICE. ICE. ICE.

JOSEPH W. WHIDDEN

is fully prepared to furnish regular and transient customers, promptly, with ICE of the purest and best quality, as heretofore, on the most terms, and would solicit the patronage of old friends and the public generally.

Orders may be left at the stores of Messrs. John Rider & Son, corner Penhallow and Bow streets, or John Stokell, Market street. may29

A CARD.—The subscriber would render his sincere thanks to the kind friends who surprised him with the present of that elegant PITCHER, the other evening—and extend the hope that their cup of happiness may never run dry.

Portsmouth, May 29, 1863. ARAD TIBBETTS.

Wanted.

A Woman as NURSERY MAID. Must be twenty years of age or more, and bring the best references. No others wanted. Apply between 9 and 10 o'clock A. M. to CHARLES AMORY, Jr., Christian Shore.

MOCHA AND JAVA COFFEE.

(From the Celebrated Berry Mills, Lynn, Mass.)

This SPLENDID ARTICLE of Coffee is for sale by MOULTON & BLAISDELL, H. F. GERRISH, O. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.

It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.

One Trial will convince the most skeptical of its merits.

☞ *TRY IT!* ☜

We are also introducing our

UNION COFFEE,

which has had the largest sale of any cheap Coffee in the market.

We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.

It will be found to make a clear, delicious coffee, equal to any St. Domingo or Cape.

☞ All the Grocers have it.

N. BERRY & SONS,
Proprietors of "Berry's Mills,"
3mdaw my27 Lynn, Mass.

Diarrhœa & Dysentery

will decimate the Volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him, a full supply of HOLLOWAY'S PILLS. Their use in India and the Crimea saved thousands of British soldiers.—Only 25 cents per box. 213

Sewing Machine for Sale.

An excellent SEWING MACHINE in perfect order—the machinery of which is so simple that it requires less labor and skill than any other machine in the market, may be found at Mr. Wendell's auction room and will be sold on Saturday next at 10 o'clock. May 28.

House For Sale.

The convenient DWELLING HOUSE No. 28 Hanover Street, recently occupied by JAMES PINDAR. Apply to N. F. MATHES, 48 MARKET ST.

Sawing Machine for sale.

A 1-horse power SAWING MACHINE, has been used for a short time, will be sold cheap, as I am out of the wood business and have no further use for it. Also a small HORSE CART for sale. Apply to SAMUEL G. HOOPER, ma27 10 & 12 Water Street.

Single copies 3 cents, in all cases.

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"the party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Notice.

The subscriber will offer for sale the whole stock of the late firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish as the stock is all first class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 CHARLES H. MENDUM.

School for Young Ladies.

MISS MILLER'S School is removed to TEMPLE, where the Summer Term commence on MONDAY, May 11, 1863, accommodations for a few more scholars. Instruction given in the Latin and French languages, Music and Drawing, with the other branches of education usually pursued in such schools.

Private Tuition.

Young Ladies or Gentlemen wishing to pursue the study of Latin in fitting for college or otherwise, can find an opportunity for such study under a private tutor, well qualified for this task, who is at liberty to refer to REV. DR. PEABODY of Cambridge, O. CARLTON, Esq., of Salem, both late of this city, and other gentlemen. Application may be made at MR. FOSTER'S Bookstore, or the Chronicle Office.

DR. JOHN C. MOTT,
Physician and Surgeon,

☞ 86 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Tumors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

SEASONABLE,—Mr. Whidden's Ice advertisement—and he will deliver the refreshing crystal in a manner to satisfy all who give him their orders, too.

Also, Mr. Avery's announcement of the new Ice Cream Soda—which is really a delicious beverage, judging from our liberal sample. Avery certainly ought to know how to draw cool soda—he is "cool" enough himself, and a most careful and attentive shopkeeper.

We also learn that arrangements are being made to procure the much-needed sprinkling of our streets. A private subscription paper is being circulated, which of course everybody who is anybody will sign; and probably the City may do something towards the object. And another thing is much needed,—either with or without the sprinkler, viz. that our streets be swept and cleaned up oftener; and that lazy, wasteful and slovenly clerks cease the outrageous practice of sweeping their store dirt, paper, and other litter into the street, to blow about on decent people's premises.

☞ A few of the friends of Mr. Tibbetts took possession of his saloon one evening this week; and the spokesman of the party, who is as fond of a good time as of a crack yacht, improved the occasion by presenting him of oyster and fixings celebrity, with a very handsome PITCHER, inscribed and "Presented to Arad Tibbetts by his friends,"—and which couldn't fail to suit to A. T. It may be seen at Mr. Bennett's jewelry store window for a few days.

GOOD, SO.—A good story is told us by a South Ender. A night or two ago, an old Yorker, seceeh, told a party of the St. Lawrence tars, that if they would hurrah for Jeff. Davis, in Water street, he would stand treat. They apparently agreed, but on getting to the appointed place for treat, Jack, finding he could not get his drink first, and having no mind to insult the flag, all hands pitched into the Yorker and gave him a tremendous pummeling. Served him right.

☞ A dispatch received in this city on Wednesday morning, stated that Thomas Osborne, who had stolen some coats, pants, and children's clothing from a hotel in Newburyport, on that day, had taken the morning train for Portland. Officer Johnson proceeded to the train on its arrival in this city, and from the slight description of the thief which was given in the dispatch, detected him among the other passengers and arrested him. He took him back by the next train; in the afternoon attended his trial, and returned to this city in the half past five o'clock train.

☞ The pleasure-goers will be glad to learn that the Gerrish House, at Kittery Point, is to be open to the public this season. This is one of the most beautifully located watering-places on the Atlantic coast; and the vicinity abounds in picturesque land and water scenery, and is rich with historic interest. We understand that it has been leased by Miss Nickerson.

☞ We are informed that Messrs. Job Jenness & Son meet everywhere with the most liberal encouragement to effect the proposed new Ocean House at Rye Beach; but owing to the very high ruling prices of lumber and building materials, are advised to defer the construction of the same for the present.

☞ It is stated that the artillery company, recruited by Capt. Long in Concord and other towns for service at Fort Constitution, is expected to arrive in this city to-day.

☞ The Ballot states that a private watchman on one of the wharves of this city, a few nights ago on awaking from his slumbers found himself floundering in the river, having from some unaccountable cause tumbled overboard. He was rescued from drowning, and his experience should serve as a caution to somnambulists, not to serve as watchman on the wharves.

GOOD COFFEE is so scarce, and poor impure stuff bearing the name, so plenty, that all lovers and judges of the real article will rejoice at the advertisement in our columns this morning, from the old and reliable "Berry's Mills," at Lynn,—telling where a prime coffee can be obtained, at a low price, or a cheaper but good article for those who wish. Some of our best grocers have sold coffee from these mills for years, and the high repute so long maintained by the proprietors, is sufficient guarantee for reliance on their brands.

☞ The latest sensation in Portland is a certain window in a certain store on a certain street in that city, which will shake violently at the word of command from the book-keeper employed in the establishment, and stop shaking at his will. It will shake a long time or short, affirmatively or negatively, in answer to questions.

☞ It is believed, from private advices, that two English propellers ran the blockade of New Inlet, on the North Carolina coast, about two weeks ago.

ODE TO SPRING.

BY A LAWYER.

Whereas, on certain boughs and sprays,
Now divers birds are heard to sing,
And sundry flowers their heads upraise,
Hail to the return of Spring

The songs of those said birds arouse,
The memory of our youthful hours,
As green as those said sprays and boughs,
As fresh and sweet as those said flowers.

The birds aforesaid, happy pairs
Love 'mid the aforesaid boughs enshrines,
In freehold rent; themselves, their heirs,
Administrators and assigns.

O, busiest term of Cupid's court!
Where tender plaintiffs actions bring,
Season of frolic and of sport!
Hail, as aforesaid, coming Spring!

CUMBERLAND, 86. A true copy, Attest.

ABOUT WOMEN some queer things are said, which only the professed satirists have the hardihood to publish. Everybody remembers Punch's aphorism that "men want all they can get, and women all they *can't* get." Starr King said in a lecture that whenever three women are walking together, *two* of them are laughing." We have ourselves remarked that of the men and women whom we meet in a fashionable promenade, the latter as a general thing, have the more cheerful look. An ill-natured bachelor, to whom we mentioned the fact, said it was owing to their greater pride of apparel! "A well dressed woman," said the impudent churl, "is always happy." It has been noticed that invariably fat women envy the lean ones, and the lean ones, the fat. A recent writer contributes the following:—"The smaller a lady is, so much the more does she affect sunflower rosettes, enormous flounces, and extra-sized ornaments. Diminutive ladies invariably admire giant-like gentlemen—and *vice versa*. Ladies who are greatly admired by their own sex, are very seldom viewed in the same light by gentlemen. If you walk up the street with a bouquet in your hand, nine women out of ten will look attentively at it, while not one man out of ten will notice its existence.—*N. Y. Argus.*

The Machias Union says "no epithet coined from the English language can be more detestable" than "Abolitionist or Republican." It is the synonym of bigotry, superstition, selfishness and barbarism." Of course, then, Slavery, which stands opposed to abolition, is the synonym of catholicity, mental illumination, benevolence and christian civilization! With this definition why not amend the New Testament, and substitute slavery for charity in the 13th chapter of 1st Corinthians? "Now abideth faith, hope and slavery, these three, but the greatest of these is slavery!" How would that sound?—*Portland Press.*

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

DEATHS.

In this city, May 28th, Mrs. MARIA E. HILTON, aged 27 years, wife of Richard Hilton.

Funeral on Saturday afternoon at 2 o'clock, from their residence, No. 20 Cabot street. Friends and relatives are invited to attend.

VEGETABLE & FLOWER SEEDS.

LODI MANUFACTURING CO.'S POUDRETTE.

J. F. SHORES, JR., No. 1 Congress Block, has now on hand a large supply of this valuable manure. The price this year will be **$1.70 per Barrel**, without regard to quantity, delivered at any wharf or depot in this city. ☞ A discount from this price to those who buy to sell again.

Read the following recommendation from the Cashier of the Lake Bank, Wolfboro', N. H.

WOLFBORO, N. H., Lake Winnipisseogee, Nov. 10, 1864.

Agents Lodi Manufacturing Co., Boston.

GENTS.:—I have used the Poudrette made by your Co. for two years. The first year I used four barrels, and experimented with it on both corn and potatoes. I was pleased and satisfied with the result, and the past season purchased over 100 barrels for my own use, and my neighbors. I think some twenty-five different farmers tried and used the Poudrette on my recommendation, and all have this Fall expressed themselves entirely satisfied to use each an increased quantity this next Spring. Planting season comes late, and we have very early frosts, and the Poudrette ripens our corn from two to three weeks earlier. We have also found it a preventative of the wire worm, which oftentimes destroys our entire crops. Our mode of applying the Poudrette is, to put about a handful in each hill, and plant the seed in direct contact. I think I shall want double the quantity next Spring that I had this year.

Yours, Respectfully,
ABEL HALEY,
Cashier Lake Bank, Wolfboro, N. H.

Also for sale

Coe's Superphosate of Lime.

Orders received for Breed's 'FLOUR OF BONE,' & AMMONIATED PACIFIC GUANO.

NEWBURYPORT POUDRETTE.

An article so well known as POUDRETTE may need no remarks to show its superiority to any other Fertilizer. The basis of this Fertilizer is Night Soil, obtained in Newburyport, from deep vaults—the accumulation in many cases of many years—so that it is highly concentrated. By mechanical means it is rendered very fine and dry, so that no inconvenience can result from its use.

It is very useful in starting the young plants, being just warm enough to sprout the seed without burning it. It makes the plant more thrifty, and consequently the crop is greater; this is especially true of corn and garden vegetables.

It contains no noxious weeds or larvæ of insects, which are almost always found in barnyard manure. Insects will not remain in the same place with Poudrette. Its cheapness cannot fail to recommend it. One barrel of Poudrette being equal to a load of barnyard manure.

From the success met with last season, the subscriber finders himself that he can manufacture an article superior to any in the market.

I shall use as my trade mark the brand, "ESSEX MILLS, POUDRETTE, Newburyport, Mass." All persons should see for themselves that they get the genuine and no other, as every barrel will be branded as above.

HIRAM LITTLEFIELD,
(late NOYES & LITTLEFIELD,)
Newburyport, Mass.

Certificates.

I have received certificates of its value, a few of which are here inserted.

ALFRED, Me., Dec. 29, 1862.

MESSRS. NOYES & LITTLEFIELD:—

Gents,—Last Spring I obtained of Wm. H. Conant, one barrel of your Poudrette as an experiment, with but little faith in its utility. When I opened it I was fairly sick of it saying to myself it looks more like loam than any thing else, and is good for nothing; but how mistaken I was, for when I used it I think I got from one-third to one-half more corn than where I used barn yard manure only, the corn being heavier and was two weeks earlier. I think it is just the thing for raising corn in this country. Sometimes a whole crop of corn might be saved by its use.

Yours, truly, WILLIAM JEWEIT.

Extract of a letter of P. H. Falls.

SALMON FALLS, N. H., Sept. 28, 1862.

I received the Poudrette and used it nearly all on my place; there were a number of farmers that intended to have some, but were afraid to use it, thought it was a new thing and a humbug, and did not take any. I used it myself and think it is as good as any Poudrette I have used before. Another year I shall use it more extensively.—I also my neighbors will want considerable about here.

PORTSMOUTH, N. H., January, 1863.

This may certify that we have used the last season, Noyes & Littlefield's Poudrette, and find it superior to any we ever used before, and would recommend it to the public generally.

Palatable and Healthy.

Prepared from Rock Rose, Sarsaparilla, Duck Root, and a great variety of Roots & Herbs.

Preserved in the best Sherry Wine and Whiskey

Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face, and Humors of all kinds.

They are safe for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.

N. B.—If you wish a good Bitter, *Call for Clarke's, and take no other.*

Beware of all imitations, as they contain vile drugs and cheap poisonous liquors, which will destroy your health and life quicker than disease.

Our system is to keep up the quality and make the price in proportion.

Sold by druggists, grocers, hotel-keepers and dealers generally.

Manufactured by E. R. CLARKE, Sharon, Ms.

Trade only 50 cents for the Trial Bottle, 75 cts. for one quart, $1.50 two quarts.

Sold in Portsmouth at wholesale and retail by N. F. MATTS, 45 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Assist. of U. S. Patent Office, Washington, (*see Act of 1837.*)

75 State Street, opposite Kilby Street, BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers and Models for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials be low given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of decisions and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full access to models granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable as* / *successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more competent, conscientious and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN Patents, on all but one of which Patents have already been granted, and that is now pending, such unmistakable proof of great talent and ability on his part, as to inspire confidence and induce me to apply to him to procure their patents, as they may be surely having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made or twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

Boston, Dec. 2, 1862. 3mwly

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed to cure, without exception, failed to cure the most alarming cases of

GONORRHEA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Seminal Weakness, Gonorrhœa, Ulcers, pain and distress in the regions of prostrations, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and alarming effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Loss of the Hair, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are such to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, Hypochondria, Melancholy, the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving a description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, such as Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new physiological principles, and speedy relief is warranted in a few days, and invariably certain in the new mode of treatment, that most obstinate complaints yield under it, and the afflicted females again rejoice in perfect health.

Dr. Dow has no doubt had greater experience in the care of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charge Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow has and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1862. eodly.

Boy Wanted.

A BOY to learn the Printer's Trade—at the Chronicle Office.

Advertisements in large reading matter type, charged double per Square, the smaller type.

"Special Notices" double the common rates.

Leaded notices in editorial columns, 10 cents per line each insertion; and no statement of fact or opinion, will be adopted or endorsed as editorial, unless within the knowledge or belief of the editors.

Solid notices in reading-matter type and columns, and having "credits" attached, 5 cents per line, each insertion. After first hundred lines, 3 cents per line.

☞ All papers more than one copy per month, sent to advertisers, will be charged for.

Private Notices and other Legal advertising at regular rates.

Notices of Funerals, articles Lost and Found, &c., 25 cts. for one or three insertions. Records of Marriages, Deaths and Births *should* also be paid for, and a similar fee will be accepted when proffered.

Terms always Cash, and no advertisement inserted without advance payment, except where accounts are open.

Portsmouth, N. H., Jan. 1, 1863.

N. B.—"THE DAILY CHRONICLE" and "THE NEW HAMPSHIRE GAZETTE" are two distinct papers, having separate and entirely different circulations; and no advertisement, having to be made for advertising in both, other than on the above double terms. Contracts for advertising in the two papers, must be separately made.

S. R. Niles, American Newspaper Advertising Agent, No. 1 Scollay's Buildings, Court Street, Boston, is Agent for The Chronicle and The Gazette; and is authorized to receipt for subscriptions and advertisements at our best terms

S. M. Pettingill & Co., No. 37 Park Row, NEW YORK, and 6 State St., BOSTON, are Agents for The Chronicle and The Gazette in those cities; and are authorized to take ADVERTISEMENTS and Subscriptions for us at our lowest rates.

E. A. STEVENS,

NO. 46 MARKET STREET.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, making large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The draft is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise

We would refer to the following purchasers:

Portsmouth.

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the Furnace produces headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, rush off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are thus compelled to the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated heat, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are liable to fall and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, and the ashes of the coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert E. Hatch, Esq.,
Aaron H. Wood,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

December 5th, 1862. ly

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all respects better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth.

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DR. GOODALL,

DENTIST,

60 Congress St,

PORTSMOUTH.

Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he had of late many calls to insert teeth upon VULCANIZED RUBBER; that he has purchased the right of the Patent in this market, and is now prepared to do all work on RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions or open joints to collect food, and consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with this Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates.

I would respectfully mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TRASKS, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Nitrous Oxide Gas.

Persons desiring to preserve their natural teeth, will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by DR. WM. GRACE surgeon in King James's army. Through it agency he cured thousands of most serious sore and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

A GIGANTIC SWINDLE.—The Rochester, N. Y., Union gives the particulars of one of the most stupendous frauds of the day, perpetrated by a single individual, which has just come to light. The sufferer is a well known and wealthy citizen of that city, Aristarchus Champion, and the alleged swindler is Luther Calvin Saxton. It appears that Saxton went there to reside something over two years ago, with his family. He was a man pretending to deep religious feeling, and an earnest supporter of great reforms. He worked himself into the confidence of Mr. Champion so long ago as July, 1861. Saxton pretended to be the managing man of an immense concern, known as the "Union Book Company" with a capital of $3,000,000, engaged in the publication of books, religious, moral, historical and scientific. It was represented that 24 libraries were to be published, embracing over 5000 different works. The titles of these books were given in a magazine purporting to be issued by the Company in New York, called the Union Magazine. It is understood that but one copy of this periodical was ever issued, and that was probably prepared for the purpose to which it was devoted. Mr. Champion became interested in the project, and he made over in notes and mortages to Saxton about $100,000 for stock in the "Union Book Co." As the operations of this company extended to Great Britain, the mortages were made payable in London, interest and all.

Saxton went to Europe last year and returned with another big scheme to Mr. Champion. This was the "International Manufacturing Company," to operate in both hemispheres with a capital of one hundred millions, liable to be raised to one thousand millions. The details of the plan and of the operation of this company were drawn up by Mr. Saxton, and he and Mr. C. were to be the American managers. It was clearly demonstrated upon paper that $13,000,000 could be realized per annum upon the $100,000,000 with which the company commenced operations.

Saxton represented that he had an immense property in New Jersey, which could be put in as capital to this company for five millions, if a certain cloud resting upon it could be removed. It would cost fifty thousand to remove this cloud, and that amount Mr. C. advanced his paper for, and Saxton realized within three hundred dollars of the whole sum.

For a period of nearly two years this confidence game has been played, and Mr. Champion had no distrust of Saxton until a few days since, when he addressed letters to W. B. Astor and others in New York, with whom Saxton pretended to be intimate, and who had stock in his companies, as he represented, and answers came that they did not know the man.

Last week, Mr. Champion put the matter into the hands of his attorneys, a warrant was issued and on Saturday Saxton was arrested at the Astor House, in New-York. It is by no means probable that any considerable portion of the amount received, $150,000, will be recovered.

Saxton is about 55 years of age and has practiced law.

A MUSICAL BED.—Foreign journals speak of an invention just produced in Germany, namely, a musical bed, so constructed that, by means of a concealed piece of mechanism, the pressure of the body produces the softest harmony, which lasts long enough to lull one to sleep. At the head of the bed is a dial with a hand which can be placed at whatever hour the person wishes to awake; and at the time fixed the bed plays a march of Spontini, with drums and cymbals, loud enough to wake the soundest sleeper.

Portsmouth, N. H.

SATURDAY, MAY 30, 1863.

THE REBELLION.

An expedition on the 22d from Newbern, N. C., under Col. Jones, surprised three rebel regiments at Gum Swamp and routed them. The rebels lost several wounded and 200 prisoners, with several officers, arms, equipments, &c. Our troops, having accomplished their object, returned, but were followed by a rebel force, which did no damage, their advance being kept in check by the Federal artillery. Col. Jones succeeded in getting all his men and prisoners inside his own lines. He soon afterwards went out with two companies to meet an attack upon an outpost by a large force of rebels, and was shot through the breast and instantly killed. Seven of our men were wounded and eight taken prisoners.

Dispatches to the New York papers, dated 28th, say Lee's army is evidently moving, and seems to be threatening to cross somewhere up the river.

Gen. Rosecrans, the Government declares, is so vigilant and well informed as to the movements of the enemy, as to render the escape of Grant from his front without his knowledge quite out of the question.

Nothing official has been received from Gen. Grant. Other accounts to the 25th state that the attack on Vicksburg was progressing, and that Gen. Grant was gaining ground. There was no fighting on Sunday. The rebels say Johnston is massing a large force at the Big Black river bridge. Gen. Banks is reported to be moving up the Mississippi.

The rebels report that Cheatham and Featherstone were wounded in the Mississippi fight.

Two divisions of Bragg's army are said to be on their way south.

THE LATE CAPTAIN RAND.—A very feeling and touching as well as deserved complimentary Preamble and Resolutions, were adopted by the officers of the 1st Massachusetts regiment, concerning the death of Capt. Charles E. Rand,—of which we give a portion:

Whereas, Capt. Rand received his death wound while in the brave and faithful discharge of his duty on the fiercely contested field of Chancellorsville, and

Whereas, It becomes us to give public and united recognition of his many excellent qualities as a man and his valor as a soldier, and to join our regrets with those of his family and friends who have been most deeply bereaved by his death; Therefore

Resolved, That we bow in reverence and submission to the decree of Him in whose hands are the issues of life and death, who is too wise to err, too good to be unkind, and who recalls his earthly children to Himself only when their mission in the flesh has been accomplished.

Resolved, That Capt. Rand, struck down in the place of peril and at the post of honor, deserves the encomiums of all who share the blessings of our common Government, for his heroism in sacrificing his life in its defence, and his memory should be cherished with grateful affection while the Union, the Constitution and the starry flag of our liberties remain objects of homage and sources of blessing throughout our free and beloved land.

Resolved, That we tender to the family, relatives and friends of the departed our sincere sympathy in their deep bereavement, trusting that they will be strengthened and comforted of God, according to their needs, and that it may prove their greatest consolation to reflect that our deceased brother officer died in defence of the holiest cause that ever appealed to human intrepidity for succor, and human effort for support.

☞ The Brazilian authorities have displaced the commander at Fernando de Noronha for allowing the Alabama to commit depredations in Brazilian waters. The new commander who was sent to the Island protested against the Alabama remaining, and ordered her to leave in a few hours. Unfortunately he had no vessel of war to enforce his orders.

☞ Another vessel of the "Chinese fleet" left England about the 16th. She is an iron paddle steamer of 600 tons, built by Laird Brothers of Birkenhead. She is double plated, with a ram stem, six guns and a Whitworth 32-pounder, and 90 picked men. If she should lose her way and find herself in the Gulf of Mexico, it would not be a matter of special wonder.

☞ Rev. M. D. Conway writes from London to the Commonwealth that the English people honestly mean to hold their government to its neutrality, and they are watching their rulers with sleepless eyes. Meetings are already arranged whose motto is, "No war with America," which will plainly inform the government that the people will not submit to taxations for any war into which they may be borne by the rascality of pro-slavery men in England.

☞ The 6th regiment Mass. Vols. are on their way home, their time having expired. They left Fortress Monroe Tuesday night, in the S. R. Spaulding

☞ The cargo of the Great Eastern contains 200 tons of iron plates for the U. S. Government.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Great Island, Newcastle—Indian raids in 1694—Usher removed—Partridge.—The inhabitants of Great Island, on the 10th of March, 1693, petitioned the Lieut. Governor and Council to be made a township by themselves. It was ordered that the selectmen of Portsmouth be served with a copy of said petition, and that they be notified to attend on Friday next, to shew cause why the petition should not be granted, and likewise that they come prepared to show how they came to be a town, and what their rights and immunities are.

The selectmen appeared before the Governor and Council on the 17th of March, and said, "The town has been reputed so—believe there may be a grant constituting Portsmouth a town, but they know not where it is. The bounds were laid out by the Massachusetts, and as having enjoyed it many years, pray it may still be continued as a town." The Council determined that Great Island should be a township and divided from the Bank, provided it is able to support itself.—On the question that Sandy Beach and Little Harbor be added, yeas 3, nays 3, and Peter Coffin yea if all parties consent. The Lieutenant Governor then declared it should be a town, and that he would make it so, separate from the Bank.

On the 30th of May the grant to make Great Island a town was prepared and engrossed, and read in Council, none making any objection why the same should not be signed and sealed, saved Major Vaughan, who desired his dissent might be entered against the passing the same, for that he thinks the King's commission gives liberty to the Lieutenant Governor to make towns, but not to divide towns; whereupon the Lieut. Governor in Council signed and executed the same grant. The township thus granted was called Newcastle.

In the beginning of this year the Rev. Mr. Moodey returned to Portsmouth and resumed his pastoral care of the church and people here.

The Indians had not been so troublesome this year, as formerly. Having lost several of their leaders, they were desirous of some respite from the fatigues of war. On the 11th of August, they sent to the officers of the fort at Pemaquid, proposals for peace, which were accepted; and they delivered hostages for the faithful performance of the terms of it on their part. The war had been peculiarly distressing to the inhabitants of New Hampshire, as well as to their neighbors of the other provinces. Besides the loss of lives, and the continual expense attending a state of war, they were interrupted in their agricultural pursuits; in consequence of which, provisions had become very scarce and dear: and their trade, which consisted chiefly of lumber, was nearly destroyed. The news of peace was therefore very acceptable to them.

The peace was of short duration. The Indians, instigated by the French in Canada, determined on a renewal of hostilities, and according to their usual practice gave no cause of suspicion, until they were ready to strike the blow. The settlements on Oyster river (Durham) were fixed on, as the most suitable place for the attack. Accordingly two hundred and fifty Indians, commanded by Villieu, a French officer, arrived at their place of destination, undiscovered, on the evening of the 17th of July, 1694; and, having placed a small party in ambush near every house on both sides of the river, made their attack unexpectedly early in the morning. Some of the garrison houses were defended with great gallantry, at which the enemy were repulsed; but they succeeded in killing and capturing 94 persons, and in burning 13 houses. They retreated the next day and carried off their prisoners, and the scalps of those they had killed.

A small party crossed Piscataqua river and came to the farm of Mrs. Ursula Cutt, the widow of the late President Cutt, and there killed her, and three men who were at work for her, making hay on her farm; which was situated about two miles above the Bank, and was cultivated with much elegance and taste.

Colonel Richard Waldron and his wife, with their son, were providentially saved from falling into the hands of this party. They were just preparing to go by water to Mrs. Cutt's, where they were engaged to dine, but they were prevented by the arrival of some friends at their house: whilst at dinner, they heard of her death.

In the month of July, 1695, the Indians killed two men at Exeter; which is the only instance of their making inroads into the province that year.

Usher had repeatedly applied to the Assembly for grants of money; but they always evaded his requests by pleading poverty, the exposed situation of the province, and the difficulty they had to raise sufficient funds for its defence. He was also disappointed of the stipend he expected from Allen. He drew upon him for the amount of his salary, but his bill came back protested. He had been very attentive to Allen's interest, and had incurred considerable expense in support of his claims. But seeing no prospect of remuneration, he requested Allen to come over and take charge of the government himself, and in the mean time to procure some other person to be appointed Lieutenant Governor in his stead. He was anticipated in this last request. He had suspended Hinkes, Waldron, and Vaughan, as Counsellors, which excited great irritation among the people. By way of retaliation they petitioned the King for Usher's removal, and recommended Wm. Partridge for his successor. This was done with so much secrecy, that Usher had no suspicion of their designs. Partridge was a native of this town, and very popular. He was bred a ship-wright, and was distinguished for his skill in naval architecture and other mechanic arts. He had been a contractor for purchasing masts and timber for the navy, and had been otherwise largely engaged in trade; which had procured him an acquaintance with many influential persons in England. Having made the necessary preparations for the voyage, he sailed for that country.

N. Y. SOLDIERS RETURNING.

NEW YORK, May, 1863.

The returning two years' regiments have been tendered grand receptions during the week past. Five have already arrived, and more are en route. Their average numerical strength is from 400 to 600. All look hardy and in good fighting condition. Few manifest any desire to re-enlist, but the novelty of city life lost, after a few weeks' respite, the want of employment and the increased bounties and pensions will probably offer inducement to many to again join the army.

Duryea's Zouaves returned Friday.—They were one of the finest regiments of the vast military corps whose brilliant achievements have redounded so much to the credit of the Empire City. Organized by one of the best disciplinarians in the States, and the highly popular Colonel of the Seventh Militia Regiment, they enlisted young men from the best positions in society, whose ardent civism prompted the relinquishment of lucrative situations.

They numbered at departure 1100 men, picked from over three thousand, and have since been recruited to the aggregate of 1500. Of these only a weather worn band of 250 at this time return. The regiment first figured at Big Bethel, and then were encamped for some time at Fortress Monroe. Subsequently they were attached to the splendid corps of Fitz John Porter, and afterwards brigaded with the regulars under Gen. Sykes, where they distinguished themselves among the bravest of the army for special courage and constancy. Under McClellan they marched to the relief of Pope, went into the second Bull Run 500 strong, and lost in killed and wounded 350. They return fresh from the fields of Chancellorsville. The ovation in their honor was more extensive than that tendered to any of the other regiments. McChesney's Zouaves, who returned a few days previous, had the right of the line; then came the 37th and 71st Militia, with Dodworth's Band, who played deliciously, "Home again." I cannot describe the peculiar thrill which pervaded me as the melody floated up Broadway, and none of us save those who have been actual participants, can describe the intensity of feeling with which these veterans of many a field of carnage could murmur to the notes, "it fills my heart with joy, to meet my friends once more."

Our streets are full of uniforms as in April, a year or two since, when the militia were called out. Weather oppressively warm,—thermometer at 80° in the shade. Barnum closed his dog show yesterday,—probably the largest clearance of *barks* ever made in one day from this port!

NEWINGTON.

Take no more unpleasant and unsafe Medicines.

For unpleasant and dangerous diseases, use HOLMES EXTRACT BUCHU, which has received the endorsement of the most PROMINENT PHYSICIANS IN THE U. S. is now offered to afflicted humanity as a certain cure for the following diseases and symptoms originating from diseases and abuse of the Urinary or Sexual Organs.

YEAL CALVES—sales at $5 00 a 6 00.

Yearlings $0 00 a 0 00; two years old $00 a 00; three years old—$24 a 26.

HIDES—8 a 8½c, (none but slaughter at this market); Calf Skins 12 a 14c per lb.

TALLOW—Sales at 8 a 8½c lb.

SHEAT AND LAMBS—$3 00 a 4 00; extra $4 50 a 5 00.

SWINE—Stores, wholesale 7c, retail 8c.

Spring Pigs—Wholesale 8a 6c, retail 8.

MARKET REMARKS—Extra are the largest fat Oxen, highly stall-fed. First quality are large Oxen, stall-fed at least three months. Second quality are grass and hay fed Oxen, well fatted Cows, and the best three-year old Steers. Third quality are odds and ends of droves.

Sheep and Lambs—Extra consists of choice Bucks and fancy Ewes for stock.

Beeves are sold by the head, at prices equal to the value per pound of the estimated weight of beef in the quarter with the fifth quarter, or the hide and tallow, at the same price at a shrinkage from live weight agreed on by the parties—varying from 48 to 54 per cent.

GOD SPEED THE PLOW.

God speed the plow share! tell me not
Disgrace attends the toil
Of those who plow the dark green sod,
Or till the fruitful soil.
Why should the honest plowman shrink
From mingling in the van
Of learning and of wisdom, since
'Tis mind that makes the man?

God speed the plough-share! and the hands
That till the fruitful soil!
For there is in this world so wide
No gem like honest worth.
And though the hands are dark with toil,
And flushed the manly brow,
It matters not, for God will bless
The labors of the plow.

—— Gen. Hooker has recommended Col. E. E. Cross, of the 5th regiment, for promotion to the rank of Brigadier General "for gallant and meritorious conduct." He is one of the three senior Colonels in the Army of the Potomac, and was in command of his brigade at the battle of Chancellorsville. He commands the "old First Brigade" (formerly Howard's), composed of the 5th New Hampshire, 81st Penn., 61st New York and 145th Penn. The three first named regiments have served together for nearly two years, and have fought side by side in *eleven* battles. One year ago the brigade numbered over 3000 men; now there are but 1800 on its rolls "present and accounted for."

☞ An enthusiastic Polish Sympathy Meeting was held in San Francisco on Friday evening, presided over by the newly elected Mayor. Addresses were made by Rev. Starr King and other distinguished speakers. A State Committee was appointed to solicit funds in aid of the revolutionists. It is estimated that there are 5,000 Poles in California.

☞ Gen. Stahel reports that not an armed Rebel is now to be found in Eastern Virginia north of the Rappahannock.

Heimbold's Buchu

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 3, 1863. 1yr spno 8aw

Local.

A FAST SHIP.—Letters received in Boston from Charleston, S. C., dated May 10, report all quiet in front of that treason-saturated city. The Traveller finds the following interesting items in a letter from an officer on board the U. S. S. Sloop Canandaigua:—

The Canandaigua is in tip-top condition, and is as strong as wood and iron can make her. She is still the favorite ship on that station. The Canandaigua has accomplished a feat which no other vessel has been able to do during the war, in pursuing and capturing a blockade runner, out running the latter in less than four hours from the commencement of the pursuit. The rebel steamer was the Cherokee, of Charleston, S. C.

On the night of May 7th, at half past 10 o'clock, we detected a steamer in shore of us, moving rapidly to the southward. We trained our rifle gun, gave her a shot, and then sped after her. By the time we had full steam on, we could but just see the object in the distance, even with a powerful night glass. For full one hour we did not gain upon her, though we were going 11 1-2 knots per hour. Yet we found that if we would capture the prize we must let out our ship's best gait, and let her out we did, we going at 13 1-2 knots sure. We now gained on the Cherokee splendidly, and at the end of the second hour, we had shortened the distance between us one third.

She was now in full view to the naked eye, the moon was well up, and one hour later we were well upon her. We fired a shot across her deck, and she "gave it up," hove to, and we sent a boat's crew to her, and took possession of her 35 miles from the Charleston blockade. She had 475 bales of cotton on board, and six passengers. They felt bitter indeed at being captured. We must have gone 14 knots the last hour, as the rebel captain said "his steamer was going 11 1-2 and 12 knots during the chase." We had only the trisails and the main jib set.

The Canandaigua was built at the Charlestown Navy Yard in 1862, by Constructor Hanscom, with especial reference to speed. She had the same engines as the Housatonic and other sloops of war, but Mr. H. modeled and built her as his judgment directed, so that the speed of the vessel is owing to its superior construction. Such a trial trip and test as the chase after the fast sailing Cherokee, and her quick capture, is highly complimentary to the skill and ability of the naval constructor of the Charlestown yard. The Government should have a host of vessels like the Canandaigua.

All true, no doubt,—and more than this is true, also, namely, that our Naval Constructors would undoubtedly turn out vessels as much superior to all the rest of the world's navies, in speed and other requirement, as the American merchant ships are to all other; were they but allowed to exercise their own genius in the matter, instead of being obliged to "work in chains," like a poet laureate, and build craft according to certain antiquated Department notions and directions, which systematically preclude all possibility of constructing vessels which can really rank as first class vessels in those days of improvements. And, by the way, this same Constructor Wm. L. Hanscom, we think, designed and built the magnificent frigate Franklin, now on the stocks in one of our ship-houses at the Portsmouth Navy Yard—and it has been darkly hinted or suspected sometimes, that it is the probability or undoubted certainty of her proving superior to all vessels of her class built by rivals, some of whom now occupy high places in the Government, that prevents our navy and our flag from having the benefit and the glory of this peerless specimen of naval architecture afloat. The people of the whole Union certainly all call for the launching of the Franklin, which would rate as high among craft as the immortal philosopher does among men.

☞ The Circus at Hale's Point, Thursday evening, was a very good show, of the sort—and that it is the most popular sort of exhibition, was proved by the large attendance, probably nearly three thousand people. The horse show was fair, but not extensive or "great" in any sense—though Mad. Tournaire shew some splendid horsemanship, or womanship, and she has one superb, trained horse. But she (the lady herself) is getting rather old and fat for antics and gyrations such as she used to be hard to excel in. The young M'lle Elsler's tight rope performances, and the gymnastics were among the most pleasing we ever witnessed—being divested of much of the usual repulsiveness or terrors of such kicking-ups. The music was tolerable, and the clown so so. Altogether, a very satisfactory entertainment, of the kind, we call Wheeler & Co's.

☞ Capt. John S. Godfrey, Provost Marshal of this District, has received a notification from Col. James B. Fry, Provost Marshal General, that any persons desiring to join any particular regiment of Cavalry now in the field, may present themselves at any time during the next 30 days (from May 22) to the Board of Enrollment in their respective districts. The Board will examine them, and if they determine such applicants to be fit for the service, will give them transportation tickets to the general rendezvous, at the Headquarters of the A. A. Provost Marshal General of the State. There they will be promptly mustered by a mustering and disbursing officer, and paid by him the bounty allowed by law.

☞ Rev. I. F. Waterhouse, who has recently been absent from this city as a volunteer chaplain in the army, under the direction of the Christian Commission, returned on Thursday. He will preach at the Christian Church, on Court street, tomorrow.

Rev. Israel W. Putnam, D. D., of Middleboro', Mass., is expected to preach at the North Church, to-morrow. He was the Pastor of the Church from 1815 to 1835.

Rev. Samuel B. Stewart will preach at the Unitarian Church to-morrow.

Rev. Mr. Wood will preach at the City Farm to-morrow afternoon at 5 o'clock.

☞ Rev. Mr. Davies, of this city, delivered the Convention discourse, on Wednesday, at Sanbornton Bridge, on the occasion of the 63d Annual Convention of the P. E. Church in the diocese of New Hampshire.

☞ One-fourth of the ship Charles Hill, destroyed by the rebel pirates, was owned by Capt. Wm. Lambert, of this city. She was valued at $32,000. No war risk had been obtained on the vessel, as it was supposed that her cargo, owned on foreign account, would protect her from pirates.

☞ The Artillery Company, to be stationed at Fort Constitution, arrived in this city on Friday morning from Concord, and proceeded immediately to the fort.

☞ Fred Moses has fitted a nice ice-cream room, at his spacious new Refreshment Saloon, on Pleasant street, and will serve up creams, &c., in good style, as he does everything else.

☞ The P. S. & P. Railroad will pay to stock holders of record May 30, a dividend of $3 per share, clear of United States tax.

"UNCONDITIONAL UNIONISM."—Said Wendell Phillips, on Monday, in Tremont Temple, before the Emancipation League—"Thank God for McClellan, for Cameron thank God for defeat. With a man for President, we should have put down the rebellion in ninety days, and left Slavery where it was."

SINGING SCHOOLS.—In reply to numerous inquiries, Mr. Davis authorizes us to state that he will commence an afternoon Juvenile Singing School, and an Evening Singing School for adults, in this city in a few days. The school will probably be held in the nice little Mercantile Hall, and the terms be $1 for children, $1.50 for gentlemen, and $1 for ladies—each 12 lessons; books extra of course. Lessons one each week, Wednesday afternoon and evening.

Names for either class may be left at J. H. Head's store.

Sewing Machine for Sale.

An excellent SEWING MACHINE in perfect order—the machinery of which is so simple that it requires less labor and skill than any other machine in the market, may be found at Mr. Wendell's auction room and will be sold on Saturday next at 10 o'clock. May 28.

MARRIAGES.

In this city, 29th inst., by Rev. I. F. Waterhouse, Mr. WILLIAM HUNTRESS, of Philadelphia, Penn., to Miss ELIZA D. MALOON, of Portsmouth.

DEATHS.

In this city, May 27th, Miss ELIZABETH HART, daughter of the late Richard Hart, Esq., in the 85th year of her age.

In Bradford, May 1st, very suddenly of hydrothorax, Rev. HIRAM HOLMES, aged 56 years—He was a good man. Friends and the community around deeply feel their loss.—COM.

THE ALL SUFFICIENT THREE,
The Great "American Remedies,"
Known as "Helmbold's"
Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " " SARSAPARILLA,
" " " IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the Absorbents into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Hot Flashes,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance.
	Dryness of the Skin

These symptoms, if allowed to go on, which this medicine invariably removes, must produce IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases."

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages, at little expense; little or no change in diet; no inconvenience.
AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found, they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla.

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, the Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Enforced with the most responsible and reliable character will accompany the medicines.

Manufactured by E. R. CLARKE, Sharon, Ms.

Price only 25 cents for the Trial Bottle, 75 cts. for one quart, $2 50 two quarts.

Sold in Portsmouth at wholesale and retail by N. F. MATHES, 48 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)

75 State Street, opposite Kilby Street, BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not in reasonable superiority to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant testimonials to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable* men I have to do with in my business, and I believe, and act in my course."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in a form to secure for them a prompt and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such uninterrupted proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sured having the most faithful attention bestowed on their case, and at the very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

R. H. EDDY.

Boston, Dec. 2, 1862. Stawly

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. Dow has the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment every symptom of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the regions of pregnancy, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of diseases, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dimness of the head, Dizziness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mortal effects on the mind are much to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, love of solitude, are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, can be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Cupidine, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all those complaints incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new principles, and a cure and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most delicate complaints yield to it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of females and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1835, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic cases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

F. D. Dr. Dow wants and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1862. eodly.

Boy Wanted.

A BOY to learn the Printer's Trade—at the Chronicle Office.

FERGUSON & CO'S LIVERY STABLE,

REAR NO 30 CONGRESS ST.

HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The *novel*—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the oven and in front of the fire; so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the larger oven, for baking; giving an oven nearly 2 feet long, or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and side iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin water pot attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, so that not a particle escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and well cooked meats in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, can testify. Call and speak for them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

And the hosts of others who are using them.

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former modes, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass through the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the direct path of the waste heat.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire can be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions which can be done by any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easily as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making these materials, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTIST,

60 Congress St.
PORTSMOUTH.
Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET, }
Portsmouth, Jan. 1st, 1863. }

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late years the sole right to use the VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently it is perfectly easy to the tender parts of the mouth and cheeks. There are no insertions or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get for your money an HUNDRED, for the other bases of GOLD and SILVER as formerly, if preferred.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country.

S. S. WHITE.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. HAYES, for persons whom I have extracted Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—In common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of a popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

PEACE AT ANY PRICE.

Peace! yes peace with the men who would basely betray us!
Let the treacherous hand be in friendliness pressed;
Let us welcome the foeman that's seeking to slay us!
Let the poisonous serpent be clasped to our breast.

Since there's nothing so wrong in one's being the hater
Of whatever is noble and lofty.—why, then,
Let poor Judas no longer be cursed as a traitor,
And let Satan go back into heaven again!

Let us show to the thief where our treasures are hidden,
Let us polish the sword for the murderer's hand,
Let the brokers of oaths and of compacts be bidden
To sign pledges of peace and write laws for the land.

Let the scruples of honor and right be surmounted,
And since *now* is the time for *concessions*, why then,
Let poor Judas among the apostles be counted,
And let Satan go back into heaven again!

CONCORD, N. H., 1863.

A little boy having a troublesome tooth, his father gave him a quarter and bade him go and have it drawn. On approaching the dentist the little fellow, squeezing the silver in his hand, inquired how much he asked for pulling teeth? The dentist noticed his money, replied that he charged good little boys only a quarter when it hurt them, but when it did not hurt them he operated for nothing. Whereupon the lad jumped into the chair and his tooth was taken out almost before he knew what the dentist was about. "And," said the man with the forceps, "is little fellow did it hurt you?" The boy, while his eyes glistened with joy, shutting his fist tightly upon the coin instantly replied, "No sir, not a bit!" Such is the power of an idea over one's own nervous system when it once takes full possession of the mind.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JUNE 1, 1863.

THE REBELLION.

Murfreesboro' advices render it probable that Bragg has sent a large force towards Vicksburg, though he still keeps his quarters at Shelbyville, as if to watch Rosecrans. It seems pretty certain that since Saturday Gen. Grant has made one pretty general assault on Vicksburg and failed to carry the works. But the rebel account, that he had been repulsed six times, is an exaggeration. Dispatches from Gen. Grant to the 20th, received by the War Department, represent the siege as progressing satisfactorily.

Gen Ellet reports that 1000 rebel cavalry were repulsed and driven off on the 20th, near Austra, on the Mississippi side of the river, by 200 of our cavalry under Maj. Hubbard. The fight lasted two hours. Our troops had a sheltered and favorable position. Our loss was 2 killed and 19 wounded—most of them slightly. The enemy left 5 dead upon the field and 1 Lieutenant mortally wounded, and 33 stand of arms. We captured 3 prisoners. Gen. Ellet burned the town of Austria, and two heavy explosions of powder, concealed in the buildings, were heard.

A Memphis dispatch of the 27th says that Grant had certainly captured 8000 prisoners and 81 guns, field pieces. On Friday he had fourteen regiments that had not been in the fight at all.

Little credit is given in Washington to the report that a movement of Lee's army had begun. But Gen. Schneck and Gov. Curtin had a long interview with the President on Friday, and it is said that they seriously apprehend an invasion of Maryland or Pennsylvania.

Sunday's dispatch stated that there had been nothing received in Washington from Vicksburg up to 10 o'clock A. M. Persons who arrived from the Rappahannock on Saturday night reported that there were indications that large columns of Lee's army were in motion. Nine persons were arrested in New York on Saturday for treasonable language.

☞ The Senate of Connecticut, on Wednesday, by a vote of twelve to eight refused to restore to the Senate hall the portraits of ex-Governors Toucey and Seymour, as evidence of their loyalty was not produced, which, according to the resolution banishing the pictures, must be forthcoming ere a restoration is in order.

☞ The Hartford Press says it has very high authority for stating that Georgia is on the point of sending commissioners to ask admission into the Union on the basis of the *status quo*. And there is also reason to believe that Mr. Seward would urgently favor it.

☞ For some time the mail between Bangor and Calais, have been tampered with. The robber was arrested on Thursday at Wesley, Me., and letters were found on him which will insure his conviction.

☞ The N. Y. Herald's dispatch says twelve thousand rebels have crossed the Blackwater, and it is feared that Beauregard's forces are to be brought up from Charleston and an active campaign in this direction inaugurated by the rebels.

Last Sunday little Ike, three years and a half old, went to church for the first time. His mother gave him a penny to put in the contribution box, which he did, and then sat quiet for a few moments, and then wanted to know how soon the man was coming with the candy.

☞ Over a hundred ships arrived from sea at Quebec on Saturday and Sunday last. Three of them, the Montreal Transcript says, were laden with war stores—two for Quebec and the other for Montreal.

☞ Gen. Hooker footed up the official returns of the killed and wounded at the battle of Chancellorsville at 8,200, not including the missing.

☞ In a town in Indiana, a horse thief who had killed two officers attempting to arrest him, was taken from the jail by a mob and hung.

☞ It is understood that Rear Admiral Foote is to be assigned to duty on the South Atlantic coast.

☞ Gen. Meagher has not resigned his military commission; he has only resigned his command of the Irish brigade.

☞ Capt John L. Worden, commander of the Montauk, is rapidly recovering his health.

☞ The Cincinnati Enquirer of Tuesday says that the wife of Mr Vallandigham has not become insane.

☞ Mr. J. Sargent Bartlett of Amesbury, Mass., has received an appointment as Assistant Paymaster in the U. S. Army.

☞ Gen. Wright has denied the use of the mails on the Pacific coast to the New York Weekly Caucasian.

☞ Lieut. Com. Robert Boyd, jr., has been ordered to the receiving ship Ohio.

☞ The City Council of Boston have voted to establish free bathing houses.

IMPROVEMENT IN ENGINEERING.—The N. Y. Tribune compares the Pontoon Bridge service in Burnside's attack on Fredericksburg, with that in Hooker's late movement; pronounces the latter superior; and pays the following tribute to Gen. Benham's skill and activity:

The methods adopted reflect great credit upon the Engineer Department, the Chief of which is, we believe, Gen. Benham. At the crossing opposite Fredericksburg the rebel accounts of the fight detail with evident admiration the ingenuity with which a regiment was thrown forward at double-quick to the brink of the river in such force that not a rebel sharpshooter could raise his head to fire; while immediately in the rear a body of men, carrying pontoons on their shoulders, rushed to the river, launched their boats and dashed across, so as to capture the rebels in their rifle pits before they could retreat. On one of these occasions the horse of Gen. Benham was shot under him.

☞ The Tribune's Washington dispatch says the Navy department invites proposals for new ocean iron-clad vessels of war, those previously determined on not having met with general approval. The description of craft now wanted for sea service is as follows: "Each vessel to be about 3500 tons burden, not to draw more than 15 feet of water, and to be capable of steaming at least 13 miles an hour, to have two turrets, each fit for two guns, which may weigh, if necessary, 25 tons. The models are to be made by the different contractors offering to build, and the plans are to be furnished by the Navy Department finally, if acted upon. The ordnance to be used in these vessels, although weighing more than Dahlgren's 15-inch guns, will not, it is believed, be more than 13 inch bore.

☞ On Thursday a couple of chimney sweepers appeared in Newburyport, singing plaintive songs to attract attention and gain business. They are negroes from Delaware where they are licensed at $100 per annum to pursue the business. Their hats were labelled, "Chimney Sweeps, Company No. 5, Wilmington, Del." The Herald states that the older one sang sacred songs, such as are usually heard in religious conference meetings, and it was ascertained that he was a Methodist preacher. The first work he found in Newburyport was to sweep a chimney for a clergyman. The younger one will go through any flue 12 inches square.

☞ The Salem Gazette states that the most eminent counsel in Massachusetts have given the professional opinion that the act taxing non-residents receiving dividends, is no law, because it is unconstitutional.—This question will have to be decided in the Courts, if the Mass. State Treasurer brings a suit for the amounts; for some corporations have already voted, and others will no doubt do the same,—to pay the full dividend to all stockholders, without distinction, until the lawfulness of the contrary course is decided by the proper authority.

☞ Last week was Anniversary Week in Boston, when a score of religious, reformatory and benevolent societies hold their annual meeting. The city was crowded with strangers. As indicative of the feelings of the thousands who attended the anniversaries, it is worthy of note that the meetings which had a bearing upon the army have been the most fully attended, and no speakers have been so earnestly listened to, or heartily applauded, as those who counseled whole-souled persistence in the support of the Government in putting down the rebellion, or expressed a firm faith in the final triumph of the Government, and of freedom.

☞ A Washington dispatch states that the Navy Department ordered the Vanderbilt to cruise in the latitude where the recent depredations of the Alabama were committed, and among other ports she was instructed to enter is that of Fernando de Noronka, where the Alabama rendezvoused upon reaching the West Indies. Admiral Wilkes, instead of allowing her to carry out the orders of the Department, seized her as his flag-ship, and at the latest dates she was cruising under his directions.

☞ Lieut. Col. George F. Leppien, of the 5th Maine Battery, who died at Washington on the 24th, of wounds received at Chancellorsville, was a native of Philadelphia, of German descent and educated in Europe. He was one of the first officers to respond to the call of the Government, entering the United States service as 1st lieutenant of artillery and reaching by successive steps the rank which he held when he fell, at the age of 27 years. His body was brought to Philadelphia for burial.

☞ On Tuesday evening twelve persons were confirmed at the Episcopal, St. Paul's, Church, Newburyport by Rev. Bishop Eastburn, nine ladies and three gentlemen. The Herald anticipates that the day is not distant when St. Paul's will take the first rank even in numbers among the Protestant churches of Newburyport.

☞ Quite a religious feeling is springing up in Newburyport and several of the churches are awakening to new interest.

NEW HAMPSHIRE ITEMS.

—— The saw mill of Messrs. Clark, Thompson & Co., at Franklin, was burned on Wednesday night, with its entire contents. Loss about $2500. No insurance.

—— As orders are said to have been received at Port Royal, S. C., to grant furloughs to soldiers in Gen. Hunter's department, and five per cent. of the whole number of men there will immediately start for home on leave of absence for 30 days, it is anticipated that many New Hampshire soldiers will soon greet their friends once more.

—— At the Episcopal Convention, Bishop Chase stated that in consequence of advancing years and enfeebled health, he found himself unable longer to discharge the double duties of Bishop and Rector of a large parish, and asked the consideration of the Diocese to some means of relief. It was therefore voted unanimously that the present stipend paid the Bishop by the Diocese should be doubled by assessment upon the parishes, enabling him to retire from all parochial duty. The Mirror says that the annual convention sermon, by Rev. Thomas F. Davies of this city, was from Isaiah 12:7, on the presence of God in his church; and was a scholarly, earnest discourse, exhibiting the power of God coming to the rescue of his truth and sacred ordinances in the darkest days of oppression.

——Isaac Clemence, of Concord, allured by the syren tones of two young girls, stopped awhile in a door way on Brattle street, Boston, on Thursday evening; and when they had gone, he found they had picked his pocket of $31 in money and $1081.40 in notes. He started for the police, who started for the girls and arrested them. The property was recovered.

—— Amoskeag Veterans of Manchester have voted to accept an invitation from the Mayor of Concord, in behalf of the citizens, to do escort duty to the Governor on Thursday, June 4th.

—— The Mirror states that the rear of the annual spring drive of lumber reached Amoskeag Falls on Wednesday. The drive consists of four million feet of lumber, cut during the winter in the vicinity of Woodstock and drawn out to the river, about 170 oxen and horses being employed for that purpose. The drive started the 17th of April. The run has thus far been quite successfully made. The Amoskeag Falls, which are difficult to go over, were passed last year in one day; but the water now being low, several jams have occurred. The crew numbers seventy stalwart fellows; most of them from the Kennebec. The expenses for running the lumber amount to twelve dollars an hour.

——Great preparations are making for the inauguration of Governor Gilmore, on Thursday next, at Concord. The Horse Guards will be out in full ranks, and the Manchester Veterans will also be there.

—— That boy in Manchester whose aptness in stealing the American, illustrated the other day, has "gone and done it" again. The reporter followed him up, and saw him safely lodged in the lock-up at Concord, for safe keeping. The irons were taken from the boy's hands by the Marshal, and he was left, as was supposed, in safe custody, as it was the common receptacle for all criminals and regarded as perfectly safe.—What was the surprise of the Marshal an hour later to hear that the boy had escaped from the room and gone to parts unknown. On the Marshal's return to Manchester, as the cars were passing Hooksett, he saw the rogue peeping out from behind the depot, but the cars were then moving too rapidly to allow him to get off. Arriving at Manchester he sent some men up the railroad, and went himself with a team directly back to Hooksett. After an hour's search, he succeeded in putting his hand on the offender in a very satisfactory manner.

—— Gen. B. F. Butler, Hon. John Cochrane, Hon. Montgomery Blair, Gen. J. C. Fremont, Hon. James T. Brady, Gen. Gilman Marston, Hon. Nath'l B. Baker and Hon. Daniel S. Dickenson are announced to speak at the Union Convention in Concord on the 17th of June.

—— New Hampshire has filled her quota in full under all the previous calls for troops, and has a surplus of over one hundred men.

—— Maj. Charles W. Woodman, of Dover, who has been serving for the past six months at Memphis and elsewhere, as Paymaster in the U. S. Army, has resigned his office and returned home, in consequence of impaired health.

☞ The Maine Farmer states that as much grain will be planted and sown this spring as in former years, and this too, with help much diminished, and consequent reliance upon farm machinery for assistance. Wages are higher, and help somewhat scarce, farm laborers obtaining from $18 to $22 per month. The prospect now is that wool will range from 60 to 70 cents per lb.

A dying West India planter groaning to his favorite servant, sighed out:

"Ah! Sambo, I am going a long, long journey."

"Never mind, massa," said the negro consolingly, "*him all de way down hill.*"

☞ A dispatch from Dayton, Ohio, says that nine of the Vallandigham sympathizers who were arrested and sent to Cincinnati some two weeks since, were released on Wednesday, by Gen. Burnside, upon swearing anew allegiance to the Federal Government.

☞ The Springfield Republican says that Rev. Dr. Hitchcock, of Amherst College, the eminent geologist, is very ill, and not expected to live. He has been in failing health for some years; and the recent death of his wife has greatly accelerated his steps to the grave.

☞ It is reported that Bragg telegraphed to Jeff. Davis as to what he should do with Vallandigham. Davis replied that if Vallandigham would take the oath of allegiance to the Southern Confederacy, to receive him, and if not to send him back.

☞ Gov. Coburn of Maine is recovering slowly from his recent alarming illness, and is now considered out of danger, although he is still very weak.

☞ The Mayor of London is said to receive a salary of forty thousand dollars per annum.

Local.

THE MUSIC OF FIFTY YEARS.

NUMBER SIX.—BY UNCLE TORY.

Street Music, Singing Schools.—Having noticed more or less, in the musical line, all the old religious societies of Portsmouth, as to their singing fifty years ago,—it will be natural now to look at other branches of music, as they existed near the same time.

First, street music. The military band, something more than half a century since, was a drum and fife to each company; if the company was rich or wished to make a noise, two drums and fifes. When we got the regiment together, ten companies, we commonly had twenty drummers and fifers in the regimental band. Soon, some companies added a clarinet; and three or four of those, in a regiment, with the fifes, generally all playing the air, made sharp and stirring music. The Bass Drum made its appearance about here abt far from 1810; and the bugle came first during the war of 1812—15, when two German Buglers, with their instruments, were captured on their voyage from England to Canada, by a privateer, and brought into this port. They were to have joined the British army in Canada; but they joined ours instead.

The naval recruiting bands, for U. S. ships, and privateers, used bass drums, violins, cymbals, triangles and bassoons.

The first street band which we ever saw, (aside from the drum and fife) consisted of two violins, two clarinets, and two bass viols; the last named instruments being held up breast high, by silk bandana handkerchiefs which passed over the player's right shoulder and under his left arm. Of course he bowed across his breast, and fingered above his head.

They were good players, and made good music; but their viols looked awkwardly in the street; and they were awkward things there. They soon gave place to the bass-soon, which was vastly better for the street, and has not yet quite gone out of use, though it is rarely seen here. Cymbals, bass drums, bugles, and horns were added in after years.

Singing schools were kept in winter, generally two terms or quarters, twice a week, in the evening, in almost every town, great and small. There were usually two rival schools in Portsmouth, and sometimes more; got up by subscription beforehand; besides one or two parish schools.

Scholars of all ages, from childhood to middle age, were admitted; and besides learning to sing, there was often much fun and sport in the course of the winter, and many young people found mates there, with whom they were connected through life.

Party jealousies, aristocracies and squabbles, also cropped out there sometimes:—but in a great majority of cases, the old singing schools are to be remembered with pleasure.

THE REBEL PIRATES.—We are furnished with the following interesting extracts from a private letter received in this city—concerning the depredations of the rebels' Anglo privateers on American commerce—which are coming to be insupportable to the nation, and to affect some of our citizens so seriously. The letter is dated

PERNAMBUCO, May 1.

"On Sunday last, news was sent us, that a Brazilian schooner had arrived with the crews of several vessels burned by the pirate Alabama. On visiting the schooner, (which is only about 40 tons,) we found sixty persons on board, including four captains and two stewardesses; from whom we learned that six vessels had been burned and their crews put on shore at Fernando de Noronka, where forty odd people, including two captains, still awaited a conveyance.—**The Alabama took the Louisa Hatch in to the Island; and taking out all the coal she required, towed her out and burned her. The Lafayette and Kate Cory called at the Island while the Alabama was at anchor there; while the captains were on shore with their ships' papers in their pockets, boats were sent on board to take possession of their vessels, and they were burned like the rest. Semmes said they were lawful prizes to any one, as he found them without papers of any kind. The Brazilians are very friendly to us, and therefore very indignant at the outrages committed in their waters.

"To-day a French transport ship bound to New Caledonia put in here to land sixteen men taken from vessels burned by the Florida. The transport was ordered to stop by the Florida, the men forced on board of her, although the captain refused to receive them. He has protested against the proceeding, and his protest went to France to-day by steamer. Being a Government transport, it may cause some stir."

☞ All subscribers to the Street Sprinkler,—and all others interested,—are requested to meet at the Common Council Room this (Monday) evening at 7 1 2 o'clock.

U. S. Ship St. Lawrence.

THE CREW of the United States ship ST. LAWRENCE will be paid off at the Paymaster's Office on the Navy Yard, on TUESDAY the 2d of June, at 12 o'clock noon.

WASHINGTON IRVING,
Paymaster, U. S. Navy.

☞ Here is one sentence which contains matter for a long essay: "We have suffered great reverses in this war, perhaps have yet to suffer greater ones; but if we would ever have a country to be proud of, now is the time to fight for it."

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

DEATHS.

In this city, May 29th, Mrs. MARY AYERS, aged 80 years.

In this city, May 31st, PHEMELIA V. JACKSON, aged 4 years, 8 months, 7 days, daughter of Geo. A. and Margaret A. Jackson.

Funeral this Monday afternoon at half-past 2, from No. 5 Dearborn St.

A fine assortment, which we will sell CHEAPER than any other man.

CRASH,

100 pieces Bleached and Brown CRASH going with a rush.

In fact we have just received a complete assortment of SPRING GOODS, which we will sell

AT THE LOWEST CASH PRICES.

H. N. DUNYON & CO.

THE ALL SUFFICIENT THREE.

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED"

COMPOUND

FLUID EXTRACT BUCHU,

A Positive and Specific Remedy

For Diseases of the

BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU

FOR WEAKNESSES

Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance.

Depression of the Skin.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases."

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhœa, or Whites, Sterility, and all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience,

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous Matter, Diseased and Worn-out Matter*

Thousands upon Thousands

WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE

HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC.

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Lindings of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such cases is recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES.

From eight to twenty years standing, with names known to Science and Fame.

For Medical Properties of *BUCHU*, see Dispensatory of the United States.

See Professor *DEWEES'* valuable works on the Practice of Physic.

See remarks made by the late celebrated *Dr. PHYSICK*, Philadelphia.

HERE'S HEALTH FOR THE MILLION!

DR. CLARKE'S

SHERRY WINE BITTERS!

Palatable and Healthy.

Prepared from Rock Rose, Sarsaparilla, Dock Root, and a great variety of Roots & Herbs.

Preserved with but Sherry Wine and Whiskey.

Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face, and Humors of all kinds.

They are safe for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.

N. B.—*If you wish a good Bitter, Call for Clarke's, and take no other.*

Beware of all imitations, as they contain vile drugs and cheap poisonous liquors, which will destroy your health and life quicker than disease.

One system is to keep up the quality and make the price in proportion.

Sold by druggists, grocers, hotel-keepers and dealers generally.

Manufactured by E. R. CLARKE, Sharon, Mas.

Price only 50 cents for the Trial Bottle, 75 cts. for one quart, $1.00 two quarts.

Sold in Portsmouth at wholesale and retail by N. F. MATHES, 49 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street, BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States and in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to ascertain the novelty or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of patents furnished by me for Ten Dollars. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unexpended by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has obtained more than he believes, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years, enables him to secure full and late official collection of specifications and official decisions relative to patents.

He possesses the most complete library of legal and mechanical works, and full accounts of patents issued in the United States and Europe, rendering his aids, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable co-laborers in my employment with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in the form required to secure them as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part I feel bound to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.

R. H. EDDY.

Boston, Dec. 2, 1862. 3tawly

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 8 ENDICOTT STREET, Boston, on all disease of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience, combined with extent, Dr. D. has now the gratification of preventing the unfortunate with remedies that have never, since he first introduced them, been otherwise than successful.

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, Stricture in the Urethra, Pain of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, frightful leg and arm Swellings, and horrible Nightsweats, to one attending the class of disease, are made to become as fairyness as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret habit, which baffled, ruins the body and mind, rendering the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habit of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous irritability, Decline of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Price for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

Mrs. DOW, Female Physician and Nurse, No. 7 & 8 ENDICOTT STREET, Boston, is consulted daily for all diseases peculiar to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. No injurious medicines are used in her treatment, that most obstinate complaints yield under it, and the afflicted persons soon rejoice in perfect health.

Mrs. Dow has no doubt had greater experience in the care of Diseases of Women and children, than any other physician in Boston.

Her boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B. Letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or Fees Refunded.

Medicines Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the vast number in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street, Boston. Those who need the services of an experienced physician and can afford to give him a call.

Y. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1862. eodly.

A fresh invoice of new styles just received and for sale at fair prices.

FOUND AT LAST!

A KEROSENE LAMP that will burn well and give good light without a chimney. It is simple in construction, and afforded at low prices. For the purposes of a Kitchen and Chamber Lamp, and for Lanterns it is economical and invaluable.

☞ Call and see it.

HALEY, MORSE & BOYDEN'S

PATENT SELF-ADJUSTING

CLOTHES WRINGER.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one the "Domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!

THE MODEL COOK

FOR WOOD OR COAL.

The novel—the peculiar feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a Ventilated Roasting Oven within the body of the stove and in front of the fire, so arranged that it can be used separately for a roaster or (by the removal of a simple plate) in connection with the Range, for baking; giving an oven nearly 3 feet long; or large enough to take six large plates on the bottom, every part of which will bake evenly at the same time! A well-draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

E. A. STEVENS,
NO 46 MARKET ST.

Houses and Lands.

Desirable Residence on Middle Road

The Subscriber will sell the COTTAGE HOUSE in which he now resides on Middle Road. The house is thoroughly built and capacious, having hard and soft finished Rooms; and the land is extensive, being over three hundred feet deep, and well filled with almost every variety of fruit and Forest Trees. Vines, Shrubs and Flowers, in full bearing and the height of perfection.

THE MAGEE

COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing for exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with tinplate, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which articles can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for filling the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in the city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, mixed and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they leave the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

So heating apparatus with the smoke-pipe or flue on top, some of the coal must be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the costliest part of our dwellings.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases, the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building on the gum, which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept as sweet and clean as easy as a saucer, as when finished the work presents one whole piece.

6th. While in all ways it is better, save in few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Deuel St., Portsmouth,

Has had four years of practical experience in making of this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DR. GOODALL,

DENTIST,

60 Congress St.,
PORTSMOUTH.

Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, that he now is prepared to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the trade, and is now prepared to insert teeth upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, as it is very light and comfortable, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions on open joints to collect food, &c; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and to all who use upon Rubber, or the other bases of GOLD and SILVER as formerly, it preferred.

The Rubber has several important advantages, as it is very light and comfortable, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions on open joints to collect food, &c; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and to all who use upon Rubber, or the other bases of GOLD and SILVER as formerly, if preferred.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and finish from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTING is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. PRESCOTT, for professional services extracting teeth. Teeth extracted without pain and with perfect safety, with ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial sets of Teeth replaced with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,

OF CHOICE OPOLITO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS, TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females!

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly recommended by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits, or other liquors, and is administered with peculiar flavor and native properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE HEREBY

a few well known gentlemen and physicians, who have tried the Wine.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. TUESDAY JUNE 2, 1863. NO. 89.

The Chronicle.

"Bound to no party—to no sect confined;
To world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Shun the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of a popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

A WOMAN'S IDEAS.

Men are strong. They do things and don't do them. They can open doors in the dampest weather. They can unstrap trunks without breaking a blood-vessel; turn keys in a moment which women have lost their temper and lamed their fingers over for half an hour; look down precipices and not be dizzy; knock each other prostrate and not be stunned. You may strike them with all your might on the chest, and it doesn't hurt them in the least, (I mean if you are a woman). They never grow nervous and cry. They go up stairs three at a time. They put one hand on a four-rail fence, and leap it without touching it. In short, they do everything easily which women try to do and cannot. Besides, men are so easy to get along with. They are good natured, and conveniently blind and benevolent.—Women criticize you, not unjustly, perhaps, but relentlessly. They judge you in detail, men in whole. If your dress is neat, well-fitting, men will not notice, except a few milliners, and a few others who ought to be, and to whose opinion we pay no regard.—If you will only sit still, hold up your head, and speak when you are spoken to, you can be very comfortable.

I do not mean that men cannot appreciate female brilliancy; but if you are a good listener, and in the right receptive mood, you can spend an hour pleasantly without it. But a woman finds out, in the first three minutes, that the fringe on your dress is not a match. In four she has discovered that the silk of your sleeve is frayed at the edge. In five that the binding of the heel of your boot is worn out. By the sixth she has satisfactorily ascertained, what she suspected the first moment she set her eyes on you, that you trimmed your bonnet yourself. The seventh assures her that your collar is only "imitation," and, when you part, at the end of ten minutes, she has calculated, with tolerable accuracy, the cost of your dress, has levelled her mental eyeglass at all your innocent little subterfuges, and knows to dead certainty your past history, present circumstances, and all your future prospects. Well, what harm if she does? None in particular. It is only being stretched on the rack a little while. You have no reason to be ashamed, and you are not ashamed. Your boots are beginning to be shabby, and we all know the transitory nature of galoon. Your fringe is too dark, but you ransacked the city and did your best—"angels could do no more." You trimmed your bonnet yourself, and saved two dollars, which was just what you intended to do. "The means were worthy and the end was won."

Your lace is not real, according to the cant of the shopkeepers; but it is real—real cotton, real linen, real silk, or whatever the material may be, and you never pretended it was Honiton or point; and if lace is soft, and white, and fine, and sets off the throat and wrists prettily, I do not see why it may not as well be made in America, for two cents a yard, as in Paris for two dollars or two hundred dollars. In fact, this whole matter of lace is something beyond my comprehension. Why, I have seen women, who, in the ordinary affairs of life, were neat to a fault, fall down and worship a bit of clingy, old, yellow lace that looked fit for nothing but the wash-tub; and, when remonstrated with, excuse themselves by saying:—"Why, it is fifty or five hundred years old;" which may be a very lucid explanation, but I cannot say I fully understand and appreciate it.

Have you used the Strela Matches?
J. F. SHORES, JR., No. 1 Congress Block, has just received from the manufactory a large lot of
STRELA MATCHES.
These matches are without sulphur and without smell in burning, which adapts them for the Sick Room, Nursery, Parlor, or for general use, being nearly as cheap as any other kind of Matches. They are put up in boxes of 150 matches, and are sold at the low price of THREE cents per box, or 12 boxes containing 1800 matches for 25 cents—being 72 for a cent!
Dealers supplied at the manufacturer's price.

BUY CALIFORNIA WINES.
They are the Purest!
The Best!
The Cheapest!
"The Rock" is a most delicious Wine, and rivals in delicacy its German predecessor.
The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.
The Port has a fine flavor and body; and The Port is excellent because it is pure.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JUNE 2, 1863.

☞ King William IV. of Great Britain, son of Geo. III. and uncle of Victoria, went on board a 98-gun ship as midshipman, June, 1779, when only 14 years old. He took his seat in the House of Lords in 1789, and there opposed Mr. Wilberforce's bill for the abolition of the slave trade. By Mrs. Jordan, the celebrated actress, he had five sons, as many daughters. He saw much service in the navy. At the death of George IV. he became king in 1830 at the age of 65.—In his short reign of only 7 years, the parliamentary reform bill was passed, the slaves in the British West India colonies were emancipated, and William being frightened, fell into the hands of "the tories who had assumed the name of *conservatives*," and dismissed Lord Melbourne and put in Sir Robert Peel as Premier; but in five months the popular voice for Reform was so loud that Melbourne again took the reins. William's career is one in which the progress of the world is seen to be great, even in spite of all he could do to hold it back.

☞ Rev. Thomas Starr King, in a letter from San Francisco, to the Executive Committee of the American Unitarian Association, states that he "hazards nothing in saying that San Francisco is, to-day, the most loyal city of the American Republic." How much Mr. King's own labors have contributed to this result, it might be difficult to estimate. His letter was in reply to an invitation to be present at the Anniversary meeting last week. After expressing his regret at his inability to comply, he says:

"It is not difficult to report the condition of this large Diocese. Where one is himself Bishop, Rector and Curate, and the clerical convention consists of a gathering of one, you will not be surprised to hear of entire unanimity in the councils and polity of the district of Zion here. Since Br. Dall, my next-door neighbor west, left India, (for we live where India is west), I have felt quite lonely. If you could send a missionary to the Sandwich Islands, to Japan, and to Hong Kong, it would be a refreshment to the occupant of this outpost, and measures could be taken to form a genuine Western Unitarian Association, which would compel our brethren of Buffalo, Cincinnati, Chicago, and St. Louis, to drop their assumption and enlarge their geographical views."

USEFUL DOGS.—Most dogs, especially in cities, are useless, or worse than that—a positive nuisance. But we recently saw a couple, or pair, of big, black, shaggy fellows, at East Boston, which pay well for their keeping. Being at the freight station of the Eastern Railroad, our old friend John Bezzell, who has hung out there for years, invited us into the teaming stable lott, and there we saw a large drum revolving swiftly, operating a hay-cutter. We supposed it was carried by power from below,—a steam engine or horse; but could see no belt connecting, and soon observed a brace of big dogs within this drum or wheel, constantly running up, like a squirrel in his wheel, or a man in a treadmill. It was to us a novel and interesting sight. The power was ample, and all the hay for that extensive stable is cut by them—often a large bale without stopping. Either of the dogs can easily carry the machine alone—in fact one, the older, had worked it alone for a year and more; but getting old and jaded, and slow, a younger and fresher companion was given him. They are not harnessed or tied at all, but can jump out whenever they wish. But they enjoy their work, especially when both together; and either will not be kept away from his place when the wheel is in motion, unless he is tied out.—If people will keep dogs, we advise them to "turn them to as good account" as does Mr. Holt, of the Eastern R. R. freight station.

THE TROTTERS.—Wilkes' Spirit says Flora Temple, the incomparable Queen of the Turf, is going to enter the lists again; and that though 18 years old, she is fresh as a four-old, smooth as a colt, and with legs clean as a whistle.

Dan Mace trotted Shark on a New York course last week, two 3-mile heats, in 7:47-3-4, 7:52 1-2.

Mr. New York Ledger Bonner drove his gray mare Peerless, the other day, on a track, but to his road wagon, a mile in 2:29, and a half mile in 1:11 1-2.—which Wilkes' Spirit says is by far the fastest time ever made to a road wagon by any horse in single harness; also a mile to a skeleton wagon in 2:23 1-4. Bonner won't race his horses for money, but publicly offers twenty thousand dollars (yes, $20,000!) for any horse that will equal Peerless' great feats.

☞ A will found at Port Royal recently by Union soldiers, presents a fact not often set forth out of Dixie. The testator, John Cooper of Caroline County, Va., gives his property to his wife and daughter, but to do this he is obliged to emancipate his wife who was his slave, and thereby (according to aristocratic Virginia practice) legitimatize his bastard daughter, born of the aforesaid slave.

THE REBELLION.

Adm. Porter informs the Department that the expedition under command of Lt. Commander Walker, after taking possession of the forts at Haines' Bluff, was perfectly successful. Three powerful steamers and an unfinished ram were destroyed at Yazoo City. The ram was a monster, 310 feet long, 79 feet beam, to be covered with 4-inch plates. Also a fine navy yard, with machine shops of all kinds, sawmills, blacksmiths' shops, &c., was burned. The property destroyed and captured amounted to over two million dollars. One battery was destroyed at Drury's Bluff. Our loss on the expedition was 1 killed and 7 wounded.

Rebel papers make the following statements: Gen. Banks has crossed the Mississippi at Bayou Sara with his army. Gen. Rosecrans has reinforced Gen. Grant. Two Federal gunboats have been sunk at Vicksburg. Gol. Grierson's Union cavalry made another raid from Baton Rouge, capturing and destroying a large rebel camp.

A dispatch from Gen. Blunt to Gen. Schofield states that the rebels crossed the Arkansas river near Fort Gibson, on the 20th, and attacked Col. Phelps, but were repulsed and driven back across the river. Our loss was 80 killed. The enemy's loss much greater. It was thought to be the advance of Price's army.

Another expedition was fitting out on the 26th at Newbern, N. C., against the guerillas in the interior; preparations were also being made to resist an anticipated attack on that place.

Some of Moseby's guerrillas attacked and burned a train of 16 cars from Alexandria, on Saturday, but were pursued and their two pieces of artillery were taken from them. Many of them were captured, and they lost heavily in killed and wounded.

Gen. Pemberton, on the evening of the 25th, asked for two and a half hours' truce to bury his dead, which was granted. His quartermaster is said to have succeeded in running 700 mules out of Vicksburg, thereby reducing the consumption of corn.

The most cheering feature of the news from Vicksburg is Gen. Grant's persistence in the attack. Up to the 27th, three assaults had been made by our forces, in all of which we were repulsed. Our outer line is within 100 yards of the works. The Memphis Bulletin of the 28th says we had taken a portion of the works, but the rest were very formidable and commanded the entire town. Our sharpshooters render it difficult for the rebels to work their large guns. They have 7 miles of forts 800 yards apart, connected by deep intrenchments.

Marmaduke is reported to have captured Helena, Ark., and a negro regiment.

FINANCIAL.—The Old Broker who makes the interesting Revelations in the Commercial Bulletin, will have it that we are coming to a crash ere long, just as the financial editor of the New York Herald, almost alone, maintained the same idea long prior to 1857." Our broker friend, reasoning from cause to effect in the past, says:—

In compiling a sketch, as briefly as possible, of the panic of 1857, I am led to do so from the conviction of my own mind of the certainty that a similar revulsion is now impending over the mercantile and banking interests of the country. And in transcribing the incidents of that eventful period, I have taken but those which have a bearing upon the one point which I desire to show; and that is, that no amount of self confidence, no series of well intended statements, no bolstering up of credit nor sagely devised schemes will avail to prevent currency and business from being forced down to their true and proper level, whenever inflation, extravagance and wild speculation have expanded them to that dangerous extent which the immutable laws of trade and finance will interfere to sternly correct, as surely as the tides rise and the world rolls round.

THE ENROLMENT.—The enrolment of persons between the ages of 20 and 45 years, liable to do military duty, is now in progress throughout the North. It will not be necessary for any one to take measures to establish his claim to exemption until he receives a printed notice that he is drafted, when he has ten days before he is required to appear at the office of the Board, where all cases of bodily infirmity, &c., will be duly considered. It seems to be a fact, also, that the Government has determined to receive a certain sum (probably $300) in lieu of the required military service. It is generally believed that a considerable percentage of the number required will be obtained by volunteer substitutes of returned and returning soldiers.

☞ Gen. Burnside is to remove his headquarters this week from Cincinnati to central Kentucky.

☞ All the fortifications in Boston harbor are to be put in telegraphic communication with the city without delay, arrangements having already been made for laying a submarine cable for that purpose.

☞ Polish dispatches report the continued spread of the insurrection. It is reported that the Russian government has ordered its officials in Poland to send their wives and children into the interior of Russia. New Russian regiments have been ordered to Finland.

NEW HAMPSHIRE ITEMS.

—— Capt. Hiram Rollins, of Dover, formerly of the 2d N. H. regiment, has received the commission of Captain in the Invalid Corps, from the President.

—— A correspondent of the Mirror writes that on Wednesday evening, Mr. Orrin Cass, of Deerfield, went into the house of Mr. Francis Legro, carrying a loaded gun. While he sat with the gun between his knees it was accidently discharged, the charge passing through the plastering over head and through a bed on which two children were sleeping, between the children, within three inches of the head of one of them, who had, apparently, just turned over, as the pillow where the ball passed through showed the shape of the head.

—— It is feared that Hon. N. G. Ordway, special mail agent for New England, will be compelled to resign his office on account of injuries received some three months since by a fall on the sidewalk in Concord. He has had charge of the New England District since the inauguration of the present administration. During that time, it is said, more depredators upon the mails have been sent to prison in this district, than in the eight preceding years. The work of examining and destroying the old postage stamps redeemed in the New England States has made no small addition to the ordinary duties of the office.

—— Among the aged ministers in the State are the following: Rev. Peter Clark, of Upper Gilmanton, aged 82 years, been in the ministry about 53 years; Rev. Enoch Place, of Strafford, aged 77 years, has been in the ministry 50 years; Rev. Nathaniel Berry, of New Durham, aged 74 years, been in the ministry 47 years; Rev. Thomas Perkins, of Hampton, aged 80 years, been in the ministry 47 years; Rev. Joseph Boody, of New Durham, aged 90 years, been in the ministry 63 years.

☞ The Newburyport Herald says, in speaking of the Grand Jury in Essex County:—The most important is the finding against Stackpole, of Beverly, for murder by poison. It is doubtful, however, if such evidence will be obtained as will convict him of the capital crime of which everybody believes him guilty. The most conclusive proof will be with his own family, and though he attempted to poison every one of them, still they will not care to add to their trials in this life by having a son hanged upon their own testimony. This will be the rub in that case, and we think will defeat the ends of justice." It might be added, that in Maine he would not be hung, but would be shut up where he could not poison his parents,—tho' he might kill the keeper.

☞ Capt. Philip H. W. Fontane, with the other officers and men of the U. S. gunboat Indianola, who were captured near the mouth of the Red River on the 24th of February, arrived at Washington, D. C., on Friday last from Annapolis, whither they had been taken when released from Richmond.

☞ A dispatch from Gen. Burnside has been sent to Gen. Bragg announcing his determination to hang all the rebel officers in his hands in case retaliation for the two spies tried and executed in accordance with the usages of war, should be resorted to by the Confederate Government.

☞ Mortimer D. Whittaker, Judge of the Police Court at Chicopee, met with a serious and probably fatal accident on Wednesday morning, being thrown from his horse, which took fright. His skull was fractured and a blood vessel broken in his head. No hopes are entertained of his recovery.

☞ Earl Russell in the British House of Lords recently defended the course of the American Government, and said that all their communications showed that they fully respected international law and desired to act accordingly. The law officers of the Crown in all cases of complaint reported that there was no rational ground of objection to the decision of the U. S. prize courts. He thought blockade runners, when they lost a vessel, demanded redress with all the airs of injured innocence.

☞ According to the rain guage of the Smithsonian Institute, Washington, the average fall of rain for the years 1856 to 1860 inclusive, was for the four months of January, February, March and April, ten inches, while the average in the same months for three years past has been 19 inches, and this year 19.1 inches.

☞ Gov. Curtin of Pennsylvania, has signed the bill passed by the last Legislature, which makes it unlawful for any iron-master, foundryman, collier, factoryman, or company or their agents, to pay their employees, wholly or partially, in printed, written, or verbal orders. Violation of this law is declared to be a misdemeanor, punishable with fine and imprisonment, or either, at the discretion of the court.

☞ In China a man is not allowed to build a house above his legitimate rank in society. The ancient laws prescribe the size, height, &c., as well as the number of apartments to be allowed to each rank from that of a plain citizen up to the mandarins and the Emperor himself.

☞ The editor of the Scientific American, who has examined the monitor Passaic, now undergoing repairs at New York, says the trial to which she was subjected during the attack on Charleston proves that our iron-clads are impregnable, and that we may safely defy all the English iron-clads and their armaments. The Whitworth shot, or *fac-similes* of them, in a majority of cases, struck sideways; they reached the turret in all possible positions and show very poor shooting on the part of the rebels. There is no indentation on the Passaic deeper than a tea saucer, and she was the most injured of the attacking fleet, except the Keokuk, which was not a monitor.

☞ A drummer boy named Lavender French, Co. A, 27th Massachusetts Regiment, went into the fight near Kinston, N. C., with a rifle, and captured 25 rebels belonging to the 58th North Carolina Regiment, and one lieutenant, unassisted and isolated from his company. He found his prisoners in an ambush. They supposed he represented a large force, and finding out their mistake they were inclined to resist, but the little hero being in possession of their arms, he obliged his captives to walk before his leveled piece and gracefully submit to his imperative order.

☞ One Boston man invested $130,000 in oil. He still has it, and the fall in prices figures up a loss for him of $50,000.

☞ A story is told of a good old man, who, when he heard of a neighbor's misfortunes used to say, "He fell to-day, I may fall to-morrow."

☞ The Vanderbilt and several other vessels of Admiral Wilkes' squadron were still at St. Thomas, May 20.

☞ The Indians in Minnesota are again collecting to attack the whites, and a large force is encamped near Devil's Lake.

☞ Letters from the iron-clad Nahant states that she is so fouled with grass and barnacles that she can scarcely steam three knots an hour.

The man who lives for himself alone, lives for a mean fellow.

Single copies 3 cents, in all cases.

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

School for Young Ladies.

MISS MILLER'S School is removed to the TEMPLE, where the Summer Term commenced on MONDAY, May 11, with accommodations for a few more scholars. Instruction given in the Latin and French languages, Music and Drawing, with the other branches of education usually pursued in such schools.

Private Tuition.

Young Ladies or Gentlemen wishing to pursue the study of Latin, in fitting for college or otherwise, can find an opportunity for such study under a private tutor, well qualified for this task, who has liberty to refer to REV. DR. PEABODY of Cambridge, O. CARLTON, Esq., of Salem, both late of this city and other gentlemen. Application may be made at MR. FOSTER'S Bookstore, or the Chronicle Office.

DR. JOHN C. MOTT,
Physician and Surgeon

☞ 80 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 8 in the evening, on all diseases of the Urinary and Genital Organs, Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of these difficult cases.—Medicines entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the affective maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8aw

Local.

☞ While we, here in the city, can hardly draw a long breath these days, for heat and dust, (hurry up that street sprinkler!) visitors at Rye Beach need shawls and wrappers to keep them from being too cool. The register at the Atlantic House shows many callers' names already, this season; and there are a few boarders. The drive thither is as charming as ever, and "those dim old cathedral woods" yet maintain their ascendancy over all the groves and shades we ever visited. The surging of blue old ocean united with the soubging of the wind through the trees, is a peculiar duet, rarely heard elsewhere. Mr. George G. Lougee, the old and popular clerk of the Atlantic, will add to the popularity of that Home this season.

☞ The invitation which has been extended to the Teachers of New Hampshire to visit the Museum of Comparative Zoology in Cambridge on Saturday next, will probably be accepted by a large number, and should be by all who can do so. Many teachers will go on Friday, in order to visit the Boston schools, and these will be met at the depot by Hon. John D. Philbrick, Superintendent of Schools. The School Committee of Manchester have voted to give the schools in that city a holiday on that day, that the teachers may be absent on both days. But the chief point of attraction will be the visit to the Museum which takes place on Saturday at 10 A. M. Prof. Agassiz, the distinguished naturalist, Pres. Hill and others will make welcoming addresses.

Recently nearly 300 teachers from Rhode Island made such a visit, much to their own pleasure and advantage.

The advantages and profit which may be derived from such a visit can scarcely be estimated; and it is doubtful if such an opportunity will again be afforded. Some of those interested in the cause of Common School education in this city are desirous that our teachers should be able to accept the invitation, and we trust that all who are desirous to go will be permitted to close their schools on that day for that purpose. And we think it would be time well spent if our teachers were permitted to be absent on both days. It would afford them an opportunity to compare the methods pursued in our city with those pursued in Boston, where the schools confessedly maintain a very high position, from which comparison many useful hints would undoubtedly be gained.

AN INCIDENT.—The children in High and Ladd streets had a delightful surprise on Saturday afternoon, by a generous offer from the gentleman who now occupies the Ladd premises in that location, to go into his garden and help themselves to flowers. The invitation, as may be readily supposed, was eagerly accepted; and it did one's heart good to see the happy juveniles enjoy themselves in gathering the beautiful bouquets, and afterwards returning to the street and expressing their heartfelt thanks to the generous donor in repeated cheers.

B.

BOAT CAPSIZED.—C. C. Whittemore, Esq., while sailing on the river on Monday morning, had his boat capsized by a sudden flaw of wind, precipitating him into the water. He swam to the end of Pier Wharf and clung to the fender until help arrived. The boat sank to the bottom of the river.

IRON FENCES.—We would respectfully inform our readers that Mr. Henderson (of the well known firm of "Henderson & Co.," Boston, "Iron Contractors,") is at the Franklin House, where he may be seen with his drawings, to-day and to-morrow.—A capital opportunity is thus afforded for every person in want of Iron Fencing, for house or cemetery, to avail themselves of such taste and judgment as is obtained only by experience. Any order left at the Franklin House will be promptly answered, and Mr. Henderson will call upon any who may not find it convenient to call upon him.

☞ The P. S. & P. Railroad Corporation held their annual meeting at North Berwick, Me., on Monday, and the following Board of Directors were elected:

Ichabod Goodwin, George M. Browne, I. M. Spelman, Charles E. Barret, Nathaniel Hooper, Edward P. Bancroft, and George W. Burleigh.

☞ We understand that the distinguished Missionary of the Episcopal Church, the Rev. Dr. James Lloyd Breck, is expected to visit Portsmouth to-day (Tuesday), and to give an account of his missionary labors in Minnesota,—in the St. John's Church this afternoon at 4 o'clock, and also this evening in the Chapel on State street, at half past 7 o'clock.

☞ A farmer residing in Newington, was "graciously given" a most abundant "increase of family,"—man and beast, if we may speak so of the matter,—one night recently: gaining, so we are assured, a fine boy in his house; and a calf, two litters of pigs, and a litter of kittens, at the barn, in a single night.

☞ Among the sales in Boston on Saturday last by J. L. Henshaw, Esq., were $5000 Portsmouth 5's, 1873, at 101 1-4, and $5000, ditto, 1871, at 101.

☞ A nice place to get a lunch or dinner,—Carter's new Saloons on Congress and Chestnut Streets. See his advertisements, and call in there when you want an ice cream or glass of soda,—or something more hearty.

☞ Foster's champion Pop Beer, from his Confectionery establishment on High Street, is a tip-top article,—a very grateful, cooling and healthful drink for this hot weather.

☞ The road to Rogers' Nursery and Greenhouse, at Kittery, is as pleasant as ever—and he is as ready, able and willing to fill all orders for trees, flowers and shrubs.

☞ The first church in York, Me., is the oldest in the State, dating back as far as 1673. Subsequently, churches were gathered at Wells in 1701, at Brunswick in 1702, at Kittery in 1714 and at Eliot in 1721. No church was formally organized in Saco till the 30th of April, 1703—almost precisely a century after the first legal settlement—when what is now the Lower Congregational Church in that city was founded. Biddeford and Saco were originally incorporated under the name of Buldeford.

☞ Two bedsteads have been made out of the limb of the great Elm tree, on Boston Common, which was blown off some two years ago—one of which is to be offered to President Lincoln for the White House at Washington.

☞ The venerable Lewis Cass, who has been spending some months with his son-in-law in Newport, has returned to his home in Detroit.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

U. S. Ship St. Lawrence.

THE ALL SUFFICIENT THREE.

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy death by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience.

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter.*

Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE
HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Lungs of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared exactly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

HERE'S HEALTH FOR THE MILLION!
DR. CLARKE'S
SHERRY WINE BITERS!
Palatable and Healthy.

Prepared from Rock Rose, Sarsaparilla, Dock Root, and a great variety of Roots & Herbs.

Preferred to any Sherry Wine or Whisky.

Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face, and Humors of all kinds.

They are quite for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.

N. B.—If you wish a good Bitter, *Call for Clarke's, and take no other.*

Beware of imitations, as they contain vile drugs and cheap poisonous liquors, which will destroy your health and life quicker than disease.

One Dollar is to keep up the quality and make the price fit proportion.

Sold by druggists, grocers, hotel-keepers and dealers generally.

Manufactured by E. R. CLARKE, Sharon, Ms. Price only 50 cents for the Total Bottle, 75 cts. for one quart, $1.50 two quarts.

Sold by Druggists at wholesale and retail by N. F. MATHES, 48 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

The peculiar taint or infection which we call Scrofula lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously called by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the vital fluid, the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe rior to any other remedy yet devised, is known by all who have given it a trial. The it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & CO.,
Practical and Analytical Chemists,
Lowell, Mass.

Sold by all druggists every where.

Livery Stable Notice.

JOSEPH WHIDDEN, 2D, having bought the Livery Stock of Mr. WOODBURY LOCKE, and taken the Stable recently occupied by him, on **First Street**, near FRANKLIN HOUSE, would respectfully solicit a share of patronage from his friends and the riding public generally. Good rooms at fair prices.

Thankful for past favors, he hopes for a continuance of the same. may1.

FERGUSON & CO'S LIVERY STABLE,

REAR NO. 29 CONGRESS ST.

Having purchased the Livery Establishment recently owned and conducted by Mr. F. H. BLAISDELL, and refitted it throughout, we are prepared to furnish teams of one horse, two or four, with carriages, as may be desired, and of the best, to customers who favor us with a call.

To those who have patronized us for the past few months, we tender our thanks, and trust by a strict attention in furnishing the riding public with

NEAT & FASHIONABLE TEAMS,

to merit the further patronage of all others who desire to be well served.

WM. F. BURLEY, JOHN H. FERGUSON.
Portsmouth, May, 1862.

Hacking.

JOHN S. SIDES would inform his friends and the public that he has purchased the HACKING TEAMS recently owned by Mr. Burleigh, and having a large supply of good HACKS, can fill orders for any required number at all times, for FUNERALS, PARTIES, or other riding, to the satisfaction of customers. All business promptly attended to, if orders are left at the Livery Stable of Mr. JOHN H. FERGUSON.

Portsmouth, April 14th, 1863.

Hacking Notice—Removal.

WM. H. WEBSTER would inform his Hack Office from VAUGHAN STREET to No. 25 CONGRESS STREET.

Next door to F. W. ROGERS' Grocery store, where he will be ready to wait on his patrons and the public, in his new and more convenient location.—Prompt attention to all calls, day and evening.

WM. H. WEBSTER,
25 CONGRESS STREET.

Portsmouth, Oct. 18th, 1862. tf

I have now in Store a choice and selected stock of GROCERIES, in quantity and quality, and at prices to suit all who may call on me, at 44 Market street.

LAFAYETTE LAIGHTON.

ATTENTION, THE WHOLE!

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated Physicians, and Sweet's Sarsaparilla Syrup, &c., but she obtained no relief until I procured some few or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many benefits from it, and stand by it; I have no other agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, sick headache, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about two years ago, I first took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

Extract ELDER I. CHENEY, *Lee, May 31, 1841.*

DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors, and that previous to her visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by reason of them. She had expended a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease mentioned. Yours, &c., JOHN CHENEY.

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, Portsmouth, N.H., promptly attended to. may26o

People's Shoe Store.

4—Congress Block—4

HALEY, MORSE & BOYDEN'S
PATENT SELF-ADJUSTING
CLOTHES WRINGER.

This Wringer has had immense sale in this city and vicinity, and a year's trial has proved its many excellent qualities.

It is now one the "domestic institutions." No family should be without it. Try one; if not satisfactory, the money will be refunded.

ANOTHER NEW STOVE!
THE MODEL COOK
FOR WOOD OR COAL.

The word—the *peculiar* feature of the MODEL COOK, that which distinguishes it from all others, is the addition of a "Combined Roasting Oven within the body of the stove and in front of the fire; so arranged that it can be used separately for a roaster or baker, and at a simple plate; in connection with the larger oven, for baking; giving an oven nearly 3 feet long; or large enough to bake three large plates on the bottom, every part of which will bake evenly at the same time! A check draft is applied to this stove by means of which the consumption of fuel is greatly lessened, and a steady fire can be kept day and night if desired.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the combined, there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelfuls of the ashes are entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove. Hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—
MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection raised at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combined gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot escape, but are forced to pass in admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large proportion of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named very intelligent gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Slee, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one solid piece.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, but prefers the former.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and gums, and the teeth are firmly held in place, joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do in the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TRASKWELL, Dr. BOARMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain, and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Europe in hospitals and public institutions, and by some of the first families in Europe and America.

As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. WEDNESDAY JUNE 3, 1863. NO. 90.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy.—*Washington's Farewell Address.*

Communication.

"'LET WELL ENOUGH ALONE,' is a proverb of great antiquity and wisdom, but it is not one which Americans regard with favor. Hence came abolitionism, secessionism, rebellion, civil war."

So says a paper claiming to be wise; and in its wisdom setting down abolitionism as the parent evil, out of which the others grew. Supposing this to be truth, as well as wisdom—what fools were Franklin, Jay, and Jefferson! who set the ball in motion 90 years ago. What fools were Wilberforce and Clarkson in England; and what a fool is the Emperor of Russia! How foolish it was for Englishmen to clamor for a Reform in Parliament—How foolish for our Fathers to make the Revolution—and above all what folly it was for Columbus to leave his "Well Enough" navigation in wellknown seas, and drive the world crazy by discovering a new hemisphere!—What a pity it is that the conservatives of that day had not suppressed the ardor of Columbus, by begging him to 'let well enough alone.'—They did not stop him; the world took a new start; so did emigration and slavery: and so did improvement and freedom. These forces are always in motion and often in collision; now they are in fierce conflict; and he who thinks to quiet them by a mere soothing lullaby, is wise only on the pattern of Dame Partington, when she essayed to push back the sea with her broom. U. T.

☞ According to an official report made to Rear Adm. Davis, the line of coast guarded by our blockading fleet is three thousand five hundred and forty-nine miles long, without counting the indentations of the harbor and ports. There are one hundred and eighty nine openings in this coast, either rivers, bays, harbors, inlets, sounds or passes. It is honorable to the navy that it has guarded this whole line so effectually as to make the whole world, and the rebels themselves, unwillingly acknowledge the blockade "effective."

☞ The two wings of the California Democracy, formerly known as the Douglas and Breckinridge Democrats, and latterly as War and Peace Democrats, are making overtures for fusing on the State ticket. There is some prospect that they will meet each other half way on a platform the main plank of which is opposition to the Administration.

☞ One of those rough episodes which mark new settlements occurred in Atchison, Kansas, on the 23d. Two men, for attempting to rob a man, kill his wife, hang his son, and who savagely beat an old man for concealing money, were summarily tried and sent to jail—the jail was at once opened and the rogues hung by the populace.

An exchange tells the following simple story of a little child kneeling by his bed to pray. He said—"Dear Heavenly Father, please don't let the large cow hook me, nor the horse kick me, and don' let me run outside the gate when mother tells me not to."

☞ An English writer says in his advice to young married women, that their mother Eve married a gardener. It might be added that the gardener in consequence of his match lost his situation.

☞ The ninth volume of Bancroft's History of the United States is in press, and the tenth volume, which will complete the work, is nearly finished. Mr. Bancroft will enjoy a fortune not usual with historians if he lives to see the great work of his life complete!

☞ The number of insurgents in the Kingdom of Poland is estimated by the London Times' correspondent not to exceed 20,000, and in Lethevan at under 10,000. The number of small bands containing from 50 to 500 men is about 200.

John, (said Dean Ramsay) I'm sure you know that a rolling stone gathers no moss. Yes, that's true, said John; but can you tell me what good the moss does the stone.

Great Bargains! Great Bargains!

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JUNE 3, 1863.

THE REBELLION.

There are 40,000 enrolled militia in the State of Missouri, ready to act. Gens. Herron's and Blunt's commands are in Kansas and the Indian country, and amount to nearly 25,000 men, and it is believed that they can take care of Price.

Our troops on Folly Island were attacked on May 26th, by the rebels, who were repulsed. Gen. Hunter has ordered a draft of all the able bodied men, not in Government employ, in that department after June 15th. All furloughs have been stopped in his department. It is stated that an expedition is to be sent into the interior of Florida.

The plantations on the road from Opelousas to Alexandria have large quantities of cotton upon them, the advance of Gen. Dwight's brigade being too rapid to allow the retreating rebels to burn it. Large warehouses filled with sugar and molasses were also captured. Recent New Orleans advices say that Gen. Augur's division, of Gen. Banks' force, after a nine hours' fight, on the 21st, in the rear of Port Hudson, defeated the rebel force, driving them three miles. The rebels left many of their dead and wounded on the field. [Our General evidently is not one of the N. Y Tribune's "augers that won't bore."] A letter of the 23d reports an attack on Port Hudson in progress. Two successful raids have been made by our cavalry in the same department, in which great quantities of rebel stores, ammunition, &c., were destroyed, together with mills, tanneries, &c.

Tuesday evening brought a batch of rumors, among which were the following:—That a battle has taken place between Bragg and Rosecrans, in which Bragg was badly beaten, and was falling back to Alabama with Rosecrans in pursuit; that Mobile had been attacked, and Fort Morgan was already in our possession; and that Vicksburg had fallen. All these, although they come through rebel sources, and every one will wish they were true—should be received with due caution.

The New Orleans Era of the 24th says it learns on good authority that the military authorities of Mobile have called on the people to rally en masse, armed, for the defence of the city. This may be because the rebel troops are withdrawn, or an attack may be threatened.

The N. Y. Times' dispatch says Hunter has been relieved of the command of the Department of the South, and Gen. Gillmore succeeds him. The Herald says it is understood that Adm. Foote will relieve Adm. Du Pont.

Official advices from Vicksburg to the 29th indicate that there is no change in the state of affairs. One of our gunboats has been sunk by the rebel batteries. The rebels have paroled several prisoners on account of the scarcity of food.

War's Devastations.—"If we take into consideration," says the the learned Dr. Dick, "the number not only of those who have fallen in battle, but of those who have perished through the natural consequences of war, we will not, perhaps, be overrating the destruction of human life if we were to affirm that one-tenth of the human race has been destroyed by the ravages of war, and, according to the estimate, more than 14,000,000,000 of human beings have been slaughtered in war since the beginning of the world." Edmund Burke went still further, and reckoned the sum total of its ravages, from the first, at no less than 35,000,000,000.

Gen. Ulysses S. Grant's qualities as a soldier, as summed up by the New York Times, are singleness of purpose, undisturbed by political aspirations—a simplicity of character almost Spartan—a modesty and magnanimity of disposition which brings him easily into co-operative association with other commanders, naval or military—sound judgment, sterling sense, and an extraordinary combination of energy and persistance. His soldiers call him "Unconditional Surrender Grant;" his present campaign proves his right to the Homeric epithet of the "much-contriving" Ulysses.

☞ The Charleston Courier says that "Gen. Jackson had a strong presentiment that he would be killed before the war was brought to a close, and that the event would take place in the last or one of the last battles fought."

☞ The City Council of Charlestown, Mass., have authorized the Committee on City Property to hire some suitable place and fit the same for the use of the public, as a free-salt water bath-house.

☞ The Portland Press states that some fine large snow drifts may be seen by the wayside between Farmington and Phillips, Me.

☞ It is said that Sam Houston is to run for Governor of Texas, with the design of forming a Texan Republic.

☞ Gen. Foster on the 27th visited the camps of the 9 months' men at Newbern, N. C., and made an eloquent speech to each regiment, speaking of their many victories, their matchless bravery, &c. He asked them to re-enlist, stating that he would give them all the advantages accompanying a re-enlistment, including a furlough of 30 days to each regiment, and so arrange it that while one regiment departed another should be ready to return, which proposition appeared to meet with general favor. Gen. Foster then called upon the nine months' men for a new artillery regiment of twelve companies of 150 men each. This regiment was organized upon the spot, and officers appointed, some regiments offering to furnish as high as three companies for this new command, which will be ready for service in a short time.

☞ The disposition of the venerable Hancock house in Boston has been determined, the State and city authorities having united to preserve the building. The Back Bay Land Commissioners have, with the approval of the Governor, given a lot of land on the corner of Newbury and Clarendon streets as a site for the building, and the city will defray the expenses of its removal. It will be taken down carefully and rebuilt and then occupied as a Museum—the public to have access to it on certain days.

☞ A British blockade runner, while trying to get out of Charleston, was discovered on the night of the 20th, and sunk before she could gain the bar, on her return, by the Powhatan and Flag. Her officers and crew are supposed to have perished. She was a large steamship. On the 23d, another steamer was discovered and fired into. She recrossed under a heavy fire and sunk in the main channel, off Morris Island. Both vessels had large cargoes.

☞ The fibrous plant which last presented its claims as a substitute for cotton and wool is the Melilotus Leucantha Major. The fibre resembles flax more than any other long stapled filament, and works readily under the fibrilla process, for mixing with either cotton or wool. A peculiarity—and a valuable one—is, that it may remain in the fields all winter—the air, snow, frost and rain effectually rotting it without injury to the fibre. In the flower garden, the Melilotus is already well known and appreciated for its delicate flower and agreeable and lasting perfume.

☞ A Washington dispatch says: Col. Ludlow reports that the rebels refuse to exchange or parole the officers of Colonel Straight's command taken in Alabama, sixty or seventy in number, on the ground that colored soldiers were found serving under them. The rebel state authorities claim that they will be handed over to them as threatened in the proclamation of Jeff. Davis. Pending this question our government refuses to make further exchanges.

☞ The operations against the hostile Indians in Minnesota are on a much larger scale than is generally supposed. Gen. Sibley's command, which is moving from Fort Snelling against the Sioux, includes three full regiments of infantry, a regiment of mounted rangers, and a battery of artillery. Little Crow commands 5000 Sioux, 2,000 of whom are armed with muskets, and the balance with clubs, bows and arrows, and spears. We notice a statement that the Chippewa tribe in Minnesota are hostile, and that a very bad spirit prevails among all the red men in the State—some 20,000.

☞ In Rochester, a few days since, Deputy Marshal Pierce arrested a young man and took him before U. S. Commissioner Storrs to answer a charge of having assisted a deserter from the army. While the examination was in progress a Health Inspector of the city went into Court and demanded the custody of the accused. Mr. Pierce demurred, and said he held the prisoner to answer for an offence against the United States, and could not give him up. The Inspector said the man had the small pox, and his orders were to take him to the pest house at once. Pierce looked at the Commissioner, and both concurred, without unnecessary delay, in the opinion that their jurisdiction was at an end.

☞ A few miles west of Port Gibson the advance of Gen. Grant's army found in a forest by the roadside two immense piles of bacon, each covering an area of 2,500 square feet piled as high as the branches of the forest trees, and each containing, by estimate, 40,000 pounds. The enemy, counting upon an easy victory at Thompson's Hills, had loaded his train with these supplies, and his retreat was so hurried that he had not time to remove or destroy them. Of course, these as well as an abundance of tents, fell into our possession.

☞ Hawthorne, in the quiet of his home at Concord, Mass, is hard at work on a new romance, which is well advanced toward completion.

☞ Hon. Frank Fuller, of this city, has been admitted to practice in the Courts in Utah Territory.

NEW HAMPSHIRE ITEMS.

—— The Washington Republican of Friday remarks: "It is with gratification that we announce, after looking over the rolls of the 44th N. H. and 39th Mass. regiments, that have been performing provost duty for some months, that during the entire time no occasion occurred to reprimand a single officer or private.

—— One of the Manchester police on Sunday evening took a woman to the lock-up in a wheelbarrow.

—— The wife of Jeremiah Bly, a private in the 8th N. H. regiment, died at Manchester on Sunday morning. She had been ill for several days. The doctor who attended her has been taken into custody. An inquest is to be held. She was about 35 years old, and had four children.

—— In Manchester, a little girl, 8 years old, while staggering down stairs under the weight of an infant, fell and broke her collar bone.

—— As Mrs. Mary Bickford, of Tuftonborough, a lady 76 years of age, was milking a cow a few evenings since, another cow came suddenly against the one she was milking, and Mrs. Bickford was thrown up on the ground with such force as to dislocate her hip.

—— A letter from the N. H. Battery makes an earnest call for more men. It has only about 107 men, and seven of these are sick.

☞ We learn, via Havana, that Puebla has been surrendered to the French. The prisoners include Gen. Ortega, 23 other Generals, 900 minor officers, and 17,000 men. It appears that on the 16th Gen Forey opened with heavy artillery on the fort, and on the 17th a breach was made. The French troops then moved to the assault, and entered the Plaza, when Gen. Ortega surrendered unconditionally, with all his forces, including all his artillery and equipments. There was left in Puebla a garrison to prevent it being molested by guerrillas, while the rest of the French forces were to march for the Capital.

The captain of a French transport, at New York from Vera Cruz, doubts the story of the capture of Puebla, apparently on good grounds.

☞ Extensive fires are raging in some of the forests in Franklin County, Me. A graphic newspaper writer, who was lost in the smoke, says that the sun looked like an old-fashioned red wafer.

☞ The entire amount realized by the sale of the prize steamer Bermuda and cargo was half a million of dollars.

Mansfield's Dispensatory says that most of the Sarsaparilla of the shops is inert and worthless. Dr. Ayer, in his writings on this drug, states that not only is it inert as found in the shops, but so also are most of the preparations from it, or bearing its name. He shows, however, that this fact arises from the use of worthless varieties, or unskilful preparations by incompetent men; that the true Medicinal Sarsaparilla (Sarza Smilax off.) of the tropics, when freshly gathered in the bud, is one of the most effectual alteratives we possess. Combined with other substances of great alterative power, like Iodine, Stillingia, Dock, &c., it makes Ayer's Comp. Ext. of Sarsp., which we have reason to believe is one of the most effectual remedies for humors, skin diseases and for purifying the blood which has ever yet been found by anybody.—[Bangor (Me.,) Mercury.

It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on the subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody tells it.

☞ During the recent rebel raid into Western Virginia, one of Gen. Jenkins's men stole a lady's hoop skirt, which so enraged the General that he ordered the fellow to wear it a whole month—so he was obliged to go with it around his neck, amid the jeers of his comrades; and to see him holding it up when riding his horse, is said to have been ludicrous in the extreme.

☞ The Superior Court of Cincinnati has just decided U. S. Treasury notes a legal tender on notes and mortgages. A similar decision has been made by the Supreme Court of the State of New York.

☞ Gen. Hunter has sent a letter to Jeff. Davis, stating that he will immediately execute rebels of the highest rank, in his possession, man for man, for all negroes murdered or sold into slavery by the Confederate authorities.

☞ Nearly $6000 were raised at a meeting in Chicago on Monday, for the wounded at Vicksburg.

☞ A rumor in New York on Monday, that 20,000 of Grant's army had been captured, carried gold up to 147 1-2.

☞ 4380 rebel prisoners (including 180 officers) arrived at Cairo on Wednesday from Vicksburg.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The combinations exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill.

☞ 36 COURT STREET, corner of Howard, Boston, is consulted daily from 10 until 2, and from 6 to 9 in the evening, on all diseases of the Urinary and Genital Organs. Scrofulous Affections, Humors of all kinds, Sores, Ulcers and Eruptions, Female Complaints, &c. An experience of over twenty years' extensive practice enables Dr. M. to cure all of the most difficult cases.—Medicine entirely vegetable. ADVICE FREE.

Mrs. M., who is thoroughly versed in the afflictive maladies of the sex, can be consulted by ladies.

Patients furnished with board and experienced nurses.

Boston, April 8, 1863. 1yr spno 8taw

Local.

☞ Rev. Dr. Putnam, who was pastor of the North Church for the twenty years between 1815 and 1835, preached here to his former charge last Sunday,—attended the funeral of an old parishioner on Monday, and to-day is to take a part in the installation of a pastor, the sixth after himself. He has been a pastor at Middleboro', Mass., all the intervening time, and still continues. His old friends here received him with a cordial greeting.

Rev. Dr. Burroughs, and Rev. Mr. How, both near his age, and both, like him, still active, have recently been with us. All three were pastors here at the same period.

☞ Rev. George M. Adams, of Conway, Mass., is to be installed Pastor of the North Church in Portsmouth this afternoon; the services to commence at half past two o'clock. The sermon is to be by Rev. Geo. L. Walker, of Portland,—and Rev. Dr. Putnam, a former pastor, will take part in the services.

☞ The officers of the Artillery Company at Fort Constitution, which have thus far been appointed, are—Capt. Chas. H. Long, of Claremont, late an officer in the 5th regiment; Senior 1st Lieut., Geo. A. Wainwright, of Hanover; Senior 2d Lieut., B. F. Wells, of Lisbon.

FOURTH OF JULY.—*Messrs. Editors:*—Are we to have a Celebration this coming Fourth? The time has drawn near for preparation, if anything is to be done. How would it answer for the mechanics to turn out and show the public a taste of their skill and handiwork? The celebrations they used to get up were always interesting. One of those old-fashioned floral processions in the morning, would be a rich treat for the little folks, and we have no doubt the boating community would like to feather their oars in a regatta. Wake up! public-spirited young ladies and gentlemen and start the ball in motion. ANON.

☞ The accident to Mr. Whittemore occurred while his boat was at the wharf. He made a mis-step, and to save himself grasped the mast, causing the boat partially to fill with water, and throwing him out.—He swam but a short distance, and got out without assistance.

SELECT YOUR SUITS FOR THE DRAFT. Eight or ten cases of military clothing and boots and shoes arrived on Tuesday at the Provost Marshal's Office, in the old Custom House, for the conscripts. We presume the gentlemanly assistants at the office will wait on all who would like to select a suit in case they are drafted.

☞ The Portland Advertiser states that considerable excitement exists in Bath, Me., about the abduction, or elopement, of a young lady of that city with a member of a company of negro minstrels. She is about 17 years of age, of a most respectable family, and would not have been expected to commit such a folly. The parties have gone toward the West, and the family are painfully anxious to hear from her. Pursuit has been made.

☞ The Journal of Commerce says it will not do for the New York Peace Convention to claim that it represents the Democratic party, or to attempt the organization of a new party. If its platform shou'd be merely generality on the subject of peace, it will fail to offer to popular sentiment any rallying point; while if it be peace and disunion it will vanish under public execration.

☞ The Protestant Episcopal Convention of the Diocese of Pennsylvania appropriately closed its annual session on Friday by adopting a series of resolutions of the most patriotic stamp. There was no dissenting voice on the vote.

☞ It is stated that the leading hotels in Montreal and Quebec now charge travelers from the States prices similar to those charged in Boston and New York, and take our money at par.

☞ It is proposed to endow a F. W. Baptist Theological School in Maine, and ten churches in that State have given $2477, two-thirds of the sum needed, for that purpose.

☞ When Thomas Sims, the slave, escaped a few weeks since, his old master advertised $500 for his arrest, in a Vicksburg paper.

☞ William M. Evarts, now in London, says he feels assured that the British Government will in good faith do its best to prevent the sailing of rebel pirates.

☞ A cow raised in Aroostook county, Maine, has been sold at St. Andrews, N. B., for $154. She weighed alive 1800 lbs.

☞ The N. Y. Post understands that Gen. Fremont has been elected President of the Pacific Railroad—Eastern division.

☞ Two chimney-sweeps from Philadelphia surprised the good people of Portland on Saturday.

☞ Bangor has engaged its band to favor its citizens with music these summer evenings.

☞ Dr. Daniel H. Wadleigh, of Freedom, Me., has been convicted of manslaughter on a charge of malpractice in producing the death of a female patient, and has been fined $500.

☞ Gen. Ewell, who succeeds Stonewall Jackson, has but one leg, and is strapped on his horse while on the field.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.
This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.
Daniel T. Curtis, Fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."
Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."
John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."
C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."
Thousands of similar testimonials can be shown in its favor.
SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "multitude." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.
We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, at *cheaper* prices than ever before sold.
The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

LEWIS RICE, Proprietor.
Boston, Jan. 1863. 1mslyr

THE ALL SUFFICIENT THREE,
The Great "American Remedies,"
Known as "Helmbold's"
Genuine Preparations, Viz.:
HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.
HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.
This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*
HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Musculur System.	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow IMBECILITY, PATHY, EPILEPTIC FITS, In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases."
INSANITY AND CONSUMPTION.
Many are aware of the cause of their suffering, but none will confess. The records of the insane asylums and the melancholy death by Consumption, bear ample witness to the truth of the assertion.
THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,
Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.
Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.
In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorix or Retention, Irregularity, Painfulness, or Suppression of the Menstruary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or the silent
DECLINE OR CHANGE OF LIFE.
SEE SYMPTOMS ABOVE.
NO FAMILY SHOULD BE WITHOUT IT.
Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.
HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages; at little expense; little or no change in diet; no inconvenience,
AND NO EXPOSURE.
It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter*
Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF
QUACKS,
and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and
PERHAPS AFTER MARRIAGE.
USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs,
Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter
OF HOW LONG STANDING.
Diseases of the organs require the aid of diuretics.
HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,
And it is certain to have the desired effect in all diseases for which it is recommended.
BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.
This is an affection of the Blood, and attacks the Sexual Organs, *Lindings* of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, the Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.
Helmbold's Rose Wash.
An excellent Lotion for Diseases of a Syphilitic Nature, and as an Injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.
Evidence of the most responsible and reliable character will accompany the medicines.
CERTIFICATES OF CURES,
From eight to twenty years standing, with names known to **Science and Fame.**

Cut out the advertisement, and send for it, *and avoid Imposition and Exposure.* mch23 1y

Morning Chronicle.

☞ Several ladies paid a visit to Gen. Hooker's army, on Saturday, with Gov. Berry, of Michigan, and left with a favorable impression of the General's ability to defeat the rebels. Mr. Secretary Stanton allows this to be telegraphed!

☞ The New York Herald's report that Tom Hyer was to fight Joe Coburn, Wilkes' Spirit says is false and preposterous—just as we supposed, for Tom is getting too old and stale to train, and is, besides, an invalid.

☞ The largest railway carriage company in the world is said to be at Berlin, Prussia; it employs 1500 men and turns out carriages to the value of nealy $1,500,000 per annum.

☞ A large number of unpublished letters of Martin Luther have been discovered in the archives of the Ernestine House of Saxony by Dr. Burkhardt, and will be published by him.

☞ Tar is now being manutactured in Michigan by a party of Norwegians. In a few years Michigan may beat North Carolina in producing this desirable article of commerce.

Cowper says, 'the tear that is wiped with address may be followed, perhaps, by a smile.' If it is a woman's tear, says a cynic, the perhaps is unnecessary; you can always dry it with a dress.

Wheat, Rye, Corn.
WHEAT WHEAT
RYE. RYE.
CORN. CORN.
GOLDEN SHEAF WHISKEY.
The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real
Pure Bourbon Whiskey,
when made as it ought to be, from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a specialty in his business, he has accepted the
General Selling Agency for a large Distillery in Bourbon County, Kentucky,
and is future will sell under the brand of
"GOLDEN SHEAF,"
PURE BOURBON WHISKEY, manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.
This celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.
Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the General Depot for its sale, 91 Washington St. Boston.
Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.
C. A. RICHARDS, General Agent.

Manufactured by E. R. CLARKE, Sharon, Ma.

ATTENTION, THE WHOLE!
RYE, N.H., Feb. 28, 1848. "I hereby certify that my daughter has had the cash rheum for a number of years; some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended in the case, celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swayne's Panacea, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1863.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and no medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOWD.
From ELDER I. CHESLEY, *Lee, May 31, 1841.*
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. From that time, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicines one of the greatest that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may20

People's Shoe Store.
4—Congress Block—4
D. R. AMBROSE having a good assortment of BOOTS & SHOES adapted to the season, begs leave to assure his friends and the public that he is prepared to sell the same at
THE VERY LOWEST CASH PRICES.
All kinds of Men's and Women's Custom Work substantially done and in the latest style. apr24 3mos

Navy Tobacco.
We would invite the attention of dealers to the above brand of tobacco, now in use. It is warranted to be of BETTER QUALITY than any in the market, and as good as the best from Virginia. Those disposed to order can find it at the MANUFACTORY, and all in want of GOOD TOBACCO in place of the very inferior quality with which the market is flooded, can obtain it in any quantity for trial.
☞ *Orders by mail or express promptly attended to.*

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished, by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the Charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable* and *successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *worthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE
COOKING STOVE.
The subscribers, having received their Fall stock of this Stove, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the sifting of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as those of our old customers and families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:
Portsmouth.

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE,
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different sizes, Brick and portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shaw, and others.

Teeth on Vulcanized Rubber,
SOME OF ITS ADVANTAGES.
1st It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as it does not absorb the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as any other, as then Rubber and the best presents one whole piece.
6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, Surgeon Dentist,
No. 5 Daniel St., Portsmouth,
Has had four years of practical experience in making this material, and will guarantee satisfaction to all cases intrusted to his care.
Portsmouth, Jan. 1, 1863.

DR. GOODALL,
DENTIST,
60 Congress St.
PORTSMOUTH.
Residence 12 Court St.
DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, (having had of late many calls to insert teeth with it,) that he has at last found that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases that use GOLD and SILVER as formerly, if preferred.
The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists. I will warrant a perfect fit and teeth from the best manufacturer in the country, $5 a set.
All other operations in Dentistry I will do at the usual rates. I will here mention that my price for Extraction is 25 cents.
I take pleasure in referring the public to Dr. Treadwell, Dr. Boardman, Dr Oliver and Dr. Bennett, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth plugged to their natural whiteness without pain or injury to the Gums. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial sets of Teeth repaired with Sweetness and Dispatch. All other operations in Dentistry, done at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

WEEKLY $1.50 per year, or $1.25 in adv.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. THURSDAY JUNE 4, 1863. NO. 91.

Advertising.

For a Square (1 inch) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $2, three months $5, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.

Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity and throughout the State. ☞ Liberal terms for yearly advertising

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though everyism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it: In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

☞ A young German had paid his addresses for some time to a charming brunettish maiden on Vine street, St. Louis, no longer in the years of foolishness, but withal very attractive, and learned in the lore of love, which former admirers, before their desertion, had imparted to her. He vowed eternal faithfulness, and she was happy—dreaming already of the bliss which the approaching nuptials would shower upon her. But on an evil day a stray copy of a newspaper happened to fall into her hands, in which there appeared several advertisements of "young men with a view to matrimony, &c." Of a natural disposition for fun, she replied to one of them under a false name, enclosing the photograph of a young lady friend of hers, and asking for that of the matrimonial candidate in return. On the second day it arrived; it was the photograph of—of her betrothed! A scene: Fainting, sobbing, tears! The incontant lover received his dismissal, and the brunettish young lady has taken a vow never again to fall in love—until another lover presents himself—so says the St. Louis Republican.

☞ The Portland Courier (daily) announces that a weekly will hereafter be issued from that office. It is to be furnished for the ridiculously small sum of $1 per year. The Courier states that George B. Moore, Esq., for some months one of the editors of the Argus, now has the entire control of the columns of the Advertiser.

PROTECTIVE
WAR CLAIM ASSOCIATION
FOR NEW ENGLAND.
INCORPORATED 1863.
Office, No. 11 Railroad Exchange, Boston, Mass.
Chief Justice BIGELOW, President.
His Excellency JOHN A. ANDREW, and AMOS A. LAWRENCE, Vice-Presidents.
WALDO HIGGINSON, Treasurer.
U. TRACY HOWE, Secretary.
Directors.
Judge Hoar, Martin Brimmer,
Joseph Coolidge, George B. Emerson,
Edward Atkinson, William Appleton,
Quincy A. Shaw, Richard Frothingham,
Charles E. Norton, George S. Hillard,
Geo. Wm. Bond, Patrick Donahoe,
Jas. Freeman Clark, F. W. Lincoln, Jr.
Objects.
The objects of the Association are:
I. To secure to soldiers or sailors, and their families, any claims for pay or pensions, &c., at the lesset cost to the claimant.
II. To protect soldiers or sailors, and their families, from impostors and fraud.
III. To prevent false claims from being made against the Government.
IV. To give gratuitous advice and information to soldiers and sailors, or their families needing it.
The Board of Directors supervise and control the entire business of the Association, and the character and standing of those gentlemen will be a guarantee to the public that the business of the society will be conducted with fidelity and economy.
All applications relating to the business of the Association, whether by letter or in person, should be made to

J. F. SHORES, JR., No. 1 Congress Block, has just received from the manufactory a large lot of
STRELA MATCHES.
These matches are without sulphur and without smell in burning, which adapts them for the Sick Room, the Parlor, or for general use, being nearly as cheap as any other kind of Matches. They are put up in boxes of 150 matches, and are sold at the low price of THREE cents per box, or 12 boxes containing 1800 matches, for 25 cents—by in; 72 for a cent!
Dealers supplied at the manufacturer's price.

BUY CALIFORNIA WINES.
They are the Purest!
The Best!
The Cheapest!
"The Hock" is a most delicious Wine, and rivals in delicacy its German predecessor.
The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.
The Port has a fine flavor and body: and The Port is excellent because it is pure.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JUNE 4, 1863.

THE REBELLION.

Colonel Corwin defeated Gen. Roddy at Florence, Ala., on the 27th ult., capturing 100 men, 8 officers, 400 mules, and 300 negroes. Marching northward Col. Corwin destroyed foundries, mills, and everything else useful to the enemy that he could lay his hands on.

The New Orleans Era of the 27th says that Gen. Banks has united his forces with Gen. Augur's at Port Hudson. Farragut's gunboats were to move up on the 24th. The mortar fleet opened fire on Port Hudson on the night of the 24th, silencing several of the enemy's guns. Port Hudson is therefore, closely besieged and hemmed in. The garrison there is estimated at about 10,000, scantily supplied with provisions.

There is nothing official from Vicksburg. A special despatch says we hold undisputed possession of everything between the Black River Bridge and a point 60 feet from the hills in the rear of the rebel army. Gen. Frank Blair's division had started for that bridge—destination unknown.

Adm. Porter confirms the report of the sinking of the Cincinnati at Vicksburg. He says she can be raised. 25 men were killed or wounded, and 15 are missing—supposed to be drowned.

☞ In London, coal is sent to the customer in sacks containing one hundred pounds each. These are loaded on large carts and drawn by enormous horses, with scales and weights to each cart, and if desired by the purchaser, the sack is weighed by the driver. But the honesty of the merchant and the integrity of the driver is sufficient. This mode of buying and selling coal is the result of many years' experience in London, and is probably the best that can be devised.

☞ It is certain that the great Tredegar Iron Works of Richmond were destroyed by fire on the 17th ult. All the fine machinery, and sixteen cannon nearly perfect, were lost. A large wooden factory adjoining was also burned. The Davis Government forbade any mention of the disaster by telegraph or newspaper.

☞ The Free South, published at Port Royal, intimates that there was a great deal of bosh about Gen. Foster's siege at Little Washington, N.C.,—that he was in no danger of being captured. The circumstances under which the paper is published may account for this statement.

☞ It is stated that some days ago an order from Washington reached Port Royal to have several regiments sent up to re-enforce Gen. Hooker, but that Gen. Hunter refused to send them, returning instead, a protest against the order.

☞ A fire at Wilmington, N. C., on the 27th, destroyed a large warehouse filled with spirits turpentine, and 1500 bales of cotton. The latter mostly belonged to the rebel Government. The loss is believed to be very heavy.

☞ During the first sixteen days of May nine hundred and eighty-two canal boats were cleared at the Buffalo collector's office, making a daily average of upwards of sixty boats.

☞ One of the murderers of Capt. Dwight, above New Orleans, has been captured, and was immediately shot. A number of citizens living near the scene of the murder, have been arrested by Gen. Dwight.

☞ In 1859 England exported ten millions dollars' worth of goods to the west coast of Africa, and imported thence about five millions. Of the one about fifteen-sixteenths was palm oil, and of the other about one-half was cotton manufactures.

☞ The general conference of the Congregational Churches of Maine will be held at Biddeford on the 23d, 24th and 25th of June. The Universalist Convention will probably meet in Calais, June 23d.

☞ The Free South newspaper of May 30, from which the letter of Gen. Hunter to Jeff Davis purports to have been taken, contains no such document, and there is reason to believe that the letter is a forgery.

☞ The Commissioner of Internal Revenue has decided that it is the duty of a Justice of the Peace or Notary, before whom an affidavit is made, to affix or cancel the five cent stamp to be placed thereon.

☞ A Government store house, of brick, in Louisville, Ky., fell on Tuesday evening, burying fifteen or twenty persons beneath its ruins.

☞ Col. D'Utassy of the New York Garibaldi regiment has been sentenced to Sing Sing State prison for one year, for defrauding the government.

☞ The Surgeon General has ordered all the wounded of Gen. Grant's army to be removed to Memphis, Gallatin, Louisville and other places.

☞ Col. Albot has been appointed to the command of all the cavalry in Gen Banks' department, and is reorganising the whole force.

☞ A one-sided duel came off a few mornings since in our army of the Potomac. On the night previous Capt. Fuller of the 106th New York became somewhat elated by whiskey, and slapped the face of Lieut. Porter of the same regiment. The latter challenged him, and was on the ground with a pistol and second at the appointed hour. Fuller also appeared, but stated that he was unable either to borrow a pistol or procure a second. "That need not interfere," said Porter; "we will toss up for the first fire. You, being the challenged party, may select the number of paces." The tossing ensued, and Fuller won. He then chose four paces. "It will be nothing less than murder," said Porter, "but never mind, blaze away." Inserting his hands in his pockets, he then quietly faced his antagonist, who fired into the ground at his side, and thus the affair ended.

THE REBELLION RECORD.—Part 31 contains portraits of Gens. Birney and Keyes, and completes the fifth volume. Hereafter the diary of events will be published in the last monthly part of each volume, together with the index, &c. The 6th volume will embrace the period between Oct. 10, 1862 and June, 1863.

The American Publisher's Circular, now issued by George W. Childs at Philadelphia on the 1st and 15th of each month, is a very valuable record to all who desire to be well informed regarding books published at home and abroad, while it also gives a vast amount of interesting items concerning publishers, authors, and books.

☞ A highly civilized New Zealander, now a partner in an English commercial house at Sydney, says that in his younger days he had been addicted to the use of human flesh, and being a candid and really high-minded man, he admits that although he has now acquired different tastes, the relish with which he partook of cannibal feasts, especially when the fleshy part of a young female was served up, is still a matter of by no means disagreeable recollection to him.

☞ In a long list of heroes before the mast, who have just received medals of honor for gallant conduct in the attack upon New Orleans and other actions, is the following, which deserves to be coupled with the achievement of John Davis, the man who sat upon the powder barrel in one of the North Carolina sea fights, and who also has a medal: "J. F. Frisbee, gunner's mate, on board Pinola. Berth deck on fire, he instantly closed the magazine and remained inside."

☞ A jubilee will soon take place in Vienna in honor of the four hundred years' existence of the art of printing in that city. The first Vienna printer, Ulrich Ham, opened his printing office in 1462, but did not succeed, and emigrated to Rome. He was the cause of the Emperor Frederic IV. bestowing a privilege on the printers, in the year 1468, which placed them in equal rank with noblemen and scholars, and permitted them to wear a sword.

☞ A physician by the name of Abbott has been astonishing the worthy people of Oxford, Me., by his irregular practice. He left the other day in a great hurry, which was lamentable, as it caused him to forget to pay sundry bills. He is supposed to be of the Mormon faith, and certainly is of their practice, as he has several wives now living in different parts of the country.

☞ Commissioner Lewis has decided that each one of the covenanting male members of a Shaker community is entitled to the exemption of $600 from the income tax levied upon the community. The commission regards the covenanting male members as standing in the same relation to the community as the beds of families to their wives and children, and as falling within the spirit of the provision exempting $600 of income for the support of the family.

☞ A woman, who has been employed in Chicago in the manufacture of millinery goods, absorbed so much arsenic into her system, by the habit of biting off the thread while sewing, that medical aid was necessary to save her life. Thread is saturated with arsenic as a portion of the coloring matter.

☞ The Charleston Courier states that on the 20th the steamer Eagle left Nassau for a Confederate port. During the night she was fired into and captured by a Yankee cruiser. The second shot killed three of her crew. The officers of the Eagle took the Yankee gunboat for the British steamer Flora, and under that impression allowed the cruiser to get near her.

It is beginning to leak out that the loss of the ocean steamer Anglo Saxon, near Cape Race, a few weeks since, was the result of carelessness or ignorance on the part of the officers, or perhaps both. No attempts at sounding were made, and when the vessel struck she was twenty miles north of where the officers supposed she was, when they might and ought to have known her position exactly.—*Boston Post.*

☞ A Washington special dispatch says the reported removal of Gen. Hunter is authoritatively contradicted. Gen. Saxton goes out with despatches for General Hunter.

NEW HAMPSHIRE ITEMS.

—— $412 have been contributed in Concord for the relief of the suffering poor in Ireland.

—— The 2d N. H. regiment, on the 28th of May, was encamped about one mile east of the Capitol in Washington.

—— 1st Lieut. Andrew J. Fogg, of the 3d N. H. regiment, has resigned, and his resignation has been accepted.

—— On and after Sunday next, the afternoon services at St. Paul's Church in Concord are to commence at 4 o'clock.

—— The N. H. Senate was organized on Wednesday morning, by the election of Hon. Onslow Stearns of Concord as President, and Chas. H. Bartlett, of Wentworth, as Clerk. In the House the result of the ballot for Speaker was as follows: William E. Chandler (Rep.) of Concord, 176; Thos. J. Smith (Dem.) of Wentworth, 134; scattering, 5.

—— A general court-martial has recently been held at St. Augustine, Fla., of which Lieut. Col. Joseph C. Abbott, of the 7th N. H. V., was President. Private James Foss, of Co. H, 7th N. H. V., was found guilty of sleeping on his post as a sentinel, in front of Fort Marion, March 7th, and sentenced to confinement at hard labor, with a 24-pound ball attached by a chain to his person for six months; and to forfeit one half of his monthly pay for the same time. The Court was thus lenient in the sentence on account of the evident weak physical condition of the prisoner at the time he committed the offence. Private Henry Grant, Co. F, same regiment, was found guilty of addressing to his company commander, Capt. Augustus W. Rollins, abusive, contemptuous, and disrespectful language, and was sentenced to confinement at hard labor, with a 24-pound ball attached by a chain to his person for three months, and to forfeit one half of his monthly pay for the same time—the first seven days of each month to solitary confinement on bread and water diet. These sentences have been approved by Gen. Hunter.

—— The anniversary exercises of the Methodist Biblical Institute in Concord will occur Tuesday, Wednesday, and Thursday, June 9th, 10th and 11th. On Sunday evening, 7th, Bishop Baker will deliver the usual discourse to the graduating class. On Tuesday evening Rev. Henry J. Fox of New York will address the Theological Society. On Wednesday afternoon the sermon before the Trustees and Visitors will be given by Rev. Edward Thomson, D. D., of New York City. On Wednesday evening Rev. Robert M. Hatfield of Brooklyn, will speak before the Institute Missionary Society. The orations of the Graduating Class will be delivered on Thursday morning at 8 o'clock.

—— The editor of the Portland Press is off, 'way up in Canada. It is well he reached that land before the following, from his pen, was published. Our good up-country friends may, however, be on the watch for him when he returns, and if he comes back without a "bald summit" after meeting them, he may thank kind nature for planting his hair *deep*. He says:—

The country from Portland to Gorham, N. H., with occasional exceptions, is very fine. In some places it is surpassingly beautiful and romantic. But above Gorham, until the valley of the Connecticut is reached, it is about as "poor a show" for *good land* as can be found anywhere this side of the Arabian deserts. Rocks are about the only natural production. Mountains cloven down hundreds of feet, almost perpendicularly, are sometimes met with, and no tree or shrub, unless gifted with more than an ordinary share of ambition, will attempt to scale them. Often the bald summits and sides are covered with dwarf dead trees.—I did not blame them for dying; I only wondered that a sensible shrub should attempt to start in life in such localities.

☞ A novel mode of lighting has been introduced at a Baptist church, just built at Philadelphia. There is not a gas-burner in the audience room. In the panels of the ceiling are circles of ground glass, two feet in diameter. Above each of these, in the loft, is an argand burner, and over the burner a powerful reflector. The effect is just about the same as if there were thirty full moons shining in the ceiling. The light is not sharp and intense, but abundant and mellow, and not painful to the eyes.

☞ An English engineer has invented a printing press which will print 23,000 sheets of a newspaper on both sides in an hour. The paper from which it prints is in the web on the reel, and after passing under the type is cut in sheets. The machine does without feeding, and the reel of paper that it feeds from is unwound by its own action.

☞ The Princess of Metternich made her appearance in the streets of Paris lately in a dress of Havana-colored silk, ornamented with leather trimmings, studded with steel-beaded nails. The bonnet was of the same material, ornamented in a like manner, and so was the parasol.

☞ At one of the last balls of the Paris season the Empress wore eight hundred bunches of violets on her dress—each violet containing diamonds to represent dew drops.

As the body lives by breathing, so the soul lives by believing.

☞ 300 rebel prisoners arrived at Indianapolis, Ia., Tuesday, from Vicksburg.

☞ Gen. Banks has issued an order offering bounties for re-enlistments.

☞ The Havana Diario of the 27th claims to have official accounts of the occupation of Puebla by the French.

☞ An Englishman has invented a machine for blacking and brushing boots and shoes.

☞ There are 16 vessels of various sizes now building at Bath, amounting to a total of nearly 14,000 tons.

☞ The French Government is about to establish "ladies" carriages on all the lines of railway throughout France.

☞ The Chicago Tribune proposes that President Lincoln should take command of the army of the Potomac.

☞ A Washington dispatch says the order issued to officers with short leaves of absence is not to leave Washington.

☞ Gen. Burnside prohibits the circulation of the New York World and Chicago Times in his Department.

☞ There are 9000 citizens within the lines of the Army of the Potomac. 8500 of them should be sent home.

☞ The number of deserters from the rebel army on the Rappahannock, averages 15 per day.

☞ Officers in Gen. Hooker's army are now allowed not more than five days' leave of absence.

☞ Hundreds of lives were lost, and a town destroyed, in the Island of Rhodes in April last, by an earthquake.

☞ One company in the Mass. 6th has not lost a single man during their nine months' service.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and bowels, and as a Family Pill. spno

J. L. HUNNEWELL, PROPRIETOR,

Portsmouth, Dec. 1, 1862.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

GRAND POLYRAMA.

☞ By Particular Request the Dioramic Polyrama of the GREAT REBELLION will remain open at the Temple 3 days longer. Thursday, Friday and Saturday.

Admission 15 cents, children 10. Grand Matinee, Saturday afternoon.

INSTALLATION.—Rev. Geo. M. Adams was installed as Pastor of the North Church and Parish in Portsmouth, Wednesday afternoon, June 3. The exercises were: Voluntary on the Organ; Anthem:—"Blessed are they that dwell in thy House;" Reading of the minutes of the Council, by the Scribe, Rev. Mr. Robie; Invocation, by Rev. Mr. Gage, late pastor; Reading of the Scriptures; Hymn; Sermon, by Rev. Geo. Leon Walker, of Portland, Me., from Matt. 13:52—Every scribe which is instructed unto the kingdom of heaven, is like unto a man which is an householder, which bringeth forth out of his treasure things new and old; Prayer of Installation, by Rev. Israel W. Putnam, D. D., of Middleboro', Mass.; Anthem:—How lovely is Zion; Charge to the Pastor, by Rev. Edward Robie, of Greenland; Right hand of fellowship, by Rev. H. Q. Butterfield, of Great Falls; Hymn, sung by the congregation; Address to the people, by Rev. John W. Chickering, D. D., of Portland, Me.; Concluding prayer, by Rev. Otis Holmes, of Eliot; Anthem, with the Doxology; Benediction, by the Pastor.

To the Editors of the Chronicle:—At a meeting of the officers of the Sixteenth Regiment, New Hampshire Volunteers, holden at Butte a la Rose, La., May 9th, 1863, Major Samuel Davis, jr., in the chair, the following preamble and resolutions were presented and unanimously adopted:—

Whereas, It has pleased Almighty God, in His infinite wisdom and goodness, to remove from our midst our late comrade in arms, Lieut. GEORGE T. WILDES; and *Whereas*, The lesson of his life, so fresh in our memory, and the example of his death, alike commend themselves to our prayerful attention, therefore,

Resolved, That we recognize in the death of Lieut. Wildes the hand of an all-wise and beneficent Providence, teaching us how frail is our tenure of this life, and how strong should be our hold upon the promise of life eternal.

Resolved, That we deeply mourn the early departure of one who has endeared himself to us by his many acts of kindness, by his christian and social virtues, by his cheerful self-denial, his manly courage; his glowing patriotism and consistent piety—evinced in every circumstance in which he was placed—in the camp, on the march, in the social and religious gatherings, and in all the varied relations of daily life and intercourse; that the bright example of his pure life and peaceful death will be ever present in our remembrance, to incite us to a closer walk with God, to higher endeavors and truer purposes, in emulation of the lofty type of christian character which he has left us.

Resolved, That we tender to the wife and other friends of the deceased that sincere and lasting sympathy which is the offspring of our mutual love and admiration for his many noble and endearing qualities, of the deep sense of our many obligations to him in life, and of the painful loss which we feel at his death; that we commend to the Father of Mercies more especially her who was his nearest and dearest earthly friend, believing that He who has sent her this affliction, is able to comfort and console, and to show her, through faith in his word, that "Whom the Lord loveth, He chasteneth."

Resolved, That a copy of these resolutions be sent to the family of the deceased; also copies to the Portsmouth Journal and Daily Morning Chronicle, at Portsmouth, N. H., and the Christian Watchman and Reflector at Boston, Mass, for publication.

WILLIAM A. HAVEN,
2d Lt., Co. K, 16th N. H. V.,
Secretary.

☞ The many friends in this city of Capt. J. H. Thacher, Co. K, 16th N. H. regiment, have recently been pained to know that he was lying dangerously sick in the hospital at New Orleans, of swamp fever. But letters received from him on Wednesday, dated May 18th, stated that there had been a decided improvement in his health and he was slowly yet surely regaining his strength.

Communication.

Messrs. Editors:—Please say to our city authorities, that we very much need a yard for the accommodation both of our citizens who buy, and of those Gentlemen who sell Pigs, as the Droves are frequently arriving in the City:—And the writer would recommend the lot of ground on the westerly side of the Court House, as a suitable and convenient spot!—Let it be fenced off across the lot, fronting it nearly up even with the Court House, leaving a space ten feet wide, next to the school room. This also will add greatly to the symmetry of the lot, as well as keep our streets free from a great annoyance. GOOD TASTE, based on ECONOMY.

☞ Recent advices from Europe state that the Polish struggle takes more and more the character of a religious as well as of a national war. The Roman Catholic clergy preach openly in favor of the insurrection, and the Russian soldiers burn and defile the churches and murder all the Polish priests and gentry whom they meet.

☞ The squall which passed over this city on Monday evening, is reported to have struck Newburyport, Salem, Lynn, Boston and other places at nearly the same minute. It did no great damage, but in shaking the apple trees, much good, as it relieved them of the the greatest enemy to fruit, the canker worms. After it had passed, away a beautiful lunar bow was observed in Boston. The circus was performing in Saco. One small tent was blown down, and as the manager stated that he feared the large one would be, the spectators didn't stop to see the rest of the performance.

☞ As a drove of beef cattle were passing a market in New Bedford on Thursday, one fine steer deliberately walked in, looked around and passed out again. The butcher was so much pleased with him, that he secured him for a second appearance, on the next day, in four parts.

☞ The drought is somewhat remarkable; it survived anniversary week, when everybody considers a rain storm to be in order; and even the parade of the Ancient and Honorable Artillery, in Boston, on Monday, failed to bring down the drops.

☞ The County of Penobscot, in Maine, is reported to be entirely free from debt this year,—the first time since its organization. There may be a rush of immigrants to that happy land.

☞ The Portland Courier expresses the opinion that a street sprinkler is like the goose that laid the golden egg,—it lays the dust.

☞ Gov. Coburn, of Maine, is improving slowly in health.

☞ The Chicago Times has been suppressed, by order of Gen. Burnside.

A correspondent of the Register tells about seeing Capt. Charles J. Arms, of Norwich, in the fight at Chancellorsville, surrounded by the rebels, of whom he killed no less than fifteen, before he was himself slain. This was remarkable, but it was not the most surprising part of the story. Since he was killed he has written home saying that he is ready for another fight!—*Hartford Post.*

DEATHS.

☞ The funeral of Mrs. Lydia F. Blunt will take place to-day (Thursday) at a quarter before 11 o'clock, A. M., at No. 3 Gardner street.

EVERY KIND OF
KITCHEN FURNISHING GOODS.

SCHOOLEY'S
NEW IMPROVED
ICEBERG REFRIGERATORS.
This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.
Daniel T. Curtis, Fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."
Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."
John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."
C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm Weather *one week*, when I ate it and found it perfectly good."
Thousands of similar testimonials can be shown in its favor.
SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent all but the rich of the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to put up with one of the *old style*, or go without.
We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.
The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.
CHILDREN'S CARRIAGES.

LEWIS GLUE, Proprietor.
Boston, Jan. 1863. 1ns1yr

THE ALL SUFFICIENT THREE.
The Great "American Remedies,"
Known as "Helmbold's"
Genuine Preparations, Viz.:
HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.
HELMBOLD'S
GENUINE PREPARATION,
"HIGHLY CONCENTRATED"
COMPOUND
FLUID EXTRACT BUCHU,
A Positive and Specific Remedy
For Diseases of the
BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.
This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*
HELMBOLD'S EXTRACT BUCHU
FOR WEAKNESSES
Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,
ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance.
	Dryness of the Skin.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow IMPOTENCY, FATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS, Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,
OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.
In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the
DECLINE OR CHANGE OF LIFE.
☞ SYMPTOMS ABOVE.
NO FAMILY SHOULD BE WITHOUT IT.
Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.
HELMBOLD'S EXTRACT BUCHU
CURES
Secret Diseases
In all their stages; at little expense; little or no change in diet; no inconvenience.
AND NO EXPOSURE.
It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter.*
Thousands upon Thousands
WHO HAVE BEEN THE VICTIMS OF
QUACKS,
and who have paid *heavy Fees* to be cured in a short time, have found themselves deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in a more aggravated form, and
PERHAPS AFTER MARRIAGE.
USE
HELMBOLD'S EXTRACT BUCHU
For all Affections and Diseases of
The Urinary Organs,
Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter
OF HOW LONG STANDING.
Diseases of the organs require the aid of diuretics.
HELMBOLD'S EXTRACT BUCHU
IS THE GREAT DIURETIC,
And it is certain to have the desired effect in all diseases for which it is recommended.
BLOOD! BLOOD! BLOOD!
Helmbold's Highly Concentrated Compound
Fluid Extract Sarsaparilla,
SYPHILIS.
This is an affection of the Blood, and attacks the Sexual Organs, Lining of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.
Helmbold's Rose Wash.
An excellent Lotion for Diseases of a Syphilitic Nature, and as an Injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.
Evidence of the most decisive and reliable character will accompany the medicines.
CERTIFICATES OF CURES,
From eight to twenty years standing, with names known to **Science and Fame.**

Morning Chronicle.

GOD'S BLESSINGS ON THEM.

BY GERALD MASSEY.

God bless the brave ones!—in our dearth,
Their lives shall have a trilling glory;
And ours the poor man's homely hearth
We'll proudly tell their suffering story.

All savior-souls have sacrificed,
With nought but noble faith for guerdon,
And ere the world hath crowned the Christ
The man to death hath borne the burden!

The savage broke the glass that brought
The heaven-sent messer, saith the legend;
Even so the bigots welcomed sought
That makes our vision starrier regloned.

They lay their corner stones in dark,
Deep waters, who upbuild humanity,
Or, earth's old heart their triumphs are,
That crown with glory lives of duty.

And meekly still the martyrs go
To keep with pain their solemn bridal!
And still they walk the fire who bow
Not down to worship Custom's idol.

The heart! the rude dust, dark to-day,
Soars a new lighted sphere to-morrow:
And wings of splendor burst the clay
That clings so in death's fruitful furrow.

O soldiers! far from your home and friends,
Our country's future on you depends;
All pain's strife, ambition's pride,
Be trodden down and cast aside,
'Tis not for country alone ye fight,
But for human progress, life and light.
Be pure of heart, and be firm of mind;
Love God, your country, and human kind.

—*Christian Inquirer.*

☞ The Women's Loyal National League, recently organized in New York City, have resolved to concentrate all their efforts upon the single object of procuring the signatures of one million women and upward to a petition to Congress to pass an act emancipating the slaves throughout the country.

LAFAYETTE LAIGHTON.

ATTENTION, THE WHOLE!
EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH BENNETT."
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which did me more good than any medicine I had taken for months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker and weaker, until she commenced PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night and labor by day. I often recommend my medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26o
People's Shoe Store.
4—Congress Block—4
D. R. AMEROSE having a good assortment of BOOTS & SHOES adapted to the season, begs leave to assure his friends and the public that he is prepared to sell the same at

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of any proposed Invention; and full or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The business in Patents is now the largest in New England, but through its inventors have advantage for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
The necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable* and *successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and cast iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper kettle for hot water; also a large tin washing-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is kept in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of rekindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

Portsmouth.

Isaac Joy, *South Berwick.*	
Capt. Ira Andrews, *Biddeford, Me.*	

And the hosts of others who are using them.
We invite all those in want of the very best Stove in the market to examine the
MAGEE COOK.
Also on hand an assortment of the different sizes
—of the—
MAGEE PARLOR STOVE,
with and without ovens, which are too well known to need any recommendation.
"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and free from smoke and no one of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches and the complaints of the other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former ones, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off in the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire need only be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

December 6th, 1862. ly
Teeth on Vulcanized Rubber,
SOME OF ITS ADVANTAGES.
1st. It is stronger and lighter than any known material.
2d. From two to six times the amount of suction or adhesion can be obtained by it.
3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.
4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.
5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.
6th. While in all works it is better, save in a few peculiar cases, it is much cheaper than Gold.
DR. A. P. STEVENS, *Surgeon Dentist,*
No. 5 Daniel St., Portsmouth.
Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.
Portsmouth, Jan. 1, 1863.
DR. GOODALL,
DENTIST,
60 Congress St.
PORTSMOUTH.
Residence 12 Court St.
DENTISTRY.
No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.
DR. GOODALL
Would respectfully inform his patrons and the public, (having had of late many applications to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the country, and is now prepared to do the work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.
"The Rubber has several important advantages, it is very light and elastic, and consequently, is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they are sweet by night and day, and are very easily kept neat and clean.
Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.
Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $50.00 for an upper or lower set on Gold.
In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of all the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.
ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for Extracting is 25 cents.
I take pleasure in referring the public to Dr. Treadwell, Dr. Boardman, Dr Oliver and Dr. Hewett, for professional reference to extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—
All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.
☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

GRACE'S CELEBRATED SALVE
A SURE RELIEF FOR THE SUFFERER.
This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.
Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores.
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.
And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.
It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.
MANUFACTURED BY
WILLIAM GRACE,
Amesbury, Mass
PRICE 25 CENTS PER BOX.
Each box has the above cut and the fac-simile of the proprietor's signature attached to it, which is duly copy-righted.
M. S. BURR & CO., 26 Tremont Street, and GEO. C. GOODWIN & CO., 11 & 12 Marshall Street, Boston, Wholesale Agents.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. FRIDAY JUNE 5, 1863. NO. 92.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

HERE'S HEALTH FOR THE MILLION!
DR. CLARKE'S
SHERRY WINE BITTERS!
Palatable and Healthy.
Prepared from Rock Rose, Sarsaparilla, Dock Root, and a great variety of Roots & Herbs.
Preserved in the best Sherry Wine and Whiskey.
Will immediately cure Loss of Appetite, General Debility, Dyspepsia, Sour Stomach, Palpitation of the Heart, Asthma, Coughs, Colds, Boils, Pimples on the Face, and Humors of all kinds.
They are safe for the young, effectual and agreeable for the old and indispensable for the ladies, as they enrich the blood and invigorate and restore the system.
N. B.—If you wish a good Bitter, *Call for Clarke's, and take no other.*
Beware of all imitations, as they contain vile drugs and cheap poisonous liquors, which will destroy your health and life quicker than disease. Our system is to keep up the quality and make the price in proportion.
Sold by druggists, grocers, hotel-keepers and dealers generally.
Manufactured by E. R. CLARKE, Sharon, Ms. Price only 50 cents for the Trial Bottle, 75 cts. for one quart, $1.50 two quarts.
Sold in Portsmouth at wholesale and retail by N. F. MATHES, 48 Market street, and at retail by all the Apothecaries, Grocers, Hotels, &c.

PROTECTIVE
WAR CLAIM ASSOCIATION
FOR NEW ENGLAND.
INCORPORATED 1863.
Office, No. 11 Railroad Exchange, Boston, Mass.
Chief Justice BIGELOW, President.
His Excellency JOHN A. ANDREW, and AMOS A. LAWRENCE, Vice-Presidents.
WALDO HIGGINSON, Treasurer.

Have you used the Strela Matches?
J. F. SHORES, JR., No. 1 Congress Block, has just received from the manufactory a large lot of
STRELA MATCHES.
These matches are without sulphur and without smell in burning, which adapts them for the Sick Room, the Parlor, or for general use, being nearly as cheap and any other kind of Matches. They are put up in boxes of 157 matches, and are sold at the low price of THREE cents per box, or 12 boxes containing 1500 matches for 25 cents—being 2 cents a cent!!
Dealers supplied at the manufacturer's price.

BUY CALIFORNIA WINES.
They are the Purest!
The Best!
The Cheapest!
"The Hook" is a most delicious Wine, and rivals in delicacy its German predecessor.
The "Angelica" and "Muscatel" are melting, luscious and rich, and will take the place of Malaga, Tokay, or other rich Wine.
The Port has a fine flavor and body; and The Port is excellent because it is pure.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JUNE 5, 1863.

THE REBELLION.

Lieut. Comd'g J. E. Jewett reports to Adm. Farragut that a boat's crew of nine armed men destroyed the rebel schooner Isabel within 200 feet of Fort Morgan, Mobile, on the morning of May 18th. She was aground, and the men boarded her, taking the crew completely by surprise and capturing her. Two prisoners, papers, &c., were removed, and the vessel burned.—She had 540 bales of cotton on board. It was a bold act.

Ewell has taken active command of Stonewall Jackson's corps.

A letter to the N.Y. Times says that Col. Kilpatrick is perpetrating another raid from Gloucester Court House through Gloucester County, across Piankitak river, thence through Middlesex County to Urbanna.—He had orders to make his presence felt in the rich counties through which he was to pass.

The idea of carrying Vicksburg by storm seems to be abandoned. Dates to the 30th say that earthworks are being erected to protect our men, and mines laid to blow up one or two of the rebel forts.

☞ The whole number of births in Boston during the year 1862 was 5258—2690 males, and 2568 females. This is the smallest number of births for any year since 1849, when the number was 5021. The great decrease in births is in the wards occupied by foreigners. The number of twin births during the year was 47. The number of couples married was 2094, a decrease of 72 from the preceding year. Of the whole number of grooms only 258 were born in Boston, and only 111 married Boston born brides; the whole number of native born grooms was 997, of whom 540 were born in Massachusetts. In 257 instances the brides were older than the grooms. The youngest couple was a youth of 18 to a girl of like age, and four brides were only 15 years old, 10 of 16, and 26 of 17. There were 62 marriages in which both parties were colored, and 6 in which the grooms were colored and the brides white. Total number of deaths 4120, an increase of 155 over 1861. Consumption, the great destroyer, carried off 558 males, 381 females: scarlet fever 141 males, 95 females, &c.

☞ The Salem Register states that on the evening of the 6th of May, the late evening train on the Eastern Railroad encountered obstructions on the track between Lynn and Saugus, which might have occasioned a fearful calamity. A sleeper was laid across the track and rocks were piled up near, evidently with the design of throwing off the train. The engineer discovered the obstructions just as he was close upon them, coming around a curve, but not in season to stop the train. Fortunately the speed was such as to throw off the sleeper and surmount the obstacles without any serious damage. Two lads were arrested in Lynn on Wednesday, one about seventeen and the other about fourteen years of age, named William Burditt and Chas. Hambly, charged with being the perpetrators of the crime. In default of bail to the amount of $500 each, they were committed to the Salem jail, to await an examination on Tuesday next.

☞ On Saturday, the barn connected with the new Episcopal parsonage, in Deerfield, Mass., was struck by lightning and destroyed, with valuable contents. The rector, Rev. S. R. Jones, having broken up housekeeping while the parsonage was being repaired, had all of his library, pictures and household furniture stored in the barn, and they were totally destroyed. The library was valued at $3000, pictures at $1000, and furniture between $1,000 and $2000, making a total loss of over $5000. There was about $2500 insurance.

☞ Fernando Wood and his political friends held a peace meeting in New York on Wednesday and resolved, that while acknowledging fealty to the Constitution they considered unlimited submission to the executive as unworthy an American citizen. They also recommend a cessation of hostilities in order to effect a compromise.

☞ The steamer Eagle from Havana 30th ult. arrived at New York on Wednesday, but brings no confirmation of the capture of Puebla. Strong doubts of the truth of the report are entertained by Mexican sympathizers in Havana.

RIGHTS OF THE PEOPLE.—Madison, in one of his early papers, gave utterance to the following sentiment which is particularly applicable to the "Rights of the People" at the present time:

"The vigor of government is essential to the security of liberty; in the contemplation of a sound and well informed judgment their interests can never be separated; *and a dangerous ambition more often lurks behind the specious mask of zeal for the rights of the people than under the forbidding appearance of zeal for the firmness and efficiency of the Government.*"

GOVERNORS' MESSAGES.

This year we have two; one from the late Governor Berry—the other from the new Governor, Gilmore.

GOV. BERRY'S MESSAGE gives a plain account of the Volunteers raised in New Hampshire, in all 17,788 men, being our full quota so far. Our war expenses, charged to the U. S., have been $1,305,835.60. We have received cash $238,940;—direct tax offset, $185,645.67: Balance due New Hampshire, $881,249.93. The allotments sent home by our soldiers are $71,301.12 per month, or $867,613.14 per annum.

Gov. B. recommends provisions for relief of our sick and wounded, and for the payment of some volunteers who enlisted after our State Bounty law had run out.

He says the issue of the present contest is "not whether the confines of our republic shall be enlarged or restricted; not whether one political party shall hold the ascendant in place of another; but whether American liberty itself shall live. To yield to the demands of secession is to loose every ligament of our body politic, and place it at the mercy of every base passion, and leave it a prey to unhallowed ambition. We are literally battling for the life of the nation, in defence of which our fathers pat every thing at hazard."

GOV. GILMORE in commencing his Message to the Senate and House, says—

I thank you for the confidence which you have reposed in me, by electing me chief magistrate of the State of New Hampshire for the ensuing polical year, and would pledge myself that, so far as it is in my power to satisfy it, your confidence shall not be misplaced.

He offers the following pledge of fidelity to the Constitution.

In all my official acts I shall endeavor to govern myself strictly by the Constitution of the United States, and the Constitution of the State of New Hampshire, which I have sworn to support. In no case shall I knowingly depart from this position, believing as I do that no greater injury can happen to either State or Nation than by the refusal of their executive officers to cheerfully submit to existing law. If we can not live under the glorious old Constitution which our fathers gave us, we can not and should not live at all. I believe we can live under the Constitution, interpreted as they would have interpreted it in our circumstances. If the Constitution of New Hampshire or the Constitution of the United States are not what they should be, let the sovereign people, acting through the proper channels, make such changes as experience demands; but so long as we have a Constitution, either State or National, let us stand by it and defend it, even unto death, if that be necessary.

Gov. G. recommends a careful examination of the State Finances, and funding the State Debt in 6 per cent. bonds with 15 or 20 years to run. Of the Banks he speaks favorably. With their capital of $4,645,837, they hold U. S. securities of 755,755. Railroads should not create monopolies injurious to the travelling public.

The system of Mutual Fire Insurance Companies incorporated by this State, is pronounced a failure; the Governor recommends giving them facilities to wind up their affairs,—and the granting of liberal charters to one or two good Stock Companies. He notices the new tax on stocks in Massachusetts, and recommends prompt action. The State Prison Wall is to be repaired. The Prison, the Insane Asylum, House of Reformation,—the Deaf, Dumb and Blind, the Educational Interest, and the Agricultural College are favorably noticed. A farm is recommended for the latter.

The Defences of Portsmouth, and our Military Matters generally, are discussed. A State Commissioner is recommended, to procure pensions, bounties, &c., for disabled soldiers, widows and orphans. Also another to look after sick and wounded soldiers. A law is recommended allowing our Volunteers to vote. The Governor holds to that right, and says:

Several of the States have already adopted similar provisions; and I have no doubt that the constitution of our State will sanction an enactment of this kind.

A small appropriation is suggested for arming our Militia; and the general prosperity of the State is acknowledged. The Governor says:

We have occasion for devout and humble thanksgiving that the condition and prospects of our State are so full of encouragement.

Would to God I could say as much of our beloved country as of our own noble State. Our energies are taxed to the utmost in the task of crushing out a most impious, unjust, and uncalled-for rebellion. The alternative is fairly presented by the Southern leaders to the people of the loyal States. We must either conquer them or they will conquer us. Will the people of the North, of New-England, of our own New-Hampshire, falter at a time like this, and leave our thousands of noble soldiers in the field to the mercy of heartless traitors? They were called into service by the proper authority, to maintain "the Union, the Constitution, and the enforcement of the laws;" and we must and will stand by them. New-Hampshire shall be the last State to betray the cause for which they are offering up their lives.

In such a contest as that in which we are now involved, I am unable to discriminate between the support of the government and the support of the national administration.

A bad beginning foreshadows a good ending.

NEW HAMPSHIRE ITEMS.

—— The dogs made a raid on a flock of sheep in Madbury a few nights since, and killed $90 worth.

—— Francis A. Faulkner has been appointed Commissioner in the 3d District, under the Conscription act, vice Colby, declined.

—— The Editor of the Dover Gazette has seen some string beans which were raised in that city in the open air. In some of the pods were beans almost full grown.

—— The clothes of Mrs. John Rickey, of Northumberland, caught on fire in her house on Tuesday, the 8th inst., and as she rushed out of the house, the flames were fanned by the wind, and she was so shockingly burned that she died in a few hours.

—— Mr. A. Tenney has finished an excellent portrait of Ex-Gov. Matthew Harvey, of Concord, now U. S. District Judge. It is to be placed among the portraits of the Governors in the Council Chamber.

—— The bridge on the Cocheco Railroad, which crosses the Cocheco river above Rochester, was burnt on Monday afternoon, probably from sparks from the engine.

—— Rev. John Newton Putnam, Prof. of Greek in Dartmouth College, has been elected to the Professorship of Biblical Literature in the Theological Seminary at Andover, Mass. Should he accept, he will not enter upon the duties of the position until March next.

—— The Manchester Union states that the verdict of the coroner's jury in the case of Mrs. Mary Jane Bly, is in effect that her death was caused by the premature delivery of a child, which Dr. J. A. Page, her physician, aided and abetted.

—— The City Council of Concord have repealed the Dog Ordinance, which has been in operation during the past year.—As there is a State Tax on dogs, it was not deemed advisable that owners of canines should be burdened by a city tax in addition.

—— The vote for Governor in the Legislature on Tuesday was as follows: Whole number of votes, 326; Ira A. Eastman, Dem., 133; Joseph A. Gilmore, Rep., 192; Walter Harriman, 1; and Mr. Gilmore was elected. The escort included the Battalion of Horse Guards, the Battalion of Amoskeag Veterans and various other military as well as civil organizations, and is spoken of as having been the grandest triumphal procession ever witnessed in New Hampshire.

☞ The cargoes of the ships Nora and Charles Hill, destroyed by the Alabama, were British property, and it was thought in England at last accounts that some government action would be taken in the matter.

☞ At a Vallandigham meeting in Philadelphia, Monday night, the name of Vallandigham was repeatedly cheered on its repetition by the speakers, as was also that of Gen. McClellan.

☞ The fashionable dance of Paris is now the "*Marche Cocasse.*" It is danced backwards, each gentleman holding the lady before him by clasping her round the waist. When well practiced it is said to be highly entertaining; and the Empress is said to have a peculiar talent for its execution.

☞ The Nantucket Mirror says that the Island fishermen are taking dogfish in great plenty and to good profit—the sharp-nosed fellows yielding from their livers, upon an average, six quarts of oil to the hundred, and each hundred bodies being worth one shilling for manure. A smart Tucketer can catch five hundred per day.

Lord Holland told of a man remarkable for absence of mind, who, dining once at the same sort of shabby repast, fancied himself in his own house, and began to apologize for the wretchedness of the dinner.

☞ Of late years not much attention has been paid to the Southern mackerel fishing, by our fishermen, but this year quite a fleet has gone South to obtain fares of that article when the schools first strike the American shore.

CONCILIATORY MANNERS.—In families that are well ordered there is always one firm and sweet temper, which controls without seeming to dictate. The essence of all fine breeding is in the gift of conciliation. A man who possesses every other title to our respect except that of courtesy, is in danger of forfeiting them all. A rude manner renders its owner always liable to affront. He is never without dignity who avoids wounding the dignity of others.

☞ An order has been officially promulgated for the establishment of a bureau in the War Department especially to attend to the organization, efficiency, &c., of colored troops.

Nineteen thousand soldiers' widows have already applied for pensions under the recent act of Congress.—*Exchange.*

No, no, that's too big. Say 2000 widows and 19,000 of all applications:—quite a difference.

☞ A Centennial Celebration of the incorporation of the town of Newburyport is contemplated for next year. Newburyport was incorporated as a town in 1764.

☞ Adm. Goldsborough, who is engaged in compiling old naval documents at the department, will probably succeed Adm. Foote in charge of his bureau.

Capt. Charles Wilkes, Acting Rear Admiral, now in command of the special West India Squadron, is to be relieved, and rumor says that Com. James L. Lardner will succeed him.

In all probability Adm. D. G. Farragut will soon be relieved. At the present writing we have not heard his successor named. The immense amount of labor this gallant officer has done entitles him to a little rest, and on full pay.

'Tis never for their wisdom one loves the wisest, or for their wit that one loves the wittiest; 'tis for benevolence and virtue and honest fondness, one loves people; the other qualities make one proud of loving them, too.—*Mrs. Thrale.*

☞ The reported rebel iron-clad raid from Mobile and the capture of two of our ships of war, proves to be a canard.

A man can no more believe with another man's faith, than he can satisfy his hunger by seeing another man eat.

There is nothing purer than honesty—nothing sweeter than charity—nothing richer than wisdom—nothing brighter than virtue and nothing more steadfast than faith.

One of Hunnewell's Preparations.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so extensively judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The double-coated One-Shilling One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, and derangements of the stomach and Bowels, and as a Family Pill. epno

Local.

THE MUSIC OF FIFTY YEARS.

NUMBER SEVEN.—BY UNCLE TOBY.

CONCERTS.—In closing this series, let us remember that concerts, fifty years ago were not very common here; still there were some. The Rockingham Musical Society met in various towns and sung well, giving gratuitous sacred concerts.

In February, 1815, Gov. Gilman appointed the annual Fast in New Hampshire, to take place April 13. In March, President Madison appointed April 13 as a National Thanksgiving for peace. On this double holiday a concert was given at St. John's Church, Portsmouth, at 3 o'clock, P. M., in which several first class pieces were sung; among them, Let the Bright Seraphim in Burning Row, O had I Jubal's Lyre, "The Heavens are telling, Angels ever bright and fair, and Handel's grand Hallelujah Chorus. The tickets were 50 cents, and 25 cents for children.

The performance was for the benefit of the Portsmouth Female Asylum, and the net proceeds, $151.37, were paid over to the Society by Messrs. Benjamin Brierley and Thos. Cooper, who were the managers.

The Portsmouth Handel Society gave concerts, some very good indeed, from about 1822 to 1825.

On Feb. 21, 1823, Mr. Cyrus Smith, who had taught a large class of singers during the winter, gave an Oratorio in the North Meeting House, which was filled to overflowing. He had the aid of a part of the Handel Society, Mr. Rowson, the then famous trumpeter, of Boston, and others. This concert, after paying large expenses, netted him $100.

On the 1st day of June, 1823, the New-Hampshire Musical Society gave an Oratorio which occupied three hours in the performance. It was held in St. John's Church. Among the performers were Mr. and Mrs. Ostinelli, on the violin and organ; Rowson, on the trumpet; and Mrs. Martin (late Miss Sally Bennett) of Boston, who sung "Let the bright seraphim," &c. The oratorio was a very fine performance; but not successful in a pecuniary point of view.

Concerts in later days have been frequent; given by Messrs. Samuel A. Cooper, William F. Lawrence, S. L. Gordon, Thos. P. Moses, Wm. R. Preston, Amos Pearson and others. But as they have no claims yet to be ancient, it is not proposed to say much about them here, except that concerts of sacred music have rarely paid expenses here, for many years; though some of them have been of great merit—and a very few have been well patronized.

The Portsmouth Sacred Music Society, in particular, had a large number of members, purchased a building, had an organ built expressly for their use, and incurred great expenses, which were met mostly by assessments, by a fair, and by other means, aside from tickets sold.

Fifty years ago, the standard of musical education, in this part of New England, was not so high as now, in its requirements of a teacher: almost any singer who could read music, might set up for a teacher, and succeed in getting a paying school for a quarter or two.

There were no singing schools then for children exclusively; but a few children would mix with the young men and women in the evening school. A few of these, then, as now, became good singers:—at the close of the second quarter, it was common for a school to "go into the seats" as a choir, or with the choir:—and then everybody expected to hear some new tunes.

Wind and stringed instruments were common, and the players numerous: some were good, many not very good; some very poor, and these commonly found it out, and ceased playing, though a few of them kept on, to the distress of every good ear.

The drum and fife, used so often, kept up good ideas of *time* in the public ear,—and most drummers and fifers were also singers or players in the churches. And while there was probably less artistic skill than now, in a few of the best performers, there was a larger proportion of those who could sing and play with pleasure to themselves and to the great mass of the hearers.

☞ The first cornerstone of the new Fort Constitution was laid on Saturday last. It is placed about midway between high and low water mark, near the lighthouse. A corner-stone at the northeast corner of the fort will probably be laid with appropriate masonic solemnities during the season. The new fort will have three tiers of casemate and one of barbetic guns.

☞ Messrs. James Moses and Isaiah Wilson have purchased the lot of land on Pleasant street, known as "Brimstone Hill," with the intention to erect a substantial double house thereon,—which will be literally founded on a rock.

☞ Capt. Geo. Frank Towle, Co. B, 4th N. H. Regiment, has arrived at his home in this city, on a brief furlough.

☞ Job Jenness & Son are to open the Surf House at Rye Beach this season.

☞ Those teachers in this city and vicinity, who desire to accept the invitation to visit Boston and Cambridge to day and to-morrow, will be charged fare only one way on the Eastern Railroad,—receiving return tickets free.

☞ The income of the Portland, Saco and Portsmouth railroad last year, from all sources, was $283,126, and the expenditures, including dividends and taxes, $205,703, leaving a surplus of $77,492.

GRAND POLYORAMA.

☞ By Particular Request the Dioramic Polyorama of the GREAT REBELLION will remain open at the Temple 3 days longer. Thursday, Friday and Saturday.

Admission 15 cents, children 10. Grand Matinee, Saturday afternoon.

MARRIAGES.

EVERY KIND OF

KITCHEN FURNISHING GOODS.

SCHOOLEY'S

NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, Fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason; say six weeks."

B. F. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of mustard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." It has consequently been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer to *the million* a complete ventilated Refrigerator, which is made, and throughout with *nine, at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

Just received, THE LARGEST STOCK ever shown in this city. Twenty-five different styles, some very elegant.

LEWIS RICE, Proprietor.

Boston, Jan. 1863. 1mlyr

THE ALL SUFFICIENT THREE,

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" SARSAPARILLA,
" IMPROVED ROSE WASH.

—OF—

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED"

COMPOUND

FLUID EXTRACT BUCHU,

A Positive and Specific Remedy

For Diseases of the

BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Stony or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU

FOR WEAKNESSES

Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow INSANITY, FITS, INSANITY and VARIOUS FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases."

INSANITY AND CONSUMPTION.

Many are aware of the cause of their suffering, but none will confess. The records of the insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chlorix or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhœa, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience.

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter.*

Thousands upon Thousands

WHO HAVE BEEN THE VICTIMS OF

QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found, they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE

HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC.

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

FOR

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and for Weakness and Disease of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, as Diseases are recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Eden, a well known merchant of Cincinnati, Ohio.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robert Sutcliffe, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medical virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Cope, Esq., of widely-known firm of Cope, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an individual affliction. I tried almost every thing a man could of both advice and medicine, without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might do, but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I have entirely recovered from the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sands, 1 Houston St., New York.

"DR. AYER. I seldom fail to remove *Erysipelas* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Mahogany Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From Mr. Jacob Hall, Cincinnati, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicine, from whom there we so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA, with the other medicines, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, I have known it every body in this community, and excites the wonder of all."

From Hon. Henry Moore, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Stockbridge, Esq., the able editor of the Pittsburgh Dispatch, Pittsburgh, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other medicines, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and scarcely recognizable child and his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had been cut out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease

From Dr. Horace Stowe, of Newport, Kentucky.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic diseases than any other we possess. The medicines are indicated to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lowell, Massachusetts, and a distinguished member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary and secondary* forms, and especially in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more decided advantage, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had frightful ulcers on his legs, caused by the abuse of mercury, for some years, which grew worse and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Ayer's Sarsaparilla cured him. Five cases can be found more inveterate and distressing than this, and it took several dozen bottles to effect a cure.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, a fair trial of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrell, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S

CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

I have now in Store a choice and selected stock of GROCERIES, in quantity and quality, and at *prices to suit all who want such an article*. No. 6 MARKET ST. LAFAYETTE LAIGHTON.

☞ ATTENTION, THE WHOLE! ☜

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the sore throat for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. In all this time she has consulted the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his HUMOR WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintance, who have suffered, and in every one, many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with the distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that your Sarsaparilla Syrup, with scrofulous humor, and that previous to your visiting our house in the Spring of 1840, she had been confined for a period of about 6 months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till I commenced using your PANACEA and HUMOR WASH. Since then she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26e

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries, Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice given in matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none BE MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure patents, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and trustworthy to secure their rights, or prepare their applications in form to secure for them an early and favorable consideration at the Patent Office." EDM. ST. JOHN, Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be assured having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE

COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for a week together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and Boston, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would also inform those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The Furnace is signed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some producing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The considerable power of heated air, when it passes off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pots, rendering them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large heated current, the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendall,	John Sise, and others.

Portland and New York Steamers.

SEMI-WEEKLY LINE.

The splendid and fast Steamships CHESAPEAKE, Capt. WM. LEWIS, and ISABURG, Capt. Hoffman, will, until further notice, run as follows:

Leave Brown's Wharf, Portland, every WEDNESDAY and SATURDAY, at 4 o'clock P. M., and Pier 9, North River, New York, every SUNDAY and SATURDAY at 3 o'clock P. M.

These vessels are fitted up with fine accomodations for passengers, making this the most speedy, safe and comfortable route for travelers between New York and Maine. Passage $5.00. Stateroom Fare and State Rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta and St. John. Shippers are requested to send their Freight to the steamer as early as 3 P. M. on the day that she leaves Portland. For Freight and Passage apply to

EMERY & FOX, Brown's Wharf, Portland.

H. H. CROWELL & CO., 86 West St., N. Y.

December 5th, 1862. 1y

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depression—build, and be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth secured upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece.

6th. When properly made it is better, and more in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

☞ PIANO-FORTES FOR SALE.

GRACE'S CELEBRATED SALVE,

A SURE RELIEF FOR THE SUFFERER.

This Salve is a vegetable preparation, invented in the 17th century, by Dr. WM. GRACE, surgeon in King James's army. Through its agency he cured thousands of most serious sores and wounds that baffled the skill of the most eminent physicians of his day, and was regarded by all who knew him as a public benefactor.

Grace's Celebrated Salve cures Burns.
Grace's Celebrated Salve cures Scalds.
Grace's Celebrated Salve cures Flesh Wounds.
Grace's Celebrated Salve cures Corns.
Grace's Celebrated Salve cures Felons.
Grace's Celebrated Salve cures Frozen Limbs.
Grace's Celebrated Salve cures Scurvy.
Grace's Celebrated Salve cures Callouses.
Grace's Celebrated Salve cures Salt Rheum.
Grace's Celebrated Salve cures Chilblains.
Grace's Celebrated Salve cures Sore Breast.
Grace's Celebrated Salve cures Sore Lips.
Grace's Celebrated Salve cures Erysipelas Sores
Grace's Celebrated Salve cures Abscesses.
Grace's Celebrated Salve cures Ulcers.
Grace's Celebrated Salve cures Chapped Hands.
Grace's Celebrated Salve cures Ringworms.

And from Sores and Wounds of the most serious nature down to a common Pimple. It eradicates Pimples from the face, and beautifies the skin. There is no preparation before the public that can equal this Salve in prompt and energetic action for the speedy cure of external diseases, as those who have tried its virtues testify. Soldiers, Sailors, and Fishermen, will find this Salve their best friend.

It has none of the irritating, heating properties of other remedies, but cools, cleanses, and heals the most serious Sores and Wounds. Every family, and especially those containing children, should keep a box on hand in case of accident, for it will save them much trouble, suffering, and money. All it wants is a fair trial to cure old and inveterate Sores.

MANUFACTURED BY

WILLIAM GRACE,

Amesbury, Mass

PRICE 25 CENTS PER BOX.

M. S. BEAN & Co., 26 Tremont Street, and GEO. C. GOODWIN & Co., 11 & 12 Marshs Street, Boston, Wholesale Agents.

For sale by druggists and at country stores every where.

DR. GOODALL,

DENTIST,

60 Congress St.

PORTSMOUTH.

Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,

Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, (having had of late occasion to insert teeth upon VULCANIZED RUBBER,) that he has purchased the best VULCANIZER in the market, and is now prepared to put the work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no insertions or open joints to collect food, &c.; consequently they can be worn night and day, and are far easier kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and to be the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BEARDMAN, Dr. OLIVER and Dr. LEIGHTON, for practicing my profession in preserving Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. SATURDAY JUNE 6, 1863. NO. 93.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

☞ Timothy Titcomb, in one of his letters to young men, refers to the subject of dress, and suggests that "there is in every man what may be called a dress centre,—a nucleus from which the rest of the dress should be developed." In most men, he says, "the cravat should form this centre, and all the other robing should be shaded off, everything being subordinated to this: the whole dress should bow to the cravat." There is a brilliant writer in the New York Tribune, who evidently has been a careful student of T. T. On Monday he gave a glowing account of the departure of a prominent preacher, and in it stated that "he was plainly dressed, wearing a white Kossuth hat, an unministerial neck-tie, and coat to match." This graphic writer gives a lengthy account of the passage down to Sandy Hook, in which he mixes up the enthusiastic cheers, jubilant waves, tremendous peals of thunder, shouting billows (which threw out their white banners) and vivid flashes of lightning, in the most indiscriminate and careless manner. And yet the writer is considerate withal, and graciously enlightens his ignorant readers in this wise: "In his hand he held a bouquet, in which some fair hand had woven starry petals, with the red, white and blue blossoms, emblematic of our national colors." Those who were not previously aware that these are emblematic of our national colors, will feel duly grateful. He declares, even near the end of his report, that "Sensationists did not pursue him for startling items," and closes with the following, which is almost sublime: "Parting tears were the only lens through which his friends saw his present and prospective happiness." It is all very well to speak kindly and well of a gentleman occupying so prominent a position, yet the English language is worthy of some consideration, and there should never be too lavish a use of the "high style of talk."

☞ In one of the ships on the stocks in Newburyport, a robin has built her nest and laid her eggs. This has been repeated by this or some other robin for several years. Last year the ship was so far advanced that she came near being enclosed within the planking, but the workmen, unwilling to disturb the bird, left open a space till she had time to hatch her young.

☞ Go into a certain rubber store in New York, and you will find five hundred different articles made from that one staple only a few years ago good for nothing but to rub out marks with and furnish active jawed young persons something to chew.

A few years ago a little fellow was taken by his father to a carpenter, to be bound apprentice after the fashion of old times. In settling the business, the master, who was one of the stiff kind, observed: "Well, my boy, I suppose you can eat almost anything—can't you? I always make my boys live on what they don't like." "I love everything but mioth and apple pioth!" lisped the boy.

☞ The Bedouins, an alert and military race, can live on six ounces of food per day. Six or seven dates, soaked in melted butter, serve a man a whole day, and he esteems himself happy when he can add a small quantity of coarse flour or a little ball of rice.

☞ An inspection of Newburyport harbor for the location of a Fort, has resulted in the selection of Black Rock.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 6, 1863.

THE REBELLION.

The rebel papers have a dispatch dated Jackson, Miss., 1st, stating that "Gen. Grant demanded the surrender of Vicksburg on Thursday, giving three days to Gen. Pemberton to consider the demand. Gen. Pemberton refused to consider it.—The Federal gunboats fire heavy shot at the city. Port Hudson is invested." Our own dispatches to the 31st, while they mention the progress of the siege, say nothing of any assault since the 21st and 22d, nor of any battle since the 25th, which last was not very heavy. Our troops are officially represented to be in good health, spirits and condition up to the 31st of May. The siege of Vicksburg was progressing with reasonable satisfaction. There was not then any immediate pressure on Grant's rear.

All of our troops, sixty in number, that were missing in the Gum Swamp, N. C., expedition, returned to camp next day.

The enemy made some active demonstrations in front of Gen. Rosecrans' army on Thursday. At Franklin, Tenn., Gen. Baird, commanding the post, was attacked by rebel cavalry, and at last accounts was still fighting.

A private letter from an official in Porter's fleet, dated near Vicksburg 25th, says: "We are meeting with successes on every side, and before long the entire river will be open. To-night we had a dispatch from Gen. Grant, stating that he was gaining ground and advancing slowly, but surely, on the town. We have kept our mortars playing all the time on the town for the last three days and nights without cessation, and have destroyed a great many buildings, besides two batteries. Deserters and paroled prisoners report to-night that the city cannot hold out much longer. They are getting very short of provisions, and have already come down to half rations. They have no way of getting any more supplies. We feel very confident here of the fall of Vicksburg in a very short time." A letter to the N. Y. Herald, dated near Vicksburg, 24th, says the place will now be regularly besieged. Our skirmishers are so efficient that the enemy has no chance to work his guns, and our batteries pour in a murderous fire night and day. The rebels during the nights manage to place cotton bales round the embrasures, which are destroyed during daylight. The rebels are constructing a new line of works between the outer line now opposed to us, and the city. It is stated that the rebels have but one mill in the city by which to grind corn for their entire army.

NEW HAMPSHIRE ITEMS.

—— The Sixth New Hampshire removed from Lancaster, Ky., to Crab Orchard, Saturday, May 23d, where they are encamped in a healthy and beautiful location. The Ninth New Hampshire, Col. Titus, which was left at Lancaster on account of a case, real or presumed, of small pox which terminated fatally, arrived at Crab Orchard, on Thursday, 29th ult.

—— Hon. Edward P. Emerson has resigned the office of Police Justice in Nashua, and Associate Justice Isaac Spalding has been appointed to fill the vacancy.

—— Augustus Jones, one of the numerous family of horse thieves, was arrested in Nashua on Sunday. The stolen horse was not found.

—— The Nashua City Clerk case has been decided by the S. J. Court in favor of the clerk elected this year. The former clerk had refused to surrender possession of the office, on account of some alleged informality; but the Court has decided that Mr. Kimball was legally elected, and has commanded Mr. Marshall to vacate.

—— This year the Governor, one Member of Congress, the Speaker of the House, and the President of the Senate, all dwell together in Concord.

—— Nearly 400 teachers from this State, ladies and gentlemen, visited the city schools of Boston on Friday. They represented not only the prominent towns of the State, but the rural districts in every section, some even coming from fifty miles above Concord. All but two or three of the Manchester teachers were with the company. Every grade of school was represented, from the little district school of a dozen pupils in charge of a youthful miss, up to the stately and more pretending Academy and High School, illustrated by the dignified presence of the long experienced master.

☞ The New York Illustrated News is edited by Thomas Bailey Aldrich, Esq., formerly of this city. The paper is interesting and valuable in its literary matter, and the wood engravings are of great excellence. The cut of Mr. Bonner's horses, of the stretcher-bearers on the field of battle at Chancellorsville, of the Union rifleman giving refreshment to a wounded rebel officer, in last Saturday's number, are singularly distinguished for clearness, spirit and finish.

☞ The gross receipts for internal revenue during May were $4,963,895.02, which is a great falling off from original estimates.

Communication.

FREEDOM OF SPEECH.

FREE SPEECH has its uses and its abuses—and the one should never be confounded with the other. It is a pleasant thing to say, that in such a country speech is free: but there never was or could be a country wherein falsehood and slander were not punishable, and where lying and libel did not sometimes get punished by human hands. And above all, our tongue, "the glory of our frame," is subject to the Divine Government, and we are as strictly accountable for speech as for action. The wicked insurgents, who whet their tongue like a sword, to destroy the perfect, "shall make their own tongue to fall upon themselves," as surely as the Bible is true. (See Ps. 64.)

These thoughts are suggested, says Uncle Toby, by seeing, in a late paper, a piece headed with these words: "Freedom of Speech to Abolitionists—but Gags upon all Others." So far as this is true, it is a wonderful change; and the bitter falsehood of the latter clause goes only to show the rage and desperation of those who try to defend a bad cause, which is sinking beneath its own violence. Freedom of speech has not always been allowed to abolitionists; it can never be so where slavery bears sway. To make this manifest, look one moment at the Gag Law of our own congress, enacted only a few years ago, by the same set of men who now complain bitterly that their own freedom of speech is abridged. Look at the state of Georgia offering $1000 for Mr. Garrison's head; at the mobs raised to kill Thompson, and the mob that did kill Lovejoy; and more things of the same sort—beautifully illustrated by Rynders, of New-York, who boasted the other day in a free-speech meeting, that he had kicked Wendell Phillips out of the Tabernacle!—to prevent his speaking.

The mention of Phillips and Rynders together, suggests a strong contrast between two sets of men; one of whom spoke for a despised and oppressed people from whom they could expect no reward; and the other are roaring because they have lost their fat offices, and hope to get power and pelf again, as the reward of their clamor for free speech.

Leaving out of sight for the present, the old abolitionists Franklin and Jay; we ask ourselves why such men as Ben. Lundy of Baltimore, Channing of Boston, and James Nowell of Portsmouth, with such women as the Misses Grimke of Charleston, happened to be outspoken abolitionists? The answer is, they were profoundly religious, in the true sense of that word; desiring to serve God by doing good to man; and when called upon to give a reason why they said any thing against slavery, they would point to some such scriptural precept as Prov. 31: 8. "Open thy mouth for the dumb, in the cause of all such as are appointed to destruction." These people were not office-seekers nor partisans; and it is manifest to all, that they never expected to derive any personal benefit from their course, except the answer of a good conscience, that they had tried to do their duty.

Who, on the other hand, are the men who now complain of being gagged? Messrs. Wood and Rynders of New-York, Wall of New-Jersey, Vallandigham of Ohio, and notorious men in New-Hampshire and Maine—all partisans,—every one with a political axe to grind, if the dear people will only turn the grindstone. And what kind of free speech has been stopped? Not pro-slavery talk: for that is as common as dirt, all its arguments are stale, most of them obsolete, and nobody but very stupid people can be imposed upon by them. Ineffectual and feeble attempts have been made to stop treacherous and seditious speeches and publications, by military means, on the plea of military necessity. And this has been done in the most important recent cases, by officers who are democrats. No eminent abolitionist, no paper of that character, so far as we know, has sanctioned these measures, while many of the foremost disapprove it. Real abolitionists wish for freedom for OTHERS as well as themselves,—while many men who now cry aloud for free speech and a free press, were a few years ago passing gag laws in Congress, mobbing a ladies' society in one city, and abolition lecturers in many cities. Some of them rejoiced that George Storrs was arrested in a pulpit in New-Hampshire, and that Charles Sumner was struck down in the Senate chamber, for words spoken against slavery.

Now the poisoned chalice has been presented to their own lips;—they sip a little; it is bitter; they don't like it; Dr. Burnside insists upon their drinking; but Dr. Lincoln his superior, after approving the Vallandigham dose, orders Dr. Burnside to stop giving such physic.

Our Surgeon General, the other day, ordered all the calomel and tartar emetic out of the army supplies,—because they did more hurt than good. And now the President puts a Veto on Gen. Burnside's syrup, probably because he deems the remedy to be worse than the disease. In other words the press is free, and speech will be,—much freer than ever before! The gag-men have had a taste of their own medicine—and the effect will be good. U. T.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Indian War in 1696 and '97—Breakfast Hill—French Invasion.—On the 7th day of May, 1696, John Church, who had been taken and escaped from the Indians seven years before, was killed and scalped at Cochecho, near his own house. On the 26th of June, an attack was made at Portsmouth plain, about two miles from the town. The enemy came from York nubble to Sandy beach in canoes, which they hid there among the bushes near the shore. Some suspicion was formed the day before by reason of the cattle running out of the woods at Little Harbor; but false alarms were frequent, and this was not much regarded. Early in the morning, the attack was made on five houses at once. Fourteen persons were killed on the spot; one was scalped and left for dead, but recovered, and four were taken. The enemy having plundered the houses of what they could carry, set them on fire, and made a precipitate retreat through the great swamp. A company of militia under Capt. Shackford and Lieut. Libbey pursued, and discovered them cooking their breakfast at a place called Breakfast Hill, in Rye. The Indians were on the farther side, having placed their captives between themselves and the top of the hill, that in case of an attack they might receive the first fire. The Lieutenant pleaded to go round the hill, and come upon them below to cut off their retreat; but the Captain fearing in that case that they would, according to their custom, kill the prisoners, rushed upon them from the top of the hill, by which means they retook the captives and plunder, but the Indians, rolling down the hill, escaped into the swamp and got their canoes. Another party, under another commander, Gerrish, was then sent out in shallops to intercept them as they should cross over to the eastward by night. The captain ranged his boats in a line, and ordered his men to observe their fire till he gave the watchword. It being a calm night, the Indians were heard as they advanced; but the Captain, unhappily giving the word before they had come within gunshot, they tacked about to the southward, and going round the Isles of Shoals, by the favor of their light canoes escaped. The watchword was Crambo, which the captain ever bore as an appendage to his title. On the twenty-sixth day of July, the people of Dover were waylaid as they were returning from the public worship, when three were killed, three wounded, and three carried to Penobscot, from whence they soon found their way home.

The persons killed were Nicholas Otis, Mary Downs and Mary Jones; those wounded were Richard Otis, Anthony Lowden and Experience Heard; those captured were John Tucker, Nicholas Otis, jr., and Judith Ricker. On the 25th of August following, Lieut. Lock was slain by the Indians at Sandy Beach, and soon after Arnold Breck was shot at betwixt Hampton and Greenland.

The Bedford Galley of 32 guns was built here for the British government.

The French had a small fleet at St. Johns, under command of Iberville, an experienced officer, and there captured the English ship Newport. They then proceeded to Pemaquid, where they were joined by two hundred Indians under the Baron St. Castine. The fort at Pemaquid was commanded by Capt. Chubb, which he surrendered to the French, and the garrison was sent to Boston as prisoners of war to be exchanged for as many French and Indian prisoners. It was expected that the enemy would immediately proceed westward as far as Piscataqua river. Five hundred men, under command of Col. Church, were sent without delay from Boston to Portsmouth to arrest their progress, but after destroying the fort at Pemaquid, the enemy returned to the Eastward.

Lieut. Governor Stoughton ordered Col. Church to embark his men at Portsmouth on board of small vessels, and range along the eastern shore in search of the enemy.

The next year, on the 10th of June, the town of Exeter was remarkably preserved from destruction. A body of Indians had placed themselves near the town, intending to make an assault in the morning of the next day. A number of women and children, contrary to the advice of their friends went into the fields without a guard, to gather strawberries. When they were gone, some persons, to frighten them, fired an alarm; which quickly spread through the town, and brought the people together in arms. The Indians, supposing that they were discovered, and quickened by fear, after killing one, wounding another, and taking a child, made a hasty retreat and were seen no more there. But on the 4th day of July, they waylaid and killed the worthy Major Charles Frost at Kittery, to whom they had owed revenge ever since the seizure of the four hundred at Cochecho in which he was concerned.

The same year, an invasion of the country was projected by the French. A fleet was to sail from France to Newfoundland, and thence to Penobscot, where being joined by an army from Canada, an attempt was to be made on Boston, and the sea-coast ravaged from thence to Piscataqua. The plan was too extensive and complicated to be executed in one summer. The fleet came no further than Newfoundland, when the advanced season, and scantiness of provisions obliged them to give over the design. The people of New England were apprised of the danger, and made the best preparations in their power. They strengthened their fortifications on the coast, and raised a body of men to defend the frontiers against the Indians who were expected to co-operate with the French. Some mischief was done by lurking parties at the eastward; but New Hampshire was unmolested by them during the remainder of this, and the whole of the following year.

It was in 1697, on the 15th of March, that the town of Haverhill, in Massachusetts, was attacked by the Indians, and some of the prisoners there taken were brought into New Hampshire, among them was the intrepid Hannah Duston, whose story is well known. It was on a small island at the mouth of the Contoocook river, about six miles above the State House in Concord, that she destroyed her captors. She and her coadjutors killed two men, two women, and six others, and having scalped them, carried their scalps to Boston.

Portsmouth, May 23, 1863.

Notice.

The subscriber will offer for sale the whole stock of the late Firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.

This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first class goods, and selected by the SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.

The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.

In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.

In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Robbins, &c. &c., the stock is varied and complete.

Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. ma24 CHARLES H. MENDUM.

A Large Stock of

Spring and Summer DRESS GOODS for sale CHEAP at T. TREDICK'S.

☞ Mr. Edson C. Eastman, of Concord, has published a very instructive and interesting little game, entitled the Commanders of our Forces, which may be played by three or more persons. The names of our principal generals, and the localities of the several battles are placed upon cards, the use of which will, we think, prove a valuable auxiliary in enabling children and others to remember clearly the most important achievements during the war. For sale in this city by J. H. Foster.

☞ A meeting of the editors of the New York Press is called for the 8th inst. to consider the subject of the nature, extent and right limitation, if any, of the liberty of public journalists to criticise the acts of those charged with the conduct of the Government in time of war and civil convulsion. The call is signed by W. C. Prime, Park Godwin, Jas. Brooks, Anson Herrick, Horace Greeley and Elon Comstock.

LETTER FROM NEW ORLEANS.

NEW ORLEANS, May 28.

The principal occurrence of interest in this city, besides wars and rumors of wars, has been the exodus of "registered enemies" from the Federal lines of this department during the past ten days. Much might be said of the self-sacrifice of some of these individuals, and romance could weave a complex web from the material furnished by others, but after-history will exercise a calmer judgment on the subject than newspaper scribblers of to-day. Suffice it to say, Jeff. Davis will receive quite a number of recruits by this operation.

I am sorry to inform you of an accident to Corporal Chas. C. Haley, of your city, a member of the 47th Mass. Vols. While on duty with his company at Hickock's Landing, Lake Pontchartrain, he was taken ill of one of the numerous bowel complaints with which this latitude is favored. He recollects walking to the head of a flight of stairs, and then probably fainted and fell, as he was found on the shell walk at the foot of the steps. He has excellent medical attendance, and it is hoped that his injuries which were of the back, will not prove serious.

Mr. Henry F. Vennard, formerly of your city, is the happy owner of a runaway slave named Frank Diggs, "in whose possession a considerable sum in gold and silver coin was found a few days since, has, since his arrest, confessed that he stole it from his master. His master, it appears, buried it in a tin box under his house, just before going to New York, in December last, and the negro, finding out in some manner where the money was deposited, dug it up, ran away, and has since been living with his wife in clover. There was $1075 in the box when it was buried, and nearly half of the amount has been spent by Diggs. But Diggs declares that he repents digging up the box and will go to work and earn enough to pay his master back. Digg's good resolutions are rather rare, and it is not very probable that he will keep this one sacredly."

One week ago, Mr. Wm. Stickney, who for a year past has been the telegraph operator at Pontchatoula, La., and who is not unknown in your city, was brought hither a prisoner. I saw "Billy" on Sunday, and he was looking finely, notwithstanding the public press persists in informing us that "up from the agonized esophagus of the Southern Confederacy comes a piteous prayer for prog." [See N. Y. Tribune.]

ION.

☞ The Life of President Lincoln, published by Walker, Wise & Co., Boston, and entitled, "The Pioneer Boy, and How he became President," has reached its ninth thousand in the short time it has been published. The author has received a letter from the son of the President, now in Harvard University, speaking in high terms of the book.

12 rebels endeavoring to get into Vicksburg on the night of the 30th were captured. They had 200,000 percussion caps.—Johnston is reported to be moving toward Jackson, but not in sufficient force to attack our troops.

☞ Screw sloop Kearsarge, Capt. Pickering, from a cruise, arrived at Fayal April 25.

Sailing sloop Constellation, Com. Thatcher, from Spezzia, arrived at Algeciras May 13th and had not left.

☞ President Lincoln sent down his little son with a beautiful bouquet of rare and fragrant flowers, and a wreath of evergreens, decked with flowers, to be placed on the coffin of Gen. Berry, who fell while gallantly leading a charge at Fredericksburg.

☞ A letter from Brashear City says that the value of the cotton secured by Gen. Banks will cover the whole expense of his campaign.

☞ The Supreme Court of the New York District has decided, in the case of Meyer against Roosevelt, that treasury notes are not a legal tender for the payment of bonds and mortgages contracted prior to the act of Congress making these notes a legal tender.

☞ The Bangor Jeffersonian thinks it would be well to let Mr. Vallandigham repeat his recent Ohio speech to a brigade of Gen. Roseccans' army, and then give the brigade a furlough of about five minutes.

☞ Capt. Walker, of the U. S. steamer DeSoto, reports to the Navy Department the burning on the 17th ult., in lat. 28 47, lon. 87 58, of the rebel ship Cuba, laden with a cargo worth half a million. He had her officers and crew, and would deliver them up to the U. S. authorities at Key West. The Cuba had been chased by the U. S. steamers Octorara and Huntsville. The Department also has official intelligence of the capture of ten other vessels engaged in the rebel interests.

☞ The President having revoked that part of Gen. Burnside's order which suppressed the Chicago Times, Gen. Burnside has revoked the entire order.

☞ It is estimated that at least a million of slaves have found their freedom practically during the war, and this revolution is acquiring an accelerated power every day.

☞ The Virginia election has probably resulted in the choice of Billy Smith for Governor. Governor Letcher was defeated for Congress by Mr. Baldwin, and Botteler by Halliday. Price is probably elected Lieut. Governor over Imboden.

☞ The report that Gen. Gilmore is to relieve Gen. Hunter as Commander of the Department of the South is renewed, and Gen. Gilmore is at Washington making preparations for some new duty.

GRAND POLYORAMA.

☞ By Particular Request the Dioramic Polyorama of the GREAT REBELLION will remain open at the Temple 3 days longer. Thursday, Friday and Saturday.

Admission 15 cents, children 10. Grand Matinee, Saturday afternoon.

DEATHS.

In this city, June 4th, Mr. LAWRENCE DURGIN, aged 74 years, 4 months.

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF KITCHEN FURNISHING GOODS.

SCHOOLEY'S NEW IMPROVED ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, Fruit dealer, Boston says of it, "I have preserved grapes and pears, peaches and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in reason, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when I ate it and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to procure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, made, finished throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

LEWIS RICE, Proprietor.

Boston, Jan. 1863. 1mlyr

THE ALL SUFFICIENT THREE,

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" IMPROVED ROSE WASH.

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED"

COMPOUND

FLUID EXTRACT BUCHU,

A Positive and Specific Remedy

For Diseases of the

BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU

FOR WEAKNESSES

Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System.	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin.

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow IMPOTENCY, INSANITY, EPILEPTIC FITS, in one of which the patient may perish. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION,

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE.

In many affections peculiar to Female the Extract Buchu is unequalled by any other remedy, as in Chloria or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulceration or Schirrous state of the Uterus, Leucorrhee, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience,

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter.*

Thousands upon Thousands

WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS AFTER MARRIAGE.

USE

HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC.

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Linings of the Nose, Ears, Throat, Windpipe, and other Mucous Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, and in conunction with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES,

From eight to twenty years standing, with names known to **Science and Fame.**

Morning Chronicle.

☞ Henry Winter Davis, of Maryland, in a recent speech in Ohio, quieted, with the following declaration, the fears of a class of individuals who are troubled with the idea that the North will be overrun with the blacks if the slaves are emancipated. Mr. Davis said:—

"They were amused in Maryland at the anxiety of the Yankees about the effect of emancipation. They don't know the negro. There is only one thing that will make him run, and that is, the consciousness that his master is behind him. (Laughter.) In Pennsylvania they had laws against the emigration of blacks, but when did the people of that State bear of a free negro of Maryland going thither? It is only the slaves that flee from the South. Doaway with slavery, and the negro will keep on the sunny side of the Union; abolish slavery in the South, and you abolish the possibility of the negro coming North.

WHAT JEFF EXPECTED.—Jefferson Davis, in a speech at Jackson, Miss., just before the breaking out of the rebellion, predicted that if an attempt was made by the North to blockade the Southern ports, England and France would at once interfere, and raise the blockade. "We have nothing (he said) to apprehend from blockade.—But if they attempt invasion by land, we must take the war out of our territory. If war must come, it must be on Northern and not on Southern soil. We shall leave our wives and children and our aged at home, and achieve the triumphs worthy of our cause."

If the people of the North feel disappointed with the results of the war, what must be the feelings of the man who thought England and France would not permit the blockade of Southern ports, and who expected to carry the war out of Southern territory and into the North? The Northern invaders have tramped the streets of that same Jackson where Davis made his speech, in triumph, and the blockade is the most perfect ever known, and it becomes tighter every month.—*Dover Enquirer.*

A SMART FIREMAN.—William Daily, a steam fire engineman in New Haven, can, the word being given, start from bed, dress himself, light the gas, bridle the horses, hitch them to the engine, and drive out of doors ready for action, in less than 60 seconds He'll do.

Charles II, on remarking to Milton that his loss of sight was a judgment from heaven, was immediately silenced by the poet's retort of "How was it when your father lost his head?"

Never run in debt, especially with shoemakers; for then you can't say your sole is your own.

Manufactured by E. R. CLARKE, Sharon, Mass.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a private nature.

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of proving that the indiscriminate use with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒIA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Urinary and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attendant thereon, are now known to be as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused, by a secret and solitary habit, which robs the body and mind, inflicting the unfortunate individual, for society. Some of the sad and melancholy effects produced by early habits of youth, as Weakness of the Limbs and Back, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Pimples, Emissions, Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks can be accommodated with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Cupidene, warranted the most effective. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, continues to be consulted on diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the care of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1835, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on above, and all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice."

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

BOSTON, April 7, 1863. eodly.

Livery Stable Notice.

JOSEPH WHIDDEN, 2nd having bought the Livery Stock of Mr. WOODBURY LOCKE, and taken the Stable recently occupied by him, on Fleet Street, near FRANKLIN HOUSE, would respectfully solicit a share of the patronage from his friends and the riding public generally. Good teams at fair prices.

Thankful for past favors, he hopes for a continuance of the same. may21

FERGUSON & CO'S

LIVERY STABLE,

REAR NO. 2 CONGRESS ST.

Having purchased the Livery Establishment recently owned and conducted by Mr. F. H. BLAISDELL, and refitted it throughout, we are prepared to furnish Teams of one horse, two or four, with Carriages, as may be desired, and of the best, to customers who favor us with a call.

To those who have patronized us for the past five months, we tender our thanks, and pledge strict attention in furnishing the riding public with

NEAT & FASHIONABLE TEAMS,

to merit the further patronage of all others who desire to be well served.

WM. P. BURLEY, JOHN H. FERGUSON.

Portsmouth, May, 1862.

Hacking.

LAFAYETTE LAIGHTON.

☞ ATTENTION, THE WHOLE! ☜

EPPING, N.H., Feb. 25, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, for over a year—so ill affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla and Salves, &c. but to no effect until we commenced. I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a great many of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it.—" JOHN M. JENNESS.

PORTSMOUTH, April 21st, 1862.

"I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health.

FROM ELDER I CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting Rochester in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had appeared to be in a decline, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by day and labor by day. I cannot your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Swett's Panacea, shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may25o

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

73 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers for Drawing for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign Works, to determine the validity or utility of patent applications—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable as* / *successful* practitioners with whom I have had official intercourse."

CHARLES MASON,

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,

Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend his patronage to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meat is prevented from ever entering the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

We invite all those in want of the very best Stove in the market to examine the

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which come in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from the smallest amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This difficulty is not common to other Furnaces; is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the chamber, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the same side of the oven can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire can be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Rev. A. L. Stone,	Charles E. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by it.

3d. When the arch is irregular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a silver dollar, when fitted by the work generally in the whole place.

6th. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St., Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfactorily in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DENTISTRY.

No. 60 CONGRESS STREET,

Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, having had of late many calls to insert teeth with Gum Gums, that he (Dr. Goodall) has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz.: It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no fastenings or springs to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber as a base. The expense is but a little more than for Silver, and you get the same teeth (in block) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too. I will warrant a perfect fit and teeth from the best manufacturer in the country, $5. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take great pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth, and in extracting without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—

All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. SATURDAY JUNE 6, 1863. NO. 934

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the light, though every lam fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

A REMINISCENCE.—Mr. Chittenden, Register of the Treasury, told the following story at a war meeting in Washington, a few nights ago:

"He was a delegate from the State of Vermont to the peace conference which met in this city in the month of February, 1860, upon the invitation of the Governor of Virginia. In that convention he happened to form the acquaintance of Jas. B. Clay of Kentucky, William A. Seddon of Virginia, (the present rebel secretary of war,) Governor Morehead of Kentucky, (who is now a fugitive,) and he hoped he would always be until he repented,) and others. His seat was near those gentlemen. One day while sitting with them, a servant from Willard's hotel entered and handled a card to Mr. Seddon, who sat near Mr. C. He did not know what was on the card, but it was passed around from one to the other in such a manner that he could not help but see what was written on it. On the card was written these words:—*Lincoln is in Washington!* He never saw such confusion made by a small piece of card before. They looked at each other with amazement. At last, Waldo P. Johnson, afterwards a senator from Missouri, who could control himself no longer, exclaimed with vehemence: "How in the devil did he get through Baltimore?"

FATAL WATER RIOT.—A riot had occurred at Bredinken, Prussia, on account of an individual there having determined to draw a large pool of water from which the inhabitants of the village drew their sole supply. The proprietor had been several times resisted when about to commence the operations and at last he called in the aid of the military. The poor women of the village were the chief rioters. They resisted even the soldiers; and the latter were speedily commanded to make use of their weapons. They shot and bayoneted the crowd without mercy. Nine persons were shot dead at the first volley, three more died before they could be carried off the field, and a second three are on the point of death. A large number of the villagers are suffering from their wounds. The most abominable fact about the affair is that many of the poor women were found to have been bayoneted in the back. They were pursued when they had already begun to take to flight.

☞ A Newbern dispatch states that the opposition papers in North Carolina are very severe on the "fire-eaters" and original secessionists, who, according to the utterances of he special organ of Gov. Vance (the Raleigh Standard), will never be allowed hereafter to hold any office of honor or trust whatever in North Carolina.—From the same source it appears that Jeff. Davis has been given to understand by Gov. Vance that the fate of the Confederacy must be decided in Virginia; that in no case will the Confederate army be allowed to make a stand in North Carolina, and deluge her fields with blood and devastation, but must, when they leave Virginia, retire into the cotton States, and end the conflict where it begun.

THE CROPS IN THE SOUTH.—According to the Augusta (Ga.) Constitutionalist the talk about a large grain crop in the South is not true. The report has been got up by speculators, for their own advantage. They have purchased the crops from the farmers at low price, with the view of selling at famine rates, as it is the fact that the whole crop will not furnish nine months' supply. Farmers, the Constitutionalist says, will be humbugged, speculators enriched, and goverment and people forced to pay the old high prices, or perhaps more.

☞ The thirty-fourth anniversary of the Sunday schools in the city of Brooklyn, N. Y., was celebrated last week with more than usual splendor. *Twenty-five thousand* school children, with teachers and superintendants, were in procession. Beautiful banners, with appropriate quotations from the Bible for mottoes, were borne by each school. It was one of the most pleasing scenes ever witnessed in the city of Brooklyn.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JUNE 8, 1863.

THE REBELLION.

A conflagration was raging in Vicksburg on Monday night, 1st. The very heavy firing was continued. Gens. McPherson and Sherman had pushed their artillery within 50 yards of the rebel works: reinforcements for Gen. Grant were arriving, and the prospect was said to be cheering.

Gen. Stahl, at Fairfax Court House, reports that his pickets were attacked by guerrillas on Thursday morning, who were completely routed in a skirmish soon after. Our loss was three wounded.

Col. Baird, at Franklin, Tenn., in the fight on Thursday, was driven back to his intrenchments, but his troops rallied and drove back the enemy with heavy loss to the latter. Simultaneously an attack was made by the rebels upon our forces at Trone. They were repulsed with a loss of 200 men, 400 horses and a lot of camp and garrison equipage.

By steamer Morning Star, we have advices from New Orleans to May 29. Gen. Banks' army had completely invested Port Hudson, and had a battle there. The attack was commenced on the 27th by land and water. The fight was desperate all day, and was continued on the 28th. Gen. Weitzel, after long and close fighting, finally captured the heavy six-gun battery which sunk the Mississippi, and has turned the guns on the rebels. On the enemy's right Gen. Sherman charged and carried the works by storm, but the enemy massed his troops and our men had to fall back. In this charge the 2d Louisiana negro regiment fought like demons and lost 600 out of 900 men. Our loss is large, some reports say 4000. Sherman is severely, but not dangerously wounded; Gen. Neal Dow, slightly; Maj. Carr, 15th N. H., badly. The battle was still in progress on the 28th.

Lee's army in Virginia was in motion towards Gordonsville on the 5th. The rebels have disappeared from Fredericksburg, and Gen. Hooker's army occupies it. We shall soon hear of an attack by the rebels in some other quarter.

By Telegraph, Sunday, to Messrs Hutchings, Disley, and others.

The dispatch received here on Sunday contradicts the story received on Saturday, that Lee's rebel army had left Fredericksburg, and that Gen. Hooker's force had crossed the Rappahannock. A Washington dispatch states that Gen. Hooker's army is still north of the Rappahannock.

Rebel dispatches from Charleston to Richmond state that the Yankees have attacked and burnt Bluffton, S. C.; but were compelled to retire, carrying off 1000 negroes, and having destroyed $1,000,000 worth of property. The latest of these dispatches represents the rebels holding Bluff town, but the place in flames.

Rebel dispatches confirm our previous accounts from Vicksburg, and count confidently on holding that place and Port Hudson; say their losses at Vicksburg are only 4500 men; and state that Gen. Grant has failed to carry the works by storm, and has begun a regular siege, which plan may be interfered with by the rebel Gen. Johnston.

They also state that the rebel Gen. Kirby Smith has crossed to Port Hudson; and that the Yankee gunboats made a furious attack, sinking one steamer and drowning 200 men. The story of his crossing is not believed in Washington.

☞ The correspondent of the N. Y. World, who was captured with several other reporters while attempting to run the Vicksburg batteries, made a journey thro' the Confederacy, and has written a very interesting account of what he saw and how he was treated. We copy the following on the currency of the country:

"One of the best evidences of a lingering faith in the United States is the fact that "greenbacks" sold readily in almost every place at from two to five dollars for one—usually the former rate. Vast quantities of their treasury notes are being converted into interest bearing bonds—under the impression that these have some value in Europe. A vast amount has been changed to land, sugar, cotton, real property, *anything but negroes*,—all of which have gone up to surprising prices, *while the latter alone is "a drug in the market."* The enormous and rapidly-increasing depreciation of the southern money is the most alarming symptom of their want of confidence in it. It is vain and useless to try and attribute the rates of premium on our money to the illegitimate trade with the North by the blockade runners. The quotation as against gold, against articles of produce, gives the lie. Either these people must admit that the necessaries of life are getting rapidly and fearfully scarce, or that they do not put faith in the intrinsic value of their circulating medium."

Mr. Samuel Willard, a worthy fisherman residing at Cape Elizabeth, while out in his boat with a small boy, on Thursday, fishing, dropped dead. He had just previous to his death, pulled in a large halibut weighing 100 lbs. The cause of his death was apoplexy.—*Portland Press.*

☞ At the meeting of the New-York Republican Central Committee held Thursday evening, resolutions in favor of protecting free speech and a free press were unanimously adopted.

NEW HAMPSHIRE ITEMS.

—— *Dr.* Albert Smith, of Peterborough, who has been a very popular Professor in the Medical School at Dartmouth, has received the appointment as one of the Board of Visitors to West Point, and is now absent on duties pertaining to his office.

—— The Concord Statesman stated that the people of School District No. 2, Wolfborough, had voted to build a $2000 school house. But the Wolfborough News says: "To prevent the consummation of so laudable a purpose the town of Wolfborough, at the dictation of a wealthy minority in the district, has voted to set off the portion in which said minority reside. Really this is a progressive people, but not always in the right direction."

—— The citizens of New Boston have made arrangements for celebrating, on the 4th of July next, the one hundredth anniversary of the settlement of their town.—There will be a procession, a Historical Address by Hon. C. B. Cochrane of New York, and addresses from many gentlemen, natives of the town, but now residents of other places. An excellent band will be in attendance, a splendid dinner provided and a grand time is expected.

—— The examination of Dr. J. A. Page of Manchester, before the Police Court, on the charge of aiding in procuring an abortion on Mrs. Mary Jane Bly, from the effects of which she died, resulted in his being acquitted, the testimony not being deemed sufficient to bind him over for trial. He called no witnesses in his defence.

—— A well-to-do citizen of Gilmanton, on his way to Washington, when in New York fell in with one of those friendly men, who are always ready to offer advice to travellers unused to the ways of the world, and escaped from his clutches at the moderate price of $50.

—— The Concord Statesman urges a short session of the Legislature, little speech-making, and "letting well enough alone,"—in short, "masterly activity" on the part of most of the members.

—— A robber on Tuesday night, May 20th, entered the sleeping room of Mr. Henry Coolidge, in Chesterfield, through a second story window, and carried off a watch, $150 in money, and two coats, leaving in exchange a stone done up in a handkerchief. Mr. C., on awaking, missed his property, and started in pursuit, with a neighbor. While on the way to Hinsdale, they overtook a man walking, who turned off and started for the Connecticut. Finding they were following him, he turned and fired a pistol, the ball passing by the neighbor's ear. He then swam the river, but was pursued, caught, and lodged in jail.

—— The Statesman claims that Concord now contains more fleet and handsome horses than any other New-England town of corresponding number of inhabitants.

—— Croydon does well in the maple sugar line. District No. 1 last year produced 5,230 pounds. Other districts probably did even better, for in district No. 2, one sugar orchard produced about 1,500 lbs.; one, in district No. 3, nearly 2,000 lbs., and one, in district No. 5, more than 1,400 lbs.; while in instances too numerous to mention, sugar orchards in different parts of the town have yielded from 500 to 1000 pounds each.

—— The Annual Report of the Treasurer of the county of Belknap for the year ending June 1st, 1863, shows the total receipts to have been $12,953.45. The expenditures have been $12,855.99; leaving a balance in the hands of the Treasurer of $97.16. The indebtedness of the county is $5,965.62; deducting the amount in possession of the Treasurer, the amount due above the assets is $5,868.46.

—— Mr. Chandler, the new Speaker of the House, is 28 years of age—the youngest person ever chosen to that office in this State.

—— The Journal states that on Thursday morning, June 4, there was frost in many of the towns around Concord.

—— Elizabeth McCoy, a maiden lady 40 years of age, daughter of Capt. Samuel McCoy, of Peterborough, committed suicide by hanging, on Thursday of last week. No cause assigned for the deed.

—— The house of Mr. George L. Rix, at West Lebanon, was struck by lightning on Sunday last, and Mrs. Rix was slightly burned by reason of wearing steel hoops. No other damage was done.

—— Two barns in East Danover, belonging to Isaac Babbit, were burned on Monday night last. The origin of the fire is not certainly known, but it is supposed to been set by the owner, who is insane.

☞ A paragraph lately went the rounds of the English papers relative to the discovery of a supposed oil well at Blaina, Monmouthshire. It now turns out that a hogshead of oil burst some time since near the spot and by some means a portion of the unctuous fluid got into the well, hence the discovery of the supposed oil spring.

☞ Owners have commenced shipping their ice from Gardiner, Me., in great quantities to the army and various Southern ports. Between two and three hundred schooners of 100 tons each will be required in the transportation.

SOUND SENSE.—The Wolfborough News remarks:—

Had speech and the press been as free in South Carolina as in Massachusetts, in Mississippi as in Illinois, in Alabama as in Ohio, there would have been no rebellion; the criminal designs of the Southern conspirators would have united against the demagogues and put them down. Of all the slave States, Missouri was that one where the rights of free speech and a free press had been most successfully asserted and exercised; and in the words of Mr. Pollard, the rebel historian of the first year of the war, "the convention chosen in that State contained not a single secessionist"—the people, informed of the merits of the struggle, cleaved to the Union.

We rejoice to hear those assert the necessity of free speech who were, until the war began, the only ones who attempted to interfere with its exercise in the free States.

LIBERTY OF THE PRESS.—In 1806, the Northampton Spy—or its publisher rather, was convicted of libel on Gov. Strong. Chief Justice Parsons, who was then on the bench, in a most masterly manner summed up the cause to the Jury, and expressed his opinion in regard to giving the truth in evidence in these words:

"That in relation to persons who were in public office, or were candidates for such offices, he conceived that our government had provided by the spirit of the constitution—that the truth might be published, provided it was told in decent language, and with honest intention to give information to the public; but that this could never be any justification for publishing falsehood, either by charging private vice upon a public officer, or of accusing him of a failure of his public duties."

☞ A Scotch physician, Dr. Smart, has announced an invention, which, he asserts, has never failed in his practice to prevent the disfigurement consequent on small pox, known as 'pitting.' The application consists of a solution prepared by dissolving common india-rubber in chloroform, which is painted over the face (and neck in women) when the eruption has become developed. When the chloroform has evaporated, which it readily does, there is left a thin film of india-rubber over the face. This the patient feels to be rather comfortable than otherwise, inasmuch as the disagreeable itchiness, so generally complained of, is almost entirely removed, and, what is more important, "pitting," once so common, and even now far from rare, is thoroughly prevented wherever the solution has been applied.

WHAT THEY SAY IN TENNESSEE.—A writer in the Nashville Union says: "I do not say now that slavery is wrong necessarily, or that it is such an evil that it ought to be removed, but I say that if any one else thinks so, he ought to have the right of saying so, and to show its evils to others by fair argument, if he can. Upon this subject, as well as others, he has the right of free speech and free thought. Any statute limiting him in this respect is a despotic violation of his rights. To apply a stigma to him for the exercise of this right, is simply an evidence of weakness and malignity. A fool can use odious epithets and sneers as effectually as the wisest philosopher.—Besides, philosophers never treat the arguments or opinions of opponents in this way."

Speaking of the recent editorial change in the Portland Advertiser, the Bangor Whig and Courier says, "It is quite fitting that the Advertiser should have an open, avowed and long-known democrat for an editor. It will no longer sail under false colors, nor, we hope, be any more quoted as a Republican or 'independent' journal."

The Advertiser certainly is not of the Republican party, but an opponent: it is quite independent, however, expressing the views of its proprietor with great distinctness, and containing some of the ablest pleas for slavery of any paper this side of Mason & Dixon's line.

☞ Chief Justice Carter in delivering a recent decision, took exceptions to the old custom of rendering a verdict in Latin terms, as for instance, in the case of divorce, the using of the phrase "*a vinculo matrimonii*," suggesting that a hundred years or so hence every person may not understand that this phrase signifies restoration to all the rights of a single man. The good sense of this suggestion is equalled only by its good taste.

☞ Henry Winter Davis was nominated for Congress at a Union Convention held in Baltimore on Friday. He was serenaded and made a speech, in which he said he should, if elected, support the Administration. There should, he said, be no side issues. It was time for America to speak out boldly. He was in favor of emancipation and of a vigorous prosecution of the war, until a peace is conquered.

☞ The Deseret News of May 20, published at Great Salt Lake City, Utah, says: "Hon. Frank Fuller, Secretary of the Territory, left for the west by the overland stage on Wednesday last. How long he may be absent we are not advised—rumor says but a few weeks. His many friends wish him success in whatever may tend to his prosperity not only during his temporary absence, but in all future time."

☞ It is stated that Admiral Dupont has been relieved at his own request.

LEWIS A. BRUCE,
House, Ship & Sign Painter,
Having purchased of EDWARD D. COFFIN, the stock and stand,

MOCHA AND JAVA COFFEE.
(From the Celebrated Berry Mills, Lynn, Mass.)
This **SPLENDID ARTICLE** of Coffee is for sale by MOULTON & BLAISDELL, S. F. TERRISS, C. F. GERRISH, LAFAYETTE LAIGHTON and nearly every Grocer in Portsmouth.
It is the *BEST* article ever offered to the public and is sold at a moderate cost. We are selling large quantities everywhere in the New England States.
One Trial will convince the most skeptical of its merits.
☞ *TRY IT!* ☜
We are also introducing our
UNION COFFEE,
which has had the largest sale of any cheap Coffee in the market.
We were the first to adopt the name "Union" for our coffee, and any imitation is a fraud.
It will be found to make a clear, delicious coffee, equal to any at Domingo or Cape.
☞ All the Grocers have it.

Portsmouth, May 21, 1863.

Notice.
The subscriber will offer for sale the whole stock of the late firm of JONES & MENDUM for CASH, at low prices, for 90 days, to close the concern.
This stock comprises the best assortment of staple Dry Goods to be found in the State of New Hampshire, and affords a rare chance for the purchasers of Dry Goods to replenish, as the stock is all first class goods, and selected by the
SUBSCRIBER, WITH GREAT CARE, FOR THIS MARKET.
The stock of Blankets, Flannels, Linens and Housekeeping Goods is better than it has been for the last 20 years, and presents unusual advantages.
In Cotton Sheeting and Shirting, Prints, Ginghams and medium priced Dry Goods, the assortment is very complete.
In Haberdashery Goods, such as Gloves, Hose, Shirt Fronts, Collars, Wristbands, Suspenders, Braids, Cotton & Linen Thread, Spool Cotton, Knitting Cotton, Skein and Spool Silk, Hooks & Eyes, Buttons, Needles, Pins, Tapes, Bobbins, &c. &c., the stock is varied and complete.
Purchasers of Dry Goods are respectfully requested to examine this stock, as the subscriber's only object in offering it is to finally wind up the concern. m24 **CHARLES H. MENDUM.**

And, in fact, all the concomitants of a Nervous and debilitated state of the system.

To females, peculiar, see the end.

ASK FOR HELMBOLD'S. TAKE NO OTHER.
CURES GUARANTEED.

See advertisement in another column. my30

One of Hunnewell's Preparations.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—To make a Cough Remedy thorough for all Throat and Lung Complaints, and to rid the mind of Climatic causes, when the great error has been the introducing of components which debilitate, and by such to restrain the greatest freedom of use, and the only true theory by which such complaints can be effectually cure, was the point made in this valuable preparation. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION, and to prove the declarations by true results.

J. L. HUNNEWELL, PROPRIETOR,
Commercial Wharf, Boston.

For Sale by all Wholesale and Retail Dealers. WEEKS & POTTER, G. C. GOODWIN & CO., REED, CUTLER & CO., M. S. BURR & CO., CARTER, RICE & CO., J. WILSON & CO., S. M. COLCORD & CO., Wholesale Agents, Boston, Mass. f

THE CONFESSIONS AND EXPERIENCE OF AN INVALID.

Published for the benefit, and as a warning and caution to YOUNG MEN, who suffer from Nervous Debility, Premature Decay of Manhood, etc., supplying at the same time THE MEANS OF SELF CURE.

By one who has cured himself after being put to great expense and injury through medical humbug and quackery.

By enclosing a post paid addressed envelope, single copies may be had of the author.

SPICE NATHANIEL MAYNARD, Esq., dawly may29 Bedford Kings County, N.Y.

THE NEW-HAMPSHIRE GAZETTE and Rockingham Weekly Chronicle, containing a summary of the news of the week, printed Thursday, and for sale at the Chronicle Counting Room. Price 3 cents. $1.25 per year, in advance.

DAILY CHRONICLE $5 per year, or $4 in adv. 40 cts. per month, 10 cts. per week, 2 cts. per copy.

JOB AND CARD PRINTING of all sorts is promptly done at the Chronicle Office.

Marriage, Visiting or Business Cards Printed or ENGRAVED in the best manner.

Wedding, plain, Initial, or Business ENVELOPES, on hand, furnished, or Printed to order—in any style.

All sorts of Cards, Papers, and other stock, furnished for Printing.

CARDS AND BILL HEADINGS are indispensable to the business man, and we would remind all in want of such work, that the Chronicle Office is the place to get it done.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

A Large Stock of

Spring and Summer DRESS GOODS for sale CHEAP at T. TREDICK'S.

Local.

☞ We are glad the talented, famous and everywhere popular, little "Helmut Opera Troupe," are to give our citizens another opportunity of hearing their splendid performances, on Wednesday evening next. All who care a snap for music or the drama, should improve it.

☞ The Hartford Post says that hereafter everybody in New Haven is going to bed at sundown. The dry goods dealers combined in an agreement to shut up shop at 8 o'clock in the evening, and now the butchers, and grocers, and so forth, are going at it. The populace will retire at 8 o'clock, but the watchmen will sit up until 9.

☞ A lady in the Memphis theatre, after listening to the singing of the "Star Spangled Banner," said the tune was good enough, but the words were a disgrace to a free people. She afterwards took the oath of allegiance.

☞ Within a few months past, some two thousand two hundred and twenty-five acknowledged enemies of the Government, by their own confession, have been removed from New Orleans.

☞ See you fair maiden in another column, picking Scambuci Grapes for Spear's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

DEATHS.

In Philadelphia, on Tuesday, June 2d, LOUISA C. RUNDLET, youngest daughter of the late John S. Rundlet of St. Louis, formerly of this city.

E. A. STEVENS,

NO. 46 MARKET STREET.

EVERY KIND OF

KITCHEN FURNISHING GOODS.

SCHOOLEY'S NEW IMPROVED

ICEBERG REFRIGERATORS.

This upright REFRIGERATOR combines every improvement. It is the most perfect article of the kind in the market, requiring less ice than any other, and keeping its contents sweet and free from any unpleasant odors.

Daniel T. Curtis, Fruit dealer, Boston, says of it, "I have preserved grapes and pears, peaches, and an extensive variety of plums and berries for five or six weeks in Schooley's Refrigerator."

Oren Peck, Boylston Market, Boston, says, "I find, on careful trial, that it will keep meats perfectly fresh and dry for ten or twelve days."

John Hunt, Butter dealer, Cincinnati, says, "I can keep butter sweet and fresh any length of time in removes, say six weeks."

C. E. Carpenter, Ice Dealer, Providence, says, "I have kept a cup of custard in one of Schooley's Refrigerators during the warm weather *one week*, when it was sound and found it perfectly good."

Thousands of similar testimonials can be shown in its favor.

SCHOOLEY'S ICE KING REFRIGERATOR. (Patented Jan. 6, 1863.) We present the ICE KING to our customers as the "*ne plus ultra*" of cheap Refrigerators, combining in its operation all of the great improvements necessary for complete ventilation. In the introduction of Patent Refrigerators to the public, the cost of construction has been necessarily so great as to prevent their sale to the "million." The consequence has been that those who could not afford to purchase a Patent ventilated Refrigerator, were compelled to pro ure one of the *old style*, or go without.

We are now happy to state that, by the introduction of our new patent ICE KING, we can offer *to the million* a complete ventilated Refrigerator, well made, lined throughout with zinc, *at cheaper* prices than ever before sold.

The various sizes of the above are for sale by the subscriber—also, ICE PITCHERS, ICE AWLS, &c.

CHILDREN'S CARRIAGES.

AMERICAN HOUSE, BOSTON,

Is the largest and best arranged Hotel in the New England States; is centrally located, and easy of access from all the routes of travel. It contains all the modern improvements, and every convenience for the comfort and accommodation of the travelling public. The sleeping rooms are large and well ventilated; the suites of rooms are well arranged, and completely furnished for families and large travelling parties, and the house will continue to be kept as a first class hotel in every respect. LEWIS RICE, Proprietor.

Boston, Jan. 1863. 1mtyr.

THE ALL SUFFICIENT THREE,

The Great "American Remedies,"

Known as "Helmbold's"

Genuine Preparations, Viz.:

HELMBOLD'S EXTRACT "BUCHU,"
" " SARSAPARILLA,
" " IMPROVED ROSE WASH.

HELMBOLD'S

GENUINE PREPARATION,

"HIGHLY CONCENTRATED"

COMPOUND

FLUID EXTRACT BUCHU,

A Positive and Specific Remedy

For Diseases of the

BLADDER, KIDNEYS, GRAVEL, AND DROPSICAL SWELLINGS.

This Medicine increases the power of Digestion, and excites the Assimilative Faculty to healthy action, by which the Watery or Calcerous depositions, and all Unnatural Enlargements are reduced, as well as pain and inflammation, and is good for *Men, Women, or Children.*

HELMBOLD'S EXTRACT BUCHU

FOR WEAKNESSES

Arising from Excesses, Habits of Dissipation, Early Indiscretion, or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS:

Indisposition to Exertion,	Loss of Power,
Loss of Memory	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Universal Lassitude of the Muscular System,	Flushing of the Body,
Hot Hands,	Eruptions on the Face,
	Pallid Countenance,
	Dryness of the Skin.

These symptoms, if allowed to go on, which like medicine invariably produces, soon follow IMPOTENCY, PATUITY, EPILEPTIC FITS, in one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION,

Many are aware of the cause of their suffering, but none will confess. The records of the Insane Asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which *HELMBOLD'S EXTRACT BUCHU* invariably does. A trial will convince the most skeptical.

Females, Females, Females,

OLD OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE,

In many affections peculiar to Females the Extract Buchu is unequalled by any other remedy, as in Chloris or Retention, Irregularity, Painfulness, or Suppression of the Customary Evacuations, Ulcerated or Schirrous state of the Uterus, Leucorrhea, or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation, or in the

DECLINE OR CHANGE OF LIFE.

SEE SYMPTOMS ABOVE.

NO FAMILY SHOULD BE WITHOUT IT.

Take no Balsam, Mercury, or Unpleasant Medicine for unpleasant and dangerous diseases.

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In all their stages; at little expense; little or no change in diet; no inconvenience.

AND NO EXPOSURE.

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling *Poisonous, Diseased and Worn-out Matter.*

Thousands upon Thousands

WHO HAVE BEEN THE VICTIMS OF QUACKS,

and who have paid *heavy Fees* to be cured in a short time, have found they were deceived, and that the "Poison" has, by the use of "Powerful Astringents," been dried up in the system, to break out in an aggravated form, and

PERHAPS, AFTER MARRIAGE.

USE

HELMBOLD'S EXTRACT BUCHU

For all Affections and Diseases of

The Urinary Organs,

Whether existing in *MALE OR FEMALE*, from whatever cause originating, and no matter

OF HOW LONG STANDING.

Diseases of the organs require the aid of diuretics.

HELMBOLD'S EXTRACT BUCHU

IS THE GREAT DIURETIC,

And it is certain to have the desired effect in all diseases for which it is recommended.

BLOOD! BLOOD! BLOOD!

Helmbold's Highly Concentrated Compound

Fluid Extract Sarsaparilla,

SYPHILIS.

This is an affection of the Blood, and attacks the Sexual Organs, Lindings of the Nose, Ears, Throat, Windpipe, and other Mucus Surfaces, making its appearance in the form of Ulcers.—Helmbold's Extract Sarsaparilla purifies the Blood, and removes all Scaly Eruptions of the Skin, giving to the complexion a clear and healthy Color. It being prepared expressly for this class of complaints, its Blood-Purifying Properties are preserved to a greater extent than any other preparation of Sarsaparilla.

Helmbold's Rose Wash.

An excellent Lotion for Diseases of a Syphilitic Nature, and as an injection in Diseases of the Urinary Organs, arising from habits of dissipation, used in connection with Extracts Buchu and Sarsaparilla, in such diseases as recommended.

Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES OF CURES.

Morning Chronicle.

IN OUR BOAT.

Stars trembling o'er us and sunset before us,
Mountains in shadow and forests asleep,
Down the dim river we float on forever,
Speak not, ah breathe not—there's peace on the deep.

Come not, pale Sorrow, lies till to-morrow,
Rest softly falling on eyelids that weep;
While down the river we float on forever,
Speak not, ah breathe not—there's peace on the deep.

As the waves cover the depths we glide over,
So let the past in its forgetfulness sleep,
While down the river we float on forever,
Speak not, ah breathe not—there's peace on the deep.

Heaven shine above us, bless all that love us,
All whom we love in thy tenderness keep
While down the river we float on forever,
Speak not, ah breathe not—there's peace on the deep.

—MISS MULOCH.

THE LARGEST CITY IN THE WORLD.—A very erroneous idea is indulged in by many people in relation to the largest city in the world — many confidently asserting that London, or as it is frequently termed the Great Metropolis, is far superior both in size and number of inhabitants. But such is not the case. Jeddo, the capital of Japan, is without exception, the largest and most populous in the world. It contains the vast number of one million of dwellings and five millions of human souls. Many of the streets are nineteen Japan yards in length, which is equivalent to twenty-two English miles.

☞ The Herald states that one day this week, a married woman, in Newburyport, the mother of several children, left for parts unknown, with a married man, who also leaves a family to mourn his untimely departure. The husband of the truant wife, a returned volunteer, came home late at night to find that the little children were crying about the streets for their mother to give them some supper and put them to bed. Other persons in the same neighborhood have recently been afflicted with madness of the same kind.

☞ The Farmington, Me., Chronicle says that a serious accident occurred last week, a short distance below that village, by a runaway horse jumping into a wagon containing two ladies, which he came up with in his flight. One of the ladies was thrown out, breaking her wrist and badly bruising her head. The other kept her seat and recovering the reins which had fallen from the wagon, succeeded in stopping her horse while the runaway cleared himself and went on.

☞ The experiments that have been going on for some time past on the steamer San Jacinto between the American or Martin's vertical tubular boiler and the English or horizontal tubular, to test their qualities, have been concluded—the American boiler coming out far ahead in every respect in each experiment. The report of the experiment has gone to the Department, and will probably be made public in a few days.

☞ It is probable that a larger proportion of the free blacks of the North can read and write, than of the white population of the South. The Boston Journal says that on the payment of the State bounty to the colored regiment in that State, 408 out of 965 men, of the rank and file, signed their names in a good and clear hand.

☞ There died a few days ago in North Wales an old sailor named Williams, who was on board the Victory at Trafalgar, and helped to carry Nelson below after he had been mortally wounded. He was eighty-six years old, and had been in the battle of the Nile and in other engagements.

☞ In Essex, Mass., on Monday last, a lad jumped from a team to which a frightened horse was attached, and, striking on a peaked fence, was severely wounded in the thigh—the peaks entering the flesh to the bone.

☞ The Church Institution Circular (England) states that, under legal advice, some person is about to contest the right of the clergy to a fee for the solemnization of marriage.

Wheat, Rye, Corn.

GOLDEN SHEAF WHISKEY.

The subscriber, having been engaged for the last twenty years in the importation and sale of Wines and Spirits, now finds from this experience that real

Pure Bourbon Whiskey,

when made as it ought to be from WHEAT, RYE AND CORN, is, without doubt, the most healthful and medical spirit that can be used. Having determined to make the sale of this article a speciality in his business, he has accepted the

General Selling Agency for a large Distillery in Bourbon County, Kentucky,

and in future will sell, under the brand of

"Golden Sheaf,"

PURE BOURBON WHISKEY manufactured from the BEST SELECTED GRAINS, and made in the most careful manner.

The celebrated Whiskey will be put up in cases containing one dozen bottles each, and offered to the Trade by his Travelling agents throughout the country, and also kept on hand in his warehouse in Boston, in bottles, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY, at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or to send their orders for any quantity required to the Distillery Depot for its sale,

91 Washington St. Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

C. A. RICHARDS, General Agent.

Boston, May 19, 1862. 6mos eod

Livery Stable Notice.

JOSEPH WRIDDEN, 2d, having bought the Livery Stock of Mr. WOODBURY LOCKE, and taken the Stable recently occupied by him, on Fleet Street, near FRANKLIN HOUSE, would respectfully solicit a share of patronage from his friends and the riding public generally. Good teams at fair prices.

Thankful for past favors, he hopes for a continuance of the same. may23

FERGUSON & CO'S LIVERY STABLE,

REAR NO. 22 CONGRESS ST.

☞ **ATTENTION, THE WHOLE!** ☜

EYE, N.H., Feb. 25, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to no more effect than relief, while the use of Sweppe's Syrup, &c., &c., but the obtained no relief until I procured some ten or twelve bottles of Dr. SWEPP'S PANACEA, and two bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the most obstinate of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many instances cured by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with distress at my stomach, and could not eat, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until a certain friend of mine took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I feel good health. M. LOWD.

From ELDER I CHESLEY, *Lee*, May 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with a serious humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has gained her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease where nature is not exhausted.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, Portsmouth, N. H., promptly attended to. may26eo

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Assist. of U. S. Patent Office, Washington, (under the Act of 1836.)

75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research is made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the Claims any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through R. Inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

He has, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render it the interest, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here cared inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such a remarkable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be secured having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of broiling meats are prevented from escaping into the room—the iron heater is supplied with a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelfuls of the sacred coal are dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

MAGEE COOK.

Also on hand an assortment of the different sizes

—of the—

MAGEE PARLOR STOVE,

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The ideas aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Teeth on Vulcanized Rubber,

SOME OF ITS ADVANTAGES.

1st. It is stronger and lighter than any known material.

2d. From two to six times the amount of suction or adhesion can be obtained by the use of Rubber. When the arch is regular we can by building out the depressions—which can be done to any extent—give the mouth a more natural appearance.

4th. No bad taste arises in the mouth by its use, as the secretions of the stomach and mouth do not affect it in the least.

5th. Teeth mounted upon this base can be kept clean and sweet as easy as a saucer, as when finished the work presents one whole piece of gum. While in all ways it is better, save in a few peculiar cases, it is much cheaper than Gold.

DR. A. P. STEVENS, *Surgeon Dentist,*

No. 5 Daniel St. Portsmouth,

Has had four years of practical experience in making this material, and will guarantee satisfaction in all cases entrusted to his care.

Portsmouth, Jan. 1, 1863.

DR. GOODALL,

DENTIST,

60 Congress St.
PORTSMOUTH.

Residence 12 Court St.

DENTISTRY.

No. 60 CONGRESS STREET,
Portsmouth, Jan. 1st, 1863.

DR. GOODALL

Would respectfully inform his patrons and the public, having had of late many calls to insert teeth upon VULCANIZED RUBBER, that he has purchased the best VULCANIZER in the market, and is now prepared to do all work upon RUBBER, or the other bases of GOLD and SILVER as formerly, if preferred.

The Rubber has several important advantages, viz., It is very light and elastic, and consequently is perfectly easy to the muscles of the mouth and cheeks. There are no interstices or open joints to collect food, &c.; consequently they can be worn night and day, and are very easily kept neat and clean.

Beside all this, the most accurate fit is obtained, as the Rubber is Vulcanized directly upon the plaster model, and the suction is of course much stronger than in plates of Gold or Silver.

Any one who is waiting for their permanent teeth will, I am confident, be perfectly satisfied with the Rubber, as a base. The expense is but a little more than for Silver, and you get the same teeth (in blocks) that you would pay $60.00 for an upper or lower set on Gold.

In New York and Boston, and throughout the West, Vulcanized Rubber is used almost to the exclusion of the other bases, and by the best Dentists too "I will warrant a perfect fit and teeth from the best manufacturer in the country, S. S. White.

ALL OTHER OPERATIONS IN DENTISTRY I will do at the usual rates. I will here mention that my price for EXTRACTION is 25 cents.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with little or no fee, if they do not succeed in fitting their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention. All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

SPEER'S SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT.

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in Europe and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

Daily Morning Chronicle

VOL. 22. PORTSMOUTH, N. H. MONDAY JUNE 9, 1863. NO. 95.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth; do good; be just and fair with all:
Exalt the right, though every man fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

WONDERS OF THE ATMOSPHERE.—The atmosphere rises above us with its cathedral dome arching toward heaven, of which it is the most perfect synonym and symbol. It floats around us like that grand object which the Apostle John saw in his vision, "a sea of glass like unto a crystal." So massive is it, that when it begins to stir, it tosses about great ships like playthings, and sweeps city and forest like snow-flakes to destruction before it.

And yet it is so mobile that we have lived for years in it before we can be persuaded that it exists at all, and the great bulk of mankind never realize the truth that they are bathed in an ocean of air. Its weight is so enormous that iron shivers before it like glass, yet a soap ball sails through it with impunity, and the tiniest insect waves it aside with its wing. It ministers lavishly to all our senses. We touch it not, but it touches us. Its warm south wind brings back color to the pale face of the invalid; its cool west winds refresh the fevered brow and make the blood mantle to our cheeks; even the north blasts brace into new vigor the hardened children of our rugged climate.

The eye is indebted to it for all the magnificence of sunrise, the brightness of midday, the chastened radiance of the morning, and the clouds that cradle near the setting sun. But for it the rainbow would want its "triumphal arch," the winds would not send the fleecy messengers on errands around the heavens; the cold ether would not send snow feathers on the earth, nor would drops of dew gather on the flowers. The kindly rain would never fall, nor the hailstorm nor fog diversify the face of the sky; our naked globe would turn its tanned and unshadowed forehead to the sun, and one dreary, monotonous blaze of light and heat dazzle and burn up all things.

Were there no atmosphere, the evening sun would in a moment set, and without warning, plunge the earth into darkness.—But the air keeps in her hand a shield of her rays, and lets them slip but slowly thro' her fingers, so that the shadows of evening are gathered by degrees, and the flowers have time to bow their heads, and each creature space to find a place of rest and to nestle to repose. In the morning the garish sun would at one bound burst from the bosom of the night, and blaze above the horizon; but the air watches for his coming, and sends first but one little ray to announce his approach, and then another, and then a handful; and so gently draws aside the curtain of night, and slowly lets the light fall on the face of the sleeping earth, and like man she goes forth again to labor until evening.

HERE'S HEALTH FOR THE MILLION!

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JUNE 9, 1863.

THE REBELLION.

Special dispatches state that the 2d division of the 6th army corps crossed the Rappahannock at Deep Run on Friday noon, the object being to ascertain the motives and positions of the enemy. The rebel sharpshooters made some opposition to the laying of the pontoon bridges, but they were finally driven from their rifle-pits, with slight loss. Our loss was 5 killed and 25 wounded. Our troops advanced cautiously as far as Bowling Green road. The enemy appeared to have been greatly surprised at the movement, and it is stated that it has been ascertained to a certainty what has become of the enemy, and what his purposes are.

The Times' army dispatch states that it is fully ascertained that nearly all the rebel forces are in the vicinity of Fredericksburg and that Lee has not yet really begun any offensive movement, although his intention to do so is pretty evident.

It is reported that the Federals have evacuated Suffolk and are throwing up heavy fortifications 8 miles from Norfolk, and that the greater part of Gen. Peck's forces have been sent to Gen. Hooker.

We have Vicksburg advices to Wednesday. The fire on Monday night was occasioned by our shells; one whole side of a square was destroyed. It was intended to open on the enemy with the siege guns along the whole line on the 3d. The dispatch from Pemberton to Johnston, captured on Thursday, reads:—"Our forage is all gone. The men are on quarter rations.—The ammunition is nearly exhausted. We can hold out ten days."

Gen. Osterhaus is on the west side of the Black River bridge with his division, watching Joe Johnston, who is said to be illy prepared to relieve Pemberton.

The N. Y. Times has a letter from Lexington, Ky., 5th, which reports the departure of the entire 9th army corps to reinforce Gen. Grant. Other troops are going to his assistance. A dispatch dated Walnut Mills, June 2, says Gen. Blair's expedition returned without the loss of a man, having scoured 56 miles of country from the Big Black river to the Yazoo, 11 miles below Yazoo city, and destroyed several bridges, grist mills, cotton gins (used to grind corn), and a large quantity of cotton marked "C. S. A."

A dispatch from Murfreesboro', Tenn., June 7, says that Col. Wilder, of the mounted infantry, had returned from another highly successful expedition to Liberty.—He broke up a band of guerillas, taking all their horses and 62 prisoners. Deserters represent that the Mississippi troops in Bragg's army are in a state of mutiny.—The 41st regiment has been under a heavy guard for several days.

We are glad the talented, famous and everywhere popular, little "Holman Opera Troupe," are to give our citizens another opportunity of hearing their splendid performances, on Wednesday evening next. All who care a snap for music or the drama, should improve it.

The British gunboat Snake, at Plymouth, England, 20th, reports Federal corvette Mohican and gunboat Kearsarge at Azores, on the lookout for the Alabama.—They at first mistook the Snake for the Alabama, and prepared accordingly.

A portrait of the rebel President has just been published in Paris, with this inscription: "Mr. J. Davids, President of South America."

It is a singular fact that some ladies who know how to preserve everything else, cannot preserve their tempers. Yet it may easily be done on the self-sealing principal. It is only to "keep the mouth of the vessel tightly closed."

The Maine Democratic State Committe have decided to postpone the State Convention until Thursday, the sixth day of August next.

Altered bills of the denomination of Fives, on the Mercantile bank, Bangor, have been put in circulation in Portland. They can be readily distinguished from the genuine.

Nine of the eleven cotton mills in Fall River, Mass., are idle, and the linen mill has discontinued operations for the present.

In England the Confederate loan fluctuated greatly on the receipt of news of Stonewall Jackson's death.

A deep religious revival interest pervades Newburyport.

Gold fell to 142 1-2 in New York on Monday.

LOCAL ITEMS.

Mr. J. E. Townsend, of this city, is building for Mr. Straw, of Manchester, a steam yacht (propeller) thirty-five feet long, seven feet wide and three and a half feet deep; its engine is to be 15-horse power.

It is probable that the U. S. steamers Nipsic and Shawmut will be launched at the Portsmouth Navy Yard on Monday next.

MURDER OF THREE CAPTAINS OF THE BETSEY WILLIAMS.—In the U. S. Circuit Court, at New York, on Thursday last, the trial of John M. Griffin, indicted for the murder, by poisoning, of Capt. Israel Bunce, was commenced. A brief synopsis of the opening argument of Assistant District Attorney Andrews may be interesting, as it gives a complete history of the case.

Mr. Andrews stated that the bark Betsey Williams, 400 tons, left New York July 16, 1862, on a voyage to Havana, with an assorted cargo. Capt. Coffee was then her mast; the first mate's name was Burke, and the prisoner Griffin was second mate. At Havana Burke was dismissed and the defendant promoted to his place. Capt. Coffee took sick after the discharge of the cargo, and went on shore and died. Capt. Wood, from another vessel then in that harbor, was appointed to the Betsey Williams; but while lying in the harbor Capt. Wood also became suddenly ill; he was taken on shore at Remedios and died there. The defendant Griffin went on shore and applied to the American Consul to be appointed captain, but he did not succeed, and Capt. Israel Bunce was appointed to the command of the bark. It is for the murder of this third captain that the prisoner is now on trial. Three days after Capt. Bunce took command of the vessel, while lying in the bay, he was taken sick, went on shore, and also died, and was buried in the cemetery at Remedios. In consequence of rumors, the American Consul directed the body to be exhumed, and a post mortem examination to be made. This was done, and the contents of the stomach were sealed up in a jar and transmitted to Boston, where they were analyzed by Dr. C. T. Jackson. The prisoner, as counsel stated, was often heard to say that he ought to be the Captain, and that he would be Captain on the voyage home. There was on board a bottle of sulphate of copper, and the prisoner, Griffin, was seen to rub some of that on the inside of tumblers out of which Capt. Bunce was in the habit of drinking. He was also seen to pour blue vitriol into tumblers, and when asked what he was doing that for, he said there was grease on them and he was trying to get it off.

The case will occupy the court several days.

The Gloucester Telegraph states that the seining of menhaden—sometimes called pogies, and at other times hardheads—and other small fish, for bait, has become quite a business. There are from a dozen to twenty small sized vessels from Gloucester engaged in that branch of the fisheries exclusively. The article commands a good price, and a fair remuneration is obtained for the labor expended. These fish when fat, contain large quantities of oil, and some of the vessels have large boilers on deck, by means of which the fat is extracted. One schooner has been fitted up expressly for the business of oil making. Steam works have been placed in the hold, and on deck is a machine for pressing out the oil. The fish are placed in a barrel fitted for the purpose, and steam is let into it till the fish are thoroughly cooked; they are then removed to the press which is also worked by steam, and every particle of oil is pressed out and runs into a tank underneath. They obtain from one to three or more gallons of oil from a barrel of fish, according to their fatness. The refuse of the fish, after it is pressed, is of some value for manure.

ABUSE OF HORSES.—The Concord Statesman says:—

With improvement in the breed of horses, and the increasing disposition of people to keep them, there is, it is hoped, less abuse of those noble animals; but instances of downright brutality occur, when fleet and handsome creatures are forced into the utmost celerity of movement, and beaten by men whom it would be gratifying to see visited with the strokes of a cat-o-nine-tails, and made to dance like culprits at a whipping post. It is an outrage upon humanity—the way some horses are treated. One of our livery stable keepers never permits a horse to go into the hands of an applicant who wears slippers, and around whose eyes is any evidence that "red-ferret" is in the process of formation.

A Washington dispatch says that the statement which recently appeared in the newspapers, charging the Mormons with assisting the Indians in a fight with the California Volunteers, is contradicted by a prominent Mormon, now there, who says he is cognizant of the facts. The article to which exception is taken was based upon respectable authority, including Col. Conner's official report.

A New Bedford soldier, in Douglas Hospital, Washington, writes under date 27th ult.: "Last Sunday the President visited this hospital. He went all over it, and shook hands with us all. He gave my hand a real hearty shake. He is very thin, and looks as if he would not live long. He said it made him feel bad to see us poor fellows suffering. He is a fine man."

The Newport News is trustworthily informed that the Right Rev. Bishop of the Diocese of Rhode Island will visit Washington in a few days, for the purpose of uniting in the bonds of matrimony Ex-Gov. Sprague, now U. S. Senator from Rhode Island, and Miss Kate Chase, eldest daughter of the Secretary of the Treasury.

A weekly paper called the New York Copperhead is published in New York city; it nominates Mr. Vallandigham for President, and professes to be Democratic.

NEW HAMPSHIRE ITEMS.

We are indebted to the Warden of the N. H. State Prison, for a copy of his Annual Report, from which we glean the following facts concerning that Institution: The true pecuniary gain to the State from the Prison during the past year, was $2,717.77, of which sum $1,942.88 is cash on hand. The number of convicts May 1, was 101. Burglary, breaking and stealing, and receiving stolen goods, appear to be the most frequent. Two convicts are serving out a life sentence, three for 30 years, one for 20 years, and the remainder for lesser terms. 45 are natives of New Hampshire. More than one third of the convicts were convicted in Hillsborough county. During the year there were four deaths by disease and one by suicide. One convict has escaped,—a man who was committed for 12 years for obtaining money under false pretences, and had but a little more than a year of his time to serve. The wall in the rear of the work shop, of which about 80 ft. fell on the 1st of April, was built with two tiers of stones set edgewise, filled in with stone chips. The whole line of wall on the west side is badly cracked and liable to fall, and the Warden recommends that the whole line be rebuilt,—about 330 feet.—The Warden, Mr. Foss, speaks highly of the prison discipline, &c., and under his management, the Institution seems to be in an excellent condition.

A party of women indulged in a free fight in one of the streets of Manchester on Friday, and one of them was thrown violently against a pile of wood and severely cut by a stick, which struck her in the head. Before night the same woman seized a stick from the wood pile and made a vigorous attack on an old lady quietly seated in a door-way, injuring her severely.

Col. Bowers, of the 13th N. H., has been compelled to send in his resignation, on account of continued lameness.

It is estimated that more than thirty acres of ground in Winchester had been prepared for the planting of tobacco the present season; and it is believed that in this respect, Winchester is not far ahead of adjoining towns.

Only 16 convicts have escaped from the N. H. State Prison since the commencement of the year 1812. The whole number committed has been 1224. 404 have been pardoned, and 78 have died.

The first annual convention of the N. H. Unitarian Association is to be held in Concord to-morrow—Wednesday.

There is said to be a Prussian in Chicago, of venerable and patriarchal aspect, wearing a beard forty-two inches in length, and reaching quite to his knees.—The same man, when in the Prussian army, wore a moustache that he could wrap round his head and bring to his mouth again.

The London Quarterly remarks on the great use made of bigamy as an incident of the sensation novels of the day. Of the twenty-four novels placed at the head of its article for review, it says, no less than eight are "bigamy stories." Is there so much romance, then, in the passion of men and women for more connubial bliss than the law allows!

A great meeting has been held in Sheffield, England, in favor of recognizing the South. The mayor presided, and there were 10,000 persons present. A resolution was agreed to, memoralizing the Government.

At a plowing match, some laborers were standing behind a party of ladies whose bonnets and crinoline hindered them from seeing what was going forward. One of them complained that he could not see the steam plow. "Of course not," retorted one of his companions, and added significantly, "Who can see through a woman?"

It is a noticeable fact that is very creditable to the famous singer Jenny Lind, that having retired from public life, she never emerges except to sing for charitable purposes.

Miss Faithful, of the Victoria Printing Press, has adopted an emblem, a lion alert, with the motto, "*Fidelis et Firmus*." A waggish journalist suggests that this means "Faithful & Co."

The Lewiston Journal says the young lady from Bath, Me, who eloped with a member of a negro company, has gone to work in one of the mills in that city.

It is announced that the U. S. Medical Department is now prepared to furnish, free of charge, artificial arms to such soldiers as have lost their natural ones in battle.

A sister of the late Stonewall Jackson, living in Webster, Va., is represented as being a good Unionist and as saying she preferred her brother dead than to have him a leader in the rebel army.

Philadelphia is going to celebrate the 4th of July immensely. President Lincoln has promised to be there, and the Loyal Leagues are going to have processions, speeches, arches, dinners, toasts, and illuminations of the finest kind.

A flock of forty sheep were sheared in a very workmanlike manner by some thieves one night recently, in Waldo, Me., and the fleeces carried off.

Claims for Board of 9 Months Men.
